

Minutes of the May 20, 2002 meeting of the FPKI LPWG

John Cornell led a discussion on redrafting the liability language, which resulted in a new consensus statement. Following the meeting he distributed the new language to the LPWG and the Policy Authority. Jennie Plante suggested that we lay out the responsibilities of interoperating parties – one to another – and Gene McDowell gave her a copy of the handwritten notes he presented at the January 28, 2002 LPWG meeting.

Mark Guigere and Art Purcell presented the strawman outline of the Electronic Records Management guidance, and a short discussion followed. Mark asked that comments be sent to him and Art by COB May 28, 2002.

There was a short discussion about the ABA PAG digest that was done for DOD. Comments are always welcome, but there isn't any particular request for comments at this time.

DOD has 13 CP changes about to go to the PA, for mapping to the Bridge CP. NASA has one significant change to make.

Rebecca Kahn informed the group that the LPWG is being asked to produce a draft Memorandum of Agreement between the PA and a cross-certifying entity.

Attendance:

Francee Levene, DOD/NSA
John Cornell, GSA/OGC
Jennie Plante, DOJ/EOUSA
