separate limitation deficit shall be carried forward in the same separate category in which it was incurred. In addition, because deemed-paid taxes may not exceed taxes paid or accrued by the controlled foreign corporation, in computing deemed-paid taxes with respect to an inclusion out of a separate category that exceeds post-1986 undistributed earnings in that separate category, the numerator of the deemedpaid credit fraction (deemed inclusion from the separate category) may not exceed the denominator (post-1986 undistributed earnings in the separate category).

(5) *Examples.* The application of this paragraph (i) may be illustrated by the following examples. See 1.952-1(f)(4) for additional illustrations of these rules.

Example 1. (i) A, a U.S. person, is the sole shareholder of CFC, a controlled foreign corporation formed on January 1, 1998, whose functional currency is the u. In 1998 CFC earns 100u of general limitation income described in section 904(d)(1)(I) that is not subpart F income and 100u of foreign personal holding company income that is passive income described in section 904(d)(1)(A). In 1998 CFC also incurs a (50u) loss in the shipping category described in section 904(d)(1)(D). CFC's subpart F income for 1998, 100u, does not exceed CFC's current earnings and profits of 150u. Accordingly, all 100u of CFC's subpart F income is included in A's gross income under section 951(a)(1)(A). Under section 904(d)(3)(B) of the Internal Revenue Code and paragraph (i)(1) of this section, A includes 100u of passive limitation income in gross income for 1998.

(ii) For purposes of computing post-1986 undistributed earnings under sections 902, 904(d) and 960 with respect to the subpart F inclusion, the shipping limitation deficit of (50u) is allocated proportionately to reduce general limitation earnings of 100u and passive limitation earnings of 100u. Thus, general limitation earnings are reduced by 25u to 75u (100u general limitation earnings/200u total earnings in positive separate categories  $\times$  (50u) shipping deficit = 25u reduction), and passive limitation earnings are reduced by 25u to 75u (100u passive earnings/200u total earnings in positive separate categories  $\times$ (50u) shipping deficit = 25u reduction). All of CFC's post-1986 foreign income taxes with respect to passive limitation earnings are deemed paid by A under section 960 with respect to the 100u subpart F inclusion of passive income (75u inclusion (numerator limited to denominator under paragraph (i)(4) of this section)/75u passive earnings). After the

inclusion and deemed-paid taxes are computed, at the close of 1998 CFC has 100u of general limitation earnings, 0 of passive limitation earnings (100u of foreign personal holding company income — 100u inclusion), and a (50u) deficit in shipping limitation earnings.

*Example 2.* (i) The facts are the same as in *Example 1* with the addition of the following facts. In 1999, CFC distributes 150u to A. CFC has 100u of previously-taxed earnings and profits described in section 959(c)(2) attributable to 1998, all of which is passive limitation earnings and profits. Under section 959(c), 100u of the 150u distribution is deemed to be made from earnings and profits described in section 959(c)(2). The remaining 50u is deemed to be made from earnings and profits described in section 959(c)(3). The entire dividend distribution of 50u is treated as made out of CFC's general limitation earnings and profits. See section 904(d)(3)(D).

(ii) For purposes of computing post-1986 undistributed earnings under section 902 with respect to the 1999 dividend of 50u, the shipping limitation accumulated deficit of (50u) reduces general limitation earnings and profits of 100u to 50u. Thus, 100% of CFC's post-1986 foreign income taxes with respect to general limitation earnings are deemed paid by A under section 902 with respect to the 1999 dividend of 50u (50u dividend/50u general limitation earnings). After the deemedpaid taxes are computed, at the close of 1999 CFC has 50u of general limitation earnings (100u opening balance-50u distribution), 0 of passive limitation earnings, and a (50u) deficit in shipping limitation earnings.

(6) *Effective date.* This paragraph (i) applies to taxable years of a controlled foreign corporation beginning after March 3, 1997.

#### \$1.960-2 Interrelation of section 902 and section 960 when dividends are paid by third-, second-, or first-tier corporation.

(a) *Scope of this section.* This section prescribes rules for the application of section 902 in a case where dividends are paid by a third-, second-, or first-tier corporation, as the case may be, from its earnings and profits for a taxable year when an amount attributable to such earnings and profits is included

in the gross income of a domestic corporation under section 951, or when such earnings and profits are attributable to an amount excluded from the gross income of such foreign corporation under section 959(b) and §1.959-2, with respect to the domestic corporation. In making determinations under this section, any portion of a distribution received from a first-tier corporation by the domestic corporation which is excluded from the domestic corporation's gross income under section 959(a) and §1.959-1, or any portion of a distribution received from an immediately lower-tier corporation by the third-, second-, or first-tier corporation which is excluded from such foreign corporation's gross income under section 959(b) and §1.959-2, shall be treated as a dividend for purposes of taking into account under section 902 any foreign income taxes paid by such third-, second-, or first-tier corporation which are not deemed paid by the domestic corporation under section 960(a)(1) and §1.960-1.

(b) Application of section 902(b) to dividends received from an immediately lowertier corporation. For purposes of paragraph (a) of this section and paragraph (c)(1)(i) of §1.960–1, section 902(b) shall apply to all dividends received by the first- or second-tier corporation from the immediately lower-tier corporation other than dividends attributable to earnings and profits of such immediately lower-tier corporation in respect of which an amount is, or has been, included in the gross income of a domestic corporation under section 951 with respect to such immediately lower-tier corporation.

(c) Application of section 902(a) to dividends received by domestic corporation from first-tier corporation. For purposes of paragraph (a) of this section, section 902 (a) shall apply to all dividends received by the domestic corporation for its taxable year from the first-tier corporation other than dividends attributable to earnings and profits of such first-tier corporation in respect of which an amount is, or has been, included in the gross income of a domestic corporation under section 951 with respect to such first-tier corporation.

(d) Allocation of earnings and profits of a first- or second-tier corporation having

## 26 CFR Ch. I (4–1–04 Edition)

income excluded under section 959(b)-(1) First-tier corporations. If the first-tier corporation for its taxable year receives dividends from the second-tier corporation to which in accordance with paragraph (b) of this section 902(b)(1) or section 902(b)(2) applies and other dividends from the second-tier corporation to which such sections do not apply, then in applying section 902(a) pursuant to this section and in applying section 960(a)(1) pursuant to 1.960-1(c)(1)(i), with respect to the foreign income taxes paid and deemed paid by the second-tier corporation which are deemed paid by the first-tier corporation for such taxable year under section 902(b)(1)-

(i) The earnings and profits of the first-tier corporation for such taxable year shall be considered not to include its earnings and profits which are attributable to the dividends to which section 902(b)(1) does not apply (in determining the domestic corporation's credit for the taxes paid by the second-tier corporation) or which are attributable to the dividends to which sections 902(b)(1) and 902(b)(2) do not apply (in determining the domestic corporation's credit for taxes deemed paid by the second-tier corporation) and

(ii) For the purposes of so applying section 902(a), distributions to the domestic corporation from such earnings and profits which are attributable to the dividends to which section 902(b)(1) does not apply (in determining the domestic corporation's credit for taxes paid by the second-tier corporation) or which are attributable to the dividends to which sections 902(b)(1) and 902(b)(2) do not apply (in determining the domestic corporation's credit for taxes deemed paid by the second-tier corporation) shall not be treated as a dividend.

(2) Second-tier corporations. If the second-tier corporation for its taxable year receives dividends from the thirdtier corporation to which, in accordance with paragraph (b) of this section, section 902(b)(2) applies and other dividends from the third-tier corporation to which such section does not apply, then in applying section 902(b)(1) pursuant to this section, and in applying section 960(a)(1) pursuant to paragraph (c)(1)(i) of §1.960-1, with respect to the

foreign taxes deemed paid by the second-tier corporation for such taxable year under section 902(b)(2)—

(i) The earnings and profits of the second-tier corporation for such taxable year shall be considered not to include its earnings and profits which are attributable to such other dividends from the third-tier corporation, and

(ii) For the purposes of so applying section 902(b)(1), distributions to the first-tier corporation from such earnings and profits which are attributable to such other dividends from the third-tier corporation shall not be treated as a dividend.

(e) Separate determinations under sections 902(a), 902(b)(1), and 902(b)(2) in the case of a first-, second-, or third-tier corporation having income excluded under section 956(b). If in the case of a first-, second-, or third-tier corporation to which paragraph (b) or (c) of this section is applied—

(1) The earnings and profits of such foreign corporation for its taxable year consist of—

(i) Dividends received from an immediately lower-tier corporation which are attributable to amounts included in the gross income of a domestic corporation under section 951 with respect to the immediately lower- or lower-tier corporations, and

(ii) Other earnings and profits, and

(2) The effective rate of foreign income taxes paid or accrued by such foreign corporation on the dividends described in paragraph (e)(1)(i) of this section is higher or lower than the effective rate of foreign income taxes attributable to its earnings and profits described in paragraph (e)(1)(ii) of this section,

then, for purposes of applying paragraph (b) or (c) of this section to dividends paid by such foreign corporation to the domestic corporation or the first- or second-tier corporation, sections 902(a), 902(b)(1), and 902(b)(2) shall be applied separately to the portion of the dividend which is attributable to the earnings and profits described in paragraph (e)(1)(i) of this section and separately to the portion of the dividend which is attributable to the earnings and profits described in paragraph (e)(1)(i) of this section. In making a separate determination with respect to

the earnings and profits described in paragraph (e)(1)(i) or (e)(1)(ii) of this section, only the foreign income taxes paid or accrued (or, in the case of earnings and profits of a first- or secondtier corporation described in paragraph (e)(1)(ii) of this section, deemed to be paid) by such foreign corporation on the income attributable to such earnings and profits shall be taken into account. For purposes of applying this paragraph (e), no part of the foreign income taxes paid, accrued, or deemed to be paid which are attributable to the earnings and profits described in paragraph (e)(1)(ii) of this section shall be attributed to the dividend described in paragraph (e)(1)(i) of this section; and no part of the foreign income taxes paid or accrued on the dividend described in paragraph (e)(1)(i) of this section shall be attributed to the earnings and profits described in paragraph (e)(1)(ii) of this section. Furthermore, the effective rate of foreign income taxes paid or accrued shall be determined consistently with the principles of paragraphs (b)(3)(iv) and (viii) and (c) of §1.954-1. Thus, for example, the effective rate of foreign income taxes on dividends received by such foreign corporation shall be determined by taking into account any intercorporate dividends received deduction allowed to such corporation for such dividends.

(f) *Illustrations.* The application of this section may be illustrated by the following examples. In all of the examples other than examples 6, 7, 9 and 10, it is assumed that the effective rate of foreign income taxes paid or accrued by the first- or second-tier corporation, as the case may be, in respect to dividends received from the immediately lower-tier corporation, is the same as the effective rate of foreign income taxes paid or accrued by the first- or second-tier corporation with respect to its other income:

*Example 1.* Domestic corporation N owns all the one class of stock of controlled foreign corporation A, which owns all the one class of stock of controlled foreign corporation B. All such corporations use the calendar year as the taxable year. For 1978, N Corporation is required under section 951 to include \$50 in gross income attributable to the earnings and profits of A Corporation for such year, but is not required to include any

amount in gross income under section 951 attributable to the earnings and profits of B Corporation. For such year, B Corporation distributes a dividend of \$45, but A Corporation does not make any distributions. The foreign income taxes deemed paid by N Corporation for 1978 under section 960(a)(1), after applying section 902(b)(1) for such year of A Corporation, are determined as follows upon the basis of the facts assumed:

B Corporation (second-tier corporation):

Example 2. Domestic corporation N owns all the one class of stock of controlled foreign corporation A, which owns all the one class of stock of controlled foreign corporation B. All such corporations use the calendar year as the taxable year. For 1978, N Corporation is required under section 951 to include in gross income \$150 attributable to the earnings and profits of B Corporation for such year, which B Corporation distributes during such year. Corporation N is not required for 1978 to include any amount in gross income under section 951 attributable to the earnings and profits of A Corporation, but A Corporation distributes for such year \$135 from its earnings and profits attributable to B Corporation's dividend. The foreign income taxes deemed paid by N Corporation for 1978 under section 960(a)(1)(C) and section 902(a) are determined as follows upon the basis of the facts assumed: ВС

#### §1.960–3 Gross-up of amounts included in income under section 951.

(a) General rule for including taxes in income. Any taxes deemed paid by a domestic corporation for the taxable year pursuant to section 960(a)(1) shall, except as provided in paragraph (b) of this section, be included in the gross income of such corporation for such year as a dividend pursuant to section 78 and §1.78–1.

(b) Certain taxes not included in income. Any taxes deemed paid by a domestic corporation for the taxable year pursuant to section 902(a) or section 960(a)(1) shall not be included in the gross income of such corporation for such year as a dividend pursuant to section 78 and §1.78-1 to the extent that such taxes are paid or accrued by the first-, second-, or third-tier corporation, as the case may be, on or with respect to an amount which is excluded from the gross income of such foreign corporation under section 959(b) and §1.959-2 as distributions from the earnings and profits of another controlled foreign corporation attributable to an amount which is, or has been, required to be included in the gross income of the domestic corporation under section 951.

(c) *Illustrations.* The application of this section may be illustrated by the following examples:

*Example 1.* Domestic corporation N owns all the one class of stock of controlled foreign corporation A, which owns all the one class of stock of controlled foreign corporation B. All such corporations use the calendar year as the taxable year. For 1978, B Corporation, after having paid \$20 of foreign income taxes, has \$80 in earnings and profits, which are attributable to the amount re-

quired to be included in N Corporation's gross income for such year under section 951 with respect to B Corporation and all of which are distributed to A Corporation in such year. The dividend so received from B Corporation is excluded from A Corporation's gross income under section 959(b) and  $1.959{\text{--}2}$  An income tax of 10 percent is required to be withheld from such dividend by the foreign country under the laws of which B Corporation is created, and the foreign country under the laws of which A Corporation is created imposes an income tax of \$22 on the dividend received from B Corporation. For 1978, A Corporation's earnings and profits are \$50 (\$80-[0.10×\$80]-\$22), which it distributes in such year to N Corporation. For 1978, N Corporation is required under section 951 to include \$80 in gross income with respect to B Corporation and also is required under the gross-up provisions of section 78 to include in gross income \$20 (\$80/\$80×\$20), the amount equal to the foreign income taxes of B Corporation which are deemed paid by N Corporation under section 960(a)(1). Under paragraph (b) of this section N Corporation is not required to include in gross income the \$30 (\$8+\$22) of foreign income taxes which are paid by A Corporation in connection with the dividend received from B Corporation and which are deemed paid by N Corporation under section 902(a) and paragraph (c) of § 1 960-2

*Example 2.* Domestic corporation N owns all the one class of stock of controlled foreign corporation A, which owns all the one class of stock of controlled foreign corporation B, which in turn owns all the one class of stock of controlled foreign corporation C. All such corporations use the calendar year as the taxable year. For 1978, C Corporation, after having paid \$20 of foreign income taxes, has \$80 in earnings and profits, which are attributable to the amount required to be included in N Corporation's gross income for such year under section 951 with respect to C Corporation and all of which are distributed to B Corporation in such year.
