BILLING CODE 4000-01-P

DEPARTMENT OF EDUCATION

William D. Ford Federal Direct Loan Program

AGENCY: Department of Education.

ACTION: Notice of the annual updates to the Income Contingent Repayment (ICR) plan formula for 2003.

SUMMARY: The Secretary announces the annual updates to the ICR plan formula for 2003. Under the William D. Ford Federal Direct Loan (Direct Loan) Program, borrowers may choose to repay their student loans under the ICR plan, which bases the repayment amount on

the borrower's income, family size, loan amount, and interest rate. Each year, we adjust the formula for calculating a borrower's payment to reflect changes due to inflation. This notice contains the adjusted income percentage factors for 2003 and charts showing sample repayment amounts based on the adjusted ICR plan formula. It also contains examples of how the calculation of the monthly ICR amount is performed and a constant multiplier chart for use in performing the calculations. The adjustments for the ICR plan formula contained in this notice are effective from July 1, 2003 to June 30, 2004.

FOR FURTHER INFORMATION CONTACT: Don Watson, U.S. Department of Education, Room 092B1, UCP, 400 Maryland Avenue, SW., Washington, DC 20202-5400. Telephone: (202) 377-4008. If you use a telecommunications device for the deaf (TDD), you may call the Federal Information Relay Service (FIRS) at 1-800-877-8339.

Individuals with disabilities may obtain this document in an alternative format (e.g., Braille, large print, audiotape, or computer diskette) on request to the contact person listed in the preceding paragraph.

SUPPLEMENTARY INFORMATION: Direct Loan Program borrowers may choose to repay their Direct Loans under the ICR plan. The attachment to this notice provides updates to examples of how the calculation of the monthly ICR amount is performed, the income percentage factors, the constant multiplier chart, and charts showing sample repayment amounts.

We have updated the income percentage factors to reflect changes based on inflation. We have revised the income percentage factors table by changing the dollar amounts of the incomes shown by a percentage equal to the estimated percentage change in the Consumer Price Index for all urban consumers from December 2002 to December 2003. Further, we provide examples of monthly repayment amount calculations and two charts that show sample repayment amounts for single and married or head-of-household borrowers at various income and debt levels based on the updated income percentage factors.

The updated income percentage factors, at any given income, may cause a borrower's payments to be slightly lower than they were in prior years. This updated amount more accurately reflects the impact of inflation on a borrower's current ability to repay.

Program Authority: 20 U.S.C. 1087 *et seq.*

Dated: May 13, 2003.

Theresa S. Shaw,

Chief Operating Officer, Federal Student Aid.

Attachment—Examples of the Calculations of Monthly Repayment Amounts

Example 1. This example assumes you are a single borrower with \$15,000 in Direct Loans, the interest rate being charged is 8.25 percent, and you have an adjusted gross income (AGI) of \$33,042.

Step 1: Determine your annual payments based on what you would pay over 12 years using standard amortization. To do this, multiply your loan balance by the constant multiplier for 8.25 percent interest (0.131545). The constant multiplier is a factor used to calculate amortized payments at a given interest rate over a fixed period of time. (The 8.25 percent interest rate used in this example is the maximum interest rate that may be charged for all Direct Loans excluding Direct PLUS Loans and certain Direct PLUS Consolidation Loans; your actual interest rate may be lower. You can view the constant multiplier chart at the end of this notice to determine the constant multiplier that you should use for the interest rate on your loan. If your exact interest rate is not listed, use the next highest for estimation purposes.)

- $0.131545 \times \$15,000 = \$1,973.18$

Step 2: Multiply the result of Step 1 by the income percentage factor shown in the income percentage factors table that corresponds to your income and then divide the result by 100. (If your income is not listed in the income percentage factors table, calculate the applicable income percentage factor by following the instructions under the "Interpolation" heading later in this notice.)

- $88.77 \times \$1,973.18 \div 100 = \$1,751.59$

Step 3: Determine 20 percent of your discretionary income (your discretionary income is your AGI minus the HHS Poverty Guideline amount for your family size). Because you are a single borrower, subtract the poverty level for a family of one, as published in the **Federal Register** on February 7, 2003 (68 FR 6456), from your AGI and multiply the result by 20 percent:

- $\$33,042 - \$8,980 = \$24,062$
- $\$24,062 \times 0.20 = \$4,812.40$

Step 4: Compare the amount from Step 2 with the amount from Step 3. The lower of the two will be your annual payment amount. In this example, you will be paying the amount calculated under Step 2. To determine your monthly repayment amount, divide the annual amount by 12.

- $\$1,751.59 \div 12 = \145.97

Example 2. In this example, you are married. You and your spouse have a combined AGI of \$62,439 and are repaying your loans jointly under the ICR plan. You have no children. You have a Direct Loan balance of \$10,000, and your spouse has a Direct Loan balance of \$15,000. Your interest rate is 8.25 percent.

Step 1: Add your and your spouse's Direct Loan balances together to determine your aggregate loan balance:

- $\$10,000 + \$15,000 = \$25,000$

Step 2: Determine the annual payment based on what you would pay over 12 years using standard amortization. To do this, multiply your aggregate loan balance by the constant multiplier for 8.25 percent interest (0.131545). (The 8.25 percent interest rate used in this example is the maximum interest rate that may be charged for all Direct Loans excluding Direct PLUS Loans and certain

Direct PLUS Consolidation Loans; your actual interest rate may be lower. You can view the constant multiplier chart at the end of this notice to determine the constant multiplier that you should use for the interest rate on your loan. If your exact interest rate is not listed, use the next highest for estimation purposes.)

- $0.131545 \times \$25,000 = \$3,288.63$

Step 3: Multiply the result of Step 2 by the income percentage factor shown in the income percentage factors table that corresponds to your and your spouse's income and then divide the result by 100. (If your and your spouse's aggregate income is not listed in the income percentage factors table, calculate the applicable income percentage factor by following the instructions under the "Interpolation" heading later in this notice.):

- $109.40 \times \$3,288.63 \div 100 = \$3,597.76$

Step 4: Determine 20 percent of your discretionary income. To do this, subtract the poverty level for a family of two, as published in the **Federal Register** on February 7, 2003 (68 FR 6456), from your combined AGI and multiply the result by 20 percent:

- $\$62,439 - \$12,120 = \$50,319$
- $\$50,319 \times 0.20 = \$10,063.80$

Step 5: Compare the amount from Step 3 with the amount from Step 4. The lower of the two will be your annual payment amount. You and your spouse will pay the amount calculated under Step 3. To determine your monthly repayment amount, divide the annual amount by 12.

- $\$3,597.76 \div 12 = \299.81

Interpolation: If your income does not appear on the income percentage factors

table, you will have to calculate the income percentage factor through interpolation. For example, assume you are single and your income is \$25,000.

Step 1: Find the closest income listed that is less than your income of \$25,000 and the closest income listed that is greater than your income of \$25,000.

Step 2: Subtract the lower amount from the higher amount (for this discussion, we will call the result the "income interval"):

- $\$26,306 - \$22,108 = \$4,198$

Step 3: Determine the difference between the two income percentage factors that are given for these incomes (for this discussion, we will call the result, the "income percentage factor interval"):

- $80.33\% - 71.89\% = 8.44\%$

Step 4: Subtract from your income the closest income shown on the chart that is less than your income of \$25,000:

- $\$25,000 - \$22,108 = \$2,892$

Step 5: Divide the result of Step 4 by the income interval determined in Step 2:

- $\$2,892 \div \$4,198 = 0.6889$

Step 6: Multiply the result of Step 5 by the income percentage factor interval:

- $8.44\% \times 0.6889 = 5.8143\%$

Step 7: Add the result of Step 6 to the lower of the two income percentage factors used in Step 3 to calculate the income percentage factor interval for \$25,000 in income:

- $5.8143\% + 71.89\% = 77.70\%$ (rounded to the nearest hundredth)

The result is the income percentage factor that will be used to calculate the monthly repayment amount under the ICR plan.

BILLING CODE 4000-01-C

DEPARTMENT OF EDUCATION

Student Assistance General Provisions

AGENCY: Department of Education.

ACTION: Notice implementing a new electronic process (eZ-Audit) for submitting compliance and financial statement audits.

SUMMARY: The Secretary gives notice that on June 16, 2003, the Department will fully implement the eZ-Audit process under which an institution that participates, or seeks to participate, in the Federal student aid programs submits its compliance and financial statement audit information electronically. The Federal student aid programs are authorized under Title IV of the Higher Education Act of 1965, as amended (Title IV, HEA Programs). This notice applies to any compliance or financial statement audits that an institution is required to submit under 34 CFR 600.20(a) or (b) to begin or continue participating in the Title IV, HEA Programs, any financial statement audits required for an institution that undergoes a change in ownership resulting in a change in control as provided under 34 CFR 600.20(g), any compliance and financial statement audits that an institution is required to submit annually under 34 CFR 668.23, and any compliance and financial statement audits required of an institution that ceases to participate in the Title IV, HEA Programs as provided under 34 CFR 668.26(b).

Effective immediately, institutions may voluntarily begin using eZ-Audit to submit any required audits. Beginning on June 16, 2003, all institutions are required to use eZ-Audit for submitting electronically any required audit that is due on or after that date. However, if an institution is unable to use eZ-Audit to submit its first audit that is due on or after June 16, 2003, it should contact the person identified below to make alternative arrangements for submitting that audit.

FOR FURTHER INFORMATION CONTACT: Ti Baker, Management and Program Analyst, Schools Channel, Federal Student Aid, U.S. Department of Education, Union Center Plaza, 074G2, 830 First Street, Washington, DC 20202. Telephone: (202) 377-3156, Fax: (202) 275-5726, or via Internet: fsaezaudit@ed.gov.

If you use a telecommunications device for the deaf (TDD), you may call

the Federal Information Relay Service (FIRS) at 1-800-877-8339.

Individuals with disabilities may obtain this document in an alternative format (e.g., Braille, large print, audiotape, or computer diskette) on request to the program contact person listed under **FOR FURTHER INFORMATION CONTACT**.

SUPPLEMENTARY INFORMATION: eZ-Audit is a web-based process designed to facilitate the submission of compliance and financial statement audits, expedite the review of those audits by the Department, and provide more timely and useful information to institutions regarding the Department's review. This notice deals only with the procedures for submitting audits under the eZ-Audit process. More detailed information about other aspects of the eZ-Audit process is available under the Electronic Announcements section at <http://www.IFAP.ed.gov>.

Proprietary institutions are required to submit audits directly to the Department regardless of the reason those audits are required. Currently, all non-profit and public institutions are required to conduct and submit annual compliance and financial statement audits in accordance with Office of Management and Budget (OMB) Circular A-133. Under OMB Circular A-133, these institutions submit their annual audits to the Federal Audit Clearinghouse (Clearinghouse) that in turn provides copies to the Department and other Federal agencies. For any other audits that a non-profit or public institution is required to conduct under the Title IV, HEA Program regulations, those audits are submitted directly to the Department.

OMB Circular A-133 also provides that in response to a request from a Federal agency, non-profit and public institutions must submit their annual audits directly to that agency. Accordingly, the Department hereby requests non-profit and public institutions to submit copies of their OMB Circular A-133 annual audits directly to us through eZ-Audit. The Department makes this request to maximize the utility of eZ-Audit by establishing a uniform process under which all institutions submit any audit required under the Title IV, HEA Program regulations. We note that non-profit and public institutions whose annual audits are conducted in accordance with OMB Circular A-133 must continue to submit those audits to the Clearinghouse.

The Department will carefully monitor the utility of the eZ-Audit approach in identifying fraud and

reducing error in Federal student aid programs and improving the validity and reliability of the data reported. The Department will also ensure that it minimizes the burden associated with submitting audits under this approach.

After completing the first cycle of audits under this approach, the Department will implement any reforms necessary to enhance the utility of the data it receives and reduce burden on institutions. Moreover, the Department will consider modifying the eZ-Audit process in view of any significant changes the Clearinghouse may make in accepting electronic audit submissions and in response to the continuing efforts by the accounting community to standardize the format and presentation of electronic audit data.

eZ-Audit Process

An authorized person at an institution submits required audits on behalf of the institution by (1) accessing the appropriate page on the eZ-Audit website using identity credentials issued to the institution by the Department, (2) entering general information about the institution's compliance audit, (3) entering general information and specific financial data from the institution's audited financial statements, and (4) attaching authentic copies of the signed audits.

Identity Credentials

An institution obtains credentials for accessing the eZ-Audit system by completing and signing registration materials described under the Electronic Announcements section at <http://www.IFAP.ed.gov>, and submitting them to: The U.S. Department of Education, Federal Student Aid, Attention: Ti Baker, 830 First Street, NE., Washington, DC 20202.

After receiving the registration materials, the Department will send electronically identity credentials (initially a username and password) to the institution. Although we expect to be able to issue identity credentials within a few days after receiving a request, an institution should submit its registration materials as soon as possible to ensure that it can use the eZ-Audit system to submit required audits on and after June 2, 2003.

Entering Information About the Audits

An institution enters general and specific information about its compliance audits and financial statements on the appropriate eZ-Audit web pages. General information is used to determine whether the audits are materially complete and conducted in accordance with applicable standards.
