

The Proposed Action

The proposed action would allow the disposal of records, prior to termination of Trojan Nuclear Plant Possession Only License No. NPF-1, that: (1) Are associated with the operation, design, fabrication, erection, and testing of structures, systems, and components that are no longer quality-related and/or important to safety, and that are no longer operational; and (2) require storage in their original hardcopy formats due to practical and feasibility limitations associated with transferring them to microform format, such that significant amounts of costly storage space are required.

Alternatives to Proposed Action

No action. Under this alternative TNP would continue to store the records in question until license termination.

The Affected Environment and Environmental Impacts

None. The proposed action is purely administrative in nature and will have no effect on the environment.

Agencies and Persons Contacted

None.

Conclusions

NRC has determined that the proposed action will have no significant effect on the quality of the human environment.

III. Finding of No Significant Impact

Based on this review, the NRC staff has concluded that there are no significant impacts on the quality of the human environment. Accordingly, the staff has determined that preparation of an Environmental Impact Statement is not warranted, and a Finding of No Significant Impact is appropriate.

IV. Further Information

The licensee's request for the proposed action (ADAMS Accession No: ML022970110) and other related documents to this proposed action are available for public inspection and copying for a fee at NRC's Public Document Room at NRC Headquarters, One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852. These documents are available for public review through ADAMS, the NRC's electronic reading room, at: <http://www.nrc.gov/reading-rm/adams.html>.
