22.404 Davis-Bacon Act wage determinations.

The Department of Labor is responsible for issuing wage determinations reflecting prevailing wages, including fringe benefits. The wage determinations apply only to those laborers and mechanics employed by a contractor upon the site of the work including drivers who transport to or from the site materials and equipment used in the course of contract operations. Determinations are issued for different types of construction, such as building, heavy, highway, and residential (referred to as rate schedules), and apply only to the types of construction designated in the determination.

22.404-1 Types of wage determinations.

(a) *General wage determinations.*

(1) A general wage determination contains prevailing wage rates for the types of construction designated in the determination, and is used in contracts performed within a specified geographical area. General wage determinations contain no expiration date and remain valid until modified, superseded, or canceled by a notice in the FEDERAL REGISTER by the Department of Labor. Once incorporated in a contract, a general wage determination normally remains effective for the life of the contract, unless the contracting officer exercises an option to extend the term of the contract (see 22.404-12).

These determinations shall be used whenever possible. They are issued at the discretion of the Department of Labor either upon receipt of an agency request or on the Department of Labor's own initiative.

(2) General wage determinations are published weekly in the Government Printing Office (GPO) document entitled "General Wage Determinations Issued Under the Davis-Bacon and Related Acts." Notices of general wage determinations are published in the FEDERAL REGISTER. General wage determinations are effective on the publication date of the notice or upon receipt of the determination by the contracting agency, whichever occurs first.

(3) The GPO publication is available for examination at each of the 50 Regional Government Depository Libraries and many other of the 1,400 Government Depository Libraries across the country.
