

## § 1312.6

concerned with matters of national security. The officials listed in this section are granted authority by the Director, OMB, to assign original classifications as indicated to information or material that is originated by OMB staff and relating to the national security of the United States:

(1) Top Secret and below:

(i) Deputy Director.

(ii) Deputy Director for Management.

(iii) Associate Director for National Security and International Affairs.

(iv) Associate Director for Natural Resources, Energy and Science.

(2) Secret and below:

(i) Deputy Associate Director for National Security.

(ii) Deputy Associate Director for International Affairs.

(iii) Deputy Associate Director for Energy and Science.

(b) Classification authority is not delegated to persons who only reproduce, extract, or summarize classified information, or who only apply classification markings derived from source material or from a classification guide.

### § 1312.6 Duration of classification.

(a)(1) When determining the duration of classification for information originally classified under Executive Order 12958, an original classification authority shall follow the following sequence:

(i) He/She shall attempt to determine a date or event that is less than 10 years from the date of original classification, and which coincides with the lapse of the information's national security sensitivity, and shall assign such date or event as the declassification instruction;

(ii) If unable to determine a date or event of less than 10 years, he/she shall ordinarily assign a declassification date that is 10 years from the date of the original classification decision;

(iii) He/She may extend the duration of classification or reclassify specific information for a period not to exceed 10 additional years if such action is consistent with the exemptions as outlined in Section 1.6(d) of the Executive Order. This provision does not apply to information contained in records that are more than 25 years old and have been determined to have permanent

## 5 CFR Ch. III (1-1-03 Edition)

historical value under Title 44 United States Code.

(iv) He/She may exempt from declassification within 10 years specific information, which is consistent with the exemptions as outlined in Section 1.6(d) of the Executive Order.

(2) Extending Duration of Classification. Extensions of classification are not automatic. If an original classification authority with jurisdiction over the information does not extend the date or event for declassification, the information is automatically declassified upon the occurrence of the date or event. If an original classification authority has assigned a date or event for declassification that is 10 years or less from the date of classification, an original classification authority with jurisdiction over the information may extend the classification duration of such information for additional periods not to exceed 10 years at a time. Records determined to be of historical value may not exceed the duration of 25 years.

(b) When extending the duration of classification, the original classification authority must:

(1) Be an original classification authority with jurisdiction over the information.

(2) Ensure that the information continues to meet the standards for classification under the Executive Order.

(3) Make reasonable attempts to notify all known holders of the information. Information classified under prior orders marked with a specific date or event for declassification is automatically declassified upon that date or event. Information classified under prior orders marked with Originating Agency's Determination Required (OADR) shall:

(i) Be declassified by a declassification authority as defined in Section 3.1 of the Executive Order.

(ii) Be re-marked by an authorized original classification authority with jurisdiction over the information to establish a duration of classification consistent with the Executive Order.

(iii) Be subject to Section 3.4 of the Executive Order if the records are determined to be of historical value and are to remain classified for 25 years

from the date of its original classification.

**§ 1312.7 Derivative classification.**

A *derivative classification* means that the information is in substance the same information that is currently classified, usually by another agency or classification authority. The application of derivative classification markings is the responsibility of the person who incorporates, restates, paraphrases, or generates in new form information that is already classified, or one who applies such classification markings in accordance with instructions from an authorized classifier or classification guide. Extreme care must be taken to continue classification and declassification markings when such information is incorporated into OMB documents. The duplication or reproduction of existing classified information is not derivative classification. Persons who use derivative classification need not possess original classification authority.

**§ 1312.8 Standard identification and markings.**

(a) *Original Classification.* At the time classified material is produced, the classifier shall apply the following markings on the face of each originally classified document, including electronic media:

(1) *Classification Authority.* The name/personal identifier, and position title of the original classifier shall appear on the "Classified By" line.

(2) *Agency and Office of Origin.* If not otherwise evident, the agency and office of origin shall be identified and placed below the name on the "Classified By" line.

(3) *Reasons for Classification.* Identify the reason(s) to classify. The classifier shall include, at a minimum, a brief reference to the pertinent classification category(ies), or the number 1.5 plus the letter(s) that corresponds to that classification category in Section 1.5 of the Executive Order.

(4) *Declassification instructions.* These instructions shall indicate the following:

(i) The duration of the original classification decision shall be placed on the "Declassify On" line.

(ii) The date or event for declassification that corresponds to the lapse of the information's national security sensitivity, which may not exceed 10 years from the date of the original decision.

(iii) When a specific date or event within 10 years cannot be established, the classifier will apply the date that is 10 years from the date of the original decision.

(iv) The exemption category from declassification. Upon determination that the information must remain classified beyond 10 years, the classifier will apply the letter "X" plus a brief recitation of the exemption category(ies), or the letter "X" plus the number that corresponds to the exemption category(ies) in Section 1.6(d) of the Executive Order.

(v) An original classification authority may extend the duration of classification for successive periods not to exceed 10 years at a time. The "Declassify On" line shall be revised to include the new declassification instructions and shall include the identity of the person authorizing the extension and the date of the action.

(vi) Information exempted from automatic declassification at 25 years should on the "Declassify On" line be revised to include the symbol "25X" plus a brief reference to the pertinent exemption categories/numbers of the Executive Order.

(5) The overall classification of the document is the highest level of information in the document and will be conspicuously placed stamped at the top and bottom of the outside front and back cover, on the title page, and on the first page.

(6) The highest classification of individual pages will be stamped at the top and bottom of each page, to include "unclassified" when it is applicable.

(7) The classification of individual portions of the document, (ordinarily a paragraph, but including subjects, titles, graphics) shall be marked by using the abbreviations (TS), (S), (C), or (U), will be typed or marked at the beginning or end of each paragraph or section of the document. If all portions of the document are classified at the same level, this may be indicated by a statement to that effect.
