

would include, but not be limited to: (1) Consumers that telephone the Hotline or access the CPSC web-site via the internet to report product-related incidents, or to obtain information; (2) consumers, industry members, or others that contact the National Injury Information Clearinghouse for information; (3) State representatives who work with CPSC on cooperative programs; (4) firms that use CPSC's Fast-Track Product Recall Program to report and simultaneously propose satisfactory product recall plans; and (5) small businesses that seek information or assistance from the CPSC's small business ombudsman.

These customer surveys are used by the CPSC Office of Planning and Evaluation to prepare sections of the agency's annual performance plan and accountability report in accordance with the Government Performance and Results Act of 1993. The information from the surveys will provide measures of the quality and effectiveness of agency efforts related to three goals in its strategic plan: informing the public, industry services, and customer satisfaction. If this information is not collected, the Commission would not have the means to measure its effectiveness in providing useful services to consumers and others, and lack information necessary to guide program development.

B. Estimated Burden

The surveys will be conducted by in-house staff through internet, telephone, or in writing. The CPSC staff may: (1) Conduct customer service follow-up queries with a sample of telephone Hotline callers; (2) survey a sample of firms that use Fast-Track Product Recall and Ombudsman Programs to assess their views and suggestions for improvements in the services aspects of the program; (3) conduct a sample survey of state partners and customers of the National Injury Information Clearinghouse; and (4) obtain Web-base survey information on customer satisfaction with the agency's web site. Fewer than 6 customer surveys or information collection activities a year would be conducted using this clearance.

The Commission staff estimates the number of annual respondents to be about 745. The anticipated sources and respondents for surveys conducted over a three-year period include:

Hotline	1,000
National Injury Information Clearinghouse	300
Small Businesses	200
State Partners	54
Web Site	500

Fast Track Product Recall Program	180
Total	2,234

The average time needed for each response is estimated at 4 minutes. Thus, the annual time burden would be about 2,980 (4 x 745) minutes or 50 hours. Using \$23.41 an hour (the average hourly wage for all private industry workers, according to the June 2004 Department of Labor private industry employer compensation costs) times 50 hours, the cost would be negligible (a total of about \$1,170 per year).

C. Requests for Comments

The Commission solicits written comments from all interested persons about the proposed extension. The Commission specifically seeks information relevant to the following topics:

- Whether the surveys described above are necessary for the proper performance of the Commission's functions, including whether the information would have practical utility;
- Whether the estimated burden of the proposed collections are accurate;
- Whether the quality, utility, and clarity of the information to be collected could be enhanced; and
- Whether the burden imposed by the collection of information could be minimized by use of automated, electronic or other technological collection techniques, or other forms of information technology.

Secretary, Consumer Product Safety Commission.

SUPPLEMENTARY INFORMATION:

I. Background

The Corporation for National and Community Service supports programs that provide opportunities for individuals who want to become involved in national service. The service opportunities cover a wide range of activities over varying periods of time. After successfully completing a period of national service in an AmeriCorps project, an AmeriCorps member receives an "education award" that can be used to repay qualified student loans or pay for post secondary educational expenses. This award is an amount of money set aside in the member's "account" in the National Service Trust Fund. Members have seven years in which to draw against any unused balance.

By law, during the period of time the AmeriCorps members are participating in national service, they are eligible for a postponement (specifically, a forbearance) on the repayment of many federal student loans, and possibly on other student loans they have as well. The purpose of this is to temporarily suspend their obligation to make loan payments while they are earning a minimal living allowance in their national service position. Interest may continue to accrue during this period, but payments are not required.

In order for a loan holder to make a decision regarding the granting of certain types of forbearances and deferments, it requires proof that the borrower meets the criteria for obtaining the particular type of postponement. For example, for verification of military service or student status, certification made by an authorized military or school official attests that the conditions for the postponement are being met.

The purpose of the enclosed Forbearance Request for National Service Form is to provide AmeriCorps members a vehicle for requesting this forbearance. It also serves as a method for the participating programs to verify that the individual is serving in an approved national service position, thereby meeting the criteria for the mandatory forbearance based on national service.

II. Current Action

Currently, AmeriCorps members use an OMB-approved form titled Forbearance Request for National Service to obtain certification that they are eligible for forbearance based on their service. The form also serves as the borrower's official request to their loan

companies for forbearance. Only the loan holder can grant forbearance.

The current form has been adopted by many of the larger loan holders (e.g., Sallie Mae) and is given to their borrowers with the loan holders' own logo at the top of the forms. The form was originally developed with the assistance of representatives of several student loan associations. Having a separate form for forbearance based on AmeriCorps service clearly distinguishes it from forbearance requests based on one of the other conditions for which a borrower may be eligible—e.g., military service, employment in certain low income areas, or student status.

The Corporation for National and Community Service seeks to continue using this particular form, albeit in a revised version. Along with minor formatting changes, such as replacing boxes with lines for the member's name and SSN to enhance legibility, the one significant modification designates the authorized program official as the certifying official for this form, in place of the National Service Trust official. Program certifying officials currently certify member enrollments and exits, and authorize education awards. Certifying, including verifying member information, signing, and mailing takes one minute per form. As the estimate for the member to complete that portion of the form is generous, the changes impose no additional burden.

The Corporation seeks to continue using this particular form, albeit in a revised version. The current form is due to expire May 31, 2005.
