DEPARTMENT OF LABOR

Employment and Training Administration

Proposed Information Collection Request Submitted for Public Comment and Recommendations; Data Collection and Reporting for Wagner-Peyser Act Funded Public Labor Exchange and Veterans' Employment and Training Service Funded Labor Exchange

ACTION: Notice.

SUMMARY: The Department of Labor, as part of its continuing effort to reduce paperwork and respondent burden, conducts a pre-clearance consultation program to provide the general public and Federal agencies with an opportunity to comment on proposed and/or continuing collections of information in accordance with the Paperwork Reduction Act of 1995 (PRA95) (44 U.S.C. 3506(c)(2)(A)). This program helps to ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed. The Employment and Training Administration (ETA) and the Veterans' Employment and Training Service (VETS) are soliciting comments on revised reporting requirements for the Labor Exchange Reporting System (LERS). These changes are necessary to reflect program and service changes implemented under the Jobs for Veterans Act and include data elements necessary for assessing state progress against a set of common performance measures beginning July 1, 2005.

DATES: Submit comments on or before September 12, 2005.

SUPPLEMENTARY INFORMATION:

I. Background

States submit quarterly performance data for the Wagner-Peyser-funded public labor exchange services through ETA 9002 reports and for Veterans' Employment and Training Services (VETS)-funded labor exchange services through VETS 200 reports. The Employment and Training (ET) Handbook No. 406 contains the report forms and provides instructions for completing these reports. The ET Handbook No. 406 contains a total of eight reports (ETA 9002 A, B, C, D, E; VETS 200 A, B, C). The ETA 9002 and VETS 200 reports collect data on individuals who receive core employment and workforce information services through the public labor exchange and VETS-funded labor exchange of the states' One-Stop delivery systems.

In 2001, under the President's Management Agenda, the Office of Management and Budget (OMB) and other Federal agencies developed a set of common performance measures to be applied to certain Federally-funded employment and training programs with similar strategic goals. As part of this initiative, ETA initially issued Training and Employment Guidance Letter (TEGL) 15-03 and has more recently issued TEGL 28-04, Common Measures Policy, which rescinded TEGL 15-03 and reflected updates to the policy. The value of implementing common measures is the ability to describe in a similar manner the core purposes of the workforce system—how many people found jobs; whether they kept their jobs; and what their earnings were. Multiple sets of performance measures have burdened states and grantees, as they are required to report performance outcomes based on varying definitions and methodologies. By minimizing the different reporting and performance requirements, implementing a set of common performance measures can facilitate the integration of service delivery, reduce barriers to cooperation among programs, and enhance the ability to assess the effectiveness and impact of the workforce investment system, including the performance of the system in serving individuals facing significant barriers to employment.

The common measures are an integral part of ETA's performance accountability system, and ETA will continue to collect from grantees the
