

locomotive braking systems operate differently than more traditional style MU equipment. The LIRR letter of request indicates that the braking system on this equipment utilizes axle mounted disk brakes which provide 80% of friction braking effort, tread brakes which provide 20% of friction braking effort, and additional dynamic braking effort to a speed of 3 mph. If the waiver is granted, LIRR would treat any failure of dynamic braking system on the EMU equipment as if it were a traditional locomotive with defective dynamic brakes [49 CFR 238.303(e)(15)(ii)].

Interested parties are invited to participate in these proceedings by submitting written views, data, or comments. FRA does not anticipate scheduling a public hearing in connection with these proceedings since the facts do not appear to warrant a hearing. If any interested party desires an opportunity for oral comment, they should notify FRA, in writing, before the end of the comment period and specify the basis for their request.

Federal Railroad Administration

Petition for Waiver of Compliance

In accordance with part 211 of Title 49 Code of Federal Regulations (CFR), notice is hereby given that the Federal Railroad Administration (FRA) received a request for a waiver of compliance with certain requirements of its safety standards. The individual petition is described below, including the party seeking relief, the regulatory provisions involved, the nature of the relief being requested, and the petitioner's arguments in favor of relief.

The Yreka Western Railroad Company

[Docket Number FRA-2003-15637]

The Yreka Western Railroad Company (YW) seeks a waiver of compliance from certain provisions of the Safety Glazing Standards, 49 CFR part 223, that require certified glazing for one locomotive. The YW is located in Yreka, California. The YW states that they operate over seven miles of track in extreme northern California. These seven miles of track have no exposure to any main highway and there is no record of vandalism or rock throwing. Furthermore, it hauls only wood chips and wood products and about eight to ten cars per trip.

Interested parties are invited to participate in these proceedings by submitting written views, data, or comments. FRA does not anticipate scheduling a public hearing in connection with these proceedings since the facts do not appear to warrant a hearing. If any interested party desires an opportunity for oral comment, they should notify FRA, in writing, before the end of the comment period and specify the basis for their request.

Federal Railroad Administration

[Docket Number FRA-2003-15145]

Notice of Public Hearing; Burlington Northern and Santa Fe Railway

The Burlington Northern and Santa Fe Railway has petitioned the Federal Railroad Administration (FRA) seeking approval of the proposed discontinuance and removal of the automatic block signal system, between Hettinger, North Dakota, milepost 926.0 and Terry, Montana, milepost 1078.9, on the Montana Division, Hettinger Subdivision, a distance of approximately 153 miles, and govern train movements by Track Warrant Control.

This block signal application proceeding is identified as Docket No. FRA-2003-15145.

The FRA has issued a public notice seeking comments of interested parties and has conducted its own field investigation in this matter. After examining the carrier's proposal and letters of protest, FRA has determined that a public hearing is necessary before a final decision is made on this proposal.

Accordingly, a public hearing is hereby set for 9 a.m. Mountain Daylight Time, on Thursday, September 18, 2003, in the Hettinger Research Extension Center, located at 102 Highway 12 West,
