

earnings and profits (if the rules of section (b)(6)(iii) of this section apply), and

(B) Exclude any amount reported on such applicable financial statement that does not qualify as effectively connected net book income.

See the example in paragraph (d)(7)(ii) of this section.

(ii) *Example.* The provisions of this paragraph may be illustrated by the following example.

*Example.* Foreign corporation A, a calendar year taxpayer for financial accounting and tax purposes, is incorporated in X. A actively conducts two real estate businesses, B and C, in the United States. B prepares a certified audited financial statement that it provides to its United States creditor. C does not prepare a financial statement. The certified audited financial statement prepared by B is treated as A's applicable financial statement under paragraph (c)(5)(ii) of this section. B's certified audited financial statement, in addition to amounts related to the conduct of its real estate business, also reports income received from its investment in United States securities, unrelated to its conduct of business in the United States that does not qualify as effectively connected net book income. In order to determine A's effectively connected net book income from the net book income reported on the applicable financial statement, such statement must be adjusted to exclude amounts attributable to the securities. In addition, book income or loss attributable to C, to the extent effectively connected to its business in the United States, must be included in the effectively connected net book income reported on B's financial statement. Since C does not have a financial statement, C's effectively connected net book income is determined by computing its effectively connected earnings and profits under paragraph (b)(6)(iii) of this section.

(8) *Adjustment for corporations subject to subchapter F.* A corporation subject to tax under subchapter F of chapter 1 of the Code shall adjust its book income to exclude all items of income, loss or expense other than those relating to the calculation of unrelated business taxable income for purposes of section 512(a).

(e) *Special rules—(1) Cooperatives.* For purposes of computing the book income adjustment, net book income of a cooperative to which section 1381 applies is reduced by patronage dividends and per-unit retain allocations under section 1382(b) that are paid by the cooper-

ative to the extent such amounts are deductible for regular income tax and general alternative minimum tax purposes under section 1382, and not otherwise taken into account in determining adjusted net book income.

(2) *Alaska Native Corporations.* In computing the net book income of an Alaska Native Corporation, cost recovery and depletion are computed using the asset basis determined under section 21(c) of the Alaska Native Claims Settlement Act (43 U.S.C. 1620(c)). In addition, net book income is reduced by expenses payable under either section 7(i) or section 7(j) of the Alaska Native Claims Settlement Act (43 U.S.C. 1606 (i) and (j)) only when deductions for such expenses are allowed for tax purposes.

(3) *Insurance companies.* In the case of an insurance company whose applicable financial statement is a statement describing in paragraph (c)(1)(iii) of this section (relating to statements provided to a government regulator), net book income for purposes of the book income adjustment is the net income or loss from operations, after reduction for dividends paid to policyholders, but without reduction for Federal income taxes.

(4) *Estimating the book income adjustment for purposes of the estimated tax liability.* See §1.6655-7 for special rules for estimating the corporate alternative minimum tax book income adjustment under the annualization exception.

REGULATIONS APPLICABLE TO TAXABLE YEARS BEGINNING IN 1969 AND ENDING IN 1970

#### § 1.56A-1 Imposition of tax.

(a) *In general.* Section 56(a) imposes an income tax on the items of tax preference (as defined in §1.57-1) of all persons other than persons specifically exempt from the taxes imposed by chapter 1. The items of tax preference represent income of a person which either is not subject to current taxation by reason of temporary exclusion (such as stock options) or by reason of an acceleration of deductions (such as accelerated depreciation) or is sheltered from

## § 1.56A-2

## 26 CFR Ch. I (4-1-04 Edition)

full taxation by reason of certain deductions (such as percentage depletion) or by reason of a special rate of tax (such as the rate of tax on corporate capital gains). The tax imposed by section 56 is in addition to the other taxes imposed by chapter 1.

(b) *Computation of tax.* The amount of such tax is 10 percent of the excess (referred to herein as “the minimum tax base”) of—

(1) The sum of the taxpayer’s items of tax preference for such year in excess of the taxpayer’s minimum tax exemption (determined under § 1.58-1) for such year, over

(2) The sum of:

(i) The taxes imposed for such year under chapter 1 other than the taxes imposed by section 56 (relating to minimum tax for tax preferences), by section 531 (relating to accumulated earnings tax), or by section 541 (relating to personal holding company tax), reduced by the sum of the credits allowable under—

(a) Section 33 (relating to taxes of foreign countries and possessions of the United States),

(b) Section 37 (relating to retirement income),

(c) Section 38 (relating to investment credit),

(d) Section 40 (relating to expenses of work incentive programs), and

(e) Section 41 (relating to contributions to candidates for public office, and

(ii) The tax carryovers to such taxable year (as described in § 1.56A-5).

(c) *Special rule.* For purposes of paragraph (b) of this section where for any taxable year in which a tax is imposed under section 667 (relating to treatment of amounts deemed distributed by a trust in preceding years), that portion of the section 667 tax representing an increase in an earlier year’s chapter 1 taxes (as recomputed), which taxes are allowed as a reduction in any such earlier year’s minimum tax base, is not allowable as a reduction in the minimum tax base for the current taxable year. The remaining portion of the section 667 tax, representing the taxes imposed by section 56, section 531, and section 541, is not allowable as a reduction in the minimum tax base for any taxable year. Similarly, taxes

imposed under section 614(c)(4) (relating to increase in tax with respect to aggregation of certain mineral interests) or under section 1351(d) (relating to recoveries of foreign expropriation losses) for any taxable year are not allowed as a reduction in the minimum tax base for such taxable year to the extent they represent chapter 1 taxes which are allowed as a reduction in a minimum tax base for an earlier taxable year for purposes of the computations under section 614(c)(4) or section 1351(d) or to the extent they represent an increase in the tax imposed by section 56, section 531, or section 541 in an earlier taxable year.

[T.D. 7564, 43 FR 40466, Sept. 12, 1978. Redesignated and amended by T.D. 8138, 52 FR 15309, Apr. 28, 1987]

### § 1.56A-2 Deferral of tax liability in case of certain net operating losses.

(a) *In general.* Section 56(b) provides for the deferral of liability for the minimum tax where, for the taxable year, the taxpayer has—

(1) A net operating loss for such taxable year any portion of which (under sec. 172) remains as a net operating loss carryover to a succeeding taxable year, and

(2) Items of tax preference in excess of the minimum tax exemptions (hereinafter referred to as “excess tax preferences”).

In such a case, an amount of tax equal to the lesser of the tax imposed under section 56(a) (after allowance of the retirement income credit to the extent that such credit cannot be used against the other taxes imposed by chapter 1) or 10 percent of the amount of the net operating loss carryover described in subparagraph (1) of this paragraph is deferred. Such amount is not treated as tax imposed in such taxable year, but is treated as tax imposed in the succeeding taxable year or years in which the net operating loss is used as provided in paragraphs (b) and (c) of this section. Deferral will result in the above case regardless of the character of the tax preference items. Thus, for example, if the taxpayer has \$1,030,000 of items of tax preference, including the stock option item of tax preference, and a \$750,000 net operating loss available for carryover to subsequent
