Tapered Roller Bearings, and Parts Thereof, Finished or Unfinished from the People's Republic of China: Extension of Time Limit for the Preliminary Results of Antidumping Duty Administrative Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

EFFECTIVE DATE: February 4, 2005.

FOR FURTHER INFORMATION CONTACT:

Salim Bhabhrawala or Eugene Degnan, AD/CVD Operations, Office 8, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC 20230; telephone (202) 482-1784 or (202) 482-0414, respectively.

Background

On July 28, 2004, the Department of Commerce ("the Department") published in the **Federal Register** a notice of initiation of the antidumping duty administrative review of tapered roller bearings and parts, thereof, finished or unfinished from the People's Republic of China for the period June 1, 2003, through May 31, 2004. See *Initiation of Antidumping and Countervailing Duty Administrative Reviews and Request for Revocation in Part*, 69 FR 45010 (July 28, 2004). The preliminary results of review are currently due no later than March 2, 2005.

Extension of Time Limit for Preliminary Results

Section 751(a)(3)(A) of the Tariff Act of 1930, as amended ("the Act"), states that, if it is not practicable to complete the review within the time specified, the administering authority may extend the 245-day period to issue its preliminary results by up to 120 days. Completion of the preliminary results of this review within the 245-day period is not practicable because the Department needs additional time to analyze a significant amount of information pertaining to each company's sales practices, factors of production, corporate relationships, and to review responses to supplemental questionnaires.

Because it is not practicable to complete this review within the time specified under the Act, we are extending the time period for issuing the preliminary results of review by 60 days until May 1, 2005, in accordance

with section 751(a)(3)(A) of the Act. The final results continue to be due 120 days after the publication of the preliminary results of review.

Dated: January 28, 2005.

SUPPLEMENTARY INFORMATION:

I. Abstract

The National Marine Fisheries Service (NMFS) plans to conduct a survey to collect data for conducting economic analyses of marine sport fishing in Alaska. This survey is necessary to understand the factors that affect the economic value of marine recreational fishing trips and improve estimates of fishing trip value.

The Federal Government is responsible for the management of the

Pacific halibut sport fishery off Alaska, while the State of Alaska manages the salmon sport fisheries (Chinook, Coho, Sockeye, Chum, and Pink), as well as several other saltwater sport fisheries. The survey's scope covers marine sport fishing for Pacific halibut, salmon, and other popular marine sport species in Alaska (e.g., lingcod and rockfish). The data collected from the survey will be used to estimate the value of marine fishing to anglers and to analyze how the type of fish caught, catch rates, and fishery regulations affect fishing values and anglers' decisions to participate in Alaska marine fishing activities.

The economic information provided from the survey will help inform fishery managers about the economic values of Alaska marine sport fisheries and the changes to participation in these fisheries with proposed regulations.

II. Method of Collection

The data will be collected through a mail survey. A random sample of sport anglers who have fished in Alaska will receive an initial questionnaire. In subsequent weeks, a reminder postcard and a second questionnaire will be mailed to respondents who have not completed and returned the survey. Those not responding to the second full mailing will be contacted by telephone and asked to complete and return the questionnaire.
