Information Collection Requests

1. **Title:** Official logbook.

OMB Control Number: 1625-0018.

Summary: The Official Logbook contains information about the voyage, the vessel's crew, drills, and operations conducted during the voyage. Official Logbook entries identify all particulars of the voyage, including the name of the ship, official number, port of registry, tonnage, names and merchant mariner document numbers of the master and crew, the nature of the voyage, and class of ship. In addition, it also contains entries for the vessel's drafts, maintenance of watertight integrity of the ship, drills and inspections, crew list and report of character, a summary of laws applicable to Logbooks, and miscellaneous entries.

Need: Title 46, United States Code (USC) 11301 requires most merchant vessels to maintain an Official Logbook. The manner of making entries and penalties are set forth in 46 U.S.C. 11302 and 11303. The Official Logbook contains information about the vessel, voyage, and crew. Lack of these particulars would make it difficult for a seaman to verify vessel employment and wages, and for the Coast Guard to verify compliance with laws and regulations concerning vessel operations and safety procedures. The Official Log serves as an official record of recordable events transpiring at sea such as births, deaths, marriages, and disciplinary actions. Absent the Official Log, there would be no official civil record of these events. The courts accept log entries as proof that the logged event occurred. If this information was not collected, the Coast

Guard's commercial vessel safety program would suffer, as there would be no official record of U.S. merchant vessel voyages. Similarly, those seeking to prove that an event occurred would not have any record available.

Respondents: Shipping Companies.

Frequency: On occasion.

Burden Estimate: The estimated burden remains the same, 1,750 hours a year.

Dated: May 19, 2005.

Dr. Nathaniel Heiner,

Acting, Assistant Commandant for Command, Control, Communications, Computers and Information Technology.
