Title: 7 CFR Part 1724, Electric Engineering, Architectural Services and Design Policies and Procedures.

OMB Control Number: 0572-0118.

Type of Request: Extension of a previously approved collection.

Abstract: The rule requires borrower to use three RUS contract forms under certain circumstances. The use of standard forms helps assure RUS that:

- Appropriate standards and specifications are maintained;
- RUS loan security is not adversely affected; and
- Loan and loan guarantee funds are used effectively and for the intended purpose.

Standardization of forms by RUS results in substantial savings to:

- Borrowers—If standard forms were not used, borrowers would need to

prepare their own documents at significant expense; and

- Government—If standard forms were not used, each document submitted by a borrower would require extensive and costly review by both RUS and the Office of General Counsel.

Estimate of Burden: Public reporting burden for this collection of information is estimated to average 1 hour per response.

Respondents: Businesses, not-for-profit institutions and others.

Estimated Number of Respondents: 155.

Estimated Number of Responses per Respondent: 1.

Estimated Total Annual Burden on Respondents: 155 hours.

Copies of this information collection can be obtained from MaryPat Daskal, Program Development and Regulatory Analysis, at (202) 720-7853. Fax: (202) 720-4120.

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Title: RUS Specification for Quality Control and Inspection of Timber Products.

OMB Control Number: 0572-0076.

Type of Request: Extension of a currently approved collection.

Abstract: 7 CFR 1728.202 and RUS Bulletin 1728H-702 describe the responsibilities and procedures pertaining to the quality control by producers and pertaining to inspection of timber products produced in accordance with RUS specifications. In order to ensure the security of loan funds, adequate quality control of timber products is vital to loan security on electric power systems where hundreds of thousands of wood poles and cross-arms are used. Since RUS and its borrowers do not have the expertise or manpower to quickly determine imperfections in the wood products or their preservatives treatments, they must obtain service of an inspection agency to insure that the specifications for wood poles and cross-arms are being met.

Respondents: Not-for-profit institutions; Business or other for profit.

Estimated Number of Respondents: 700.

SUPPLEMENTARY INFORMATION:

Background

On May 10, 2005, the Department of Commerce ("the Department") published the preliminary results of the administrative review of the antidumping duty order on oil country tubular goods ("OCTG") from Mexico covering the period August 1, 2003, through July 31, 2004. *See Certain Oil Country Tubular Goods from Mexico; Preliminary Results of Antidumping Duty Administrative Review and Partial Rescission*, 70 FR 24517 (May 10, 2005). The final results for the antidumping duty administrative review of OCTG from Mexico are currently due no later than September 7, 2005.

Extension of Time Limits for Final Results

Section 751(a)(3)(A) of the Tariff Act of 1930, as amended by the Uruguay

Round Agreements Act ("the Act"), requires the Department to issue the preliminary results of an administrative review within 245 days after the last day of the anniversary month of an antidumping duty order for which a review is requested and issue the final results within 120 days after the date on which the preliminary results are published. However, if it is not practicable to complete the review within the time period, section 751(a)(3)(A) of the Act allows the Department to extend these deadlines to a maximum of 365 days and 180 days, respectively.

Due to the complexity of issues present in this administrative review, such as universe of sales issues and constructed value calculations, as well as the Department's current demands of other proceedings, the Department has determined that it is not practicable to complete this review within the original time period. Accordingly, the Department is extending the time for completion of the final results, until no later than October 7, 2005, in accordance with section 751(a)(3)(A) of the Act.

We are issuing and publishing this notice in accordance with sections 751(a)(1) and 777(i)(1) of the Act.
