Title: Broadband Grant Program.

OMB Control Number: 0572-0127.

Type of Request: Extension of a currently approved information collection.

Abstract: The provision of broadband transmission service is vital to the economic development, education, health, and safety of rural Americans. economic growth and delivers enhanced educational, health care, and public safety services to extremely rural, lower income communities. RUS gives priority to rural areas that it believes have the greatest need for broadband transmission services. Grant authority is utilized to deploy broadband infrastructure to extremely rural, lower income communities on a "community-oriented connectivity" basis. The "community-oriented connectivity" concept integrates the deployment of broadband infrastructure with the practical, everyday uses and applications of the facilities. This broadband access is intended to promote economic development and provide enhanced educational and health care opportunities. RUS provides financial assistance to eligible entities that are proposing to deploy broadband transmission service in rural communities where such service does not currently exist and who will connect the critical community facilities including the local schools, libraries, hospitals, police, fire and rescue services and who will operate a community center that provides free and open access to residents.
