¹ The deadline for electronic transactions is 11:59 p.m. on September 30, 2005. Transmissions must be completed and accepted by 12 midnight to meet the deadline. If transmissions are started before 12 midnight but are not completed until after 12 midnight, those transmissions will not meet the deadline. In addition, any transmission picked up on or just prior to the deadline date that is rejected may not be reprocessed because the deadline will have passed by the time the user gets the information notifying him/her of the rejection.

² Applies only to students enrolled in clock-hour and nonterm credit-hour educational programs.

Note: The COD System must accept origination data for a student from an institution before it accepts disbursement information from the institution for that student. Institutions may submit origination and disbursement data for a student in the same transmission. However, if the origination data is rejected, the disbursement data is rejected.

The Commission reserves the right to require a further showing that neither public nor private interests will be adversely affected by continued approval of Illinois Power's issuances of securities or assumptions of liability.
