

Save Money. Smell the Flowers.

Looking for ways to save money on gas and help the environment? The EPA wants to share some smart driving tips that could give you more miles per gallon of gas and reduce air pollution. Tips like making sure your tires are properly inflated and replacing your air filter regularly. And where possible, accelerate and brake slowly. Be aware of your speed...did you know that for every 5 miles you go over 65 mph, it's as if you're spending 20 cents more per gallon of gas? If you're shopping for a new car, look for the SmartWay® certification mark to help you choose the cleanest, most efficient vehicle that meets your needs. If we each adopt just one of these tips, we'd get more miles for our money and it would be a little easier to smell the flowers. For more tips and to compare cleaner, more efficient vehicles, visit www.epa.gov/smartway.
