§ 1.985–4 Method of accounting.

(a) *Adoption of election.* The adoption of, or the election to use, a functional currency shall be treated as a method of accounting. The functional currency shall be used for the year of adoption (or election) and for all subsequent taxable years unless permission to change is granted, or considered to be granted under § 1.985–2 or 1.985–8, by the Commissioner.

(b) *Condition for changing functional currencies.* Generally, permission to change functional currencies shall not be granted unless significant changes in the facts and circumstances of the QBU's economic environment occur. If the determination of the functional currency of the QBU for purposes of United States generally accepted accounting principles (GAAP) is based on facts and circumstances substantially similar to those set forth in § 1.985–1(c)(2), then ordinarily the Commissioner will grant a taxpayer's request to change its functional currency (or the functional currency of its branch that is a QBU) to a new functional currency only if the taxpayer (or its QBU) also changes to the new functional currency for purposes of GAAP. However, permission to change will not necessarily be granted merely because the new functional currency will conform to the taxpayer's GAAP functional currency.

(c) *Relationship to certain other sections of the Code.* Nothing in this section shall be construed to override the provisions of any other sections of the Code of regulations that require the use of consistent accounting methods. Such provisions must be independently satisfied separate and apart from the identification of a functional currency. For instance, while separate geographical divisions of a taxpayer's trade or business may have different functional currencies, such geographical divisions may nevertheless

be required to consistently use other methods of accounting.

§ 1.985–5 Adjustments required upon change in functional currency.

(a) *In general.* This section applies in the case of a QBU that changes from one functional currency (old functional currency) to another functional currency (new functional currency). A taxpayer or QBU subject to the rules of this section shall make the adjustments set forth in the 3-step procedure described in paragraphs (b) through (e) of this section. The adjustments shall be made on the last day of the taxable year ending before the year of change as defined in § 1.481–1(a)(1). Gain or loss required to be recognized under paragraphs (b), (d)(2), and (e)(2) of this section is not subject to section 481 and, therefore, the full amount of the gain or loss must be included in income or earnings and profits on the last day of the taxable year ending before the year of change. Except as provided in § 1.985–6, a QBU with a functional currency for its first taxable year beginning in 1987 that is different from the currency in which it had kept its books and records for United States accounting and tax accounting purposes for its prior taxable year shall apply the principles of this § 1.985–5 for purposes of computing the relevant functional currency items, such as earnings and profits, basis of an asset, and amount of a liability, as of the first day of a taxpayer's first taxable year beginning in 1987. However, a QBU that changes to the dollar pursuant to § 1.985–1(b)(2) after 1987 shall apply § 1.985–7.

(b) *Step 1—Taking into account exchange gain or loss on certain section 988 transactions.* The QBU shall recognize or otherwise take into account for all purposes of the Code the amount of any unrealized exchange gain or loss attributable to a section 988 transaction (as defined in section 988(c)(1)(A), (B), and (C)) that, after applying section 988(d), is denominated in terms of or determined by reference to the new functional currency. The amount of such gain or loss shall be determined without regard to the limitations of section
