

OFFICE OF MANAGEMENT AND BUDGET

Subject: Public Availability of Fiscal Year 2007 Agency Inventories under the Federal Activities Inventory Reform Act.

Agency: Office of Management and Budget
Executive Office of the President

Action: Notice of Public Availability of Agency Inventory of Activities That Are Not Inherently Governmental and of Activities That Are Inherently Governmental.

Summary: The Federal Activities Inventory Reform (FAIR) Act, Public Law 105-270, requires agencies to develop inventories each year of activities performed by their employees that are not inherently governmental – i.e., inventories of commercial activities. The FAIR Act further requires OMB to review the inventories in consultation with the agencies and publish a notice of public availability in the *Federal Register* after the consultation process is completed. In accordance with the FAIR Act, OMB is publishing this notice to announce the availability of inventories from the agencies listed below. These inventories identify both commercial activities and activities that are inherently governmental.

This is the first release of the FAIR Act inventories for FY 2007. Interested parties who disagree with the agency's initial judgment may present a challenge to the agency regarding the inclusion or the omission of an activity on the list of activities that are not inherently governmental within 30 working days and, if not satisfied with this review, may appeal to a higher level within the agency.

The Office of Federal Procurement Policy has made available a FAIR Act User's Guide through its Internet site: <http://www.whitehouse.gov/omb/procurement/fair-index.html>. This User's Guide will help interested parties review FY 2007 FAIR Act inventories.
