

Governments, because it does not have a substantial direct effect on one or more Indian tribes, on the relationship between the Federal Government and Indian tribes, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes.

Energy Effects

We have analyzed this temporary rule under Executive Order 13211, Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use. We have determined that it is not a "significant energy action" under that order because it is not a "significant regulatory action" under Executive Order 12866 and is not likely to have a significant adverse effect on the supply, distribution, or use of energy. It has not been designated by the Administrator of the Office of Information and Regulatory Affairs as a significant energy action. Therefore, it does not require a Statement of Energy Effects under Executive Order 13211.

Environment

We have considered the environmental impact of this temporary rule and concluded that under figure 2-1, paragraph 34(g), of Commandant Instruction M16475.1D, this rule is categorically excluded from further environmental documentation. This rule fits paragraph 34(g) as it revises a Regulated Navigation Area. A "Categorical Exclusion Determination" is available in the docket where indicated under **ADDRESSES**. 165 as follows:

List of Subjects in 33 CFR Part 165

Harbors, Marine safety, Navigation (water), Reporting and recordkeeping requirements, Security measures, Waterways.

■ For the reasons discussed in the preamble, in Coast Guard amends 33 CFR part 165 as follows:

PART 165—REGULATED NAVIGATION AREAS AND LIMITED ACCESS AREAS

■ 1. The authority citation for part 165 continues to read as follows:

Authority: 33 U.S.C. 1231; 50 U.S.C. 191, 33 CFR 1.05-1(g), 6.04-1, 6.04-6, 160.5; Department of Homeland Security Delegation No. 0170.

■ 2. From March 30, 2003 to September 30, amend § 165.165 to add paragraph (d)(10) to read as follows:

§ 165.165 Regulated Navigation Area; Kill Van Kull Channel, Newark Bay Channel, South Elizabeth Channel, Elizabeth Channel, Port Newark Channel and New Jersey Pierhead Channel, New York and New Jersey.

* * * * *

(d) * * *

(10) *Bergen Point West Reach*. In addition to the requirements in paragraphs (d)(1) through (d)(9) of this section, the following provisions apply to vessels transiting in or through Work Areas (4) and (5):

(i) *Tug requirements*: All vessels 350 feet in length, or greater, excluding tugs with tows, require one assist tug. All vessels 700 feet in length, or greater, excluding tugs with tows, require two assist tugs. All vessels 900 feet in length, or greater, excluding tugs with tows, require three assist tugs.

(ii) *Tidal current restrictions*: Vessels 700 feet in length, or greater, are restricted to movements within one hour before or after slack water, as measured from the Bergen Point current station.

(iii) *Astern tows*: Hawser tows are not permitted unless an assist tug accompanies the tow.

(iv) *Sustained winds from 20 to 34 knots*. In sustained winds from 20 to 34 knots:

(A) cargo ships and tankers in ballast may not transit Work Areas (4) and (5);

(B) tugs pushing or towing alongside tank barges 350 feet in length, or greater, in light condition, require an assist tug in Work Areas (4) and (5).

(v) *Sustained winds greater than 34 knots*. In sustained winds greater than 34 knots, vessels 300 gross tons or greater and all tugs with tows are prohibited from transiting Work Areas (4) and (5).

Dated: March 28, 2003.

Vivien S. Crea,

Rear Admiral, U.S. Coast Guard, Commander, First Coast Guard District.

BILLING CODE 4910-15-P

LIBRARY OF CONGRESS

Copyright Office

37 CFR Part 201

[Docket No. 2002-5B]

Notice of Termination

AGENCY: Copyright Office, Library of Congress.

ACTION: Final regulation.

SUMMARY: The Copyright Office's interim rule governing the form,

content, and manner of service of notices of termination of transfers and licenses granted by authors on or after 1978 is being adopted as a final rule with one change. Beginning on January 1, 2003, copyright owners have been able to serve notices of termination on certain copyright transferees and licensees under an interim rule effective on that date. The Office is now adopting an additional amendment that was set forth in the proposed rule published in the **Federal Register** on December 20, 2002.

EFFECTIVE DATE: May 8, 2003.

FOR FURTHER INFORMATION CONTACT: David O. Carson, General Counsel, Copyright GC/I&R, PO Box 70400, Southwest Station, Washington, DC 20024. Telephone: (202)707-8380. Fax: (202)707-8366.

SUPPLEMENTARY INFORMATION: Section 203 of the Copyright Act, 17 U.S.C. 203, provides that under certain circumstances, authors may terminate grants of transfers or licenses of copyright entered into after January 1, 1978. Such terminations may be made during a five-year period commencing 35 years after the execution of the grant or, if the grant included the right of publication, the earlier of 35 years after publication pursuant to the grant or 40 years after the execution of the grant. January 1, 2003, was the first date on which a termination could be made pursuant to section 203. In order to have regulations in place by January 1, the Copyright Office published an interim rule on December 23, 2002. 67 FR 78176.

On December 20, 2002, the Copyright Office published a notice of proposed rulemaking governing termination of transfers and licenses pursuant to section 203 of the Copyright Act. Notice of Proposed Rulemaking, Notice of Termination, 67 FR 77951. The Office proposed to amend 37 CFR 201.10, the existing regulation governing notices of termination under section 304 of the Copyright Act, 17 U.S.C. 304, by adding provisions relating to terminations under section 203.

On December 23, 2002, the Office published an interim rule, effective January 1, 2003, which differs from the proposed rule in only one respect. The proposed rule amended § 201.10(b)(1)(i) of the Copyright Office regulations to require that a notice of termination pursuant to section 17 U.S.C. 304 must identify whether the termination is made under section 304(c) or section 304(d). Because this proposed amendment would change established practice with respect to terminations under section 304(c), and because the

Office did not believe it would be prudent to change the requirements for section 304 notices of termination on such short notice, that proposed amendment was not included in the interim rule. It is included in this final rule.

The comment period for the notice of proposed rulemaking has closed and the Office has received no comments. For that reason, and for the reasons outlined in the Notice of Proposed Rulemaking, the Office has decided to adopt, as a final rule, the December 23 Interim Rule, with the change proposed on December 20.

The entire text of § 201.10, as amended, may be found on the Copyright Office Web site at <http://www.copyright.gov/docs/203.html>.

List of Subjects in 37 CFR Part 201

Copyright.

Final Regulation

■ In consideration of the foregoing, the Copyright Office adopts the interim rule published on December 23, 2002 (67 FR 78176) as final, with the following change:

PART 201—GENERAL PROVISIONS

■ 1. The authority citation for part 201 continues to read as follows:

Authority: 17 U.S.C. 702.

■ 2. Section 201.10 is amended in paragraph (b)(1)(i), by removing “If the termination is made under section 304(d), a statement to that effect;” and adding, in its place, “Whether the termination is made under section 304(c) or under section 304(d);”.

Dated: March 25, 2003.

Marybeth Peters,

Register of Copyrights.

Approved by:

James H. Billington,

Librarian of Congress.

BILLING CODE 1410-30-P

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[MA-088-7216a; A-1-FRL-74662]

Approval and Promulgation of Air Quality Implementation Plans; Massachusetts; Amendment to 310 CMR 7.06, Visible Emissions Rule

AGENCY: Environmental Protection Agency (EPA).

ACTION: Direct final rule.

SUMMARY: EPA is conditionally approving a State Implementation Plan (SIP) revision submitted by the State of Massachusetts. On August 9, 2001, the Massachusetts Department of Environmental Protection (MA DEP) formally submitted a SIP revision containing multiple revisions to the State Regulations for the Control of Air Pollution. In today's action EPA is conditionally approving one portion of these rule revisions, 310 CMR 7.06(1)(c), into the Massachusetts SIP. This conditional approval is based on a commitment by MA DEP to submit a revised regulation by one year from today. If Massachusetts fails to submit the required revisions within one year, then this final conditional approval will be converted to a disapproval. This action is being taken in accordance with the Clean Air Act.

DATES: This direct final rule will be effective June 9, 2003, unless EPA receives adverse comments by May 8, 2003. If adverse comments are received, EPA will publish a timely withdrawal of the direct final rule in the **Federal Register** informing the public that the rule will not take effect.

ADDRESSES: Comments may be mailed to David Conroy, Unit Manager, Air Quality Planning, Office of Ecosystem Protection (mail code CAQ), U.S. Environmental Protection Agency, EPA New England Regional Office, One Congress Street, Suite 1100, Boston, MA 02114-2023. Copies of the documents relevant to this action are available for public inspection during normal business hours, by appointment at the Office of Ecosystem Protection, U.S. Environmental Protection Agency, EPA New England Regional Office, One Congress Street, 11th floor, Boston, MA; Air and Radiation Docket and Information Center, U.S. Environmental Protection Agency, Room B-108, 1301 Constitution Avenue, (Mail Code 6102T) NW., Washington, DC 20460; and the Division of Air Quality Control, Department of Environmental Protection, One Winter Street, 8th Floor, Boston, MA 02108.

FOR FURTHER INFORMATION CONTACT: Jeffrey S. Butensky, Environmental Planner, (617) 918-1665; butensky.jeff@epa.gov.

SUPPLEMENTARY INFORMATION: On August 9, 2001, the MA DEP submitted a formal revision to the State Implementation Plan (SIP). This SIP revision consists of amendments to several sections of the Massachusetts Regulations for the Control of Air Pollution. Today's action conditionally approves one section of this submittal, 310 CMR 7.06(1)(c) of the

Massachusetts “Visible Emissions” regulation.

I. Summary of SIP Revision

- A. What are visible emissions?
- B. What does the current visible emissions rule in Massachusetts require?
- C. What amendments did Massachusetts submit to their visible emissions rule?
- D. What concerns does EPA have with the existing amendments?
- E. What changes has Massachusetts committed to make to the rule?

A. What Are Visible Emissions?

Visible emissions, also known as “opacity,” is a measure of the density of smoke being emitted from a particular source. The more dense and dark the emissions from a source appear, the higher the opacity. In general, higher opacity is equivalent to higher emissions of particulate matter. States have developed and implemented rules for certain sources of particulate matter designed to measure and control the level of opacity emitted from smokestack or vents, thereby controlling the amount of particulate matter released into the ambient air.

B. What Does the Current Visible Emissions Rule in Massachusetts Require?

Massachusetts rule section 310 CMR 7.06 provides specific requirements for visible emissions. Section 310 CMR 7.06(1) of the existing visible emissions rule applies to stationary sources other than incinerators. Section 310 CMR 7.06(1)(a) states that “no person shall cause, suffer, allow, or permit the emissions of smoke which has a shade, density, or appearance equal to or greater than No. 1 of the [Ringleman] chart for a period, or aggregate period of time in excess of six minutes during any one hour period, provided that at no time during the said six minutes the shade, density, or appearance be equal to or greater than No. 2 of the [Ringleman] chart.” Furthermore, section 310 CMR 7.06(1)(b) goes on to state that “No person shall cause, suffer, allow, or permit the operation of a facility so as to emit contaminant(s), exclusive of uncombined water or smoke subject to 310 CMR 7.06(1)(a) of such opacity which, in the opinion of the Department, could be reasonably controlled through the application of modern technology of control and a good Standard Operating Procedure, and in no case, shall exceed 20% opacity for a period or aggregate period of time in excess of two minutes during any one hour provided that, at no time during the said two minutes shall the opacity exceed 40%.”
