

§ 1.367(b)-2

26 CFR Ch. I (4-1-04 Edition)

must file a section 367(b) notice with regard to a foreign corporation described in paragraph (c)(2) of this section. Such notice must be attached to a timely filed Federal tax return (including extensions) for the United States person's taxable year in which income is realized in the section 367(b) exchange and, if the United States person is required to file a Form 5471 (Information Return of U.S. Persons With Respect To Certain Foreign Corporations), the section 367(b) notice must be attached to the Form 5471. The following persons are listed in this paragraph (c)(3)(ii)—

(A) United States shareholders (as defined in § 1.367(b)-3(b)(2)) of foreign corporations described in paragraph (c)(2)(i) of this section; and

(B) Section 1248 shareholders of foreign corporations described in paragraph (c)(2)(iii) or (iv) of this section.

(4) *Information required.* Except as provided in paragraph (c)(5) of this section, a section 367(b) notice shall include the following information—

(i) A statement that the exchange is a section 367(b) exchange;

(ii) A complete description of the exchange;

(iii) A description of any stock, securities or other consideration transferred or received in the exchange;

(iv) A statement that describes any amount required, under the section 367(b) regulations, to be taken into account as income or loss or as an adjustment to basis, earnings and profits, or other tax attributes as a result of the exchange;

(v) Any information that is or would be required to be furnished with a Federal income tax return pursuant to regulations under section 332, 351, 354, 355, 356, 361 or 368 (whether or not a Federal income tax return is required to be filed), if such information has not otherwise been provided by the person filing the section 367(b) notice;

(vi) Any information required to be furnished with respect to the exchange under sections 6038, 6038A, 6038B, 6038C or 6046, or the regulations under those sections, if such information has not otherwise been provided by the person filing the section 367(b) notice; and

(vii) If applicable, a statement that the shareholder is making the election

described in § 1.367(b)-3(c)(3). This statement must include—

(A) A copy of the information the shareholder received from the foreign acquired corporation (or its successor in interest) establishing and substantiating the shareholder's all earnings and profits amount with respect to the shareholder's stock in the foreign acquired corporation; and

(B) A representation that the shareholder has notified the foreign acquired corporation (or its successor in interest) that the shareholder is making the election described in § 1.367(b)-3(c)(3).

(5) *Abbreviated notice provision for shareholders that make the election described in § 1.367(b)-3(c)(3).* In the case of a foreign acquired corporation that has never had earnings and profits that would result in any shareholder having an all earnings and profits amount, a shareholder making the election described in § 1.367(b)-3(c)(3) may satisfy the information requirements of paragraph (c)(4) of this section by filing a section 367(b) notice that includes—

(i) A statement from the foreign acquired corporation (or its successor in interest) that the foreign acquired corporation has never had any earnings and profits that would result in any shareholder having an all earnings and profits amount; and

(ii) The information described in paragraphs (c)(4) (i) through (iii) of this section.

(6) *Supplemental published guidance.* The section 367(b) notice requirements may be updated or amended by revenue procedure or other published guidance.

[T.D. 8862, 65 FR 3597, Jan. 24, 2000; 65 FR 66501, Nov. 6, 2000]

§ 1.367(b)-2 Definitions and special rules.

(a) *Controlled foreign corporation.* The term *controlled foreign corporation* means a controlled foreign corporation as defined in section 957 (taking into account section 953(c)).

(b) *Section 1248 shareholder.* The term *section 1248 shareholder* means any United States person that satisfies the ownership requirements of section 1248 (a)(2) or (c)(2) with respect to a foreign corporation.

(c) *Section 1248 amount—(1) Rule.* The term *section 1248 amount* with respect

to stock in a foreign corporation means the net positive earnings and profits (if any) that would have been attributable to such stock and includible in income as a dividend under section 1248 and the regulations thereunder if the stock were sold by the shareholder. In the case of a transaction in which the shareholder is a foreign corporation (foreign shareholder), the following additional rules shall apply—

(i) The foreign shareholder shall be deemed to be a United States person for purposes of this paragraph (c), except that the foreign shareholder shall not be considered a United States person for purposes of determining whether the stock owned by the foreign shareholder is stock of a controlled foreign corporation; and

(ii) The foreign shareholder's holding period in the stock of the foreign corporation shall be determined by reference to the period that the foreign shareholder's section 1248 shareholders held (directly or indirectly) an interest in the foreign corporation. This paragraph (c)(1)(ii) applies in addition to the section 1248 regulations' incorporation of section 1223 holding periods, as modified by § 1.367(b)-4(d) (as applicable).

(2) *Examples.* The following examples illustrate the rules of this paragraph (c):

Example 1. (i) *Facts.* DC, a domestic corporation, owns all of the outstanding stock of FC1, a controlled foreign corporation (CFC). FC1 owns all of the outstanding stock of FC2, a CFC. DC has always owned all of the stock of FC1, and FC1 has always owned all of the stock of FC2.

(ii) *Result.* Under this paragraph (c), DC's section 1248 amount with respect to its FC1 stock is computed by reference to all of FC1's and FC2's earnings and profits. See section 1248(c)(2). Because FC1's section 1248 shareholder (DC) always indirectly held all of the stock of FC2, FC1's section 1248 amount with respect to its FC2 stock is computed by reference to all of FC2's earnings and profits.

Example 2. (i) *Facts.* DC, a domestic corporation, owns 40 percent of the outstanding stock of FC1, a foreign corporation. The other 60 percent of FC1 stock is owned (directly and indirectly) by foreign persons that are unrelated to DC. FC1 owns all of the outstanding stock of FC2, a foreign corporation. On January 1, 2001, DC purchases the remaining 60 percent of FC1 stock.

(ii) *Result.* Under this paragraph (c), DC's section 1248 amount with respect to its FC1 stock is computed by reference to FC1's and FC2's earnings and profits that accumulated on or after January 1, 2001, the date FC1 and FC2 became controlled foreign corporations (CFCs). See section 1248(a). Because FC1 is not considered a United States person for purposes of determining whether FC2 is a CFC, FC1's section 1248 amount with respect to its FC2 stock is computed by reference to FC2's earnings and profits that accumulated on or after January 1, 2001, the date FC2 became an actual CFC.

Example 3. (i) *Facts.* FC1, a foreign corporation, owns all of the outstanding stock of FC2, a foreign corporation. DC is a domestic corporation that is unrelated to FC1, FC2, and their direct and indirect owners. On January 1, 2001, DC purchases all of the outstanding stock of FC1.

(ii) *Result.* Under this paragraph (c), DC's section 1248 amount with respect to its FC1 stock is computed by reference to FC1's and FC2's earnings and profits that accumulated on or after January 1, 2001, the first day DC held the stock of FC1. See section 1248(a). FC1's section 1248 amount with respect to its FC2 stock is computed by reference to FC2's earnings and profits that accumulated on or after January 1, 2001, the first day FC1's section 1248 shareholder (DC) indirectly held the stock of FC2.

Example 4. (i) *Facts.* DC, a domestic corporation, directly owns all of the outstanding stock of FC1 and FC2, controlled foreign corporations. DC has always owned all of the stock of FC1 and FC2. On January 1, 2001, DC contributes all of the stock of FC2 to FC1 in a nonrecognition exchange that does not require an income inclusion under the section 367(a) or 367(b) regulations. See §§ 1.367(a)-8 and 1.367(b)-4.

(ii) *Result.* Under this paragraph (c), DC's section 1248 amount with respect to its FC1 stock is computed by reference to all of FC1's and FC2's earnings and profits. See section 1248(c)(2). Because FC1's section 1248 shareholder (DC) always held (directly or indirectly) all of the stock of FC2, FC1's section 1248 amount with respect to its FC2 stock is computed by reference to all of FC2's earnings and profits.

(d) *All earnings and profits amount—(1) General rule.* The term *all earnings and profits amount* with respect to stock in a foreign corporation means the net positive earnings and profits (if any) determined as provided under paragraph (d)(2) of this section and attributable to such stock as provided under paragraph (d)(3) of this section. The all earnings and profits amount shall be determined without regard to the amount of gain that would be realized

on a sale or exchange of the stock of the foreign corporation.

(2) *Rules for determining earnings and profits*—(i) *Domestic rules generally applicable.* For purposes of this paragraph (d), except as provided in sections 312(k)(4) and (n)(8), 964 and 986, the earnings and profits of a foreign corporation for any taxable year shall be determined according to principles substantially similar to those applicable to domestic corporations.

(ii) *Certain adjustments to earnings and profits.* Notwithstanding paragraph (d)(2)(i) of this section, for purposes of this paragraph (d), the earnings and profits of a foreign corporation for any taxable year shall not include the amounts specified in section 1248(d). In the case of amounts specified in section 1248(d)(4), the preceding sentence requires that the earnings and profits for any taxable year be decreased by the net positive amount (if any) of earnings and profits attributable to activities described in section 1248(d)(4), and increased by the net reduction (if any) in earnings and profits attributable to activities described in section 1248(d)(4).

(iii) *Effect of section 332 liquidating distribution.* The all earnings and profits amount with respect to stock of a corporation that distributes all of its property in a liquidation described in section 332 shall be determined without regard to the adjustments prescribed by section 312(a) and (b) resulting from the distribution of such property in liquidation, except that gain or loss realized by the corporation on the distribution shall be taken into account to the extent provided in section 312(f)(1). See § 1.367(b)-3(b)(3)(ii) *Example 3*.

(3) *Amount attributable to a block of stock*—(i) *Application of section 1248 principles*—(A) *In general*—(1) *Rule.* The all earnings and profits amount with respect to stock of a foreign corporation is determined according to the attribution principles of section 1248 and the regulations thereunder. The attribution principles of section 1248 shall apply without regard to the requirements of section 1248 that are not relevant to the determination of a shareholder's pro rata portion of earnings and profits. Thus, for example, the all earnings and profits amount is deter-

mined without regard to whether the foreign corporation was a controlled foreign corporation at any time during the five years preceding the section 367(b) exchange in question, without regard to whether the shareholder owned a 10 percent or greater interest in the stock, and without regard to whether the earnings and profits of the foreign corporation were accumulated in post-1962 taxable years or while the corporation was a controlled foreign corporation.

(2) *Example.* The following example illustrates the rules of this paragraph (d)(3)(i)(A):

Example. (i) *Facts.* On January 1, 2001, DC, a domestic corporation, purchases 9 percent of the outstanding stock of FC, a foreign corporation. On January 1, 2002, DC purchases an additional 1 percent of FC stock. On January 1, 2003, DC exchanges its stock in FC in a section 367(b) exchange in which DC is required to include the all earnings and profits amount in income. FC was not a controlled foreign corporation during the entire period DC held its FC stock.

(ii) *Result.* The all earnings and profits amount with respect to DC's stock in FC is computed by reference to 9 percent of FC's earnings and profits from January 1, 2001, through December 31, 2001, and by reference to 10 percent of FC's earnings and profits from January 1, 2002, through January 1, 2003.

(B) *Foreign shareholders.* In the case of a transaction in which the exchanging shareholder is a foreign corporation (foreign shareholder), the following additional rules shall apply—

(1) The attribution principles of section 1248 shall apply without regard to whether the person directly owning the stock is a United States person; and

(2) The foreign shareholder's holding period in the stock of the foreign acquired corporation shall be determined by reference to the period that the foreign shareholder's United States shareholders (as defined in § 1.367(b)-3(b)(2)) held (directly or indirectly) an interest in the foreign acquired corporation. This paragraph (d)(3)(i)(B)(2) applies in addition to the section 1248 regulations' incorporation of section 1223 holding periods, as modified by paragraph (d)(3)(ii) of this section and § 1.367(b)-4(d) (as applicable).

(ii) *Limitation on amounts attributable to holding periods determined under section 1223—(A) Rule.* In applying the attribution principles of section 1248 and the regulations thereunder to determine the all earnings and profits amount with respect to the stock of a foreign corporation, earnings and profits attributable to a section 1223(2) holding period that relates to a period of direct ownership of the stock of the foreign corporation by a non-United States person shall not be included, except to the extent of earnings and profits attributable to a period when the stock of the foreign corporation was indirectly owned by United States shareholders (as defined in §1.367(b)-3(b)(2)).

(B) *Example.* The following example illustrates the rules of this paragraph (d)(3)(ii):

Example. (i) *Facts.* (A) FC1 is a foreign corporation. The outstanding stock of FC1 is directly owned by the following unrelated persons: 20 percent by DP, a domestic partnership; 20 percent by DC, a domestic corporation; 20 percent by FC, a foreign corporation that is directly and indirectly owned by foreign persons; 20 percent by FP, a foreign partnership that is equally owned by 2 partners, DI, a United States citizen, and FI, a nonresident alien; and 20 percent by a variety of minority shareholders, none of whom owns, applying the ownership rules of section 958, 10 percent or more of the outstanding stock of FC (the small shareholders).

(B) FC1 owns all of the outstanding stock of FC2, a foreign corporation that is not a controlled foreign corporation subject to the rules of section 953(c). FC2 has net positive earnings and profits. In a reorganization described in section 368(a)(1)(B), DA, a domestic corporation, acquires all of the stock of FC2 from FC1 in exchange for DA voting stock.

(ii) *Result.* (A) Under section 1223(2), DA holds the stock of FC2 with a holding period that includes the period that FC2 was held by FC1. As a result, the rules of this paragraph (d)(3)(ii) apply for purposes of computing DA's all earnings and profits amount.

(B) In applying the attribution principles of section 1248, earnings and profits attributable to a section 1223(2) holding period that refers to a period of direct ownership of the stock of a foreign corporation by a non-United States person are not included, except to the extent the stock of the foreign corporation was indirectly owned by United States shareholders as defined in §1.367(b)-3(b)(2). Accordingly, DA's all earnings and profits amount does not include the FC2

earnings and profits attributable to FC, FI, and the small shareholders. DA's all earnings and profits amount does include the FC2 earnings and profits attributable to DP, DC, and DI. See §1.367(b)-2(k) for rules concerning the treatment of partnerships under the section 367(b) regulations.

(iii) *Exclusion of lower-tier earnings.* In applying the attribution principles of section 1248 and the regulations thereunder to determine the all earnings and profits amount with respect to stock of a foreign corporation, the earnings and profits of subsidiaries of the foreign corporation shall not be taken into account notwithstanding section 1248(c)(2).

(e) *Treatment of deemed dividends—(1) In general.* In certain circumstances these regulations provide that an exchanging shareholder shall include an amount in income as a deemed dividend. This paragraph provides rules for the treatment of the deemed dividend.

(2) *Consequences of dividend characterization.* A deemed dividend described in paragraph (e)(1) of this section shall be treated as a dividend for purposes of the Internal Revenue Code. The deemed dividend shall be considered as paid out of the earnings and profits with respect to which the amount of the deemed dividend was determined. Thus, for example, a deemed dividend that is determined by reference to the all earnings and profits amount or the section 1248 amount will never be considered as paid out of (and therefore will never reduce) earnings and profits specified in section 1248(d), because such earnings and profits are excluded in computing the all earnings and profits amount (under paragraph (d)(2)(ii) of this section) and the section 1248 amount (under section 1248(d) and paragraph (c)(1) of this section). If the deemed dividend is determined by reference to the earnings and profits of a foreign corporation that is owned indirectly (*i.e.*, through one or more tiers of intermediate owners) by the person that is required to include the deemed dividend in income, the deemed dividend shall be considered as having been paid by such corporation to such person through the intermediate owners, rather than directly to such person.

(3) *Ordering rules.* In the case of an exchange of stock in which the exchanging shareholder is treated as receiving a deemed dividend from a foreign corporation, the following ordering rules concerning the timing, treatment, and effect of such a deemed dividend shall apply. See also paragraph (j)(2) of this section.

(i) For purposes of the section 367(b) regulations, the gain realized by an exchanging shareholder shall be determined before increasing (as provided in paragraph (e)(3)(ii) of this section) the basis in the stock of the foreign corporation by the amount of the deemed dividend.

(ii) Except as provided in paragraph (e)(3)(i) of this section, the deemed dividend shall be considered to be received immediately before the exchanging shareholder's receipt of consideration for its stock in the foreign corporation, and the shareholder's basis in the stock exchanged shall be increased by the amount of the deemed dividend. Such basis increase shall be taken into account before determining the gain otherwise recognized on the exchange (for example, under section 356), the basis that the exchanging shareholder takes in the property that it receives in the exchange (under section 358(a)(1)), and the basis that the transferee otherwise takes in the transferred stock (under section 362).

(iii) Except as provided in paragraph (e)(3)(i) of this section, the earnings and profits of the appropriate foreign corporation shall be reduced by the deemed dividend amount before determining the consequences of the recognition of gain in excess of the deemed dividend amount (for example, under section 356(a)(2) or sections 356(a)(1) and 1248).

(4) *Examples.* The following examples illustrate the rules of this paragraph (e):

Example 1. DC, a domestic corporation, exchanges stock in FC, a foreign corporation, in a section 367(b) exchange in which DC includes the all earnings and profits amount in income as a deemed dividend. Under paragraph (e)(2) of this section, a deemed dividend is treated as a dividend for purposes of the Internal Revenue Code. As a result, if the requirements of section 902 are met, DC may qualify for a deemed paid foreign tax credit

with respect to the deemed dividend that it receives from FC.

Example 2. DC, a domestic corporation, exchanges stock in FC1, a foreign corporation that is a controlled foreign corporation, in a transaction in which DC is required to include the section 1248 amount in income as a deemed dividend. A portion of the section 1248 amount is determined by reference to the earnings and profits of FC1 (the upper-tier portion of the section 1248 amount), and the remainder of the section 1248 amount is determined by reference to the earnings and profits of FC2, which is a wholly owned foreign subsidiary of FC1 (the lower-tier portion of the section 1248 amount). Under paragraph (e)(2) of this section, DC computes its deemed paid foreign tax credit as if the lower-tier portion of the section 1248 amount were distributed as a dividend by FC2 to FC1, and as if such portion and the upper-tier portion of the section 1248 amount were then distributed as a dividend by FC1 to DC.

Example 3. DC, a domestic corporation, exchanges stock in FC, a foreign corporation that is a controlled foreign corporation, in a transaction in which DC realizes gain of \$100 (prior to the application of the section 367(b) regulations). In connection with the transaction, DC is required to include \$40 in income as a deemed dividend under the section 367(b) regulations. In addition to receiving property permitted to be received under section 354 without the recognition of gain, DC also receives cash in the amount of \$70. Under paragraph (e)(3) of this section, the \$40 deemed dividend increases DC's basis in its FC stock before determining the gain to be recognized under section 356. Thus, in applying section 356, DC is considered to realize \$60 of gain on the exchange, all of which is recognized under section 356(a)(1).

(f) *Deemed asset transfer and closing of taxable year in certain section 368(a)(1)(F) reorganizations—(1) Scope.* This paragraph applies to a reorganization described in section 368(a)(1)(F) in which the transferor corporation is a foreign corporation.

(2) *Deemed asset transfer.* In a reorganization described in paragraph (f)(1) of this section, there is considered to exist—

(i) A transfer of assets by the foreign transferor corporation to the acquiring corporation in exchange for stock (or stock and securities) of the acquiring corporation and the assumption by the acquiring corporation of the foreign transferor corporation's liabilities;

(ii) A distribution of such stock (or stock and securities) by the foreign

transferor corporation to its shareholders (or shareholders and security holders); and

(iii) An exchange by the foreign transferor corporation's shareholders (or shareholders and security holders) of their stock (or stock and securities) for stock (or stock and securities) of the acquiring corporation.

(3) *Other applicable rules.* For purposes of this paragraph (f), it is immaterial that the applicable foreign or domestic law treats the acquiring corporation as a continuation of the foreign transferor corporation.

(4) *Closing of taxable year.* In a reorganization described in paragraph (f)(1) of this section, the taxable year of the foreign transferor corporation shall end with the close of the date of the transfer and, except as otherwise required under the Internal Revenue Code (e.g. section 1502 and the regulations thereunder), the taxable year of the acquiring corporation shall end with the close of the date on which the transferor's taxable year would have ended but for the occurrence of the reorganization if—

(i) The acquiring corporation is a domestic corporation; or

(ii) The foreign transferor corporation has effectively connected earnings and profits (as defined in section 884(d)) or accumulated effectively connected earnings and profits (as defined in section 884(b)(2)(B)(ii)).

(g) *Stapled stock under section 269B.* For rules treating a foreign corporation as a domestic corporation if it and a domestic corporation are stapled entities, see section 269B. The deemed conversion of a foreign corporation to a domestic corporation under section 269B is treated as a reorganization under section 368(a)(1)(F).

(h) *Section 953(d) domestication elections—(1) Effect of election.* A foreign corporation that elects under section 953(d) to be treated as a domestic corporation shall be treated for purposes of section 367(b) as transferring, as of the first day of the first taxable year for which the election is effective, all of its assets to a domestic corporation in a reorganization described in section 368(a)(1)(F). Notwithstanding paragraph (d) of this section, for purposes of determining the consequences of the

reorganization under §1.367(b)-3, the all earnings and profits amount shall not be considered to include earnings and profits accumulated in taxable years beginning before January 1, 1988.

(2) *Post-election exchanges.* For purposes of applying section 367(b) to post-election exchanges with respect to a corporation that has made a valid election under section 953(d) to be treated as a domestic corporation, such corporation shall be treated as a domestic corporation as to earnings and profits that were taken into account at the time of the section 953(d) election or which accrue after such election, and shall be treated as a foreign corporation as to earnings and profits accumulated in taxable years beginning before January 1, 1988. Thus, for example, if the section 953(d) corporation subsequently transfers its assets to a domestic corporation (other than another section 953(d) corporation) in a transaction described in section 381(a), the rules of §1.367(b)-3 shall apply to such transaction to the extent of the section 953(d) corporation's earnings and profits accumulated in taxable years beginning before January 1, 1988.

(i) *Section 1504(d) elections.* An election under section 1504(d), which permits certain foreign corporations to be treated as domestic corporations, is treated as a transfer of property to a domestic corporation and will generally constitute a reorganization described in section 368(a)(1)(F). However, if an election under section 1504(d) is made with respect to a foreign corporation from the first day of the foreign corporation's existence, then the foreign corporation shall be treated as a domestic corporation, and the section 367(b) regulations will not apply.

(j) *Sections 985 through 989—(1) Change in functional currency of a qualified business unit—(i) Rule.* If, as a result of a transaction described in section 381(a), a qualified business unit (as defined in section 989(a)) (QBU) has a different functional currency determined under the rules of section 985(b) than it used prior to the transaction, then the QBU shall be deemed to have automatically changed its functional currency immediately prior to the transaction. A QBU that is deemed to change its functional currency pursuant to this paragraph (j)

must make the adjustments described in § 1.985-5.

(ii) *Example.* The following example illustrates the rule of this paragraph (j)(1):

Example. (i) *Facts.* DC, a domestic corporation, owns 100 percent of FC1, a foreign corporation. FC1 owns and operates a qualified business unit (QBU) (B1) in France, whose functional currency is the euro. FC2, an unrelated foreign corporation, owns and operates a QBU (B2) in France, whose functional currency is the dollar. FC2 acquires FC1's assets (including B1) in a reorganization described in section 368(a)(1)(C). As a part of the reorganization, B1 and B2 combine their operations into one QBU. Applying the rules of section 985(b), the functional currency of the combined operations of B1 and B2 is the euro.

(ii) *Result.* FC2's acquisition of FC1's assets is a section 367(b) exchange that is described in section 381(a). Because the functional currency of the combined operations of B1 and B2 after the exchange is the euro, B2 is deemed to have automatically changed its functional currency to the euro immediately prior to the section 367(b) exchange. B2 must make the adjustments described in § 1.985-5.

(2) *Previously taxed earnings and profits*—(i) *Exchanging shareholder that is a United States person.* If an exchanging shareholder that is a United States person is required to include in income either the all earnings and profits amount or the section 1248 amount under the provisions of § 1.367(b)-3 or 1.367(b)-4, then immediately prior to the exchange, and solely for the purpose of computing exchange gain or loss under section 986(c), the exchanging shareholder shall be treated as receiving a distribution of previously taxed earnings and profits from the appropriate foreign corporation that is attributable (under the principles of section 1248) to the exchanged stock. If an exchanging shareholder that is a United States person is a distributee in an exchange described in § 1.367(b)-5(c) or (d), then immediately prior to the exchange, and solely for the purpose of computing exchange gain or loss under section 986(c), the exchanging shareholder shall be treated as receiving a distribution of previously taxed earnings and profits from the appropriate foreign corporation to the extent such shareholder has a diminished interest in such previously taxed earnings and profits after the exchange. The ex-

change gain or loss recognized under this paragraph (j)(2)(i) will increase or decrease the exchanging shareholder's adjusted basis in the stock of the foreign corporation, including for purposes of computing gain or loss realized with respect to the stock on the transaction. The exchanging shareholder's dollar basis with respect to each account of previously taxed income shall be increased or decreased by the exchange gain or loss recognized.

(ii) *Exchanging shareholder that is a foreign corporation.* If an exchanging shareholder that is a foreign corporation is required to include in income either the all earnings and profits amount or the section 1248 amount under the provisions of § 1.367(b)-3 or 1.367(b)-4, then, immediately prior to the exchange, the exchanging shareholder shall be treated as receiving a distribution of previously taxed earnings and profits from the appropriate foreign corporation that is attributable (under the principles of section 1248) to the exchanged stock. If an exchanging shareholder that is a foreign corporation is a distributee in an exchange described in § 1.367(b)-5(c) or (d), then the exchanging shareholder shall be treated as receiving (immediately prior to the exchange) a distribution of previously taxed earnings and profits from the appropriate foreign corporation. Such distribution shall be measured by the extent to which the exchanging shareholder's direct or indirect United States shareholders (as defined in section 951(b)) have a diminished interest in such previously taxed earnings and profits after the exchange.

(3) *Other rules.* See sections 985 through 989 for other currency rules that may apply in connection with a section 367(b) exchange.

(k) *Partnerships, trusts and estates.* In applying the section 367(b) regulations, stock of a corporation that is owned by a foreign partnership, trust or estate shall be considered as owned proportionately by its partners, owners, or beneficiaries under the principles of § 1.367(e)-1(b)(2). Stock owned by an entity that is disregarded as an entity separate from its owner under § 301.7701-3 is owned directly by the owner of such entity. In applying § 1.367(b)-5(b), the principles of

§ 1.367(e)-1(b)(2) shall also apply to a domestic partnership, trust or estate.

[T.D. 8862, 65 FR 3598, Jan. 24, 2000; 65 FR 66501, Nov. 6, 2000]

§ 1.367(b)-3 Repatriation of foreign corporate assets in certain non-recognition transactions.

(a) *Scope.* This section applies to an acquisition by a domestic corporation (the domestic acquiring corporation) of the assets of a foreign corporation (the foreign acquired corporation) in a liquidation described in section 332 or an asset acquisition described in section 368(a)(1).

(b) *Exchange of stock owned directly by a United States shareholder or by certain foreign corporate shareholders—(1) Scope.* This paragraph (b) applies in the case of an exchanging shareholder that is either—

(i) A United States shareholder of the foreign acquired corporation; or

(ii) A foreign corporation with respect to which there are one or more United States shareholders.

(2) *United States shareholder.* For purposes of this section (and for purposes of the other section 367(b) regulation provisions that specifically refer to this paragraph (b)(2)), the term *United States shareholder* means any shareholder described in section 951(b) (without regard to whether the foreign corporation is a controlled foreign corporation), and also any shareholder described in section 953(c)(1)(A) (but only if the foreign corporation is a controlled foreign corporation as defined in section 953(c)(1)(B) subject to the rules of section 953(c)).

(3) *Income inclusion—(i) Inclusion of all earnings and profits amount.* An exchanging shareholder shall include in income as a deemed dividend the all earnings and profits amount with respect to its stock in the foreign acquired corporation. For the consequences of the deemed dividend, see § 1.367(b)-2(e).

Notwithstanding § 1.367(b)-2(e), however, a deemed dividend from the foreign acquired corporation to an exchanging foreign corporate shareholder shall not qualify for the exception from foreign personal holding company income provided by section 954(c)(3)(A)(i), although it may qualify for the look-through treatment

provided by section 904(d)(3) if the requirements of that section are met with respect to the deemed dividend.

(ii) *Examples.* The following examples illustrate the rules of paragraph (b)(3)(i) of this section:

Example 1— (i) Facts. DC, a domestic corporation, owns all of the outstanding stock of FC, a foreign corporation. The stock of FC has a value of \$100, and DC has a basis of \$30 in such stock. The all earnings and profits amount attributable to the FC stock owned by DC is \$20, of which \$15 is described in section 1248(a) and the remaining \$5 is not (for example, because it accumulated prior to 1963). FC has a basis of \$50 in its assets. In a liquidation described in section 332, FC distributes all of its property to DC, and the FC stock held by DC is canceled.

(ii) *Result.* Under paragraph (b)(3)(i) of this section, DC must include \$20 in income as a deemed dividend from FC. Under section 337(a) FC does not recognize gain or loss in the assets that it distributes to DC, and under section 334(b), DC takes a basis of \$50 in such assets. Because the requirements of section 902 are met, DC qualifies for a deemed paid foreign tax credit with respect to the deemed dividend that it receives from FC.

Example 2— (i) Facts. DC, a domestic corporation, owns all of the outstanding stock of FC, a foreign corporation. The stock of FC has a value of \$100, and DC has a basis of \$30 in such stock. The all earnings and profits amount attributable to the FC stock owned by DC is \$75. FC has a basis of \$50 in its assets. In a liquidation described in section 332, FC distributes all of its property to DC, and the FC stock held by DC is canceled.

(ii) *Result.* Under paragraph (b)(3)(i) of this section, DC must include \$75 in income as a deemed dividend from FC. Under section 337(a) FC does not recognize gain or loss in the assets that it distributes to DC, and under section 334(b), DC takes a basis of \$50 in such assets. Because the requirements of section 902 are met, DC qualifies for a deemed paid foreign tax credit with respect to the deemed dividend that it receives from FC.

Example 3— (i) Facts. DC, a domestic corporation, owns 80 percent of the outstanding stock of FC, a foreign corporation. DC has owned its 80 percent interest in FC since FC was incorporated. The remaining 20 percent of the outstanding stock of FC is owned by a person unrelated to DC (the minority shareholder). The stock of FC owned by DC has a value of \$80, and DC has a basis of \$24 in such stock. The stock of FC owned by the minority shareholder has a value of \$20, and the minority shareholder has a basis of \$18 in such stock. FC's only asset is land having a value of \$100, and FC has a basis of \$50 in the land. Gain on the land would not generate
