TO ALL TRANSPORTATION SERVICE PROVIDERS IN GSA'S CENTRALIZED
HOUSEHOLD GOODS TRAFFIC MANAGEMENT PROGRAM

This Request for Offers (RFO) transmits the issuance of the **2005-2006** Filing Cycle Special Instructions for the filing of rates in the General Service Administration's (GSA's) Centralized Household Goods Traffic Management Program (CHAMP) specific to the Filing Cycle for the period **November 1, 2005, through October 31, 2006**. These Special Instructions are in accordance with the Household Goods Tender of Service (HTOS) (refer to Request for Offers (RFO) Section 2-4). Transportation Service Providers who are approved to participate in CHAMP and have agreed to abide by the terms of the HTOS, supplements thereto and reissues thereof, are eligible to file rates in accordance with these instructions.

1. The term Transportation Service Provider (TSP) will be used throughout this RFO in lieu of the word carrier or participant. A TSP has the same rights and authorities as the previous term used. See **RFO Section 2-4.6** for a complete definition.
2. Electronic Rate Filing: All rate offers must be transmitted electronically. The Government will not consider any rate offer that is not transmitted electronically. Further, electronic transmissions that do not conform to formatting requirements specified in **RFO Section 6** will not be accepted. NOTE: If your firm intends to transmit its own rate offer via the FTP instead of using a Rate Filing Service Provider (RFSP) or the Transportation Management Services Solution (TMSS) system, you must contact the Program Management Office (PMO) in Kansas City, Missouri in writing on company letterhead to obtain an FTP User ID and Password (**RFO Sections 1-1.5 and 1-6**). Submissions may be received via fax. Requests may take several days to receive and process.
3. Submission of Rates: TSPs will have the option of submitting rate offers: online using the new TMSS system, via a RFSP, or by creating their own file and submitting it via FTP via the format requirements identified in **Sections 6 and 7**.
4. Electronic Rate Offers: All rate offers submitted electronically must be in accordance with the time frames identified in **RFO Section 1-2.5**.
 - A. Submission by FTP: Once a rate file is submitted, it will be processed for errors that evening and an error report will be submitted back to the RFSP or TSP FTP directory immediately following validation. An e-mail will also be sent to the TSP or RFSP identifying the number of records added, rejected, and identified as suspect. TSPs and RFSPs may continue submitting corrections until all errors are corrected or until the closing date.

Rate files and error corrections submitted on the closing date will be accepted into the system, pending any errors. A TSP will not have an opportunity to correct any errors detected in a file submitted on the closing date after final validation. Final validation of rate files will take place at 4:30 pm Central Time on the closing date identified in RFO Section 1-1.6., unless waived by the PMO. (RFO Section 1-1.7.2)

- B. Submission Via TMSS: Rate offers that are submitted via TMSS can be viewed for accuracy by the TSP under the View Rates option. TSPs may also download a copy of their rate files using this function. To obtain a receipt for rates submitted and received, TSPs can select the Rate Receipt option and TMSS will send a receipted e-mail to the TSP verifying the rates have been received. This function can be done as many times as requested by the TSP.
 - C. Continuation of Existing TMSS Rate Offers: If submitting rates via TMSS during the initial rate filing window of August 15 through September 30, 2005, please note that if a TSP has existing rates on file in TMSS that those rate offers automatically expire October 31, 2005. In order to continue those rates for an effective date of November 1, 2005, at least one change must be made to each tender on file in TMSS. If a TSP does not wish to change an existing rate or add a new rate, the tender number must at least be changed in order to "submit" the tender for an effective date of November 1, 2005. Existing tenders that do not have any changes made to them during the initial filing window will be deleted from TMSS effective October 31, 2005. Rate offers effective during the supplemental filing of May 1, 2006 do not require a change. However, TSPs have the option to modify existing rates.
5. TSPs submitting rate offers under this RFO must provide a valid Taxpayer ID number (TIN) within the header record of the rate file. TSPs submitting rates via TMSS are also mandated to provide a TIN number on the appropriate TMSS screen. A TIN is defined as a business entity's Employer Identification Number (EIN). Rate offers will not be accepted without a valid TIN on file. TSPs must also submit an email address with each rate submitted and are encouraged to provide a fax number.
 6. HTOS Changes: Effective November 1, 2005, the following changes have been made to the HTOS:
 - HTOS Section 8-5.14.1. Review of Records. [old D8-6]
Transportation Service Providers (TSPs) agree to abide by 28 U.S.C. 2415 and CFR 102-118 with regards to the retention of transportation shipping documents/records. The Program Manager and any of his duly authorized representatives shall have access to and the right to examine any books, documents, papers, records, and other data regardless of type and regardless of whether such items are in written form, in the form of computer data, or in any other form from the TSPs involving transactions related to this HTOS or

compliance with any clauses thereunder. The TSP shall furnish, upon request, copies of all documents/records necessary by the Program Manager or his designee. TSPs shall furnish copies of such documents/records at no cost to the Government.

- HTOS Section 9-3.1.4. Industrial Funding Fee

The Industrial Funding Fee amount must equal the sum of all shipment net charges reported in HTOS Paragraph 9-3.1.2, multiplied by the applicable IFF percentage. To attain further guidelines on how to calculate CHAMP IFF, reference the Request for Offers, Section 2-7.6. When calculating the IFF due GSA and fuel surcharges, the amount submitted must be rounded to the nearest whole cent or two decimal places, (for example: .864 round to .86; .865 round to.87). Any deficiencies identified will be handled in accordance with HTOS Paragraph 9-3.1.4.1. and 9-3.1.4.2.

- HTOS Section 12, Amendment 1

Due to the addition of new international countries effective with this RFO, new transit time tables have been added as an amendment to Section 12 of the HTOS.

- HTOS Section 17

Effective with this RFO, Hawaiian storage-in-transit rates have been modified to reflect storage and warehouse handling costs per 30 days for all Hawaiian Islands. Modified sections are identified below.

- 17-6.2. Service Areas, Geographic Application of Rates for Additional Services
- 17-21. Storage-in-Transit and Warehouse Handling Charge Household Goods Surface Shipment

7. Application of Industrial Funding Fee (IFF):

The IFF is due on the total net transportation charges billable to the government excluding fees for storage-in-transit (SIT) (to include first day of storage, each additional day of storage, warehouse handling, and pickup and delivery (drayage)). GSA's IFF will be assessed only against the household goods element of the net transportation charge (excluding SIT). An IFF is not assessed against POV and UAB shipments unless an agreement has been developed.

- A. Domestic: The IFF will be 2.50% of the net shipment charges of a household goods surface shipment, to include the line-haul, accessorial, packing charges, fuel surcharges, etc. Storage in transit (SIT) fees are excluded. The method of collection will remain the same, where TSPs will continue to collect and remit the appropriate IFF to GSA based on 2.50% of the net charges. (please refer to [RFO Section 2-7.6](#) for a further explanation and information on how the IFF applies on multiple element shipments.)
- B. International: The IFF will be 1.50% of the net shipment charges of a household goods surface shipment, to include the line-haul, accessorial, packing charges, fuel surcharges, etc. Storage in transit (SIT) fees are excluded. The method of collection will remain the same, where TSPs will continue to collect and remit the appropriate IFF to GSA based on 1.50% of

the net charges. (please refer to [RFO Section 2-7.6](#) for a further explanation and information on how the IFF applies on multiple element shipments.)

8. Effective with this RFO, GSA has expanded the international coverage in CHAMP-I to include 18 additional country locations. The country of China has also been separated into 5 city locations. TSPs may file general, alternating, or non-alternating rate offers to these additional countries and locations listed below. Rate filing codes for these new areas are located in [RFO Section 5-3](#). The acceptance of rate offers will be limited to TSPs which currently have China as an approved traffic lane in its approved scope of operations. TSPs filing for points in China other than those listed below must file using the country code for China (all other points), identified in [RFO Section 5-3](#).

9. Fuel Surcharge for Unaccompanied Air Baggage Shipments: Effective with this RFO, a TSP may charge as a separate line item a fuel surcharge for UAB shipments, excluding State Dept. shipments. ([RFO Section 3-4.2.1.](#)) TSPs must provide a copy of the original airway bill to the agency for reimbursement. Any excessive costs charged by foreign or overseas air carriers will be negotiated and paid at the discretion of the agency.

10. Clarification of Rates or Charges, Section 2-7.2: Clarification has been made within the RFO Sections 2-7.2.1.1.2. – 2-7.2.1.1.4., Rates or Charges, to identify discounts applicable to specific services.

(RFO Section 2-7.2.2.5.2)
12. Special Agency Provisions – Alternating & Non-Alternating: In addition to offers for general transportation rates, TSPs have the option to file:
 - A. Alternating Rate Offers: TSPs may file alternating, agency-specific rates as identified in RFO Section 5-1. Alternating rate offers will specifically apply to those Federal agencies/locations identified in Section 5-1 and may alternate with any other accepted rate offer.
 - B. Non-Alternating Rate Offers: TSPs may file non-alternating, agency specific rates as identified in RFO Section 3 and Section 5-1. Non-Alternating rate offers will apply specifically to those Federal agencies/locations identified in RFO Section 3 and Section 5-1 and will not alternate with any other accepted rate offer.

Non-Alternating – Dept. of State, International

- Department of State (DOS) requests rate offers based on a released value of \$8.50 per pound on international shipments only and has modified transit times for international shipments between the United States and foreign countries. (RFO Section 3-4.6)
- TSPs submitting international rate offers during this RFO may submit rate offers to and from additional countries as identified in RFO Section 5-3. (RFO Section 3-4.5)

- TSPs personnel must include at least one employee that is fluent in English at origin and destination services. TSP personnel must also be fluent in language of foreign country. (RFO Section 3-4.1.4)

- All liftvans must be of new wood and in compliance with the ISP #15 Standard.
- TSPs submitting international rate offers during this RFO should be aware of the services included and excluded from the single factor rate filed. (RFO Section 3-4.2.1) Services that DOS will not authorize are listed below:
 - Additional land transportation charges for shipments picked up or delivered from or to storage-in-transit;
 - UAB surcharges;
 - Port congestion surcharges, and/or war risk surcharges (also known as security surcharges) for areas not affected by war.

Services that DOS may authorize, at the discretion of the agency, include the items listed below:

- War and security surcharges for areas affected by war, at the discretion of the agency;
- Bunker fuel surcharges. Charges must be separately stated on the GBL/CBL and supported by prorated paid ocean TSP invoices of the actual amount

13. Verification of Industrial Funding Fee (IFF): To ensure that the GSA IFF for every shipment is properly accounted for and appropriately applied to the quarter for which the submission is received, GSA is requesting in RFO Section 2-7.6 that TSPs furnish shipment identifying information either on or appended to the check register.
14. Failure to Submit IFF: Failure to submit the Industrial Funding Fee due GSA for household goods shipments handled, will result in immediate placement of the TSP in temporary non-use status pending revocation of the TSP’s approval.
15. International Fuel Surcharge: An international TSP can only be compensated for a fuel surcharge on that portion of the shipment which was handled under traffic in the conterminous United States to the port of debarkation and from the port of embarkation to a location in the conterminous United States. The fuel surcharge shall be calculated on the first Monday of each calendar month and be based on the national U.S. average price per gallon of diesel fuel as published by the Dept. of Energy. Information on the current average price of diesel fuel can be obtained at (202) 586-6966 or www.eia.doe.gov .
16. Calculation of Unaccompanied Air Baggage Charges: Unaccompanied air baggage shipments will be post-audited based on the following formula: dimension of container divided by 166 (converts to volume kilogram) x 45.36 x base line rate x TSP percentage. Volume weight is defined as the length, times the width, times

the height (in inches), divided by 166 and multiplied by 0.4536. Where gross weight exceeds volume weight, TSP must charge for gross weight.

17. International Performance Bond: All TSPs approved to provide International General Transportation and Move Management Services are required as part of its filing to furnish a performance bond, in accordance with the HTOS (Section 2-4.7) and subject to the provisions of **RFO Section 1-4**. The performance bond **MUST** clearly identify that the bond is in force for the period **November 1, 2005, through October 31, 2006**, or later. A Certification of Continuation of Bond is acceptable. **A performance bond or Certification of Continuation of Bond currently on file does not satisfy this requirement and copies will not be accepted.** TSPs filing international rate offers are also required to adhere to the performance bond provisions outlined in **RFO Section 1.4.1.3.1**. Performance bonds must be submitted before the closing date of the rate filing window identified in **RFO Section 1-2.5**.

18. Basis for Determining Applicable Distance/Mileage: The following provision of this RFO supersedes all mileage references in the HTOS, with regard to determining applicable mileage/distance or Governing Publications. Per this RFO, auditing of household goods shipments handled pursuant to the HTOS will be based on mileage provided by ALK Technologies, Inc., Version **19** (coincides with PC*Miler **19**). The TSP industry will be notified of any future Version updates. Below is the basis for construction of mileage within the conterminous United States:

- GENERAL: borders closed, shortest mileage, ferry on

For a full description of Default Settings, please refer to:

<http://dtod-mtmc.belvoir.army.mil>

Once there, click on "industry" and then on "PC*Miler Default Settings."

Exception: GSA has determined that all surface household goods shipments between any point in the conterminous United States and a Canadian province will be based on Rand-McNally mileage.

19. Terms and Conditions for Bills of Lading Issued for Government Shipments: The following provision of this RFO supersedes any reference to the term "Government Bill of Lading" within the HTOS. Per this RFO, all Government shipments handled pursuant to the HTOS will be subject to the terms/conditions of 41 CFR 102-117 and 102-118. For a complete description of the terms/conditions, go to <http://www.gsa.gov>, look under "Policy" and "Transportation Management" and follow links to "41 CFR 102-117 Transportation Management" or "41 CFR 102-118 Transportation Payment and Audit."

20. Separate Billings: All Federal agency household good billings must be billed to the appropriate Federal agency separately, one per voucher. Any agency owing payment to a TSP for a shipment of household goods, UAB, and/or a POV must be billed separately for each element of the shipment.

As a reminder, rates submitted via TMSS must have at least one character change per tender in order to become effective for November 1, 2005. GSA will not be held responsible for a TSPs rates being deleted from TMSS due to noncompliance with this RFO, including Paragraph #4C of this cover letter.

In those instances where corrections are not received in accordance with RFO **Section 1-1.7.1**, offers will be considered unacceptable and TSPs will not be allowed to re-file until the next supplemental filing period or until a new RFO is distributed, whichever comes first. **TSPs and RFSPs may continue submitting corrections until all errors are corrected or until the closing date. Rate files and error corrections submitted on the closing date will be accepted into the system, pending any errors. A TSP will not have an opportunity to correct any errors detected in a file submitted on the closing date after the final validation.**

1-4.1. TSP Providing General Transportation and Move Management Services.

1-4.1.1. Trading Partner Agreement.

All TSPs approved to provide General Transportation Services and Move Management Services (MMS) are required as part of its filing to have on file with the PMO a signed Trading Partner Agreement (TPA). In the absence of a TPA the TSP's rate filing will be subject to the provision in RFO **Section 1-4**, above. **A TPA CURRENTLY ON FILE SATISFIES THIS REQUIREMENT.**

1-4.1.2. Certificate of Insurance.

By the submission of a rate offer to the GSA PMO in accordance with this request, the TSP certifies that it will maintain cargo liability insurance meeting the **HTOS 2-4.6** requirements during the period of its accepted rate filing. 1-4.1.3. Performance Bond - International Only.

All TSPs approved to provide International General Transportation Services and international Move Management Services (MMS) are required as part of its filing to furnish a performance bond, in accordance with the **HTOS 2-4.7**, and subject to the provisions of RFO **Section 1-4.1.3.1**. The performance bond **MUST** clearly identify that the bond is in force for the **period November 1, 2005 through October 31, 2006**, or later. A Certification of Continuation of Bond is acceptable. **A PERFORMANCE BOND OR CERTIFICATION OF CONTINUATION OF BOND CURRENTLY ON FILE DOES NOT SATISFY THIS REQUIREMENT AND COPIES WILL NOT BE ACCEPTED.**

All TSPs approved to provide international General Transportation Services and international Move Management Services are required as part of its filing to furnish a performance bond to the PMO in the amount of \$75,000. By the submission of an international rate offer to the GSA in

This performance bond serves to protect the Government in the event the carrier to whom the actual bill of lading contract is issued fails to effect delivery of the shipment set forth on the bill of lading. By this performance bond, the Surety(ies) underwrites and assumes the Principal's liability to the Government for excess procurement costs when, due to the Principal's failure to complete delivery of a shipment, the Federal civilian agency named in the bill of lading deems it necessary to procure transportation services from an alternate carrier. The Government shall be sole beneficiary of this bond in the event the Principal defaults and is unable to perform for whatever reason, including that of filing a petition in bankruptcy or an involuntary bankruptcy. THIS BOND WILL BE CONTINUOUS, and may be canceled at any time by the Surety(ies) upon thirty (30) days written notice to the General Services Administration, Centralized Household Goods Traffic Management Program, Transportation Management Branch (6FBD-X), 1500 East Bannister Road, Kansas City, Missouri 64131, representing the Government. Termination under this provision shall not effect or relieve the Surety(ies) of any obligation or liability that may have occurred prior to such termination. The time for commencing collection of monies owed the Government arising under the carrier's contracts with the Government is determined by: Title 28, United States Code, Section 2416; Title 31, United States Code, Section 3716; Title 31, United States Code, Section 3726; and Title 49, United States Code, Section 11706. IN WITNESS WHEREOF, the Principal and Surety(ies) have executed this performance bond and have affixed their seals on the date set forth above.

NOTE 1: The word "contracts" as used herein means agreements for transportation and services as provided in applicable bills of lading, associated tenders of service, rate tenders and tariffs, and the General Services Administration, Centralized Household Goods Traffic Management Program International Government Bill of Lading Rate Solicitation.

NOTE 2: The word "services" as used herein means all transportation and related services required to be performed in accordance with the applicable contract as defined above.

Receipt of documentation requirements by any other office of the General Services Administration or by a Rate Filing Service Provider shall not be construed as receipt by the office specified in RFO Section 1-6.

1-4.4. Time of Submission.

The TPA and Performance Bond must be submitted in accordance with RFO Section 1-4. These provisions will apply with respect to deficiencies in any of these documents; provided, however, that for the purposes of this item any reference to rate related deficiencies in RFO Section 1-1.7.1.

[Section 2-7.6](#), Industrial Funding Fee (IFF), of this RFO applies to such shipments.

2-4. Definitions.

2-4.1. Household Goods Tender of Service (HTOS).

The Household Goods Tender of Service (HTOS) is a combination of the Domestic Tender of Service (DTOS) effective January 2, 1996 and the International Tender of Service (ITOS) effective October 1, 1995. The HTOS has been officially published effective June 12, 2002, and is available on GSA's website at www.gsa.gov/transportation.

2-4.2. Domestic Transportation.

This is the term applied to the movement of the household goods (HHG) of relocated Government employees within the conterminous United States, including Alaska and Canada.

2-4.3. International Transportation.

This is the term applied to door-to-door container movement of HHG in lift vans between the conterminous United States (including Alaska and Canada) and an international country or off-shore location, or between two international countries or off-shore locations in lift vans. A TSP provides complete through service from origin residence to destination residence by surface ocean means.

2-4.4. General Transportation Services.

This is the term applied to transportation and accessorial services normally associated with a HHG move, such as set out in interstate and intrastate tariffs or the HTOS.

2-4.5. Move Management Services (MMS).

This is the term applied to a MMS Provider's arrangement, coordination, and monitoring of each relocating employee's HHG move, from initial notification of shipment booking through delivery at destination. Services as identified in RFO [Section 2-6](#) will be provided within a TSP's approved scope of operations. No brokering of shipments will be allowed.

2-4.6. Transportation Service Provider.

This term applies to any participating TSP or forwarder that is approved in the Centralized Household Goods Traffic Management Program (CHAMP), Domestic and International, to provide General Transportation Services or MMS.

2-4.7. Special Agency Provisions.

Special agency provisions cited in this RFO are defined as specific terms and conditions applicable to a particular Federal department or agency.

2-4.8. Responsible Transportation Officer (RTO).

This term applies to the individual within the shipping or receiving Federal agency responsible for personal property traffic management functions.

2-4.9. Government Rate Tender (GRT)

This is the term applied to Household Goods Carriers Bureau Committee, American Moving & Storage Association, Government Rate Tariff, HCB415-G, supplements thereto and reissues thereof.

2-4.10. Unaccompanied Air Baggage (UAB).

This term applies to necessary personal items that are taken to a relocating employee's new duty station before their shipment of household goods arrives. The determination of items considered as UAB is at the discretion of each Federal Agency.

2-5. Filing Possibilities.

2-5.1. Filing Instructions.

Instructions for the submission of offers are set out in RFO [Section 5](#).

2-5.2. General Government Rates or Charges.

TSPs submitting offers pursuant to this RFO may file offers that apply to all Federal agencies. The term *general government* will be used to describe such offers. Offers submitted may be for the TSP's full scope of operation or any part thereof.

2-5.3. Agency Specific Rates or Charges.

TSPs submitting offers pursuant to this RFO may file offers that apply to a specific Federal agency as defined in RFO [Section 3](#) and [Section 5](#). The term *agency specific* will be used to describe such offers. Offers submitted may be for the TSP's full scope of operation or any part thereof.

2-5.3.1. Application of Rates.

Agency specific rates will apply only to shipments for which the specific agency/location identified in RFO [Section 5](#), issues the Government Bill of Lading (GBL)/Commercial Bill of Lading (CBL).

2-5.4. Combination of General Government and Agency Specific.

TSPs submitting offers pursuant to this RFO may file offers that apply for both general government and agency specific. If the TSP files both general government and agency specific offers, the TSP may base its submission on any part or parts of its approved scope of operation without regard to consistency between general government and agency specific. For example, a TSP with an approved scope of operation of all domestic service areas may offer general government rates and charges between all domestic service areas, but offer agency specific rates and charges between only two (2) service areas for Federal Agency X, while offering agency specific rates and charges between four (4) different service areas for Federal Agency Y.

2-5.5. Alternating Agency Specific Offers.

TSPs may file alternating, agency specific offers as identified in RFO [Section 5-1](#). Alternating rate offers will apply specifically to those Federal agencies/locations identified in [Section 5-1](#) and may alternate with any other accepted offer.

2-5.6. Non-Alternating Agency Specific Offers.

TSPs may file non-alternating, agency specific offers as identified in RFO [Section 3](#) and [Section 5-1](#). Non-alternating offers will apply specifically to those Federal agencies/locations identified in RFO [Section 3](#) and [Section 5-1](#) and will not alternate with any other accepted offer.

2-6. Move Management Services (MMS).

2-6.1. Performance of Services.

The MMS Provider or TSP will provide the MMS outlined in RFO [Section 2-6](#) in conjunction with transportation services. The MMS Provider must comply with service, delivery timeframe, billing, reporting, and liability requirements set out in the HTOS, as applicable, together with all other requirements set out therein, except to the extent waived by the Responsible Transportation Officer (RTO) as defined in the HTOS.

2-6.2. Memorandum of Understanding (MOU).

The MMS Provider and the shipping agency must enter into a written MOU setting out the terms and conditions of the MMS Provider requirements as identified in [Section 2-6](#). In those instances when the shipping agency requests GBL/CBL preparation and maintenance under [Section 2-6.6.3](#), the MOU should contain at a minimum, specific instructions on GBL/CBL preparation and maintenance including instructions to complete each block of the GBL/CBL. If requested by the MMS Provider and/or shipping agency, the GSA PMO identified in RFO [Section 1-6](#) will review the agreed-to MOU.

2-6.3. Performance as TSP.

The MMS Provider must file rates within its current approved scope of operations, be subject to the Customer Satisfaction Index (CSI) rating system, and comply with the requirements for paying GSA its IFF specified in RFO [Section 2-7.6](#).

2-6.4. Commissions.

An MMS Provider may not charge a commission to a TSP or forwarder to which it tenders a HHG shipment.

2.6.5. Required Services.

2-6.5.1. General.

The MMS Provider must arrange, coordinate, and monitor each relocating employee's HHG move from initial notification of the move by the shipping agency through completion of all move-related transactions required under this RFO [Section 2-6.5](#). A HHG move within the conterminous United States (CONUS) (as defined in Section 5-2) is defined as a basic move consisting of one shipment of HHG and personal effects and, when specifically authorized by the shipping agency, shipment of one or more privately owned vehicles (POV's). A HHG move to/from an international location (as defined in Section 5-3) is defined as a basic move consisting of one surface shipment of HHG and personal effects and, when specifically authorized by the shipping agency, one or more unaccompanied baggage shipments and shipment of one or more POV's. Multiple origins and/or destinations may be involved for both CONUS and international shipments. Following are the services the MMS Provider must provide:

2-6.5.2. TSP Selection.

The employing agency may select the TSP to move the relocating employee's HHG or may delegate this responsibility to the MMS Provider in which case the agency will furnish the MMS Provider with TSP selection criteria. Any TSP selected to move a Federal civilian, non-DOD employee's HHG must participate in CHAMP and have approved rates on file with GSA. The MMS Provider must be capable of accessing the GSA Transportation Management Services Solution System (TMSS) to obtain query information for use in selecting a TSP to transport a shipment when requested by the employing agency.

2-6.5.3. Shipment Booking.

The MMS Provider must schedule the move with the selected TSP; order a pre-move survey; and identify and obtain written authorization from the Federal agency (RTO) authorizing the move for storage-in-transit (SIT) or any special service (e.g., shuttle service, special crating, third party servicing, elevator charges, long carry, and/or stair carry). The MMS Provider must indicate in writing all services authorized and identify those that will be paid as an entitlement of the employee, those that will be advanced but charged back to the employee, and any service the employee requests that may not be authorized on the GBL/CBL. The Provider must inform the employee prior to service performance of any service that will be advanced but charged back to the employee. The Provider may develop a generic form for the purpose of this item. Any service shown on a generic form that is not applicable to a particular shipment must be "crossed out" or marked "none" or "not applicable" prior to submitting the form to the RTO for written authorization/approval.

2-6.5.4. Ensuring TSP Performance.

Notwithstanding the provisions of RFO [Section 2-6.6](#), "Origin and Destination On-Site Quality Control", the MMS Provider must ensure that transportation services furnished are in accordance with provisions of the HTOS. The MMS Provider must take any action deemed necessary and appropriate to protect the interests of the shipping agency, ensure proper TSP performance, and protect the real and personal property of the relocating employee. In the event the MMS Provider's failure to direct performance in accordance with this Section causes damage to the shipping agency or relocating employee, other than damage to HHG, the MMS Provider is liable to the shipping agency and/or the relocating employee for such damages.

2-6.5.5 Arranging Storage in Transit (SIT).

If a Federal agency authorizes SIT, the MMS Provider must arrange storage in accordance with the GSA HTOS. The MMS Provider must notify the employee of the authorized SIT duration and location and provide the employee SIT-Provider contact information within five (5) calendar days after delivery into SIT.

2-6.5.5.1. Monitoring Shipments in SIT.

The MMS Provider must monitor shipments in SIT and provide a written request for disposition instructions from the employee or shipping agency destination facility representative at least ten (10) working days before expiration of the authorized SIT period. The written request must inform employees of their personal financial responsibility for any charges incurred for storage in excess of the maximum period authorized. The MMS Provider is responsible for arranging for delivery of shipments from SIT.

2-6.5.5.2. SIT in Excess of 180 Days.

If storage exceeds 180 days, the MMS Provider must ascertain the condition of the employee's property at the end of the 180-day SIT period to protect the Government's and the relocating employee's right to recover for TSP caused losses or damages. The warehouse automatically is considered the shipment's destination upon expiration of the 180-day SIT period and the MMS Provider's responsibility for the shipment ends. The shipment then becomes subject to the warehouse's rules, procedures, and charges, including local delivery out of storage. The employee is responsible for payment of storage charges for any period of storage in excess of 180 days. In the event of any discrepancy between HTOS provisions and the provisions of this Section for purposes of SIT, the provisions of this Section apply.

2-6.5.6. Completion of GSA Form 3080.

The MMS Provider must furnish the relocating employee a GSA Form 3080, "Household Goods Carrier Evaluation Report" for completion of the section entitled, "Relocating Employee's Response" (www.gsa.gov/forms). The Provider must instruct the employee to return the evaluation form upon completion to the shipping agency for completion of the section entitled, "BL Issuing Officer's Response." The Provider also must follow-up in an attempt to ensure both the employee and shipping agency complete their respective portions of the form and return it to GSA at the address identified in RFO [Section 1-6](#). If the employee has not completed the form within 30-days from the date of delivery of the HHG to the new residence, the Provider will so advise the shipping agency.

2-6.5.7. Service Performance Audit.

The MMS Provider must audit transportation billings and complete a certification document certifying by line item whether billed services (including any services specifically requested by the employee) were or were not necessary, properly authorized, and actually performed (this audit is unrelated to an agency's audit of the actual billing charges). The Provider may develop a form for this purpose and must, if requested, have it pre-approved by the shipping agency.

2-6.5.8. Management Information Reports.

The Government will require certain management information reports that may or may not be commercially standard. If the MMS Provider has a commercial report that would meet a stated specific need, it may propose that an agency use that report instead of the one specified as long as it can satisfactorily demonstrate how the proposed substitution would meet the ordering activity's needs. Reports must contain both monthly/quarterly and year-to-date totals, when appropriate. The MMS Provider must provide required reports to the ordering activity within 15 business days following the month/quarter services were performed.

2-6.5.8.1. Ordering Agency Reports.

If requested by the shipping agency, the MMS Provider must furnish the following reports in the manner specified by the agency with regard to format, content, and frequency. Data elements may be revised by the ordering activity.

2-6.5.8.2. Shipment Summary.

A summary of the total number of shipments handled for the specified period further broken down into the following incremental categories: number of shipments by agency activity, number of shipments by TSP, number of interstate shipments, number of intrastate shipments, and number of international location shipments. For each category the Provider must show total line-haul and accessorial charges.

2-6.5.8.3. Claims Summary.

A summary of the total number of loss/damage claims handled for the specified period further broken down into the following incremental categories: number of claims by agency activity, number of claims by TSP, number of interstate claims, number of intrastate claims, number of international location claims, average number of days between the date of claim filing and date of issue of initial settlement offer; average number

of days between the date of receipt of the initial settlement offer and the date of final settlement, average amount claimed and settled interstate, average amount claimed and settled intrastate, and average amount claimed and settled on international locations. For each claim not settled within 30 days and/or 60 days when approved by the shipping agency's RTO an explanation for the delay must be supported by the Delay Codes identified in the HTOS [Section 9](#).

2-6.5.8.4. Counseling Contact Summary Report.

A summary report of counseling contacts (when an agency has chosen that optional service) showing employee name, date of initial contact, and current status of the move including date for the pre-move survey, packing date, pickup date, and actual or proposed delivery date into SIT and/or residence.

2-6.5.8.5. On-time Services Summary Report.

A summary report listing employee name, scheduled pickup date, actual pickup date, scheduled delivery dates into SIT and/or residence, actual delivery dates into SIT and/or residence, scheduled date for delivery out of SIT, and actual date for delivery out of SIT. When scheduled and actual dates are different, an explanation must be provided.

2-6.5.8.6. Specially Requested Reports.

Special one-time reports furnished to the RTO when the shipping agency requests and the GSA PMO identified in RFO [Section 1-6](#) approves.

2-6.5.9. Customer Service.

The MMS Provider shall provide a 24-hour, toll-free telephone number to assist in tracking/tracing shipments; resolving problems that occur during any phase of the move, including quality control problems; and in filing post-delivery claims for agencies that choose that optional service.

2.6.6. Optional Services.

2-6.6.1. General.

If requested by the shipping agency, the MMS Provider must provide the following services.

2-6.6.2. Employee pre-move counseling.

Employee pre-move counseling (as distinguished from a TSP/forwarder-provided pre-move survey) includes information on TSP/forwarder commercial moving practices affecting all aspects of a HHG move. It also includes Government-specific information on Federal HHG entitlements and allowances prescribed in the Federal Travel Regulation (41 CFR chapters 300-304) and the ordering agency's internal regulations, including weight allowances. The counseling includes informing the relocating employee about services he/she is authorized at Government expense as well as any requested services that are not the Government's financial responsibility and which the employing agency will charge back to the employee. Some of these services are: extra pickup/delivery; temporary SIT authorized by the shipping agency; non-temporary (permanent) storage (NTS); unauthorized items; assembly/ disassembly of property; shipment of perishable items; exclusion of firearms and hazardous materials; level of service coverage, options, and costs; reporting concealed damages, employee rights and responsibilities, third-party servicing; packing/unpacking and crating/ uncrating; preparation and filing of claims; name and address of origin/destination storage; and delivery out of storage. The counseling also includes explaining the Government's role concerning Commuted Rate Schedule moves as prescribed in the FTR and limitations of the Government's financial obligations for reimbursements on such moves. Following is an availability listing of publications that contain information important in the employee pre-move counseling process:

- FTR: Available on the Internet at:
<http://www.gsa.gov>
- CHAMP: Available on the Internet at:
<http://www.gsa.gov/transportation/hhg>
- Agency specific regulations/procedures: (Contact appropriate agency for availability)

2-6.6.3. Preparation of shipment documentation.

If a Federal agency opts to have the MMS Provider prepare a GBL/CBL, the MMS Provider must comply with the terms and conditions set forth in 41 CFR 102-117 and 102-118. The MMS Provider must complete, and distribute copies of, each GBL/CBL following instructions published in the GSA Federal Supply Service Guide, "How to Prepare and Process U.S. Government Bills of Lading" (National Stock Number 7610-00-682-6740) or as instructed by the Federal agency (RTO). The Provider must provide a

legible memorandum copy of all GBLs/CBLs prepared and distributed to the RTO prior to shipment pickup dates.

2-6.6.4. Data Communications Capabilities.

The MMS Provider must: (1) provide on-line electronic access to all database information pertaining to task orders and applicable shipment records; (2) provide the RTO or designee and the GSA Program Management Office in Kansas City, Missouri (RFO [Section 1-6](#)), on-line access to all database information pertaining to task orders and shipment records for all accounts established under the terms of this RFO and the HTOS; (3) establish sufficient safeguards to prevent unauthorized access to the database information; (4) make the electronic access available through an asynchronous modem with a baud rate of at least 2400; and (5) furnish clear documentation setting out procedures for access to and use of the database.

2-6.6.4.1. Database Elements.

The database must contain, but not necessarily be limited to, the following elements: task order information; shipment information sufficient to generate the reports specified in [Section 2-6.5](#). The database maintained for shipments must be maintained in a separate directory with separate shipment records for each employee move. Shipment files must not be commingled with other data maintained for shipments not applicable to this RFO. Each shipment record must contain all applicable information required for that particular shipment, including any claims filed for the TSP, status of the claim, etc. (continuous computer terminal screen, if necessary). Performance data documenting how the move was handled must be collected independently and also maintained in this file. The Provider must provide facility for the RTO or designee and the GSA PMO (RFO [Section 1-6](#)) to extract and consolidate data such as TSP performance in the event specific reports are required.

2-6.6.4.2. Database Maintenance.

The MMS Provider must update the database on a 24-hour basis at a minimum and provide for on-line electronic access to database elements for a period of one year from date of pickup. After one year, hard copy records may be maintained as required by the Examination of Records Clause contained in GSA Form 3504.

2-6.6.5. On-site Quality Control Service. If a shipping agency requests, the MMS Provider must arrange for quality control personnel to provide on-site inspection service at the origin/destination residence at pickup/delivery. Inspection services include, but are not limited to: verification of correct inventory coding, use of proper packing materials, appropriate article servicing, equipment and personnel suitability, and satisfactory performance of unpacking. The actual cost of the service to be performed is negotiable between the MMS Provider and the shipping agency. The agreed upon price must be stated in a written document and retained by both parties. The document will be construed as a one-time only amendment to the Provider's rate filing. A copy of the written document must be included in the MMS Provider's voucher for payment. The Provider may engage outside sources to perform these services provided that they are representatives or employees of a HHG TSP, freight forwarder, or agent thereof.

2-6.6.6. Quality Assurance Plan.

The Provider must review and negotiate any settlement offer that is inconsistent with the TSP's liability or HTOS provisions, and in the case of an impasse must refer the complete file to the shipping agency. The MMS Provider also must counsel the employee about potential consequences of signing any full and unconditional release on any offer of settlement before all claims resulting from a particular move have been resolved.

2-6.6.8. Prepayment Audit.

2-6.6.8.1. MMS Provider Responsibilities.

A TSP that offers move management services under the HTOS may, at the request of a client agency, conduct the prepayment audit of transportation bills after obtaining audit certification from GSA, Office of Transportation Audits. If the TSP intends to subcontract the prepayment audit, any auditor it uses (other than a GSA Prepayment Audit Schedule contractor) must be GSA-certified to conduct the prepayment

audit. TSPs/auditors may obtain prepayment audit certification from the GSA Audit Division (FBA) at the address identified in RFO Section 2-6.6.8.2. The MMS provider will conduct or arrange to have conducted, a prepayment audit of each transportation billing and supplemental billing for service performed under the HTOS at the request of the client agency.

2-6.6.8.2. Certification.

Any auditor (other than a GSA Prepayment Audit Schedule contractor) desiring to perform a prepayment audit service must be certified by the GSA Audit Division (FBA) to do so. Certification may be obtained by contacting:

General Serviced Administration
Federal Supply Service
Audit Division (FBA)
1800 F Street, N.W.
Washington, DC 20405
<http://www.gsa.gov>

2-6.6.8.3. Procedures.

The Prepayment Audit procedures are subject to provisions of the Federal Management Regulations (FMR) part 102-118 (41 CFR part 102-118). Procedures reflect requirements and may be used in addition to any other required procedures published in the FMR, in developing the MMS provider/agency MOU. The prepayment auditor must adjust billed charges as appropriate based on the service performance audit as specified, and the prepayment audit before submitting the billing invoice, along with the service performance audit certification, to the ordering agency for payment.

2-6.6.8.4. Adjustments.

Upon instructions from the ordering agency, the MMS provider must advise the TSP and/or the agency via a statement of differences submitted either electronically or in writing within seven (7) days of receipt of the bill of any adjustment the auditor makes. The statement of differences must include the following:

- (a) TSP's standard alpha code (SCAC);

The agency must establish an appeal process that directs TSP appeals to an agency official or to the MMS provider with responsibility for providing adequate consideration and review of the circumstances of the claim. Review of an appeal must be completed within thirty (30) days. If the TSP disputes the findings and the agency or MMS provider as appropriate, cannot resolve the dispute with the TSP, all relevant documents including a complete billing history and the appropriation or fund charged should be forwarded

to GSA for the rendering of a decision. TSP claims must be submitted within three (3) years beginning the day after the latest of the following dates (except in time of war):

- (a) Accrual of the cause of action;
- (b) Payment of charges for the transportation involved;
- (c) Subsequent refusal for over payment of those charges; or
- (d) Deduction made to a TSP claim by the Government under 31 U.S.C. 3726.

2-6.6.8.6. Performance Standards for Service Performance Audit and Prepayment Audit

The Government must comply with provisions of the Prompt Payment Act (31 U.S.C. 3901 (a)(5)). The MMS provider therefore must ensure that within seven (7) days of receiving the TSP's bill, it has completed the service performance transportation/MMS billing, accompanied by the service performance audit certification, in the hands of the ordering agency for payment. 2-7.6.1. Amount of Charge.

The IFF is due on the total net transportation charges billable to the government excluding fees for storage-in-transit (SIT) (to include first day of storage, each additional day of storage, warehouse handling, and pickup and delivery (drayage)). For **Domestic shipments**, the GSA IFF will be **2.50%** of the household goods net charges (includes line-haul, accessorial, packing charges, **fuel surcharges**, etc.), excluding storage-in-transit (SIT) charges, per shipment subject to the following provisions. For **International shipments**, the GSA IFF will be **1.50%** of the household goods net charges (includes line-haul, accessorial, packing charges, **fuel surcharges**, etc.), excluding storage-in-transit (SIT) charges, per shipment subject to the following provisions. **GSA's IFF will be assessed only against the household goods element of the net transportation charge (excluding SIT). An IFF is not assessed against POV and UAB shipments unless an agreement has been developed.**

2-7.6.2. Cost Included in TSP's Offer.

The cost of GSA IFF must be included in the TSP's offer.

2-7.6.3. First Shipment.

The first shipment of a relocation performed pursuant to the HTOS is defined as a surface shipment of HHG effects, shipment of a POV, or UAB, all or any one of which are tendered to the TSP by the shipping Federal Agency as the first component of a shipment for a relocating employee. On a multiple element domestic or international shipment at Government expense (either all or some combination of HHG, POV, or UAB), GSA's IFF will be assessed only against the household goods element of the net transportation charge (excluding SIT). An IFF is not assessed against POV and UAB shipments unless an agreement has been developed. If there are multiple HHG shipments, an IFF is assessed on each HHG shipment.

2-7.6.4. Supplemental Shipments.

A supplemental shipment of a relocation performed pursuant to the HTOS is defined as any surface shipment, including a POV, or UAB tendered to the TSP by the shipping Federal Agency after the tender of the first component of a shipment for a relocating employee. On a multiple element domestic or international shipment at Government expense (either all or some combination of HHG, POV, or UAB), GSA's IFF will be assessed only against the household goods element of the net transportation charge (excluding SIT). An IFF is not assessed against POV and UAB shipments unless an agreement has been developed. If there are multiple HHG shipments, an IFF is assessed on each HHG shipment.

2-7.6.5. Payment of Charge.

The TSP will remit the IFF to GSA on a calendar year quarter basis in accordance with the terms of the HTOS. IFF payments remitted to GSA by approved CHAMP TSPs will be based on the number of shipments billed pursuant to CHAMP for which service was performed. **Calculation of the IFF should be rounded out two decimal points. (example: .345 rounded to .35; .322 rounded to .32)**

2-7.6.6. Verification of IFF.

To ensure that the IFF is correctly applied to the calendar year quarter for which submission is received, the check register must identify the quarter (i.e. 1stqtr00, 3rdqtr00), and the GBL/BL number or include with the IFF submission a copy of the shipment report containing such information.

2-7.6.7. Failure to Submit IFF.

Failure to submit the Industrial Funding Fee due GSA for household goods shipments handled, will result in immediate placement of the TSP in temporary non-use status pending revocation of the TSP's approval.

2-7.7. Length of Storage-in-Transit. (HTOS 4-11.1)

Notwithstanding any other provisions of the GRT, the TSP must provide, when required, SIT at destination for shipments handled under the HTOS. SIT is defined as the holding of a shipment or portion thereof at or in the facilities or warehouse used by the TSP for storage, pending further transportation. A shipment may be held in SIT for a period not to exceed 180 days, unless extended by mutual agreement between the RTO and the TSP, after which time, liability as TSP shall terminate, the applicable interstate or international character of the shipment or portion thereof shall cease, the warehouse shall be considered the destination of the property, the warehouseman shall be agent for the shipper, and the property shall then be subject to the rules, regulations, and charges of the warehouseman.

2-7.8. Unpacking and Debris Removal - RESERVED.

2-7.9. Excessive Distance Carry.

Notwithstanding any other provisions of the Item 160 of the GRT, any reference to a distance of less than 100 feet will be construed as 100 feet.

2-7.10. Delivery Out of Storage-in-Transit.

Charges for pickup or delivery out of storage as provided in **Item 210** of the GRT, will apply depending upon the location of the warehouse when the point of original pickup or delivery and warehouse are both located within the same municipality or within a distance of 50 miles or less. Any references to a distance of 30 miles will be construed as a distance of 50 miles.

2-7.11. Crating Services.

Regardless of possible use of a third party service for crating, crating services will be quoted, billed and paid as provided in the GRT. In the event that a third party is used to provide crating services and the charges are in excess of those provided in the GRT, the RTO has the authority to waive and negotiate the excess crating charges in whole or in part, based on the circumstances of the use of third party services.

2-7.12. Weight Variance.

In the event the actual shipment weight is greater than 115% of the premove survey weight, the TSP must notify the RTO or its designated representative prior to billing the Federal Agency of the original weighing and be prepared to justify the difference. In the event the TSP fails to notify the RTO or third party representative, the TSP stipulates that the agreed weight of the shipment will be 115% of the premove survey weight. In the event the TSP fails to adequately justify the difference between the actual and premove survey weights, the TSP stipulates that the agreed weight of the shipment will be 115% of the premove survey weight. The agreed weight shall take precedence over the actual weight for the assessment of transportation, accessorial, and storage-in-transit charges when based on weight. The RTO has the authority to waive this provision.

2.7.12.1. Verification of Weight Variance.

In order to apply the weight variance rule, it is recommended that a copy of the premove survey be included with the billing voucher and other documents.

2-7.13. Exceptions to Item 118 of GRT

The provisions of Item 118 of the GRT, Attempted Delivery to Residence from SIT, will not apply:

- 1) When the delivery is attempted after 5 PM or before 8 AM unless previously agreed to or requested by the shipper; or
- 2) When the delivery is attempted between the hours of 8 AM and 5 PM but at a time other than that previously requested or agreed to by the shipper; or
- 3) If delivery is not attempted or shipper is not otherwise contacted, within 90 minutes of the prearranged and agreed to delivery time.

2-7.14. Shipments of Unaccompanied Air Baggage

All unaccompanied air baggage shipments will be packed in Tri-wall containers measuring no more than 15 cube. All TSPs must have written approval from the BL certifying officer authorizing any exceptions to the Tri-wall measurements. TSPs who are invoicing for charges other than by gross weight must show the container cube and number of containers on the invoice before a prepayment audit is approved. **Where gross weight exceeds volume weight, TSP must charge for gross weight.**

2-7.15. Reweighing of Shipments Which Exceed 18,000 Pounds

Prior to the commencement of the unloading of a shipment weighed at origin which exceeds the 18,000 pound maximum weight allowance, the TSP shall reweigh the shipment at destination. This reweigh must take place at a supervised scale and be conducted by an authorized weigh master. The charges to the Federal agency shall be based on the lower of the two weights and copies of both sets of weight tickets shall be provided to the Federal agency prior to submitting the invoice for payment.

2-7.16. Non-Temporary Storage

Tender rates will apply into the TSP warehouse for non-temporary storage. Rates for monthly non-temporary storage per each hundred pounds and rates for full value protection per each \$100 of value must be negotiated between the TSP and the federal agency.

2-8. Claim Settlement Penalty.

In the event that the TSP fails to settle a claim within 30 days after receipt due to TSP's failure, the TSP will pay a \$25.00 per day penalty to the Federal agency. The total penalty shall not exceed \$250.00. The RTO has the authority to waive the penalty in whole or in part based on circumstances of the delay.

2-9. Exception Status.

The following provision applies; accepted offers may be placed in an exception status and rates will be withdrawn from GSA Cost Comparison data base upon failure to meet HTOS requirements, pending temporary non-use, suspension and/or debarment. In those instances where shipment takes place after effective date of exception status, the TSP's offer(s) as indicated on this tender will apply and remain in effect until terminated as provided by RFO.

2-10. Extension of Offer by the Government.

The Government reserves the right to extend the expiration date of all or part of the rate offers accepted in accordance with the RFO for up to ninety (90) calendar days.

2-11. Rights Reserved.

2-12. Termination.

The following provisions apply in lieu of Item 20e, Optional Form 280.

- (a) Accepted offers may be terminated and the TSP placed in a temporary non-use status by the Government immediately upon determination that a TSP has failed to satisfactorily respond to a show cause notice;
- (b) Accepted offers may be terminated by the Government immediately upon the debarment or suspension of the TSP in accordance with 41 CFR 101-40.4;
- (c) Except as provided in (a) and (b) above, accepted offers may be terminated at any time by either party hereto upon sixty (60) days notice in writing to the other. Termination under this clause shall not affect, or relieve any part of, any obligation or liability that may have accrued prior to such termination; and,
- (d) Upon termination of the offer under (a), (b), or (c) above, or as provided in the HTOS, the TSP shall be paid any sum due the TSP for services performed under this offer to the date of such termination, and in the event of partial termination shall be paid in accordance with the terms of this offer for any services furnished under the portion of the offer that is not terminated; provided, however, any such payments shall be without prejudice to any claim which the Government may have against the TSP under the provisions of the HTOS or otherwise and the Government shall have the right to offset any such claims against such payment.

A copy of the OF280 is available by contacting the PMO (RFO Section 1-6).

2-13. TERMINATION FOR CONVENIENCE OF THE GOVERNMENT.

The Government, by written notice, may terminate all or part of the rate offer(s) accepted in accordance with the RFO, in whole or in part, when it is in the Government's best interest. If a rate offer(s) is terminated, the Government shall be liable only for payment for services rendered before the effective date of the termination.

2-14. Item 21, Optional Form 280.

SECTION 4 EVALUATION AND ACCEPTANCE

4-1. Evaluation.

4-1.1. General.

Evaluation of a TSP's offer for transportation services will be based on the combination of the TSP's service performance and its offered charges. That combination will take the form of a Value Index (VI) as explained below.

4-1.2. Performance Evaluation.

4-1.2.1. DOMESTIC. For the 2005-2006 Filing Cycle, evaluation of the TSP's service performance will be based on data collected from Traffic Managers for a twelve (12) month period and a Customer Satisfaction Index (CSI) measuring each individual TSP's performance against the average level of performance will be assigned. In those instances when there was no data furnished, the TSP will be considered "Unindexed" and its performance will not be a factor in the evaluation.

4-1.2.2. INTERNATIONAL. For the 2005-2006 Filing Cycle, evaluation of the TSP's service performance will be based on data collected from Traffic Managers for a twelve (12) month period and a Customer Satisfaction Index (CSI) measuring each individual TSP's performance against the average level of performance will be assigned. In those instances when there was no data furnished, the TSP will be considered "Unindexed" and its performance will not be a factor in the evaluation.

4-1.3. Value Index (VI).

4-1.3.1. Computation. A TSP's VI is computed at the time each cost comparison is run. The computation uses the following steps:

- (1) A base total charges is computed for the cost comparison by adding together
 - Total Transportation Charges (line-haul, packing, and accessorial);
 - SIT Charges for 30 days (pickup/delivery, warehouse handling, storage);
 - The greatest vehicle price offered by all TSPs for that cost comparison, if applicable; and
 - The UAB Charge, if applicable (average of the weight breaks found in the base-line rate table in RFO Section 2-7).

This base total is absent any discounts or percentages.

- (2) The average charge by all TSPs on that route is calculated.
- (3) The average discount is calculated by subtracting the average charge from the base total charges (#1 and #2 above)
- (4) The charge for each individual TSP is calculated based on its offered discounts/percentages/rates.
- (5) Each individual TSP's discount is calculated by using the absolute value (abs) of the amount determined by subtracting the TSP's charge from the base total charges (abs (#1 and #4 above))
- (6) The Discount Index (DI) for each TSP is computed by dividing each TSP's discount by the average discount and multiplying the result by 100 (#5/#2, above)*100).
- (7) The VI for each TSP is finally computed by summing 70% of the TSP's Customer Satisfaction Index (CSI) with 30% of the DI ((.7*CSI)+(.3*#6, above)).

Example 1. If a TSP's CSI is 105.37 and its DI is 91.55, its VI = 101.22

$$((105.37*.70) + (91.55*.30)).$$

Example 2. If a TSP has no CSI and its DI is 137.96, its VI = 41.39

$$((0*.70) + (137.96 * .30)).$$

4-2. Acceptance.

4-2.1. Domestic.

Accepted offers will be listed on the GSA Cost Comparisons for Federal Agency use based on the VI as computed in RFO [Section 4-1.3](#), and in accordance with provisions of RFO Section 4-3.

*Shipments to Iraq will be considered door-to-door but actually delivered to a military location within the Green Zone.

5-4. Taxpayer Identification Number (TIN).

Under the Debt Collection Improvement Act of 1996, all TSPs are required to furnish its TIN as part of its rate offer. A TIN is defined as a business entity's Employer Identification Number (EIN). **Rate offers will not be accepted without a valid TIN on file.**

SECTION 6 FORMAT REQUIREMENTS

6-1. Format Requirements.

TSPs or Rate Filing Service Providers submitting rate offers in response to this RFO and SI ,MUST submit their rate offers electronically either via the File Transfer Protocol (FTP) instructions located in Section 7 or via the filing capabilities of GSA's Transportation Management Services Solution (TMSS) system. TSPs or Rate Filing Service Providers submitting rate offers via FTP must adhere to the following format requirements set out in RFO Section 6-2 below. **TSPs filing rate offers using TMSS must contact the PMO for access to the rate filing module if they do not already have TMSS access. TSPs may use the TMSS help screens for additional assistance with rate filing. TSPs have the option to modify rates globally or per traffic lane.** Submissions received from TSPs or Rate Filing Service Providers not conforming to FTP or TMSS record requirements will not be accepted by TMSS and the TSP will be notified as set in out in **RFO Section 1-1.6.**

Important Notes on Changes in Rate Filing Process:

1. All TSPs must obtain access to TMSS in order to keep their contact information current by updating such information online in TMSS.
2. The following record header types that were used in preceding rate filings are discontinued effective this rate filing.
 - a. H2- TSP's Authorized Official
 - b. H3- TSP's Authorized Official Title
 - c. H4- TSP's Street Address
 - d. H5- TSP's City/State/Zip Code
 - e. H6- TSP's Telephone Number/Facsimile Number.
 - f. H7- TSP's Internet Address.
3. The fields in record types 'H2' to 'H7' are now available online in TMSS and should be updated by logging into the TMSS system to keep the information current.
4. Record type 'H1' is mandatory and all TSPs must file this record. This record now contains an additional field 'TSP's Government Representative' which was in record type 'H2' in preceding rate filings.
5. A new record replaces the earlier record type 'H2'. This is an **optional** record and should be filed only by a Rate Filing Service Provider [RFSP]. The information provided in this record will be used by TMSS for notifying any file processing related issues to the RFSP. The TSP will not receive any notifications if the rates are being filed by an RFSP.
6. The rate record has two additional fields a) Facsimile Number and b) Email Address. The email field is **mandatory** and all TSPs must file this record. Fax numbers are optional, but preferred. The email address provided in the rate record will be used subsequently by TMSS for booking notification. The email is expected to be associated with the booking office at the route level. If no such email can be provided at the route level a corporate level email Id should be provided in this record.
7. For booking notifications to be sent by TMSS to the TSPs, the government will consider offering a system-to-system level information exchange between TMSS and the TSP's system, in lieu of sending a booking request via e-mail. In such cases, the communication via e-mail addresses will be optional. TSPs interested in this approach are required to contact GSA's program office (**FBL**) at (703) 605-5618 and the Government will evaluate such requests for implementation.
8. When the rate file preparation is complete, it MUST be saved as an unformatted ASCII (Text Only) flat file (e.g. no tab characters, etc.) before attempting to transfer the file.

**SECTION 7
 ELECTRONIC SUBMISSION**

7-1. Rate Tender Transmission. The below information applies only to FTP, not TMSS.

7-1.1. ELECTRONIC TRANSMISSION.

All electronic rate transmissions submitted in accordance with this request **MUST** be accomplished via the Internet utilizing the File Transfer Protocol (FTP) or via the rate filing capabilities of TMSS as defined in RFO [Section 1-1.5](#).

7-1.2. FORMAT REQUIREMENTS.

Format requirements, as set out in this RFO [Section 6](#) must be strictly adhered to. Submissions received from TSPs or TSPs Rate Filing Service Providers not conforming to format requirements will be found unacceptable.

7-1.3. FILE PREPARATION.

In order to transfer the file via the FTP, the file must be saved and transmitted as an unformatted ASCII (TEXT ONLY) flat file (i.e. no tab characters, etc.). The file must not have a top, bottom, right, or left margin.

Note: The type of software you will be utilizing will determine what must be done to prepare the file for transmission.

7-1.3.1. File Naming Convention.

Implementation of the Transportation Management Services Solution (TMSS) has created the need for the development of a File Naming Convention. This File Naming Convention applies to any initial, new, late, or supplemental rate offer(s) transmitted in accordance with the RFO.

FILE NAME	MAXIMUM POSITIONS	POSTIONS	CONTENTS
Prefix	3	1-3	Must be HHG
TSP's SCAC	4	1-4	RFSP: If transmitting rates on behalf of a TSP, enter TSP's SCAC. Do not append any characters if the SCAC assigned to you is less than four (4) positions.
Rate File Number	3	5-8	A running serial number starting with 001
Extension			File Extensions will NOT be supported.

Example of filenames:

File name where assigned SCAC has four positions: HHG**ABCD**001 where 'ABCD' is the SCAC

The TSP can send one or more files for rate filing. The TSP can send one or more rate types in a single file. It is strongly recommended that the number of files be kept to a minimum by combining multiple rate types. Irrespective of the number of files transmitted a 3-digit file number is required.

Examples of multiple filenames for a SCAC:

TSP transmitting only one file: File Name: HHG**ABCD**001

TSP transmitting two files: First File Name: HHG**ABCD**001, Second File Name: HHG**ABCD**002

TSP transmitting three files: First File Name: HHG**ABCD**001, Second File Name: HHG**ABCD**002, Third File Name: HHG**ABCD**003.

If as a TSP or Rate Filing Service Provider, you are unsure as to your firm's SCAC or code in GSA's CHAMP, contact Kim Chancellor as identified in RFO [Section 1-6](#).

The File Naming Convention identified above MUST be strictly adhered to. If your firm submits multiple rate files on the same day, files named the same will be overwritten; therefore, it is extremely important that files submitted on the same day have different names. Failure to do so will result in the rate offer(s) not being picked up from the TSPs or TSPs Rate Filing Service

Provider directory on the FTP and/or automatic rejection of the rate offer(s). TSPs will not receive Email or Fax notifications for transmitting files with non-standard file names.

7-1.4. ACCESSING THE FTP.

GSA is unable to provide specific instructions on how to access the FTP, how to upload a file onto the FTP, how to download a file from the FTP, or how to move around in the FTP due to the fact that accessing and operating within the FTP are dependent upon the type of FTP software utilized by a firm. Consequently, a firm will need to contact their FTP provider for assistance. FTP utilities such as WS_FTP95LE are widely used and could serve the purpose, however, GSA does not mandate these products and you are free to choose your own FTP software. Listed below is information GSA can provide. The address to GSA's FTP directory and two different methods (there are others) by which to access a firm's individual directory in which a firm's rate file(s) will need to be uploaded.

7-1.4.1. FTP ADDRESS.

Existing user codes/passwords will be carried over from ITMS to TMSS. The letters FTP will prefix the new user codes. Example: If your existing user code was ABCD the new user code will be FTPABCD. The password will remain the same.

The new FTP server address to be used for transmitting files to TMSS is: **159.142.4.2**

7-1.4.2. DIRECTORY ACCESS.

Once you have placed a file within your firm's directory using FTP, you may verify that your firm's file was successfully transmitted. If the file doesn't appear in your firm's directory, you will need to "Upload" the file again. The will only assist you in verifying that your firm's rate offer file was transferred successfully and WILL NOT verify that the contents of your firm's rate offer file have been formatted correctly.

7-1.7. Confirming Rate Transmission.

At the end of each business day during the rate filing period, an automated process will search for rate files from TSPs and RFSPs and process them.

An e-mail confirmation acknowledging the receipt and processing of the file will be sent to the TSP's e-mail address OR the RFSP's email address if an RFSP has filed on behalf of the TSP. The e-mail will contain the number of records processed and the number of errors encountered. In order to receive timely notifications on the outcome of file processing it is essential that a correct e-mail address be kept on file. Error files will be generated and placed in the firm's directory and will be named as HHGSCAC999ERR where SCAC is the SCAC of the TSP (Not the RFSP), 999 is the original file number assigned by the TSP or RFSP. You need to connect to FTP to download the error file/s, if any. TSPs and RSVPs will receive notification of rate filing deficiencies in accordance with RFO [Section 1-1.7](#).

SECTION 8 TRAFFIC VOLUME

8-1. Historical Traffic Volume.

Identifies on the following pages is historical traffic volume for fiscal year 2004. The data provided should not be interpreted as a guarantee to the TSP that future traffic will amount to these quantities. The Government makes no guarantee that these quantities or any quantities will be shipped. Failure of estimates to materialize will not constitute a basis for rate adjustments.

8-1.1. Domestic

The data referenced below is derived from properly formatted shipment reports submitted by approved participants in CHAMP during Calendar Year 2004. These totals do not reflect the actual number of shipments in CHAMP for 2004 due to possible errors in reporting.
