

customers and interested State Commissions.

Any person desiring to protest said filing should file a protest with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, in accordance with § 385.211 of the Commission's Rules and Regulations. All such protests must be filed on or before the protest date as shown below. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceedings. This filing is available for review at the Commission in the Public Reference Room or may be viewed on the Commission's Web site at <http://www.ferc.gov> using the "FERRIS" link. Enter the docket number excluding the last three digits in the docket number field to access the document. Comments, protests and interventions may be filed electronically via the Internet in lieu of paper. For assistance, please contact FERC Online Support at FERCOnlineSupport@ferc.gov or toll-free at (866) 208-3676, or TTY, contact (202) 502-8659. The Commission strongly encourages electronic filings. See 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's Web site under the "e-Filing" link.

Protest Date: July 14, 2003.

BILLING CODE 6717-01-P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. CP01-49-002]

Northwest Pipeline Corporation; Notice of Application

July 3, 2003.

Take notice that on June 25, 2003, Northwest Pipeline Corporation (Northwest), 295 Chipeta Way, Salt Lake City, Utah 84158, filed in Docket No. CP01-49-002, an application pursuant to sections 7(c) and 7(b) of the Natural Gas Act (NGA), as amended, and part 157 of the regulations of the Federal Energy Regulatory Commission (Commission), to amend the certificate of public convenience and necessity that was issued for its Everett Delta Lateral project by Commission order dated October 25, 2001 in Docket Nos. CP01-49-000 and CP01-49-001 and to request related permission and approval for pre-granted abandonment, all as

more fully set forth in the application which is on file with the Commission and open to public inspection. This filing is available for review at the Commission or may be viewed on the Commission's Web site at <http://www.ferc.gov> using the "FERRIS" link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, please contact FERC Online Support at FERCOnlineSupport@ferc.gov or toll-free at (866) 208-3676, or for TTY, contact (202) 502-8659.

As currently certificated, Northwest states that the Everett Delta Lateral project, in Snohomish County, Washington, includes approximately 9 miles of 20-inch lateral pipeline, two delivery meter stations at the lateral terminus near Everett, Washington and related facilities designed to be constructed, owned and operated by Northwest to provide transportation deliveries from Northwest's mainline to serve a planned new power plant and to provide additional service to a local gas distribution company customer, Puget Sound Energy, Inc. (Puget).

After issuance of the certificate for the Everett Delta Lateral project, Northwest states that the new power plant that was the anchor market for the project was canceled and the facilities agreements underlying the project were terminated. Thusly, Northwest states that it and Puget then negotiated new commercial arrangements for a revised Everett Delta Lateral project designed to serve only Puget's growing distribution requirements in that area.

Northwest states that it is now requesting the Commission to amend the certificate for the Everett Delta Lateral project to authorize Northwest to construct and operate 9.15 miles of 16-inch lateral pipeline (on the originally certificated route), one meter station located at the start of the lateral, two lateral delivery taps and related facilities designed to provide approximately 113.1 MDth/d of firm transportation service for Puget from Northwest's mainline to the delivery taps.

Northwest states that it is now proposing to allow Puget to be the passive owner of the lateral and meter station facilities, with Northwest leasing and operating the lateral facilities as part of its interstate transmission system for a term of five years. Northwest states that it requests pre-granted abandonment approval of its lease and operation of the lateral upon expiration of the five-year lease term, at which time Puget will begin operating the

lateral as part of its local distribution system.

Northwest states that the estimated total cost for the now revised Everett Delta Lateral project is approximately \$24.6 million and that Puget will pay in advance and reimburse Northwest in full for the actual construction costs.

Northwest states that Puget requires expanded delivery capacity into its Everett, Washington distribution area by the 2004/2005 winter heating season. To allow sufficient time for completion of the proposed delivery facilities by November 1, 2004, Northwest states that it requests the Commission to issue the requested amended certificate order, and related approvals, by January 2004.

Any questions concerning this application may be directed to Gary K. Kotter, Manager, Certificates and Tariffs-3C1, Northwest Pipeline Corporation, P.O. Box 58900, Salt Lake City, Utah 84158-0900, at (801) 584-7117 or fax (801) 584-7764.

There are two ways to become involved in the Commission's review of this project. First, any person wishing to obtain legal status by becoming a party to the proceedings for this project should file with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, a motion to intervene in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the NGA (18 CFR 157.10) by the comment date, below. A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents filed by the applicant and by all other parties. A party must submit 14 copies of filings made with the Commission and must mail a copy to the applicant and to every other party in the proceeding. Only parties to the proceeding can ask for court review of Commission orders in the proceeding.

However, a person does not have to intervene in order to have comments considered. The second way to participate is by filing with the Secretary of the Commission, as soon as possible, an original and two copies of comments in support of or in opposition to this project. The Commission will consider these comments in determining the appropriate action to be taken, but the filing of a comment alone will not serve to make the filer a party to the proceeding. The Commission's rules require that persons filing comments in opposition to the project provide copies of their protests only to the party or parties directly involved in the protest.

Protests and interventions may be filed electronically via the Internet in lieu of paper; *see* 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's Web site under the "e-Filing" link. The Commission strongly encourages electronic filings.

If the Commission decides to set the application for a formal hearing before an Administrative Law Judge, the Commission will issue another notice describing that process. At the end of the Commission's review process, a final Commission order approving or denying a certificate will be issued.

Comment Date: July 24, 2003.

Linda Mitry,

Acting Secretary.

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. CP02-4-004]

Northwest Pipeline Corporation; Notice of Compliance Filing

July 3, 2003.

Take notice that on June 27, 2003, Northwest Pipeline Corporation (Northwest) tendered for filing as part of its FERC Gas Tariff, Third Revised Volume No. 1, Original Sheet No. 26 and Sheet Nos. 27 through 29, to be effective July 1, 2003.

Northwest states that this filing complies with the Commission's order dated May 7, 2003 in Docket No. CP02-4-002 requiring Northwest to file a tariff sheet containing a provision to make a one time, pro rata credit to each Evergreen Expansion Project shipper, in invoices for October, 2003, for all base tariff reservation charge revenues received by Northwest for marketing the expanded compression-only capacity in the Sumas-Chehalis corridor during July through September 2003.

Northwest states that a copy of this filing has been served upon each person designated on the official service list compiled by the Secretary in this proceeding.

Any person desiring to protest said filing should file a protest with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, in accordance with § 385.211 of the Commission's Rules and Regulations. All such protests must be filed in accordance with § 154.210 of the Commission's Regulations. Protests will be considered by the Commission in determining the appropriate action to be

taken, but will not serve to make protestants parties to the proceedings. This filing is available for review at the Commission in the Public Reference Room or may be viewed on the Commission's Web site at <http://www.ferc.gov> using the "FERRIS" link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, please contact FERC Online Support at FERCOnlineSupport@ferc.gov or toll-free at (866) 208-3676, or TTY, contact (202) 502-8659. The Commission strongly encourages electronic filings. *See* 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's Web site under the "e-Filing" link.

Protest Date: July 17, 2003.

Federal Energy Regulatory Commission

[Docket No. EL03-207-000]

Outback Power Marketing, Inc., SESCO Enterprises, L.L.C., and Black Oak Energy, L.L.C. v. PJM Interconnection, L.L.C.; Notice of Filing

July 3, 2003.

Take notice that on July 3, 2003, Outback Power Marketing, Inc., SESCO Enterprises L.L.C., and Black Oak Energy, L.L.C. (Complainants), filed a complaint pursuant to Sections 206 and 306 of the Federal Power Act against PJM Interconnection, L.L.C. (PJM), alleging violations of Section 205 and 206 of the Federal Power Act in the implementation of new credit policies for financial trading. The complaint requests fast track processing.

The Complainants state that copies of the filing were served upon PJM.

Any person desiring to intervene or to protest this filing should file with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. All such motions or protests should be filed on or before the comment date, and, to the

extent applicable, must be served on the applicant and on any other person designated on the official service list. This filing is available for review at the Commission or may be viewed on the Commission's Web site at <http://www.ferc.gov>, using the "FERRIS" link. Enter the docket number excluding the last three digits in the docket number field to access the document.
