

discussion were considered in the determination regarding the petition.

The NRC sent a copy of the proposed Director's Decision to the petitioner and the licensee for comments on June 18, 2003. The petitioner and the licensee responded with comments on July 11, 2003. The comments and the NRC staff's response to them are included in the Director's Decision.

The NMSS Office Director has determined that the request for NRC to issue an Order to Westinghouse to provide certain radiological survey data to NRC which NRC has requested, is moot and will no longer be addressed, and that the request for NRC to issue an Order to Westinghouse to accept under SNM-770 certain residual byproduct materials now held under Viacom license TR-2 and located at the WTR facility is denied. The NMSS Office Director also has denied the request for NRC to issue an Order to Westinghouse to abate a violation of 10 CFR 50.5, and has granted the request for NRC to interpret the Decommissioning Plan for the WTR as part of the response to Viacom's separate request dated October 29, 2002. The reasons for the decisions are explained in the Director's Decision pursuant to 10 CFR 2.206 [DD-03-02], the complete text of which is available in ADAMS for inspection at the Commission's Public Document Room, located at One White Flint North, 11555 Rockville Pike (first floor), Rockville, Maryland, and from the ADAMS public access component on the NRC's Web site, <http://www.nrc.gov>, under the "Public Involvement" icon.

A copy of the Director's Decision will be filed with the Secretary of the Commission for the Commission's review in accordance with 10 CFR 2.206 of the Commission's regulations. As provided for by this regulation, the Director's Decision will constitute the final action of the Commission 25 days after the date of the decision, unless the Commission, on its own motion, institutes a review of the Director's Decision within that time.

Dated at Rockville, Maryland, this 26th day of August 2003.

For the Nuclear Regulatory Commission.

Deputy Director, Office of Nuclear Material Safety and Safeguards.
