Dear Surgeon General:

Hello, my name is Leo Frehofer. I'm hooked on video games.
I tried to quit lots of times. but I couldn't. I tried by just buy-
ing the table top Pac-Man. but that wasn't enough. The Video games
are almost everywhere. I can't see one I just have to play it. I
hate them! They just eat and eat up my money. My father just
doesn't understand what I'm going through. I think nobody does
who isn't on video games. It's just ripping me and my father
apart, and my mother a bit. My mother and sister smoke, but
I don't. I like Pac-Man, Donkey Kong and lots of others. Now I'm
hooked on Daxxon (It's a 3-D Video Game). Please help me! I also like
computers. I want to buy an Atari 500 computer or a Coleco vision in
the near future. This is the first time I told anybody this. If you had
any helpful hints can you tell me

Truly Yours
Leo Frehofer.
