

Philadelphia, PA) and the consolidation of the Defense Industrial Supply Center with DPSC.

The military services exercising their land-owning responsibilities will conduct the NEPA analysis for the disposal and reuse of DLA sites.

For the other actions, the environmental assessment showed that implementing the proposed action would cause minimal or no adverse environmental and socioeconomic effects. A positive effect would be realized through a reduction in DLA's consumption of resources and thereby lessen negative environmental effects associated with routine support of Armed Forces activities. Analysis of the consequences of the proposed action does not indicate any environmental impact mitigation measures required or optional at the program level. Accordingly, an environmental impact statement will not be prepared.

A public comment period regarding the environmental assessment will begin at the time of publication of this notice and will conclude 30 days following. Copies of the environmental assessment are available for inspection at the address listed above. Interested parties may contact the DLA Public Affairs Office at (703) 767-6200.
