

points are available for proposals that have geographic diversity. Geographic diversity means multiple states or regions as defined by the National Agricultural Statistics Service and have the broadest number of producers impacted.

C. Confidentiality

The names of applicants, the names of individuals identified in the applications, the content of applications, and the panel evaluations of applications will all be kept confidential, except to those involved in the review process, to the extent permitted by law. In addition, the identities of review panel members will remain confidential throughout the entire review process and will not be released to applicants. At the end of the fiscal year, names of panel members will be made available. However, panelists will not be identified with the review of any particular application.

Part VI—Additional Information

A. Access to Panel Review Information

Upon written request, scores from the evaluation panel, not including the identity of reviewers, will be sent to the applicant after the review and awards process has been completed.

B. Notification of Partnership Agreement Awards and Notification of Non-Selection

Following approval of the applications selected for funding, notice of project approval and authority to draw down funds will be made to the selected applicants in writing. Within the limit of funds available for such purpose, the awarding official of RMA shall enter into partnership agreements with those applicants whose applications are judged to be most meritorious under the procedures set forth in this announcement. The partnership agreement provides the amount of Federal funds for use in the project period, the terms and conditions of the award, and the time period for the project.

The effective date of the partnership agreement shall be the date the agreement is executed by both parties. All funds provided to the applicant by FCIC must be expended solely for the purpose for which funds are obligated in accordance with the approved application and budget, the regulations, the terms and conditions of the award, and the applicability of Federal cost principles. No commitment of Federal assistance beyond the project period is made or implied, as a result of any

award made pursuant to this announcement.

Notification of denial of funding will be sent to applicants after final funding decisions have been made. Reasons for denial of funding can include incomplete proposals, proposals that did not meet the objectives, scored low or were duplicative.

C. Confidential Aspects of Proposals and Awards

When an application results in a partnership agreement, it becomes a part of the official record of RMA transactions, available to the public upon specific request. Information that the Secretary of Agriculture determines to be of a confidential, privileged, or proprietary nature will be held in confidence to the extent permitted by law. Therefore, any information that the applicant wishes to be considered confidential, privileged, or proprietary should be clearly marked within the application, including the basis for such designation. The original copy of a proposal that does not result in an award will be retained by RMA for a period of one year. Other copies will be destroyed. Such a proposal will be released only with the express written consent of the applicant or to the extent required by law. A proposal may be withdrawn at any time prior to award.

D. Reporting Document

Applicants awarded a partnership agreement will be required to submit monthly progress and financial reports (SF-269) throughout the project period, as well as a final program and financial report not later than 90 days after the end of the project period.

E. Audit Requirements

Applicants awarded the partnership agreements are subject to audit.

F. Prohibitions and Requirements With Regard to Lobbying

Section 1352 of Public Law 101-121, enacted on October 23, 1989, imposes prohibitions and requirements for disclosure and certification related to lobbying on recipients of Federal contracts, grants, cooperative agreements, and loans. It provides exemptions for Indian Tribes and tribal organizations. Current and prospective recipients, and any subcontractors, are prohibited from using Federal funds, other than profits from a Federal contract, for lobbying Congress or any Federal agency in connection with the award of a contract, grant, cooperative agreement, or loan. In addition, for each award action in excess of \$100,000 (\$150,000 for loans) the law requires

recipients and any subcontractors (1) to certify that they have neither used nor will use any appropriated funds for payments of lobbyists; (2) to disclose the name, address, payment details, and purpose of any agreements with lobbyists whom recipients or subcontractors will pay with profit or other nonappropriated funds on or after December 22, 1989; (3) to file quarterly updates about the use of lobbyists if material changes occur in their use. The law establishes civil penalties for non-compliance. A copy of the certification and disclosure forms must be submitted with the application and are available from David Fulk at the above stated address and telephone number.

G. Applicable OMB Circulars

All partnership and cooperative agreements funded as a result of this notice will be subject to the requirements contained in all applicable OMB circulars.

Signed in Washington, DC, on May 10, 2003.

Ross J. Davidson, Jr.,

Manager, Federal Crop Insurance Corporation.

Food and Nutrition Service

Agency Information Collection Activities: Proposed Collection; Comment Request—FNS-380, Worksheet for Food Stamp Program Quality Control Reviews

AGENCY: Food and Nutrition Service, USDA.

ACTION: Notice.

SUMMARY: As required by the Paperwork Reduction Act of 1995, this notice invites the general public and other public agencies to comment on the proposed information collection of FNS-380, Worksheet for Food Stamp Program Quality Control Reviews.

DATES: Written comments must be submitted on or before August 12, 2003.

ADDRESSES: Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information has practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be

collected; (d) ways to minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology. Comments may be sent to: Daniel Wilusz, Chief, Quality Control Branch, Program Accountability Division, Food and Nutrition Service, U.S. Department of Agriculture, 3101 Park Center Drive, Alexandria, VA 22302.

All responses to this notice will be included in the request for OMB's approval. All comments will also become a matter of public record.

FOR FURTHER INFORMATION CONTACT: Requests for additional information or copies of the information collection form and instruction should be directed to Daniel Wilusz, (703) 305-2460.

SUPPLEMENTARY INFORMATION:

Title: Worksheet for Food Stamp Program Quality Control Reviews.

OMB Number: 0584-0074.

Form Number: FNS-380.

Expiration Date: November 30, 2003.

Type of Request: Revision of an existing information collection.

Abstract: Form FNS-380 is a worksheet used in the Food Stamp Program to determine eligibility and benefits for households selected for review in the quality control sample of active cases. We estimate the reporting burden for this collection of information averages 8.9764 hours per each States' response. This includes the time for analyzing the household case record; planning and carrying out the field investigation; gathering, comparing, analyzing and evaluating the review data and forwarding selected cases to the Food and Nutrition Service for Federal validation. In addition to the State agency's burden, we also estimate the average burden on each household to be 0.50 hours for each of the estimated 54,703 households being interviewed. This includes a face-to-face interview with the Quality Control Reviewer to verify the identity and existence of the household and explore the household circumstances affecting the eligibility and benefit level. We estimate that the total reporting burden associated with this information collection for both State agencies and the households is 518,388 hours. The total recordkeeping burden for the State agency is 0.0236 hours per record.

We previously cleared the reporting and recordkeeping burden for this form under Office of Management and Budget (OMB) clearance number 0584-0074. OMB approved the burden through November 30, 2003. Based on the most

recent table of active case sample sizes and completion rates (FY 2001), we estimate 54,703 FNS-380 worksheets and interviews will now be completed annually. This is an increase of 40 responses from the estimate made to substantiate the current collection. This estimate will also cause a corresponding increase in the reporting and recordkeeping burden. The increase in responses is a result of an augmented participation rate and is based on a statistical formula. We are requesting a three-year approval from OMB for this information collection.

Affected Public: Individuals or households; State or local governments.

Estimated Number of Respondents: 53 State agencies and 54,703 households.

Estimated Total Number of Responses Per Year: 54,703 responses.

Estimated Time per Response: 8.9764 hours per State agency and 0.50 hours per household.

Estimated Total Annual Reporting Burden: 518,388 hours.

Estimated Number of Records: 54,703.

Estimated Time per Recordkeeping: .0236 hours.

Estimated Total Annual Recordkeeping Burden: 1,291 hours.

Estimated Total Annual Reporting and Recordkeeping Burden: 519,679 hours.

Dated: June 2, 2003.

Roberto Salazar,

Administrator, Food and Nutrition Service.

BILLING CODE 3410-30-P

DEPARTMENT OF AGRICULTURE

Forest Service

Red Pines EIS Project, Nez Perce National Forest, Idaho County, ID

AGENCY: Forest Service, USDA.

ACTION: Notice; intent to prepare environmental impact statement.

SUMMARY: The Forest Service will prepare an environmental impact statement to disclose the environmental impacts of implementing fuel hazard reduction and watershed improvement activities within the Red Pines project area in the Red River watershed. Individuals interested in actions of this nature are encouraged to submit comments and become involved in the planning process.

DATES: Comments concerning the scope of the analysis should be received at the address below on or before July 14, 2003.

ADDRESSES: Send written comments to Bruce Bernhardt, Forest Supervisor, Route 2, Box 475, Grangeville, ID 83530.

FOR FURTHER INFORMATION CONTACT: Kara Chadwick, Project Coordinator, and (208) 983-1950.

SUPPLEMENTARY INFORMATION: The Red Pines project area is located on the Nez Perce National Forest in northern Idaho within Idaho County. The project area lies about 34 air miles southeast of Grangeville Idaho and three air miles southeast of Elk City Idaho. The project area encompasses 31,466 acres and includes Dawson, Little Moose, Blanco and Ditch Creeks and Lower and Main Red River subwatersheds, and small portions of Trail, Soda and Moose Butte Creeks subwatersheds, which drain into Red River, which drains directly into the South Fork Clearwater River.

The actions proposed for implementation would reduce existing and potential fuel loads through the following activities:

A combination of thinning and/or salvaging and underburning on approximately 4,760 acres. This combination would result in some regeneration (clearcut) harvest. A combination of tractor and cable yarding systems would be used.

Approximately 1,645 acres of plantations, 20-50 years in age, would be thinned and underburned, favoring fire resistant species. A combination of tractor and cable yarding systems would be used.

Approximately 100 acres of 15-20 year old plantations would be precommercially thinned.

Approximately 25 miles of temporary road would be constructed to access the fuel hazard reduction areas described above. These roads would be decommissioned following activities.

Approximately 18 miles of existing roads would be reconditioned prior to use for fuel hazard reduction activities.

As part of this project, activities would be implemented to meet Forest Plan requirements for upward trend in fish habitat and water quality. The following activities would maintain or improve aquatic conditions in the subwatersheds in the project area:

Restore soil productivity on 175 to 350 acres through soil restoration techniques, such as decompaction, revegetation, and reestablishing natural drainage features.

Reduce erosion and water quality impacts at four inactive mine sites, using techniques such as reshaping of disturbed areas, soil amendments, revegetation, and possibly treatment of water draining from adits.

Reduce sediment production from existing and temporary roads planned
