

Why You Want to Attend,

You will want to attend especially if you represent/own a small business in the areas of Construction, Architecture/Engineering, Maintenance, Real Estate, Facilities Support Services, and/or HVAC services, specifically if you are seeking training or government contracting networking opportunities.

Some of the agenda highlights include:

- American Recovery and Reinvestment Act (the Stimulus Package) – GSA has been allocated money for construction, repairs, and alterations of Federal buildings; planned projects will be discussed
- The Green Initiative – GSA's energy saving efforts; the Green products and services contracted for / by the government
- Capital Projects – Project Managers discuss the conception to completion of large Federal construction projects
- Small Projects – Property Managers discuss the maintenance of Federal buildings; includes a discussion about marketing to Public Buildings Service (PBS)
- Socioeconomic Categories – A discussion of the Small Business Administration (SBA) certification processes
- National Broker Contract – A discussion of PBS' major real estate contract and related opportunities for small business concerns
- Subcontracting Opportunities – A discussion led by GSA contract holders, particularly large firms looking for Small Business partners
- Facilities Maintenance Schedule Seminar – Understanding the process of obtaining the usage of this schedule
- Submitting a Bid – The “Do's and Don'ts” of responding to technical proposals; a discussion about bonding will be included
- Small Business Success Story – The strategies employed and obstacles overcome
- Networking Session – Matchmaking / one-on-one short meetings with government Contracting Officers, Project Managers, and current GSA contract holders
