SUPPLEMENTARY INFORMATION:

I. Background

In the **Federal Register** of July 11, 2003 (68 FR 41434), FDA issued a final rule requiring that *trans* fatty acids be declared in the nutrition label of conventional foods and dietary supplements on a separate line immediately under the line for the declaration of saturated fatty acids. This final rule becomes effective on January 1, 2006.

We examined the economic implications of that final rule as required by the Regulatory Flexibility Act (5 U.S.C. 601-602) and determined that the final rule would have a significant economic impact on a substantial number of small entities.

In compliance with section 212 of the Small Business Regulatory Enforcement Fairness Act (Public Law 104-121), we are making available this SECG stating in plain language the requirements of the final rule.

FDA is issuing this SECG as level 2 guidance consistent with FDA's good guidance practices regulation (21 CFR 10.115). This SECG represents the agency's current thinking on the subject. It does not create or confer any rights for or on any person and does not operate to bind FDA or the public. You may use an alternative approach if such approach satisfies the requirements of the applicable statutes and regulations.

If you want to discuss an alternative approach, contact the FDA staff responsible for implementing this guidance (see **FOR FURTHER INFORMATION CONTACT**).
