DEPARTMENT OF COMMERCE

Submission for OMB Review; Comment Request

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

Agency: National Oceanic and Atmospheric Administration (NOAA).

Title: NOAA Customer Surveys.

Form Number(s): None.

OMB Approval Number: 0648-0342.

Type of Request: Regular submission.

Burden Hours: 4,196.

Number of Respondents: 59,100.

Average Hours per Response: 5 minutes.

Needs and Uses: This is a request for renewal of a generic clearance for voluntary customer surveys to be conducted by NOAA program offices. In accordance with Executive Order 12862, the National Performance Review, and good management practices, NOAA offices seek to continue to gather customer feedback on services and/or products, which can be used in planning for service/product modification and prioritization.

Under this generic clearance, individual offices would continue use of approved questionnaires and develop new questionnaires, as needed, by selecting subsets of the approved set of collection questions and tailoring those specific questions to be meaningful for their particular programs. These proposed questionnaires would then be submitted through a fast-track request for approval process.

Affected Public: Individuals or households; not-for-profit institutions; business or other for-profit organizations; State, Local or Tribal Government.

Frequency: On occasion.

Respondent's Obligation: Voluntary.

OMB Desk Officer: David Rostker, (202) 395-3897.

Copies of the above information collection proposal can be obtained by calling or writing Diana Hynek, Departmental Paperwork Clearance Officer, (202) 482-0266, Department of Commerce, Room 6625, 14th and Constitution Avenue, NW., Washington, DC 20230 (or via the Internet at dHynek@doc.gov).

Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to David Rostker, OMB Desk Officer, Fax number (202) 395-7285, or David_Rostker@omb.eop.gov.

Dated: July 22, 2008.

Submission for OMB Review; Comment Request

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

Agency: National Oceanic and Atmospheric Administration (NOAA).

Title: Highly Migratory Species Vessel Logbooks and Cost-Earnings Data Reports.

Form Number(s): None.

OMB Approval Number: 0648-0371.

Type of Request: Regular submission.

Burden Hours: 29,460.

Number of Respondents: 7,451.

Average Hours per Response: Trip reports with catch, 12 minutes; trip reports without catch, and no-trip reports, 2 minutes; cost-earnings and annual expenditure reports, 30 minutes.

Needs and Uses: The National Marine Fisheries Service (NMFS) seeks to renew an existing logbook information and cost-earnings data collection from fishermen who possess permits to fish for highly migratory species (HMS). This renewal would continue the successful HMS Vessel Logbook program and have several revisions. The revisions would: (1) Decrease the overall number of respondents based on recent information; (2) decrease the number of Atlantic tunas, shark, swordfish, and HMS Charter/Headboat permit holders based on recent information; (3) increase the number of Dolphin/Wahoo commercial and Charter/Headboat permit holders; and (4) decrease the burden estimate associated with the cost-earnings and logbook forms.

The information collected in logbooks and the cost-earnings form will help NMFS identify impacts of proposed regulatory measures on fishermen and the resource, consistent with applicable law such as the Magnuson-Stevens Fishery Conservation and Management Act and the Regulatory Flexibility Act.

Affected Public: Business or other for-profit organizations.

Frequency: Annually and on occasion.

Respondent's Obligation: Mandatory.

OMB Desk Officer: David Rostker, (202) 395-3897.

SUPPLEMENTARY INFORMATION

I. Abstract

The 2010 Census Coverage Measurement (CCM) Independent Listing Operation will be conducted in the U.S. (excluding remote Alaska) and in Puerto Rico in select CCM sampled areas. The primary sampling unit is a block cluster, which consists of one or more geographically contiguous census blocks. As in the past, the CCM operations and activities will be conducted separate from and independent of the 2010 Census operations.

CCM will be conducted to provide estimates of net coverage error and

coverage error components (omissions and erroneous enumerations) for housing units and persons in housing units (see Definition of Terms) to improve future censuses. The data collection and matching methodologies for previous coverage measurement programs were designed only to measure net coverage error, which reflects the difference between omissions and erroneous inclusions.

The Independent Listing Operation is the first step in the CCM process. It will be conducted to obtain a complete housing unit inventory of all the addresses within the CCM sample block clusters before the 2010 Census enumeration commences. Enumerators will canvass every street, road, or other place where people might live in their assigned block clusters and construct a list of housing units. Enumerators will contact a member (or proxy) of each housing unit to ensure all units at a given address are identified. They also will identify the location of each housing unit by assigning map spots on block maps provided with their assignment materials. Following the completion of each block cluster, the listing books are keyed for matching against the census Decennial Master Address File (DMAF) for the same areas.

Completed Independent Listing Books are subject to a Dependent Quality Check (DQC) wherein DQC listers return to the field to check 12 units per cluster to ensure that the work performed is of acceptable quality and to verify that the correct blocks were visited. If the cluster fails the DQC, then the DQC lister reworks the entire cluster.

The Independent Listing results will be computer and clerically matched to the DMAF from the census in the same areas. There will be two Independent Listing Forms, D-1302 and D-1302PR. The D-1302 is the English language version of the listing form and will be used both to list and to conduct DQC for addresses in CCM stateside sample areas. The D-1302PR is the Spanish language version of the listing form, which will be used for the same purposes in the CCM sample areas of Puerto Rico.

The addresses that remain unmatched or unresolved after matching will be sent to the field during the next field operation of the CCM (Initial Housing Unit Followup), to collect additional information that might allow a resolution of any differences between the independent listing results and the census DMAF. Cases also will be sent to resolve potential duplicates and unresolved housing unit status. The forms and procedures to be used in the Initial Housing Unit Followup phase of
