Transition Overview

➤ Transition from FTS2001 Services

- FTS2001 Bridge Contracts (MCI/Verizon Business, Sprint)
- FTS2001 Crossover Contracts (AT&T, Qwest, SBC, Verizon, Winstar/IDT)

➤ Transition to Networx Services

- Universal (AT&T, Qwest, Verizon Business)
- Enterprise (AT&T, Level 3 Communications, Qwest, Sprint, Verizon Business)

Transformation: A Different View

U.S. General Services Administration

GSA FAS Office of Integrated Technology Services
2007 Network Services Conference

Transition Overview

➤ Goals

- Transition before FTS2001 contracts expire
- Minimize service impact
- Expedite availability of new services
- Minimize Transition expenses

➤ Guiding Principles

- Accurate inventory
- Strategic analysis of requirements
- Structured management approach
- Resource Management
- Transition Plan

2007 Network Services Conference

Roles and Responsibilities

- GSA Transition Team
- Global Account Managers (TSMs)
- Network Contract Management
- Interagency Management Council (IMC)
- IMC Transition Working Group (TWG)
- Agencies
- FTS2001 Contractors
- Network Contractors

Transformation: A Different View

U.S. General Services Administration

GSA FAS Office of Integrated Technology Services
2007 Network Services Conference

Transition Planning

- **Inventory Validation**
- **Transition Costs**
- **Regional Services**
- **Other Strategic Planning**
- **Staffing and Training**
- **Agency Level Planning**

Transformation: A Different View

U.S. General Services Administration

GSA FAS Office of Integrated Technology Services
2007 Network Services Conference

Inventory Validation

- **Identifies FTS2001 services to transition and be disconnected**
- **Provides a baseline for measuring Agency, vendor, and service(s) transition progress**
- **Provides input for Fair Opportunity planning**
- **Supports transition cost reimbursement**

Transformation: A Different View

U.S. General Services Administration

GSA FAS Office of Integrated Technology Services
2007 Network Services Conference

Transition Costs

- **Taxonomy of Transition Costs allocated to Networx program and to Agencies**
- **Transition Cost Estimate for Networx program costs**
- **Reimbursing Agencies' costs**

Transformation: A Different View

U.S. General Services Administration

GSA FAS Office of Integrated Technology Services
2007 Network Services Conference

Regional Services

- **Regional Transition Plan**
 - **Analyze inventory/capacity planning**
 - **Coordinate/deconflict multi-tenant transitions**
 - **Streamline ordering for transition**
 - **Identify Transition Managers and POCs**
 - **Define Roles and Responsibilities**
- **TCC Regional Liaison**
- **Customer Outreach**
- **Provide guidelines for using Networx in conjunction with regional contracts**

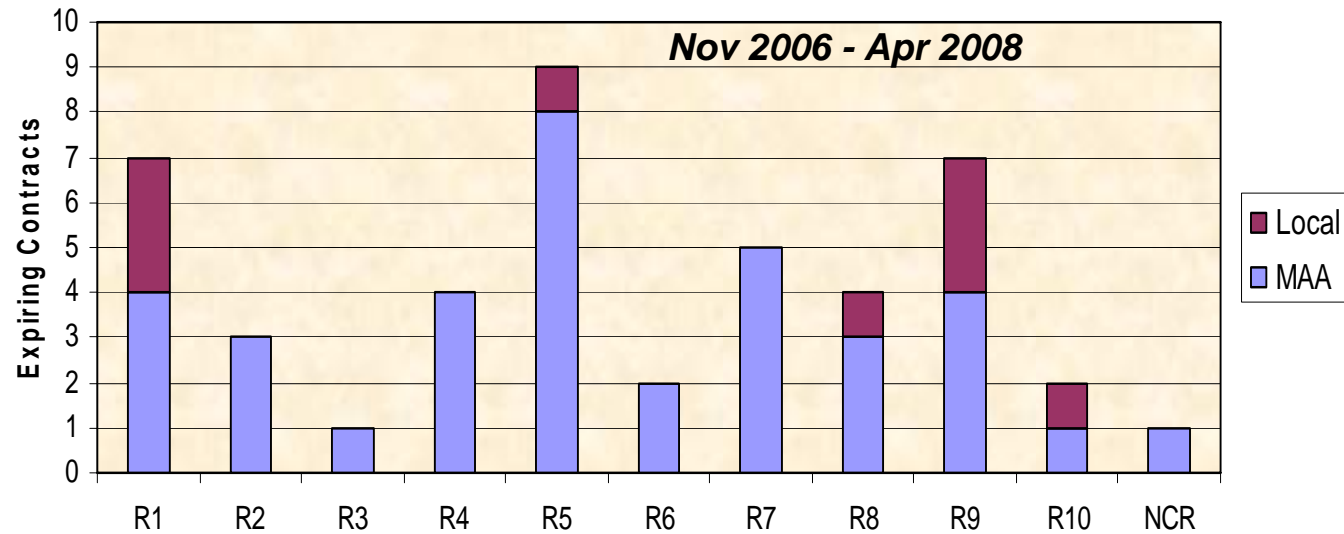

Transformation: A Different View

U.S. General Services Administration

GSA FAS Office of Integrated Technology Services
2007 Network Services Conference

Local and MAA Contract Expirations

Transformation: A Different View

U.S. General Services Administration

GSA FAS Office of Integrated Technology Services
2007 Network Services Conference

Other Strategic Planning

- **Modify FTS2001 Contracts**
 - **Assist in planning and inventory**
 - **Participate in transition with Networx contractors**
 - **Provide disconnect reports**
- **C&A**
- **DAR Guidelines**
- **OSS Enhancements**
- **Support for Fair Opportunity**
- **Contractors' Transition Management Plans**

Transformation: A Different View

Transition Baseline Inventory (TBI) Tool

- **Validates Agency Inventory**
- **<https://morris.ftsbilling.gsa.gov>**
- **Training and assistance available through Help Desk at networx.support@gsa.gov or 866-472-0274**

Transformation: A Different View

U.S. General Services Administration

GSA FAS Office of Integrated Technology Services
2007 Network Services Conference

Tracking Disconnects

- **Vendor data**
 - Updated monthly using automatic aging algorithm
- **Upload of Agency Owned Inventory (AOI) data**
 - Agency updates monthly
- **AOI One-time Load**
 - Agency doesn't update in TBI; provides GSA report of disconnects

Transformation: A Different View

U.S. General Services Administration

GSA FAS Office of Integrated Technology Services
2007 Network Services Conference

Agencies With AOI One-Time TBI Load

- Agency provides its own “disconnected” and “added” data in aggregate reporting terms
- Agency informs GSA monthly number of items disconnected and added for each AB Code, Vendor, and Service
- GSA adds or marks as Disconnected the number of items in the appropriate categories in TBI, and ensures the updates to TBI match the Agency’s report, without a one-for-one correspondence

Transformation: A Different View

U.S. General Services Administration

GSA FAS Office of Integrated Technology Services
2007 Network Services Conference

TBI Variance Reports

- **Gives a consistent view of both Vendor and AOI data in TBI to help track disconnected items**
 - AB Code
 - Vendor
 - Service
- **TBI not only supports aggregate reports, but is able to track the Active/Disconnect status of each individual inventory item**

Sample TIP Dashboard

Agency XYZ: TBI Versus Completed Disconnects as of MM/DD/YYYY

Government-Wide: Completed Disconnects by Vendor over Time

Government Wide: Total Number of Final Transition Fair Opportunity Notices (FTFONs) Received as of MM/DD/YYYY

Government Wide: Total Number of TCC Troubles by Problem Type as of MM/DD/YYYY

Transformation: A Different View

U.S. General Services Administration

GSA FAS Office of Integrated Technology Services
2007 Network Services Conference

TIP Tracking Final Transition Fair Opportunity Notifications (FTFON)

- **Agency TMs are required to send a final notification letter to GSA once all Agency Transition Fair Opportunity decisions are completed**
- **Agency TMs shall submit their FTFON letter by 9/30/08 to continue to be eligible for reimbursement**
- **Fair Opportunity notifications will be tracked according to the Agency's AHC mapping rules**

Ordering for Transition

- **Transition Project Specific Plans (TPSP)**
- **Transition = Y**
- **ASRN for Project or Other Common Designation**
- **Supplemental Information for Transition Orders**
 - Incumbent contractor
 - FTS2001 Agency Hierarchy Code (AHC)
 - FTS2001 SDP ID, if applicable
 - Service provided by incumbent
 - Details of service
 - Government Equipment connected to service
 - Incumbent Contractor's access information
- **Criteria for reimbursement**

Risk Management

Phase	Risk Description	Risk Impact	Risk Mitigation Strategy
Planning	Magnitude was not fully appreciated	Cost/schedule overruns; inadequate training for staff	Outlined in Section C.1.2 of the Network RFP the scope of the activities required to transition to the Network contracts.
			GSA has created planning documents such as the TSMP, Transition Timeline, and Site Transition Template, that outline the specific roles and responsibilities relative to transition. These documents did not exist in previous transition efforts
Execution	Poor contractor support during transition	Schedule delays and service interruptions	SLAs in Section C.3.2.2 of the Network RFP to which Network contractors must adhere.
Monitoring, Controlling, & Tracking	Different Government-wide reporting structures	No clear understanding of transition objectives and/or progress measurements	Protocol regarding transition reporting has been outlined in Section 4.4 of the Network RFP. Reporting formats have been defined to ensure that desired data elements are presented in a consistent manner.
			Progress monitoring and tracking procedures have been clearly articulated in a users' requirements document the TWG developed, representing the agreement for all Agencies to use a single source of transition status across the government.
