SUPPLEMENTARY INFORMATION: The Potato Research and Promotion Act of 1971, as amended, (7 U.S.C. 2611 *et seq.*) authorized the Potato Research and Promotion Plan which is industry operated and funded, with oversight by USDA. The Potato Research and Promotion Plan objective is to carry out an effective and continuous coordinated program of research, development, advertising, and promotion designed to strengthen potatoes' competitive position, and to maintain and expand domestic and foreign markets for potatoes and potato products.

The Potato Research and Promotion Plan (7 CFR part 1207) became effective on March 9, 1972 and was implemented on September 15, 1972 when assessments began. The plan was amended in May 1984, to increase the maximum assessment rate from 1 cent per hundredweight to 0.5 percent of the previous 10-year average price received by growers.

Assessments under this program are used to fund promotional campaigns and to conduct research in the areas of U.S. marketing, and international marketing and to enable it to exercise its duties in accordance with the Plan.

The Potato Research and Promotion Plan is administered by the National Potato Promotion Board (Board), which is composed of producer members, importer members, and one public member appointed by the Secretary of Agriculture from nominations submitted by eligible groups. Producer membership on the Board is based upon potato production within each State. Importer members, limited to five, are based upon the amount of potatoes, potato products, and seed potatoes imported into the U.S. All members serve terms of three years.

AMS published in the **Federal Register** (63 FR 8014; February 18, 1999) its plan to review certain regulations, including the Potato Research and Promotion Plan, (conducted under the Potato Research and Promotion Act), under criteria contained in Section 610 of the Regulatory Flexibility Act (RFA; 5 U.S.C. 601-612). The plan was updated in the **Federal Register** on August 14, 2003 (68 FR 48574). Because many AMS regulations impact small entities, AMS decided, as a matter of policy, to review

certain regulations which, although they may not meet the threshold requirement under section 610 of the RFA, warrant review. Accordingly, this notice and request for comments is made for the Potato Research and Promotion Plan.

The purpose of the review is to determine whether the Potato Research and Promotion Plan should be continued without change, amended, or rescinded (consistent with the objectives of the Potato Research and Promotion Act of 1971) to minimize the impacts on small entities. AMS will consider the continued need for the Potato Research and Promotion Plan; the nature of complaints or comments received from the public concerning the Potato Research and Promotion Plan; the complexity of the Potato Research and Promotion Plan; the extent to which the Potato Research and Promotion Plan overlaps, duplicates, or conflicts with other Federal rules, and, to the extent feasible, with State and local regulations; and the length of time since the Potato Research and Promotion Plan has been evaluated or the degree to which technology, economic conditions, or other factors have changed in the area affected by the Potato Research and Promotion Plan.

Written comments, views, opinions, and other information regarding the Potato Research and Promotion Plan's impact on small businesses are invited.

Dated: December 8, 2005.

Administrator, Agricultural Marketing Service.

SUPPLEMENTARY INFORMATION: The Mushroom Promotion, Research, and Consumer Information Act of 1990, (7 U.S.C. 6101 *et seq.*) authorized the Mushroom Promotion, Research, and Consumer Information Program which is industry operated and funded, with oversight by USDA. The program's objective is to carry out an effective, continuous, and coordinated program of promotion, research, consumer information, and industry information designed to strengthen the mushroom industry's position in the marketplace, maintain and expand existing markets and uses for mushrooms, develop new markets and uses for mushrooms, and to carry out programs, plans, and projects designed to provide maximum benefits to the mushroom industry.

The program became effective on January 8, 1993, when the Mushroom Promotion, Research, and Consumer Information Order (7 CFR part 1209) was issued. Assessments began in 1993 at the rate of 0.0025 cents per pound and have fluctuated from 0.0010 to

0.0045 cents per pound. The current rate is 0.0024 cents per pound.

Assessments under this program are used to fund retail category management, research concerning nutritional attributes of mushrooms, foodservice training, and industry information and to enable it to exercise its duties in accordance with the Order.

The program is administered by the Mushroom Council (Council) which is composed of producers and may include importers, appointed by the Secretary of Agriculture from nominations submitted by eligible producers or importers. Producer membership on the Board is based upon mushroom production within each of four predestinated geographic regions within the U.S. and a fifth region representing importers, when imports, on average, equal or exceed 35,000,000 pounds of mushrooms annually. All members serve terms of three years.

FEDERAL ELECTION COMMISSION

11 CFR Part 109

[Notice 2005-28]

Coordinated Communications

AGENCY: Federal Election Commission.

ACTION: Notice of proposed rulemaking.

SUMMARY: The Federal Election Commission requests comment on proposed revisions to its regulations regarding communications that have been coordinated with Federal candidates and political party committees. The Commission's current rules set out a three-prong test for determining whether a communication is "coordinated" with, and therefore an in-kind contribution to, a Federal candidate or a political party committee. In *Shays v. FEC*, the Court of Appeals invalidated one aspect of the so-called content prong of the coordinated communications test, because the court believed that the Commission had not provided adequate explanation and justification for the current rules under the Administrative Procedure Act. To comply with the decision of the Court of Appeals, and to address other issues involving the coordinated communication rules, the Commission is issuing this Notice of Proposed Rulemaking. No final decision has been made by the Commission on the issues presented in this rulemaking. Further information is provided in the supplementary information that follows.

DATES: Comments must be received on or before January 13, 2006. The Commission will hold a hearing on the proposed rules on January 25 or 26, 2006, or both at 9:30 a.m. Anyone wishing to testify at the hearing must file written comments by the due date and must include a request to testify in the written comments.

ADDRESSES: All comments must be in writing, must be addressed to Mr. Brad C. Deutsch, Assistant General Counsel, and must be submitted in either e-mail, facsimile, or paper copy form. Commenters are strongly encouraged to submit comments by e-mail or fax to
