45.000 Scope of part.

This part prescribes policies and procedures for providing Government property to contractors, contractors'

use and management of Government property, and reporting, redistributing, and disposing of contractor inventory. It does not apply to providing property under any statutory leasing authority, except as to non-Government use of plant equipment under 45.407; to property to which the Government has acquired a lien or title solely because of partial, advance, or progress payments; or to disposal of real property.

Subpart 45.1—General

45.101 Definitions.

(a) *Contractor-acquired property*, as used in this part, means property acquired or otherwise provided by the contractor for performing a contract and to which the Government has title.

Government-furnished property, as used in this part, means property in the possession of, or directly acquired by, the Government and subsequently made available to the contractor.

Government property means all property owned by or leased to the Government or acquired by the Government under the terms of the contract. It includes both Government-furnished property and contractor-acquired property as defined in this section.

Plant equipment, as used in this part, means personal property of a capital nature (including equipment, machine tools, test equipment, furniture, vehicles, and accessory and auxiliary items) for use in manufacturing supplies, in performing services, or for any administrative or general plant purpose. It does not include special tooling or special test equipment.

Property, as used in this part, means all property, both real and personal. It includes facilities, material, special tooling, special test equipment, and agency-peculiar property.

Real property, as used in this part, means land and rights in land, ground improvements, utility distribution systems, and buildings and other structures. It does not include foundations and other work necessary for installing special tooling, special test equipment, or plant equipment.

Special test equipment, as used in this part, means either single or multipurpose integrated test units engineered,
