

SUMMARY: EPA is proposing to approve the municipal solid waste (MSW) landfill section 111(d) negative declarations submitted by the District of Columbia, and the City of Philadelphia, Pennsylvania. Each negative declaration certifies that MSW landfills, subject to the requirements of section 111(d) of the Clean Air Act (CAA), do not exist in its air pollution control jurisdiction. If no adverse comments are received in response to this action, no further activity is contemplated. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. EPA will not institute a second comment period. Any parties interested in commenting on this action should do so at this time.

DATES: Comments must be received in writing by February 3, 2003.

ADDRESSES: Written comments should be mailed to Walter Wilkie, Deputy Chief, Air Quality Planning and Information Services Branch, Mailcode 3AP21, U.S. Environmental Protection Agency, Region III, 1650 Arch Street, Philadelphia, Pennsylvania 19103. FOR FURTHER INFORMATION CONTACT: James B. Topsale at (215) 814-2190, or by e-mail at topsale.jim@epa.gov. Please note that while questions may be posed via phone and e-mail, formal comments must be submitted in writing, as indicated in the **ADDRESSES** section of this document.

SUPPLEMENTARY INFORMATION: For further information, please see the information provided in the direct final action, with the same title, that is located in the "Rules and Regulations" section of this **Federal Register** publication. Please note that if EPA receives adverse comment on an amendment, paragraph, or section of this rule and if that provision may be severed from the remainder of the rule, EPA may adopt as final those provisions of the rule that are not the subject of an adverse comment.

National Emission Standards for Hazardous Air Pollutants: Stationary Combustion Turbines, Surface Coating of Metal Cans, and Primary Magnesium Refining

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of availability of proposed rules and changes to public comment periods.

SUMMARY: This document is to inform the public that the proposed national emission standards for hazardous air pollutants (NESHAP) for Stationary Combustion Turbines, Surface Coating of Metal Cans, and Primary Magnesium Refining have been signed by the Administrator and are scheduled to be published as proposed rules in the **Federal Register** within a few weeks. Copies are available on EPA's website. We typically allow a 60-day public comment period after publication of proposed NESHAP in the **Federal Register**; however, we are providing advance notice that when these proposed rules are published in the **Federal Register**, the comment period will be 30 days after publication.

FOR FURTHER INFORMATION CONTACT: Mr. Keith W. Barnett, Minerals and Inorganic Chemicals Group, Emission Standards Division (C504-05), U.S. EPA, Research Triangle Park, North Carolina 27711, facsimile number (919) 541-5600, telephone number (919) 541-5605, electronic mail barnett.keith@epa.gov.

SUPPLEMENTARY INFORMATION: An electronic copy of today's notice is

available on the Worldwide Web through the Technology Transfer Network (TTN). Following the Assistant Administrator's signature, a copy of this notice will be posted on the TTN's policy and guidance page for newly proposed or promulgated rules at <http://www.epa.gov/ttn/oarpg/>. In addition, electronic versions of all these proposed NESHAP that are affected by this notice are also currently available on the TTN at <http://www.epa.gov/ttn/oarpg/new.html>. The TTN provides information and technology exchange in various areas of air pollution control. If more information regarding the TTN is needed, call the TTN HELP line at (919) 541-5384.

In accordance with section 112(e)(1) of the Clean Air Act (CAA), EPA issued a schedule for promulgation of NESHAP that specified that the NESHAP for Stationary Combustion Turbines, Surface Coating of Metal Cans, and Primary Magnesium Refining were to be promulgated as final rules by November 15, 2000. We are now considerably past that date. In addition, the requirements of section 112(j) of the CAA specify that all sources in these source categories must submit permit applications for case-by-case determinations of the maximum achievable emissions reductions of hazardous air pollutants in the absence of a final rule. It is imperative that these proposed rules be finalized as soon as possible to avoid the unnecessary expenditure of resources by affected sources and permitting authorities.

The proposed NESHAP were signed by the Administrator on November 26, 2002, and were available on the TTN on the same day. Therefore, the proposed NESHAP have been widely available to the public since that time. We do not anticipate that any of the proposed NESHAP will be published in the **Federal Register** prior to December 26,

2002. If we allow a comment period of 30 days from actual publication in the **Federal Register**, the proposed NESHAP will still have been widely available to the public for 60 days or more.

Dated: December 20, 2002.

Jeffrey R. Holmstead,

Assistant Administrator for Air and Radiation.

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule; notice of change to public comment period.

SUMMARY: This document is to inform the public of a correction to the proposed national emission standards for hazardous air pollutants (NESHAP) for surface coating of automobiles and light-duty trucks that were published in the **Federal Register** on December 24, 2002 (67 FR 78612). do so by January 3, 2003. We are extending the period to request a public hearing to January 13, 2003 (20 days).

Finally, the **Federal Register** document stated that, if requested, a public hearing would be held approximately 15 days after the date of publication of the notice in the **Federal Register**.
