

agreed to participate, the crisis workers will be provided an Informed Consent Form describing the purpose and procedures of the monitoring process and inviting them to participate. The Form also informs workers that they are free to participate or not, that they may

withdraw their acceptance to participate at any time, and that if they choose not to participate, no calls during their shift will be monitored.

A total of 180 calls will be monitored during the first 5-month period. One year later, an additional 360 calls will

be monitored, yielding a total of 540 monitored calls.

The estimated annual response burden to collect this information is as follows:

Instrument	Number of respondents	Responses per respondent	Burden per response (Hrs).	Total burden
Informed Consent Form	360	1	.07	26
National Suicide Prevention Lifeline Call Monitoring Form	6	60	.33	238
Totals	366			264

Written comments and recommendations concerning the proposed information collection should be sent by December 28, 2005 to: SAMHSA Desk Officer, Human Resources and Housing Branch, Office of Management and Budget, New Executive Office Building, Room 10235, Washington, DC 20503; due to potential delays in OMB's receipt and processing of mail sent through the U.S. Postal Service, respondents are encouraged to submit comments by fax to: 202-395-6974.

Agency Information Collection Activities: Submission for OMB Review; Comment Request

Periodically, the Substance Abuse and Mental Health Services Administration

(SAMHSA) will publish a summary of information collection requests under OMB review, in compliance with the Paperwork Reduction Act (44 U.S.C. Chapter 35). To request a copy of these documents, call the SAMHSA Reports Clearance Officer on (240) 276-1243.

Project: The Evaluation of Networking Suicide Prevention Hotlines Follow-Up Assessment—NEW

The Substance Abuse and Mental Health Services Administration's (SAMHSA), Center for Mental Health Services has funded a National Suicide Prevention Lifeline Network, consisting of a single toll-free telephone number that routes calls from anywhere in the United States to a network of local crisis centers. In turn, the local centers link callers to local emergency, mental health, and social service resources.

With input from multiple experts in the field of suicide prevention, the project created a telephone interview survey to collect data on follow-up assessments of consenting individuals calling the Lifeline network. The "Evaluation of Networking Suicide Prevention Hotlines Follow-Up Assessment" will provide an empirical evaluation of crisis hotline services,

necessary to optimize public health efforts to prevent suicidal behavior.

Seven hundred and twenty callers will be recruited from seven of the approximately 100 crisis hotline centers that participate in the Lifeline network. Trained crisis workers will conduct the follow-up telephone assessment ("Crisis Hotline Telephone Follow up Assessment") within one month of the initial call. Assessments will be conducted only one time for each client. Strict measures to ensure confidentiality will be followed.

The resulting data will measure (1) suicide risk status at the time of and since the call, (2) depressive symptoms at follow-up, (3) service utilization since the call, (4) barriers to service access, and (5) the clients perception of the efficacy of the hotline intervention. The estimated annual response burden to collect this information is as follows:

Instrument	Number of respondents	Responses/ respondent	Burden/ responses (hours)	Annual burden (hours)
Initial request script	720	1	.08	57.6
Followup consent script	720	1	.17	122.4
Crisis Hotline Telephone Follow-up Assessment	720	1	.58	417.6
Total	720			598
