**SUPPLEMENTARY INFORMATION:** The subject permit is requested under the authority of the Marine Mammal Protection Act of 1972, as amended (MMPA; 16 U.S.C. 1361 *et seq.*), the Regulations Governing the Taking and Importing of Marine Mammals (50 CFR part 216), and the Fur Seal Act of 1966, as amended (16 U.S.C. 1151 *et seq.*).

This research project is designed to remotely investigate atsea interactions between northern fur seals and ships, particularly the impact of commercial fishing vessels on the northern fur seals. Annually, ten lactating female northern fur seals from the Pribilof Islands in Alaska will be captured, measured, outfitted with datalogging instrumentation, and released. The individuals will be tracked and recaptured, the datalogger removed and the animals subsequently released. Additionally, authorization for Level B Harassment of northern fur seals is requested for 50 pups, 50 breeding females, 25 mature males, and 50 immature males, annually. These activities will be authorized over five years. The results of this research will provide important information for management decisions regarding northern fur seals.

In compliance with the National Environmental Policy Act of 1969 (42 U.S.C. 4321 *et seq.*), an initial determination has been made that the activity proposed is categorically excluded from the requirement to prepare an environmental assessment or environmental impact statement.
