

Friday, except holidays, and may be published as part of the EIS. Individual respondents may request confidentiality. If you wish to withhold your name or street address from public review or from disclosure under the Freedom of Information Act, you must state this prominently at the beginning of your written comment. However, we will not consider anonymous comments. Such requests will be honored to the extent allowed by law. All submissions from organizations or businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses, will be made available for public inspection in their entirety.

FOR FURTHER INFORMATION: Written comments should be sent to BLM Carson City Field Office, 5665 Morgan Mill Road, Carson City, NV 89701; Fax (775) 885-6147; email address tknutson@nv.blm.gov. For additional information, write to the above address or call Terri Knutson (BLM Environmental Planner) at (775) 885-6156 or Ken Nelson (BLM Realty Specialist) at (775) 885-6114.

SUPPLEMENTARY INFORMATION: The BLM Carson City Field Office received separate water supply and transmission rights-of-way applications from the Fish Springs Ranch, LLC and Intermountain Water Supply, LTD, two independent water companies, proposing projects in Washoe County, Nevada. The BLM determined that due to the same timing, geography, and similarity of the types of actions, the two proposals would be analyzed in one EIS, together known as the North Valleys Water Projects. Each company is proposing to construct and operate water supply and transmission projects to meet present and future water demands of the Stead/Silver Lake/Lemmon Valley areas (North Valleys) in Washoe County. The proposed Projects consist of groundwater production wells, pump station(s), transmission pipeline(s) and terminal water storage tank(s) to convey water. The Fish Springs Ranch LLC proposed pipeline (carrying approximately 8000 acre-feet per year) would begin at the Fish Springs Ranch, and proceed south approximately 33 miles to the North Valleys. The Intermountain Water Supply, LTD proposed pipeline (carrying approximately 3500 acre-feet per year) would begin in Dry Valley, proceed east a short distance before tying into the same general route south to the North Valleys, a total of approximately 24 miles.

The EIS will assess the impacts of the two proposed rights-of-way actions and

the No Action alternatives and may consider alternative locations or alignments of the water project facilities, as appropriate. The EIS will address issues brought forth through scoping and will be evaluated by an interdisciplinary team of specialists. Key issues likely to be considered in analyzing each alternative include groundwater hydrology; groundwater quality; threatened and endangered species; cultural resources; land use; and socioeconomic effects of the project. Federal, state, and local agencies and other individuals or organizations who may be interested in or affected by the decisions to be made on the proposed project are invited to participate in the scoping process and, if eligible, may request, or be requested by the BLM, to participate as a cooperating agency.

Manager, Carson City Field Office.

Notice of Intent To Prepare a Resource Management Plan and Associated Environmental Impact Statement for the Sloan Canyon National Conservation Area

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of Intent (NOI) to prepare a Resource Management Plan (RMP) and associated Environmental Impact Statement (EIS) for the Sloan Canyon National Conservation Area.

SUMMARY: Notice is hereby given that the Bureau of Land Management (BLM) intends to prepare an RMP with an associated EIS for the Sloan Canyon National Conservation Area as directed in the Clark County Conservation of Public Land and Natural Resources Act of 2002 (Pub. L. 107-282). The planning area encompasses approximately 48,438 acres of public land within Clark County, Nevada. The Plan will fulfill the needs and obligations set forth by the National Environmental Policy Act (NEPA), the Federal Land Policy and Management Act (FLPMA), Public Law 107-282, and BLM policies. The public scoping process will identify planning issues and develop planning criteria, including evaluation of the existing Resource Management Plan (RMP). The BLM will work collaboratively with interested parties to develop and analyze management alternatives, taking
