E-Commerce Overview

- Goals
- What can E-Commerce do for you?
- Where do I find more information on E-Commerce?

E-Commerce Goals

- Inform you of a more efficient way to file your well permits and reports
- Will save you time and expense
- Supports electronic filing over Internet
- Receive approved permits and reports by email from BLM

What does E-Commerce do?

Allows operators to electronically file:

- Notices of Staking (NOSs)
- Applications for Permit to Drill (APDs)
- Well Completion Reports
- Sundry Notices
- And associated electronic attachments (documents, maps, schematics, etc.)

Well Information System (WIS)

WIS EC Website Also Supports

- New account and password requests
- Progress tracking of permit submissions
- User help, "How to" guide, email notification for announcements, POCs and FAQs

Near Future EC Capabilities

- Submission of APD geospatial database file attachments (Well Plat and/or SUPO)

- Support for "batch" well permit / report submissions using ePermit XML Schema data exchange standard

WIS EC Internet Address

www.blm.gov

1. Select "Programs"

2. Select "Energy"

3. Select "Oil and Gas" on right-hand menu
