WHITE HOUSE HONORS OUTSTANDING FEDERAL ENVIRONMENTAL ACHIEVEMENTS

WASHINGTON, DC -- Acting Federal Environmental Executive Dana Arnold today announced the winners of the 2009 White House Closing the Circle (CTC) Awards for outstanding Federal environmental stewardship.

Over the last fifteen years the CTC Awards have recognized outstanding achievements of Federal employees and their facilities for their commitment to environmental stewardship by improving environmental performance and conditions at Federal facilities.

“The President believes that we all have a responsibility to our children to leave this Earth better than we found it. All Americans must have a vested interest in the protection and proper maintenance of our irreplaceable national treasures.” said Dana Arnold, the Acting Federal Environmental Executive. “Our award winners this year have worked hard and long in their respective Federal agencies and facilities to ensure that their policies, programs and practices lead us to a healthier, better sustainable, and economically stronger America.”

This year, 15 winners and 13 honorable mentions were selected from nearly 200 nominations in the areas of environmental management systems, pollution prevention, recycling, green product purchasing, alternative fuels, electronics stewardship and sustainable buildings. The awards ceremony will be held on June 17, 2009, in the Natcher Auditorium of the National Institutes of Health (NIH), in Bethesda, MD, to formally recognize the winners and their programs.

Created by executive order, the Office of the Federal Environmental Executive (OFEE) is a chartered task force under the White House Council on Environmental Quality. It works to promote the greening of the Federal government by assisting agencies in integrating environmental considerations into their daily operations and management decisions. OFEE assists agencies with such sustainable practices as implementing environmental management systems, purchasing green products, designing and constructing sustainable buildings, electronics stewardship, and waste prevention and recycling.

2009 White House Closing the Circle Awards Winners

Environmental Management Systems – Military

Department of Defense
Defense Supply Center Richmond, VA
EMS Implementation Team
EMS Benefits to a DOD Installation

Environmental Management Systems – Civilian

Federal Aviation Administration
