### IV. Commission's Findings and Order Granting Accelerated Approval of Proposed Rule Change

After careful review, the Commission finds that the proposed rule change is consistent with the requirements of the Act and the rules and regulations thereunder, applicable to a national securities exchange,<sup>7</sup> and, in particular, the requirements of Section 6(b)(5) of the Act.<sup>8</sup> Specifically, the Commission finds that the proposed rule change should ensure that the Exchange's position limits and exercise limits on SPDR options provide its members with sufficient flexibility to participate in the market for such options in a manner that should provide greater depth and liquidity for all market participants.

The Commission finds good cause for approving this proposed rule change prior to the thirtieth day after publication of notice thereof in the **Federal Register**. Specifically, the Commission believes that granting accelerated approval to the proposed rule change should permit greater depth and liquidity in the SPDR options market that should benefit all market participants, including retail investors. Because the higher position limits and exercise limits mirror those that the Commission has previously approved for like products, the Commission believes it is consistent with Sections 6(b)(5)<sup>9</sup> and 19(b)(2)<sup>10</sup> of the Act to approve the ISE's proposed rule change on an accelerated basis.

### V. Conclusion

*It is therefore ordered*, pursuant to Section 19(b)(2) of the Act,<sup>11</sup> that the proposed rule change (SR-ISE-2005-05) is hereby approved on an accelerated basis.

For the Commission, by the Division of Market Regulation, pursuant to delegated authority.<sup>12</sup>

## SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-51035; File No. SR-NSCC-2004-07]

### Self-Regulatory Organizations; National Securities Clearing Corporation; Notice of Filing of Proposed Rule Change To Amend the Membership Standards Required of Insurance Companies

January 13, 2005.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act"),<sup>1</sup> notice is hereby given that on October 26, 2004, the National Securities Clearing Corporation ("NSCC") filed with the Securities and Exchange Commission ("Commission") the proposed rule change described in Items I, II, and III below, which items have been prepared primarily by NSCC. The Commission is publishing this notice to solicit comments on the proposed rule change from interested parties.

#### I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The purpose of this proposed rule change is to amend NSCC's Rules regarding the membership standards required of insurance companies.

#### II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, NSCC included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. NSCC has prepared summaries, set forth in sections (A), (B), and (C) below, of the most significant aspects of these statements.<sup>2</sup>

##### (A) Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

The proposed rule change amends NSCC's Rules regarding the membership standards required of insurance companies. As a general matter, the current membership standards for insurance companies are based in part on ratings provided by rating agencies. The proposed rule replaces these standards in relevant part by a measure

<sup>1</sup> 15 U.S.C. 78s(b)(1).

<sup>2</sup> The Commission has modified the text of the summaries prepared by NSCC.

based on Risk-Based Capital ("RBC") ratios.

The RBC model was developed by the National Association of Insurance Commissioners ("NAIC"), the organization of insurance regulators from the 50 states, the District of Columbia, and the four U.S. territories. State insurance regulators created the NAIC in 1871 to address the need to coordinate regulation of multistate insurers. The NAIC has developed uniform financial reporting by insurance companies and an RBC model to measure the minimum amount of capital that an insurer needs to support its overall business operations based on the degree of risk taken by the insurer and to protect the policyholders and business against adverse developments. Currently substantially all of the U.S. state insurance jurisdictions have adopted laws, regulations, or bulletins that are considered to be substantially similar to the NAIC's RBC for Insurers Model Act for life insurers.

The calculation of the RBC ratio is based on an insurer's Total Adjusted Capital ("TAC"). TAC is comprised primarily of capital plus surplus divided by a capital level determined by the RBC formula called the Authorized Control Level Risk-Based Capital ("ACL RBC"). The ACL RBC is comprised of asset risk, credit risk, underwriting risk, and business risk.

In general, state regulatory authorities require no corrective action so long as an insurance company maintains an RBC ratio over 200%. NSCC proposes that its membership requirement would be an RBC ratio of 250%, as derived from financial data reported by the insurance company to its state regulatory authority as part of its annual statutory financial statements. All current insurance company members of NSCC would meet the proposed 250% requirement.

Insurance companies would be required to submit the relevant data to NSCC on an annual basis at which time their compliance with the minimum standard will be reviewed by NSCC. In addition, any insurance company that fell below the 250% ratio during the course of the year would be required to notify NSCC immediately of this fact.

NSCC believes that the RBC standard is preferable to the existing NSCC requirements of using third-party ratings for the following reasons. First, the RBC standard accurately represents the financial strength of an insurer because the RBC system is based on statutory financial statements, taking into account asset risks, credit risks, underwriting and pricing risks, and the risk that the return from assets are not aligned with

the requirements of the company's liabilities and general business risk. Second, the RBC standard is the industry benchmark. Third, the information needed to calculate the RBC ratio is readily available in the statutory financial statements, which are to be provided to NSCC annually.

NSCC's membership standards are intended to protect NSCC and its members from undue risk while providing broad access to NSCC services. Because the proposed rule change relates to the standards of financial responsibility applicable to insurance companies, NSCC believes that it will assist NSCC in assuring the safeguarding of funds and securities in NSCC's control or for which NSCC is responsible. For this reason, NSCC believes the proposed rule change is consistent with the requirements of Section 17A of the Act<sup>3</sup> and the rules and regulations thereunder applicable to NSCC.

#### *(B) Self-Regulatory Organization's Statement on Burden on Competition*

NSCC believes that the proposed rule change will not impose a burden on competition not necessary or appropriate in furtherance of the purposes of the Act.

#### *(C) Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants or Others*

No written comments relating to the proposed rule change have been solicited or received. NSCC will notify the Commission of any written comments received by NSCC.

### **III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action**

Within thirty-five days of the date of publication of this notice in the **Federal Register** or within such longer period (i) as the Commission may designate up to ninety days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the self-regulatory organization consents, the Commission will:

(A) By order approve such proposed rule change or

(B) Institute proceedings to determine whether the proposed rule change should be disapproved.
