AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice; request for comments.

SUMMARY: We (Fish and Wildlife Service, Service) have sent a request to OMB to renew approval for our information collection associated with the Neotropical Migratory Bird Conservation Act (NMBCA) grants program. The current OMB control number for this information collection is 1018-0113, which expires November 30, 2005. We have requested that OMB renew approval of this information collection for a 3-year term.

DATES: You must submit comments on or before December 23, 2005.

ADDRESSES: Send your comments and suggestions on this information collection renewal to the Desk Officer for the Department of the Interior at OMB-OIRA at (202) 395-6566 (fax) or *OIRA_DOCKET@OMB.eop.gov* (e-mail). Please provide a copy of your comments to Hope Grey, Information Collection Clearance Officer, Fish and Wildlife Service, MS 222-ARLSQ, 4401 North Fairfax Drive, Arlington, VA 22203 (mail); (703) 358-2269 (fax); or *hope_grey@fws.gov* (e-mail).

FOR FURTHER INFORMATION CONTACT: To request a copy of the information collection requirements or explanatory information, contact Hope Grey, Information Collection Clearance Officer, at the above addresses or by telephone at (703) 358-2482.

SUPPLEMENTARY INFORMATION: OMB regulations at 5 CFR 1320, which implement the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*), require that interested members of the public and affected agencies have an opportunity to

comment on information collection and recordkeeping activities (see 5 CFR 1320.8(d)). Federal agencies may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

On July 29, 2005, we published in the **Federal Register** (70 FR 43900) a 60-day notice of our intent to request renewal of this information collection authority from OMB. In that notice, we solicited public comments for 60 days ending September 27, 2005. We did not receive any comments regarding this notice.

The NMBCA establishes a matching grants program to fund projects that promote the conservation of neotropical migratory birds in the United States, Latin America, and the Caribbean. The purposes of NMBCA are to: (1) Perpetuate healthy populations of neotropical migratory birds; (2) assist in the conservation of these birds by supporting conservation initiatives in the United States, Latin America, and the Caribbean; and (3) provide financial resources and foster international cooperation for those initiatives. Principal conservation actions supported by NMBCA are protection and management of neotropical migratory bird populations; maintenance, management, protection, and restoration of neotropical migratory bird habitat; research and monitoring; law enforcement; and community outreach and education.

Competing for grant funds involves applications from partnerships that describe in substantial detail project locations, project resources, future benefits, and other characteristics, to meet the standards established by the Fish and Wildlife Service and the requirements of NMBCA. The information collection for this program is part of a system of records covered by the Privacy Act (5 U.S.C. 552(a)).

Materials that describe the program and assist applicants in formulating project proposals are available on our Web site at <http://www.fws.gov/birdhabitat/>. Persons who do not have access to the website may obtain instructional materials by mail by contacting the Service's Division of Bird Habitat Conservation. There has been little change in the scope and general nature of these instructions since OMB first approved this information collection in 2002. Instructions assist applicants in formulating detailed project proposals for consideration by a panel of reviewers from the Fish and Wildlife Service. These instructional materials are the basis for this information collection request.

We publish notices of funding availability annually on the Grants.gov Web site (<http://www.grants.gov>) as well as in the Catalog of Federal Domestic Assistance (<http://cfda.gov>). We use information collected under this program to respond to such needs as audits, program planning and management, program evaluation, Government Performance and Results Act reporting, Standard Form 424 (Application for Federal Assistance), assistance awards, budget reports and justifications, public and private requests for information, data provided to other programs for databases on similar programs, congressional inquiries, and reports required by NMBCA.

If the information were not collected, we would have to eliminate the program because it would not be possible to determine eligibility and the relative worth of the proposed projects. Reducing the frequency of collection would only reduce the frequency of grant opportunities as the information collected is unique to each project proposal. Discontinuation of the program is not a viable option.

Title VIII of the Alaska National Interest Lands Conservation Act (16 U.S.C. 3101 *et seq.*) designates the Departments of the Interior and Agriculture as the key agencies responsible for implementing the subsistence priority on Federal public lands for rural Alaska residents. These responsibilities include the establishment of Federal Subsistence Regional Advisory Councils (Regional Councils) with members from each region who are knowledgeable about the

region and subsistence uses of the public lands. Membership on the Regional Councils includes subsistence use and sport/commercial use representatives and is one way for the public to become involved in the Federal regulatory process.

Based upon recommendations of the Federal Subsistence Board, the Secretary of the Interior, with the concurrence of the Secretary of Agriculture, appoints members to the Regional Councils. One-third of the seats on the Regional Councils become vacant each year. Additional vacancies may occur due to resignations or deaths of sitting members. We recruit and screen applicants to help the Federal Subsistence Board develop a list of recommended appointments for consideration by the Secretary of the Interior. We use three forms to collect information during the recruitment process: FWS Form 3-2321 (Regional Council Membership Application/ Nomination), FWS Form 3-2322 (Regional Council Candidate Interview), and FWS Form 3-2323 (Regional Council Reference/Key Contact Interview). We no longer use Form 7-FW5 (Federal Subsistence Regional Advisory Council Membership Nomination).
