

management plans (AMPs), and allow permitted livestock grazing that meets or moves existing resource conditions toward desired conditions on national forest grazing allotments while complying with applicable statutes. Adaptive management, which allows flexibility during the implementation of the grazing strategy, would allow managers to make adjustments and corrections to management based on monitoring.

Possible Alternatives

No Grazing and No Action alternatives will be analyzed to the proposed action during the NEPA process. The No Grazing alternative would eliminate domestic livestock grazing on allotments. The No Action alternative would allow continued livestock grazing as it is currently being managed. Other alternatives, arising from issues identified through scoping, could be analyzed as well.

Responsible Official

Forest Supervisor, Salmon-Challis National Forest, 50 Hwy 93 South, Salmon, ID 83467.

Nature of Decision To Be Made

The Forest Supervisor will decide whether to authorize continued livestock grazing on the allotments' suitable rangelands in accordance with the standards in the proposed action or as modified by additional mitigation measures and monitoring requirements.

Scoping Process

This analysis is for two grazing allotments. The decision will have limited environmental effects outside the allotment boundaries, and the economic impacts are localized. Scoping will include:

- Review scoping comments from previous efforts
- Publish notice in the Challis Messenger and Salmon Recorder-Herald, the newspapers of record, announcing the public meeting and requesting comments
- Mail scoping letters to interested public and grazing permittees describing the proposed action and preliminary issues
- Conduct public meeting in Challis, Idaho on October 8, 2003
- Notify consulting agencies and request comments
- Publish in the Quarterly Schedule of Proposed Actions (SOPA) notice and mail to interested individuals and groups, and put on the Forest's internet site
- Contact and consult with the Shoshone-Bannock Tribes

A public meeting is scheduled for October 8, 2003, at 6 p.m. at the Challis Ranger District Office, Hwy 93 North, Challis, Idaho.

Preliminary Issues

Concerns identified internally and from previous scoping include:

- Riparian and aquatic habitat; fisheries
- Terrestrial plants and animals
- Management Indicator Species; Threatened, Endangered and Sensitive Species
- Soil productivity and water quality
- Effects to other Forest users
- Economics
- Effects on vegetation structure and composition
- Tribal Treaty Rights
- Heritage Resources

Comment Requested

This notice of intent initiates the scoping process which guides the development of the environmental impact statement. Substantive comments and objections to the proposed action will be considered during this analysis.

Early Notice of Importance of Public Participation in Subsequent Environmental Review: A draft environmental impact statement will be prepared for comment. The comment period on the draft environmental impact statement will be 45 days from the date the Environmental Protection Agency publishes the notice of availability in the **Federal Register**.

The Forest Service believes, at this early stage, it is important to give reviewers notice of several court rulings related to public participation in the environmental review process. First, reviewers of draft environmental impact statements must structure their participation in the environmental review of the proposal so that it is meaningful and alerts an agency to the reviewer's position and contentions. *Vermont Yankee Nuclear Power Corp. v. NRDC*, 435 U.S. 519, 553 (1978). Also, environmental objections that could be raised at the draft environmental impact statement stage but that are not raised until after completion of the final environmental impact statement may be waived or dismissed by the courts. *City of Angoon v. Hodel*, 803 F.2d 1016, 1022 (9th Cir. 1986) and *Wisconsin Heritages, Inc. v. Harris*, 490 F. Supp. 1334, 1338 (E.D. Wis. 1980). Because of these court rulings, it is very important that those interested in this proposed action participate by the close of the 45 day comment period so that substantive comments and objections are made available to the Forest Service at a time

when it can meaningfully consider them and respond to them in the final environmental impact statement.

To assist the Forest Service in identifying and considering issues and concerns on the proposed action, comments on the draft environmental impact statement should be as specific as possible. It is also helpful if comments refer to specific pages or chapters of the draft statement. Comments may also address the adequacy of the draft environmental impact statement or the merits of the alternatives formulated and discussed in the statement. Reviewers may wish to refer to the Council on Environmental Quality Regulations for implementing the procedural provisions of the National Environmental Policy Act at 40 CFR 1503.3 in addressing these points.

Comments received, including the names and addresses of those who comment, will be considered part of the public record on this proposal and will be available for public inspection.

Authority: 40 CFR 1501.7 and 1508.22; Forest Service Handbook 1909.15, section 21.

Dated: September 17, 2003.

Richard E. Hafenfeld,

Acting Forest Supervisor.

Postponement of Preliminary Determinations of Antidumping Duty Investigations: Certain Color Television Receivers From Malaysia (A-557-812) and the People's Republic of China (A-570-884)

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce is postponing the preliminary determinations in the antidumping duty investigations of certain color television receivers from Malaysia and the People's Republic of China from October 9, 2003, until no later than November 21, 2003. These postponements are made pursuant to section 733(c)(1)(B) of the Tariff Act of 1930, as amended.

EFFECTIVE DATE: September 25, 2003.

FOR FURTHER INFORMATION CONTACT: Michael Strollo (Malaysia) or Irina Itkin (People's Republic of China) at (202) 482-0629 or (202) 482-0656, respectively, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington DC 20230.

SUPPLEMENTARY INFORMATION:

Postponement of Due Date for Preliminary Determination

On May 29, 2003, the Department initiated antidumping duty investigations of imports of certain color television receivers from Malaysia and the People's Republic of China (PRC). See *Notice of Initiation of Antidumping Duty Investigations: Certain Color Television Receivers From Malaysia and the People's Republic of China*, 68 FR 32013 (May 29, 2003). The notice of initiation stated that we would issue our preliminary determinations no later than 140 days after the date of initiation. See *Id.* Currently, the preliminary determinations in this investigation are due on October 9, 2003.

Pursuant to section 733(c)(1)(B) of the Tariff Act of 1930, as amended by the Uruguay Round Agreements Act ("the

Act"), the Department can extend the period for reaching a preliminary determination until no later than the 190th day after the date on which the administering authority initiates an investigation if:

(B) The administering authority concludes that the parties concerned are cooperating and determines that

(i) The case is extraordinarily complicated by reason of

(I) The number and complexity of the transactions to be investigated or adjustments to be considered,

(II) The novelty of the issues presented, or

(III) The number of firms whose activities must be investigated, and

(ii) Additional time is necessary to make the preliminary determination.

We find that all concerned parties are cooperating in both cases, and we find that these cases are extraordinarily complicated because of the novelty of the issues presented. Specifically, in the Malaysia investigation, the Department requires additional time to examine all relevant facts pertaining to the procurement of material inputs from suppliers located in non-market economy countries for its build-up of constructed value. In the PRC investigation, the Department requires additional time to examine all relevant facts in order to properly value factors of production using surrogate values. Pursuant to section 733(c)(1)(B) of the Act, we have determined that these cases are extraordinarily complicated and that additional time is necessary to make our preliminary determinations. Therefore, we are postponing the preliminary determinations until no later than November 21, 2003.

This notice is issued and published pursuant to section 733(c)(2) of the Act and 19 CFR 351.205(f).

Dated: September 17, 2003.

James J. Jochum,

Assistant Secretary for Import Administration.
