FEDERAL EMERGENCY MANAGEMENT AGENCY

The Federal Emergency Management Agency (FEMA) was established by the President in Reorganization Plan No. 3 of 1978. FEMA's mission is to reduce the loss of life and property and protect our institutions from all hazards by leading and supporting the Nation in a comprehensive, risk-based emergency management program of mitigation, preparedness, response, and recovery.

Under the authority of the Robert T. Stafford Act, FEMA is responsible for providing assistance to maintain and enhance the nation's all-hazards emergency management capability and coordinates Federal emergency recovery and response operations. FEMA also administers the National Flood Insurance Program, which is the primary source of flood insurance in the nation, and provides essential training for State and local fire and emergency medical services personnel through the National Fire Academy. In 1998, FEMA provided \$2.5 billion in direct assistance to States, local governments, and individuals stricken by natural disasters, furnished over \$450 billion in flood insurance coverage to over 4 million policy holders, and awarded \$125 million in grants to support emergency management preparedness and mitigation capabilities.

The President's 2000 Budget includes \$3.4 billion (\$923 million in discretionary budget authority and \$2.5 billion in emergency funding) to:

Provide funding for FEMA's Disaster Relief Fund, the main source of Federal disaster assistance;

Develop disaster resistant communities across the nation through Project Impact;

Provide grants to states and local governments to help support a wide variety of emergency management functions, including response plans for terrorist attacks;

Provide emergency supplementary funding for non-profit organizations that feed and shelter the nation's homeless; and

Begin major reforms in the National Flood Insurance program.

To initiate necessary reforms in the flood insurance program, the 2000 Budget includes \$5 million to modernize FEMA's inventory of flood plain maps and \$12 million to begin a program of targeted purchases of insured properties with history of repetitive flooding. To supplement the \$5 million request of discretionary resources for the map modernization program, the budget also includes a \$15 mortgage transaction fee. FEMA will use the proceeds of this fee, which spreads the cost of this initiative to the broad base of beneficiaries, to fund this multi-year initiative.

A more detailed description of each of FEMA's programs follows the presentation of each of the budget accounts.

Federal Funds

General and special funds:

DISASTER RELIEF

(INCLUDES TRANSFER OF FUNDS)

For necessary expenses in carrying out the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5121 et seq.), [\$307,745,000] *\$300,000,000*, and, notwithstanding 42 U.S.C. 5203, to remain available until expended[: *Provided*, That of the funds made available under this heading in this and prior Appropriations Acts which are eligible for grants to the State of California under section 404 of the Stafford Disaster Relief and Emergency Assistance Act, \$5,000,000 shall be for a pilot project of seismic retrofit technology at California State University, San Bernardino, \$5,000,000 shall be for seismic retrofit at the San Bernardino County Courthouse, and \$30,000,000 shall be for a project at the Loma Linda University Medical Center hospital using laser technology demonstrating non-disruptive retrofitting], of which not to exceed \$2,900,000 may be transferred to "Emergency Management Planning and Assistance" for the consolidated emergency management performance grant program. (Departments of Veterans Affairs and Housing and Urban Development, and Independent Agencies Appropriations Act, 1999.)

For an additional amount for "Disaster relief", [\$906,000,000] *\$2,480,425,000*, to remain available until expended: *Provided*, That the entire amount is designated by the Congress as an emergency requirement pursuant to section 251(b)(2)(A) of the Balanced Budget and Emergency Deficit Control Act of 1985, as amended: *Provided further*, That the entire amount shall be available only to the extent that an official budget request for a specific dollar amount, that includes designation of the entire amount of the request as an emergency requirement as defined in the Balanced Budget and Emergency Deficit Control Act of 1985, as amended, is transmitted by the President to the Congress. *(Omnibus Consolidated and Emergency Supplemental Appropriations Act, 1999, as included in Public Law 105-277, Division B, Title IV, chapter 7.)*

Through the Disaster Relief Fund (DRF), FEMA provides a significant portion of the total Federal response to victims in Presidentially-declared major disasters and emergencies. Major disasters are declared when a State requests Federal

General and special funds—Continued

DISASTER RELIEF—Continued

(INCLUDES TRANSFER OF FUNDS)-Continued

assistance and has proven that a given disaster is beyond the State's capacity to respond. Under the DRF, FEMA provides three main types of assistance: individual and family assistance; public assistance, which includes the repair and reconstruction of State, local, and non-profit infrastructure; and hazard mitigation.

In 1999 a total of \$1.2 billion (\$308 million in regular discretionary and \$906 million in emergency appropriations) was provided for the DRF. While the President has not yet released the emergency funds, the Administration fully expects FEMA to obligate most of the \$906 million in 1999. This assumption is reflected in a contingent emergency allowance that adds the anticipated outlays to the budget totals. The 2000 Budget request includes a total of \$2.8 billion in both regular discretionary and emergency budget resources, \$300 million and \$2.48 billion respectively, which represents the five-year historical average of obligations excluding the Northridge earthquake, and disaster support costs.

The Pre-Disaster Mitigation program supports FEMA's Project Impact, and represents a paradigm shift in the Federal government's approach to emergency management. This unique program, which began with seven pilot communities in 1997, focuses entirely on developing self-sustaining disaster mitigation programs at the community level. In 1998, funding was provided to allow 50 additional communities to participate, and the program received \$25 million in 1999. The 2000 Budget includes a request of \$30 million, and proposes a separate account for this program.

Communities selected to participate must demonstrate, through the grant application process, that both State and private sector parties have committed resources to the effort, and that a comprehensive mitigation strategy has been adopted. The result is a self-sustaining mitigation program at the community level that uses Federal dollars to leverage additional resources and involves all sectors of the community in preparing for and preventing future losses from natural disasters. In addition to providing one-time grant funding, FEMA provides ongoing technical support to participating communities.

SALARIES AND EXPENSES

For necessary expenses, not otherwise provided for, including hire and purchase of motor vehicles as authorized by 31 U.S.C. 1343; uniforms, or allowances therefor, as authorized by 5 U.S.C. 5901-5902; services as authorized by 5 U.S.C. 3109, but at rates for individuals not to exceed the per diem rate equivalent to the maximum rate payable for senior level positions under 5 U.S.C. 5376; expenses of attendance of cooperating officials and individuals at meetings concerned with the work of emergency preparedness; transportation in connection with the continuity of Government programs to the same extent and in the same manner as permitted the Secretary of a Military Department under 10 U.S.C. 2632; and not to exceed \$2,500 official reception and representation for expenses, [\$171,138,000] *\$189,720,000.*

Further, for the foregoing purposes related to national defense only, during fiscal year 2001, \$26,777,000. (Departments of Veterans Affairs and Housing and Urban Development, and Independent Agencies Appropriations Act, 1999.)

Program support.—This activity provides the necessary resources to administer the Federal Emergency Management Agency's (the Agency) various programs at headquarters and in the regions.

Executive direction.—This activity provides for the general management and administration of the Agency in legal congressional, governmental and media affairs, and financial and personnel management, as well as the management of the Agency's national security program.

The 2000 Budget request includes funding for additional workyears to support FEMA's role in the Federal response to terrorism, includes funding to support the pre-disaster mitigation initiative, and supports an expanded training and outreach effort to enhance fire prevention.

For a programmatic description of FEMA's eight operational components, see the descriptions under the Emergency Management, Planning, and Assistance account.

Response and recovery.—This activity provides for the development and maintenance of an integrated operational capability to respond to and recover from the consequences of a disaster, regardless of its cause, in partnership with other Federal agencies, State and local governments, volunteer organizations, and the private sector. The intended results of this activity are to: provide services to disaster stricken communities with an increase in timeliness; to refine program delivery activities to effect increased cost efficiency; and, to increase customer satisfaction with the delivery of services.

Preparedness.—This activity provides policy guidance, financial and technical assistance, training, and exercise support required to establish or enhance the emergency management capabilities of Federal, State, and local governments, thereby fostering a decentralized capability for state and local preparedness and response for all but the most catastrophic disasters.

Fire prevention and training.—This activity prepares Federal, State and local officials, their staffs, emergency first responders, volunteer groups, and the public to meet the responsibilities of domestic emergencies through planning, mitigation, preparedness, response, and recovery. The United States Fire Administration has responsibility for all fire and emergency medical service programs and training activities. Educational programs are provided through the National Fire Academy, at the National Emergency Training Center, and through the field fire training delivery systems.

Operations support.—This activity provides agency-wide program support services, such as logistics management and security.

Information technology services.—This activity provides leadership and direction for management of information technology resources, automated data processing, telecommunications, and information services and systems necessary to accomplish the agency's mission.

Mitigation programs.—This activity provides for the development, coordination, and implementation of policies, plans, and programs to eliminate or reduce the long-term risk to life and property from natural and technological hazards, such as earthquakes and hurricanes. A goal of this activity is to encourage and foster mitigation strategies at the State and local levels.

Policy and Regional Operations.— This activity provides support to management in the areas of policy development, strategic planning studies, and analyses.

Executive direction.—This activity develops strategies to address public information issues, provides support for enhancements to the financial management system, and supports the Agency's national security program. Beginning in 2000, this activity includes the Agency's consolidated emergency management performance grants.

This appropriation provides agency-wide audit and investigative functions to identify and correct management and administrative deficiencies which create conditions for existing or potential instances of fraud, waste, and mismanagement. The audit function provides internal audit, contract audit, and inspections services. Contract audits provide professional advice to agency contracting officials on accounting and financial matters relative to the negotiation, award, administration, repricing, and settlement of contracts. Internal audits review and evaluate all facets of agency operations.

The 2000 Budget includes a \$3 million increase over the 1999 level to ensure that the Office of Inspector General can fulfill its statutory mandate of conducting independent audits and investigations of FEMA's existing programs, the pre-disaster mitigation program, and other new initiatives included in the 2000 Budget.

This program provides grants to voluntary organizations at the local level to supplement their programs for emergency food and shelter. The 2000 Budget includes \$125 million, or a 25 percent increase, for this program.

RADIOLOGICAL EMERGENCY PREPAREDNESS FUND

[There is hereby established in the Treasury a Radiological Emergency Preparedness Fund, which shall be available under the Atomic Energy Act of 1954, as amended, and Executive Order 12657, for offsite radiological emergency planning, preparedness, and response. Beginning in fiscal year 1999 and thereafter, the Director of the Federal Emergency Management Agency (FEMA) shall promulgate through rulemaking fees to be assessed and collected, applicable to persons subject to FEMA's radiological emergency preparedness regulations.] The aggregate charges assessed [pursuant to this section] during fiscal year [1999] 2000, as authorized by P.L. 105-276, shall not be less than 100 percent of the amounts anticipated by FEMA necessary for its radiological emergency preparedness program for [such] *the next* fiscal year. The methodology for assessment and collection of fees shall be fair and equitable; and shall reflect costs of providing such services, including administrative costs of collecting such fees. Fees received pursuant to this section shall be deposited in the Fund as offsetting collections and will become available for authorized purposes on October 1, [1999] 2000, and remain available until expended.

[For necessary expenses of the Fund for fiscal year 1999, \$12,849,000, to remain available until expended.] (Departments of Veterans Affairs and Housing and Urban Development, and Independent Agencies Appropriations Act, 1999.)

The Radiological Emergency Preparedness (REP) program assists State and local governments in the development of off-site radiological emergency plans and in preparedness within the emergency planning zones of Nuclear Regulatory Commission (NRC) licensed commercial nuclear power facilities. The fund is financed from fees assessed and collected from the NRC licensees to cover the cost of the REP program.

This one-time appropriation of \$5 million will be supplemented with \$58 million in collections from a proposed \$15 mortgage transaction fee that will support a multi-year effort to update and modernize FEMA's inventory of over 100,000 flood maps.

The maps are used to provide accurate and complete flood hazard information for the nation in a readily available format. Specifically, the maps are used to: determine appropriate risk-based premium rates for the National Flood Insurance Program; complete flood hazard determinations required of the nation's lending institutions for virtually all mortgage and mortgage refinancing transactions each year; plan sustainable development; and develop appropriate disaster response plans for Federal, State, and local emergency management personnel.

The National Insurance Development Fund was established from the proceeds of the Riot Reinsurance Program, which was terminated in 1983. Authorization for this program expired September 30, 1995.

NATIONAL FLOOD INSURANCE FUND (INCLUDING TRANSFER OF FUNDS)

For activities under the National Flood Insurance Act of 1968, the Flood Disaster Protection Act of 1973, as amended, not to exceed [\$22,685,000] \$24,131,000 for salaries and expenses associated with flood mitigation and flood insurance operations, and not to exceed [\$78,464,000] \$78,912,000 for flood mitigation, including up to \$20,000,000 for expenses under section 1366 of the National Flood Insurance Act, which amount shall be available for transfer to the National Flood Mitigation Fund until September 30, [2000] 2001. In fiscal year [1999] 2000, no funds in excess of: (1) \$47,000,000 for operating expenses; (2) [\$343,989,000] \$456,427,000 for agents' commissions and taxes; and (3) [\$60,000,000] \$50,000,000 for interest on Treasury borrowings shall be available from the National Flood Insurance Fund without prior notice to the Committees on Appropriations. For fiscal year [1999] 2000, flood insurance rates shall not exceed the level authorized by the National Flood Insurance Reform Act of 1994.

Section 1309(a)(2) of the National Flood Insurance Act (42 U.S.C. 4016(a)(2)), as amended by Public Law 104-208, is further amended by striking ["1998"] "1999" and inserting ["1999"] "2000".

[Section 1319 of the National Flood Insurance Act of 1968, as amended (42 U.S.C. 4026), is amended by striking "September 30, 1998" and inserting "September 30, 1999".]

[Section 1336 of the National Flood Insurance Act of 1968, as amended (42 U.S.C. 4056), is amended by striking "September 30, 1998" and inserting "September 30, 1999".]

The first sentence of section 1376(c) of the National Flood Insurance Act of 1968, as amended (42 U.S.C. 4127(c)), is amended by striking "September 30, [1998] 1999' and inserting "September 30, [1999] 2000'. (Departments of Veterans Affairs and Housing and Urban Development, and Independent Agencies Appropriations Act, 1999.)

The National Flood Insurance Act of 1968, as amended, authorizes the Federal Government to provide flood insurance on a national basis. Flood insurance may be sold or continued in force only in communities which enact and enforce appropriate flood plain management measures. Communities must participate in the program within one year of the time they are identified as flood-prone in order to be eligible for flood insurance and some forms of Federal financial assistance for acquisition or construction purposes. In addition, Federally regulated funding institutions can not provide loans to nonparticipating communities with an identified flood hazard. In 2000, the budget assumes collection of all of the administrative and program costs associated with flood insurance activities from policy holders.

Under the emergency program, structures in identified flood-prone areas are eligible for limited amounts of coverage at subsidized insurance rates. Under the regular program, studies must be made of different flood risks in flood-prone areas to establish actuarial premium rates. These rates are charged for insurance on new construction. Coverage is avail-

(INCLUDING TRANSFER OF FUNDS)-Continued

able on virtually all types of buildings and their contents in amounts up to 350 thousand for residential and 1 million for other types.

Budget program—Insurance underwriting expense.—Cost of initiating and maintaining flood insurance policies is estimated at \$503 million in 2000.

Loss and adjustment expense.—Insured flood losses and associated loss adjustment expense is estimated at \$733 million in 2000.

Interest expense.—Interest expenses for Treasury borrowings are projected; a ceiling of \$50 million is requested to cover charges for purchasing Treasury securities and possible unanticipated interest costs.

The budget proposes to recover the cost of the following activities from a policyholder surcharge of \$30 and to reimburse other appropriations in FEMA's budget:

Flood studies and surveys.—These studies are estimated at \$52 million in 2000.

Flood hazard reduction.—This activity, which includes grants to States, is estimated at \$7 million in 2000.

Mitigation assistance.—Up to \$20 million will be transferred to the National Flood Mitigation Fund in 2000.

Salaries and expenses.—This activity provides for salaries and related expenses of all Federal staff administering the National Flood Insurance Program and is estimated at \$24 million in 2000.

Financing.—The Administrator is authorized to borrow up to \$1 billion (\$1.5 billion in 1997 through 2000 only) to carry out the program. The program is financed through premium income and appropriations to repay borrowing.

Operating results.—Program experience is reviewed annually and, as necessary, flood insurance rates will be adjusted to maintain the NFIP's self-supporting status for the historical average loss year and to maintain the soundness of rates for actuarially rated policies.

Through an appropriation and fee generated funds transferred from the National Flood Insurance Fund, the National Flood Mitigation Fund will provide a mechanism to reduce the financial burden of pre-existing, at-risk structures that are repetitively flooded by removing or elevating these structures out of flood hazard areas, as well as provide flood mitigation assistance planning support to States and communities.

In particular, the \$12 million request of discretionary funds will be used to address an initial group of 201 properties that have flooded and resulted in claim payments 10 or more times. Currently, roughly two percent of the flood insurance policy base is responsible for nearly 40 percent of claim payments made by the National Flood Insurance Fund. Through grants to States, the \$12 million requested will be used to remove or elevate these types of properties from the floodplain. The end result will be a lower net subsidy required to operate this insurance program, less claims on the Disaster Relief Fund, and fewer individuals living in hazardous areas.

Intragovernmental revolving funds:

The Working Capital Fund is financed from fees charged for services provided at the Mt. Weather Emergency Assistance Center, including conference, training, and office support, motor pool services, and temporary lodging. These services are available to organizations within FEMA and other Federal agencies.

Disaster assistance loans authorized by the Robert T. Stafford Disaster Relief and Emergency Assistance Act 42 U.S.C. 5121 et seq. are loans to States for the non-Federal portion of cost-sharing funds and community disaster loans to local governments incurring substantial loss of tax and other revenues as a result of a major disaster. The funds requested for this program include direct loans and a subsidy based on criteria including loan amount and interest charged.

As required by the Federal Credit Reform Act of 1990, this account records, for this program, the subsidy costs associated with the direct loans obligated in 1992 and beyond (including modifications of direct loans), as well as administrative expenses of this program. The subsidy amounts are estimated on a present value basis; the administrative expenses are estimated on a cash basis.
