Copies of such filing will also be available for inspection and copying at the principal office of the Phlx. All submissions should refer to File No. SR-Phlx-2003-77 and should be submitted by December 29, 2003.

IV. Commission's Findings and Order Granting Accelerated Approval of Proposed Rule Change

The Commission finds that the proposed rule change is consistent with the requirements of the Act and the rules and regulations thereunder applicable to a national securities exchange.²⁰ In particular, the Commission finds that the proposed rule change is consistent with Section 6(b)(5) of the Act, which requires that the rules of an exchange be designed to promote just and equitable principles of trade, remove impediments to and perfect the mechanism of a free and open market and a national securities system, and protect investors and the public interest.²¹

The Commission believes that the extension of the Pilot should assist specialists in maintaining fair and orderly markets during periods of peak market activity. In that regard, the Commission notes that in response to Commission staff concerns the Exchange modified its system to provide that if the disseminated size exceeds the specified disengagement size and an eligible order is delivered for a number of contracts that is greater than the specified disengagement size, such an order will be automatically executed up to the disseminated size. The Commission believes that an extension of the Pilot program for a one-year period should allow the Exchange to continue its efforts to deploy more fully automate its systems.

Accordingly, the Commission finds good cause, pursuant to Section 19(b)(2) of the Act,²² for approving the proposed rule change prior to the thirtieth day after the date of publication of notice thereof in the **Federal Register**. The

Commission recognizes that, according to the Phlx, no complaints from customers, floor traders, or member firms have been received during the entire period of the Pilot program.²³ The Commission believes that granting accelerated approval to extend the Pilot program for one additional year will allow Phlx to continue, without interruption, the existing operation of its AUTO-X system.

V. Conclusion

It is therefore ordered, pursuant to Section 19(b)(2) of the Act,²⁴ that the proposed rule change (SR-Phlx-2003-77) is hereby approved on an accelerated basis, as a one-year Pilot, scheduled to expire on November 30, 2004.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.²⁵

Margaret H. McFarland,

Deputy Secretary.
