## MASS MEDIA BUREAU MULTIPOINT DISTRIBUTION SERVICE APPLICATIONS

**Report No. D-1042**

**May 12, 1999**

By the Chief, Mass Media Bureau:

IN RE: APPLICATIONS ACCEPTED FOR FILING

The applications listed herein, upon initial review, appear to be complete and have been accepted for filing. The Commission reserves the right to return or dismiss any of these applications, if upon further examination, it is determined they are defective or not in substantial compliance with Commission Rules. See 47 C.F.R. Sections 21.20 and 21.26.

Final action will not be taken on any of these applications until the expiration of a period of 30 days following the date of this notice, except for microwave radio applications not requiring a 30-day notice period (see Section 309(c) of the Communications Act), or as otherwise noted. See 47 C.F.R. Sections 1.4 and 21.27. Unless specified to the contrary, comments or petitions may be filed concerning these applications within 30 days of the date of this notice, with the limited exception under 47 C.F.R. Section 21.902(i). See 47 C.F.R. Sections 21.30 and 21.902(i).

With regard to mutual exclusivity of these Multipoint Distribution Service applications, see 47 C.F.R. Sections 21.31. and 21.914. With limited exceptions, an application which is subsequently amended by a major change will be considered as a newly filed application for purposes of the "cut-off" rule. See 47 C.F.R. Sections 21.23 and 21.31.

For information on other microwave facilities, refer to Public Notices released by the Wireless Bureau.

AIR HAZARDS CAUSED BY IMPROPERLY MARKED  
& LIGHTED COMMUNICATIONS TOWERS

The Federal Communications Commission (FCC) has received reports of aircraft collisions with unlighted or improperly lighted communications towers. Accident reports and studies reveal that radio tower owners and FCC licensees need to be more aware of the need for conformance to FCC issued obstruction marking and lighting specifications.

When radio towers are greater than 200 feet in height and/or near an airport, the owner or licensee must apply for FCC issued obstruction marking and lighting specifications. During construction, temporary warning lights must be installed at the top of the structure, and at each level where permanent lights will be installed.

Licensees should insure that their towers are marked and lighted in accordance with the specifications on their permits. Daily inspections must be made to ensure that the lights are on and operating properly. Any variances must be approved by the FCC's Antenna Survey Branch (ASB).

If a light outage occurs which cannot be corrected within thirty minutes, the local FAA Flight Service Station (FSS) must be contacted immediately. The FSS will issue a warning to pilots. The FSS must also be notified when the lights are again operational so the warning may be rescinded.

The FCC intends to continue its close scrutiny of radio towers. Appropriate action, including issuance of fines and/or revocation of the station license, will be taken against the user or owner of any unauthorized or improperly marked radio tower.

MASS MEDIA BUREAU

IN RE: APPLICATION FOR TRANSFER OF CONTROL OF AUTHORIZATIONS ACCEPTED FOR FILING:  
 File No. 50293-CM-TC(157)- 99. The following application for authority to transfer control of the following authorizations, held by entities controlled by CAI Wireless Systems, Inc., from CAI Wireless Systems, Inc. to MCI WorldCom, Inc. has been accepted for filing. The Commission, however, reserves the right to return this application if, upon further examination, it determines that the application is defective or not in conformance with the Commission's regulations and policies. This list also includes developmental authorizations, pending applications for new stations and pending applications seeking consent to assign station licenses.

Multipoint Distribution Service  
ACCEPTED FOR FILING

May 12, 1999

D-1042

**CORRECTION:**

File No. BMDAL990319VS, is an application for assignment of MDS station KNSD251 at Shaw Butte, AZ, from Alda Gold, Inc. to PCTV Gold, Inc. which appeared on Public Notice, Report No. D-1041, May 5, 1999, as accepted for filing. The Public Notice inadvertently listed Basic Trading Area B347 at Shaw Butte, AZ, as also being assigned. Only MDS station KNSD251 is being assigned.

Forfeiture Date: 06/07/1995  
Licensee failed to file a certification of completion of construction on FCC Form 494A.

ACTIONS TAKEN ON APPLICATIONS FOR TRANSFER OF CONTROL OR ASSIGNMENT OF LICENSE: CORRECTION:

File No. BMDTC971205BR. On October 20, 1998, an application for *inter alia*, the Basic Trading Areas ("BTA") and MDS Stations for Beckley, West Virginia (B035 and KNSC377); Bluefield, West Virginia (B048 and KNSC359); and Williamson, West Virginia (B474 and KNSC378) seeking authority to transfer control from Wireless Ventures L.L.C. to Wireless One, Inc. was found to be in the public interest. (*see Public Notice*, October 22, 1998). The inclusion of the Beckley, Bluefield and Williamson, West Virginia BTAs and affiliated stations was inadvertent; control of the above-referenced BTAs and MDS stations remains with the authorization holder/licensee Wireless Ventures of West Virginia, Inc. (*see Public Notice*, September 9, 1997).
