

Our practice is to make comments, including names and addresses of respondents, available for public review during regular business hours. Individual respondents may request that we withhold their home address from the rulemaking record, which we will honor to the extent allowable by law. If you wish us to withhold your name and/or address, you must state this prominently at the beginning of your comment. However, we will not consider anonymous comments. We will make all submissions from organizations or businesses, and from individuals identifying themselves as representatives or officials or organizations or businesses, available for public inspection in their entirety.

District of Columbia, National Parks, Reporting and recordkeeping requirements.

In consideration of the foregoing, the National Park Service proposes to amend 36 CFR Part 7 as follows:

PART 7—SPECIAL REGULATIONS, AREAS OF THE NATIONAL PARK SYSTEM

1. The authority citation for Part 7 continues to read as follows:

Authority: 16 U.S.C. 1, 3, 9a, 460(q), 462(k); Sec. 7.96 also issued under D.C. Code 8-137(1981) and D.C. Code 40-721 (1981).

2. Section 7.70 is amended by adding paragraph (g) to read as follows:

§ 7.70 Glen Canyon National Recreation Area.

* * * * *

(g) *Personal watercraft* (1) Personal watercraft may operate, transit and launch in park water or beach on park land except in the areas and under the conditions described as follows:

(i) On the Colorado River between Glen Canyon Dam and the downstream river boundary of Glen Canyon NRA where it adjoins Grand Canyon National Park.

(ii) On the Colorado River upstream of Sheep Canyon.

(iii) On the San Juan River upstream of Clay Hills Pullout.

(iv) On the Escalante River upstream of Coyote Gulch.

(v) On the Dirty Devil River at the point where measurable downstream current is encountered.

(2) Personal Watercraft must travel at flat wake speed:

(i) On the Escalante River from Cow Canyon to Coyote Gulch.

(ii) On the Dirty Devil River upstream of the Utah Highway 95 bridge until measurable downstream current is encountered.

(3) The Superintendent may temporarily limit, restrict or terminate access to the areas designated for PWC use after taking into consideration public health and safety, natural and cultural resource protection, and other management activities and objectives.

Dated: January 10, 2003.

Craig Manson,

Assistant Secretary for Fish and Wildlife and Parks.

DEPARTMENT OF VETERANS AFFAIRS

38 CFR Part 3

RIN 2900-AK03, et al.

Withdrawal of Proposed Rules

AGENCY: Department of Veterans Affairs.

ACTION: Withdrawal of proposed rules.

SUMMARY: This document withdraws five proposed rules that would have amended the adjudication regulations. The proposals were previously published in the **Federal Register** by the Plain Language Regulations Project. The five proposals that are being withdrawn are: (1) State Department as Agent of Department of Veterans Affairs (RIN 2900-AK03) which was published in the **Federal Register** on August 22, 2001 (66 FR 44095); (2) Finality of Decisions (RIN 2900-AK18) which was published in the **Federal Register** on October 23, 2001 (66 FR 53565); (3) Renouncement of Benefits (RIN 2900-AK23) which was published in the **Federal Register** on September 24, 2001 (66 FR 48845); (4) Independent Medical Opinions (RIN 2900-AK31) which was published in the **Federal Register** on December 7, 2001 (66 FR 64174); and (5) Evidence from Foreign Countries (RIN 2900-AK37) which was published in the **Federal Register** on October 19, 2001 (66 FR 53139).

A new organization is being created in the Department of Veterans Affairs to manage the regulatory process, and one of its top priorities is the restructuring and rewriting of the adjudication regulations in plain language. Since it is not clear where and how the above noted proposals will fit into the restructured regulations, they are being withdrawn at this time. When the new organization for regulatory management is established, these proposed rules will likely be republished for notice and comment.

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[PA037/072/184-4190b; FRL-7421-2]

Approval and Promulgation of Air Quality Implementation Plans; Pennsylvania; Sulfur Dioxide Attainment Demonstration for the Warren County Nonattainment Area, and Permit Emission Limitations for Two Individual Sources in Warren County

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA proposes to approve a State Implementation Plan (SIP) revision submitted by the Commonwealth of Pennsylvania. This revision contains enforceable operating permit emission limitations for the Reliant Warren Generating Station and the United Refining Company, and an air quality modeling demonstration that indicates that the allowable emission limits will provide for the attainment of the National Ambient Air Quality Standards (NAAQS) for sulfur dioxide (SO₂) in the Conewango Township, Pleasant Township, Glade Township, and the City of Warren nonattainment area. The modeling demonstration assumes new SO₂ limits for the Reliant Warren Generating Station and the United Refining Company. In the Final Rules section of this **Federal Register**, EPA is approving the State's SIP submittal as a direct final rule without prior proposal because the Agency views this as a noncontroversial submittal and anticipates no adverse comments. A more detailed description of the state submittal and EPA's evaluation are included in a Technical Support Document (TSD) prepared in support of this rulemaking action. A copy of the TSD is available, upon request, from the EPA Regional Office listed in the **ADDRESSES** section of this document. If no adverse comments are received in response to this action, no further activity is contemplated. If EPA

receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. EPA will not institute a second comment period. Any parties interested in commenting on this action should do so at this time.

DATES: Comments must be received in writing by February 18, 2003.

ADDRESSES: Written comments should be addressed to Walter Wilkie, Acting Branch Chief, Air Quality Planning and Information Services Branch, 3AP21, U.S. Environmental Protection Agency, Region III, 1650 Arch Street, Philadelphia, Pennsylvania 19103. Copies of the documents relevant to this action are available for public inspection during normal business hours at the Air Protection Division, U.S. Environmental Protection Agency, Region III, 1650 Arch Street, Philadelphia, Pennsylvania 19103, and the Pennsylvania Department of Environmental Protection, Bureau of Air Quality Control, PO Box 8468, 400 Market Street, Harrisburg, Pennsylvania 17105.

FOR FURTHER INFORMATION CONTACT: Denis Lohman, (215) 814-2192, or Ellen Wentworth, (215) 814-2034, or by e-mail at lohman.denny@epa.gov or wentworth.ellen@epa.gov. Please note that while questions may be posed via telephone and e-mail, formal comments must be submitted in writing, as indicated in the **ADDRESSES** section of this document.

SUPPLEMENTARY INFORMATION: For further information, please see the information provided in the direct final action pertaining to the SO₂ attainment demonstration for the Warren County nonattainment areas, and permit emission limitations for two individual sources in Warren County, Pennsylvania, that is located in the "Rules and Regulations" section of this **Federal Register** publication. Please note that if EPA receives adverse comment on an amendment, paragraph, or section of this rule and if that provision may be severed from the remainder of the rule, EPA may adopt as final those provisions of the rule that are not the subject of an adverse comment.

BILLING CODE 6560-50-P

FEDERAL EMERGENCY MANAGEMENT AGENCY

44 CFR Part 67

[Docket No. FEMA-D-7552]

Proposed Flood Elevation Determinations

AGENCY: Federal Emergency Management Agency, FEMA.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are requested on the proposed base (1% annual chance) flood elevations and proposed base flood elevation modifications for the communities listed below. The base flood elevations are the basis for the floodplain management measures that the community is required either to adopt or to show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

DATES: The comment period is 90 days following the second publication of this proposed rule in a newspaper of local circulation in each community.

ADDRESSES: The proposed base flood elevations for each community are available for inspection at the office of the Chief Executive Officer of each community. The respective addresses are listed in the following table.

FOR FURTHER INFORMATION CONTACT: Michael M. Grimm, Acting Chief, Hazard Study Branch, Federal Insurance and Mitigation Administration, Federal Emergency Management Agency, 500 C Street, SW., Washington, DC 20472, (202) 646-2878, or (email) mike.grimm@fema.gov.

SUPPLEMENTARY INFORMATION: The Federal Emergency Management Agency (FEMA or Agency) proposes to make determinations of base flood elevations and modified base flood elevations for each community listed below, in accordance with section 110 of the Flood Disaster Protection Act of 1973, 42 U.S.C. 4104, and 44 CFR 67.4(a).

These proposed base flood and modified base flood elevations, together with the floodplain management criteria required by 44 CFR 60.3, are the minimum that are required. They should not be construed to mean that the community must change any existing ordinances that are more stringent in their floodplain management requirements. The community may at any time enact

stricter requirements of its own, or pursuant to policies established by other Federal, state or regional entities. These proposed elevations are used to meet the floodplain management requirements of the NFIP and are also used to calculate the appropriate flood insurance premium rates for new buildings built after these elevations are made final, and for the contents in these buildings.

National Environmental Policy Act. This proposed rule is categorically excluded from the requirements of 44 CFR part 10, Environmental Consideration. No environmental impact assessment has been prepared.

Regulatory Flexibility Act. The Administrator, Federal Insurance and Mitigation Administration, certifies that this proposed rule is exempt from the requirements of the Regulatory Flexibility Act because proposed or modified base flood elevations are required by the Flood Disaster Protection Act of 1973, 42 U.S.C. 4104, and are required to establish and maintain community eligibility in the NFIP. As a result, a regulatory flexibility analysis has not been prepared.

Regulatory Classification. This proposed rule is not a significant regulatory action under the criteria of section 3(f) of Executive Order 12866 of September 30, 1993, Regulatory Planning and Review, 58 FR 51735.

Executive Order 12612, Federalism. This proposed rule involves no policies that have federalism implications under Executive Order 12612, Federalism, dated October 26, 1987.

Executive Order 12778, Civil Justice Reform. This proposed rule meets the applicable standards of section 2(b)(2) of Executive Order 12778.
