The CBP shall continue to require a cash deposit or the posting of a bond based on the estimated dumping margins shown below. The suspension of liquidation instructions will remain in effect until further notice.

International Trade Commission Notification

In accordance with section 735(d) of the Act, we have notified the International Trade Commission (ITC) of our determination. The ITC will determine, within 45 days, whether imports of subject merchandise from Korea are causing material injury, or threaten material injury, to an industry in the United States. If the ITC determines that material injury or threat of injury does not exist, this proceeding will be terminated and all securities posted will be refunded or canceled. If the ITC determines that such injury does exist, the Department will issue an antidumping duty order directing CBP officials to assess antidumping duties on all imports of the subject merchandise entered, or withdrawn from warehouse for consumption on or after the effective date of the suspension of liquidation.

This notice also serves as a reminder to parties subject to APO of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 351.305. Timely notification of return/destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations

and the terms of an APO is a sanctionable violation.

SUPPLEMENTARY INFORMATION:

Case History

The preliminary determination in this investigation was published on July 17, 2003. See *Notice of Preliminary Determination of Sales at Less Than Fair Value: Prestressed Concrete Steel Wire Strand from Brazil*, 68 FR 42386 (July 17, 2003) (*Preliminary Determination*). Since the publication of the *Preliminary Determination*, the following events have occurred:

On August 6, 2003, Belgo Bekaert Arames S.A. (BBA), the sole Brazilian producer and mandatory respondent, requested that the Department of Commerce (the Department) postpone its final determination and fully extend the provisional measures by 60 days. On August 18, 2003, the Department published in the **Federal Register** the postponement of the final determination for PC strand from Brazil. See *Notice of*

Postponement of Final Antidumping Duty Determinations and Extension of Provisional Measures: Prestressed Concrete Steel Wire Strand From Brazil, India, and the Republic of Korea, 68 FR 49436 (August 18, 2003).

Scope of Investigation

For purposes of this investigation, PC strand is steel strand produced from wire of non-stainless, non-galvanized steel, which is suitable for use in prestressed concrete (both pretensioned and post-tensioned) applications. The product definition encompasses covered and uncovered strand and all types, grades, and diameters of PC strand.

The merchandise under investigation is currently classifiable under subheadings 7312.10.3010 and 7312.10.3012 of the Harmonized Tariff Schedule of the United States (HTSUS). Although the HTSUS subheadings are provided for convenience and customs purposes, the written description of the merchandise under investigation is dispositive.

Period of Investigation

The period of investigation is January 1, 2002, through December 31, 2002.

Facts Available

In the preliminary determination, we based the dumping margin for the mandatory respondent, BBA, on adverse facts available pursuant to sections 776(a) and 776(b) of the Act. The use of adverse facts available was warranted in this investigation because BBA failed to respond to any part of the antidumping duty questionnaire issued to it by the Department. See *Preliminary Determination*, 68 FR at 42386. The failure of the respondent to supply the requested information significantly impedes this proceeding because the Department cannot accurately determine a margin for this party. Furthermore, the respondent did not give an explanation for its failure to supply such information, nor propose alternatives. Therefore, we found that BBA, failed to cooperate by not acting to the best of its ability. We assigned BBA the highest margin stated in the notice of initiation. See *Notice of Initiation of Antidumping Duty Investigations: Prestressed Concrete Steel Wire Strand From Brazil, India, the Republic of Korea, Mexico, and Thailand*, 68 FR 9050 (February 27, 2003). We corroborated this margin in the preliminary determination and we continue to find this margin corroborated, pursuant to section 776(c) of the Act. See Memorandum regarding Corroboration of Data Contained in the Petition for Assigning Facts Available

Rates, dated July 10, 2003. A complete explanation of both the selection and application of facts available can be found in the *Preliminary Determination*. See *Preliminary Determination*, 68 FR at 42387–88. Nothing has changed since the preliminary determination was issued that would affect the Department's selection and application of facts available.

No interested parties have commented since the publication of the preliminary determination on the use of adverse facts available in this investigation, or on the choice of the facts available margin. Accordingly, for the final determination, we are continuing to use the highest margin stated in the notice of initiation for BBA. The "All Others" rate remains unchanged as well.

The CBP shall continue to require a cash deposit or the posting of a bond based on the estimated dumping margins shown below. The suspension of liquidation instructions will remain in effect until further notice.

Manufacturer/exporter	Margin (percent)
Belgo Bekaert Arames S.A.	118.75
All Others.	118.75

Certain Stainless Steel Sheet and Strip in Coils From Taiwan: Extension of Final Results of Antidumping Duty Administrative Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

ACTION: Notice of extension of time limit for final results of antidumping duty administrative review.

SUMMARY: The Department of Commerce ("the Department") is extending the time limit for the final results of the review of stainless steel sheet and strip in coils ("SSSS") from Taiwan. This review covers the period July 1, 2001 through June 30, 2002.

EFFECTIVE DATE: December 8, 2003.

FOR FURTHER INFORMATION CONTACT: Laurel LaCivita, Enforcement Group III—Office 9, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue NW., Washington, DC 20230; telephone (202) 482–4243.

Background

On August 27, 2002, the Department published a notice of initiation of a

review of SSSS from Taiwan covering the period July 1, 2001 through June 30, 2002. See *Initiation of Antidumping and Countervailing Duty Administrative Reviews and Requests for Revocation in Part*, 67 FR 55000 (August 27, 2002). On August 6, 2003, the Department published the preliminary results of the review. See *Stainless Steel Sheet and Strip in Coils From Taiwan: Preliminary Results and Partial Rescission of Antidumping Duty Administrative Review*, 68 FR 46582 (August 6, 2003), ("Preliminary Results"). In the *Preliminary Results*, the Department stated that it would make its final determination for the antidumping duty administrative review no later than 120 days after the date of publication of the *Preliminary Results*, or not later than December 4, 2003.

Extension of Time Limit for Preliminary Results

Section 751(a)(3)(A) of the Act states that if it is not practicable to complete the review within the time specified, the administering authority may extend the 120-day period, following the date of publication of the preliminary results, to issue its final results by an additional 60 days. Completion of the final results within the 120-day period is not practicable for the following reasons: (1) This review requires the Department to analyze YUSCO's complex affiliation and corporate relationships; (2) This review involves certain complex issues which were raised by petitioners after the verification and after the preliminary results of review; and (3) The review involves a large number of transactions and complex adjustments.

Therefore, in accordance with section 751(a)(3)(A) of the Act, the Department is extending the time period for issuing the final results of review by 43 days until January 16, 2004.

This notice is published in accordance with section 751(a)(3)(A) and 777(i) of the Act.

Dated: December 2, 2003.

Barbara E. Tillman,

Acting Deputy Assistant Secretary for Import Administration, Group III.
