and reinvestment of contributions to the fund by the bank. The bank may either act alone or with one or more other fiduciaries, but it must act solely in its capacity as one or a combination of the following: (i) As a trustee of a trust created by will, deed, agreement, declaration of trust, or order of court; (ii) as an executor of a will or as an administrator of an estate; (iii) as a guardian (by whatever name known under local law) of the estate of an infant, of an incompentent individual, or of an absent individual; or (iv) on or after October 3, 1976, as a custodian of a UniformGifts to Minors account. A Uniform Gifts to Minors account is an account established pursuant to a State law substantially similar to the Uniform Gifts to Minors Act. (See the Uniform Gifts to Minors Act of 1956 or the Uniform Gifts to Minors Act of 1966, as published by the National Conference of Commissioners on Uniform State Laws.) The Commissioner will publish a list of the States whose laws he determines to be substantially similar to such uniform acts. A bank that maintains a Uniform Gifts to Minors Act account must establish, to the satisfaction of the Commissioner or his delegate, that with respect to the account the bank has duties and responsibilities similar to the duties and responsibilities of a trustee or guardian
(2) A common trust fund may be a participant in another common trust fund.
(c) Affiliated groups. F or taxable years beginning after December 31, 1975, two or more banks that are members of the same affiliated group (within the meaning of section 1504) are treated, for purposes of section 584, as one bank for the period of their affiliation. A common trust fund may be maintained by one or by more than one member of an affiliated group. Any member of the group may, but need not, contribute to the fund. F urther, for purposes of this paragraph, members of an affiliated group may be, but need not be, cotrustees of the common trust fund.
[T.D. 6500, 25 FR 11737, Nov. 26, 1960, as amended by T.D. 7935, 49 FR 1694, J an. 13, 1984]
§ 1.584-2 Income of participants in common trust fund.
(a) Each participant in a common trust fund is required to include in computing its taxable income for its taxable year within which or with which the taxable year of the fund ends, whether or not distributed and whether or not distributable:
(1) Its proportionate share of shortterm capital gains and losses, computed as provided in §1.584-3;
(2) Its proportionate share of longterm capital gains and losses, computed as provided in §1.584-3; and
(3) Its proportionate share of the ordinary taxable income or the ordinary net loss of the common trust fund, computed as provided in §1.584-3.
(b) Any tax withheld at the source from income of the fund (e.g., under section 1441) is deemed to have been withheld proportionately from the participants to whom such income is allocated.
(c)(1) The proportionate share of each participant's short-term capital gains and losses, long-term capital gains and losses, ordinary taxable income or ordinary net loss, dividends and interest received, and tax withheld at the source shall be determined under the method of accounting adopted by the bank in accordance with the written plan by which the common trust fund is established and administered, provided such method clearly reflects the income of each participant.
(2) Items of income and deductions shall be allocated to the periods between valuation dates established by the plan within the taxable year in which they were realized. Ordinary taxable income or ordinary net loss, shortterm capital gains and losses, longterm capital gains and losses, and tax withheld at the source shall be computed for each period. The participants' proportionate shares of income and losses for each period shall then be determined.
(3) F or taxable years beginning on or after September 22, 1980, any amount of income or loss of the common trust fund which is included in the computation of a participant's taxable income for the taxable year shall be treated as income or loss from an unrelated trade or business to the extent that such
amount would have been income or loss from an unrelated trade or business if such participant had made directly the investments of the common trust fund.
(4) The provisions of this paragraph may be illustrated by the following example:

Example. (i) The plan of a common trust fund provides for quarterly valuation dates and for the computation and the distribution of the income upon a quarterly basis, except that there shall be no distribution of capital gains. The participants are as follows: Trusts A, B, C, and D for the first quarter; Trusts A, $B, C$, and $E$ for the second quarter; and Trusts A, B, F , and G for the third and fourth quarters, the participants having equal participating interests. As computed upon the quarterly basis, the ordinary taxable income, the short-term capital gain, and the longterm capital loss for the taxable year were as follows:

|  | First <br> quar- <br> ter | Sec- <br> ond <br> quar- <br> ter | Third <br> quar- <br> ter | Fourth <br> quar- <br> ter | Total |
| :--- | ---: | ---: | ---: | ---: | ---: |
| Ordinary taxable <br> income .......... | $\$ 200$ | $\$ 300$ | $\$ 200$ | $\$ 400$ | $\$ 1,100$ |
| Short-term capital <br> gain ............... | 200 | 100 | 200 | 100 | 600 |
| Long-term capital <br> loss ................ | 100 | 200 | 100 | 200 | 600 |

(ii) The participants' shares of ordinary taxable income are as follows:

| PARTICIPANTS | Shares of Ordinary Taxable INCOME |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: |
| Participant | First quarter | Second quarter | Third quarter | Fourth quarter | Total |
| A ....................... | \$50 | \$75 | \$50 | \$100 | \$275 |
| B | 50 | 75 | 50 | 100 | 275 |
| C | 50 | 75 | ........ | .......... | 125 |
| D ...................... | 50 |  | ........ |  | 50 |
| E ....................... | $\ldots$ | 75 | ....... | ......... | 75 |
| F ....................... | ....... | ........ | 50 | 100 | 150 |
| G | ........ | ........ | 50 | 100 | 150 |
| Total .............. | 200 | 300 | 200 | 400 | 1,100 |

(iii) The participants' shares of the shortterm capital gain are as follows:

| Participants' Shares of Short-Term Capital Gain |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: |
| Participant | First quarter | Second quarter | Third quarter | Fourth quarter | Total |
| A | \$50 | \$25 | \$50 | \$25 | \$150 |
| B .............................. | 50 | 25 | 50 | 25 | 150 |
| C | 50 | 25 | ........ |  | 75 |
| D ............................ | 50 |  |  |  | 50 |

Participants' Shares of Short-Term Capital Gain-Continued

| Participant | First quarter | Second quarter | Third quarter | Fourth quarter | Total |
| :---: | :---: | :---: | :---: | :---: | :---: |
| E .............................. | ........ | 25 | $\ldots$ | ......... | 25 |
| F | $\ldots$ | ........ | 50 | 25 | 75 |
| G | ....... | $\ldots$ | 50 | 25 | 75 |
| Total ..................... | 200 | 100 | 200 | 100 | 600 |

(iv) The participants' shares of the longterm capital loss are as follows:

| Participant | First quarter | Second quarter | Third quarter | Fourth quarter | Total |
| :---: | :---: | :---: | :---: | :---: | :---: |
| A . | \$25 | \$50 | \$25 | \$50 | \$150 |
| B ............................. | 25 | 50 | 25 | 50 | 150 |
| C ............................. | 25 | 50 | ........ | ......... | 75 |
| D ............................ | 25 | . | ........ | $\ldots$ | 25 |
| E ............................. | ..... | 50 | ........ | ......... | 50 |
| F ............................. | $\ldots$ | ..... | 25 | 50 | 75 |
| G ............................ | $\ldots$ | $\ldots$ | 25 | 50 | 75 |
| Total ..................... | 100 | 200 | 100 | 200 | 600 |

(v) If in the above example the common trust fund also had short-term capital losses and long-term capital gains, the treatment of such gains or losses would be similar to that accorded to the short-term capital gains and long-term capital losses in the above example.
(vi) Assume in the above example that participant Trust A qualified as a trust forming part of a pension, profit sharing, or stock bonus plan under section 401(a). Assume further that 20 percent of the ordinary taxable income of the common trust fund would be unrelated business taxable income (as defined under section $512(a)(1)$ ) if received directly by Trust A. Under paragraph (c)(3), participant Trust A, for purposes of computing its taxable income, must treat its proportionate share of the common trust fund's ordinary taxable income as income from an unrelated trade or business to the extent such amount would have been income from an unrelated trade or business if Trust A had directly made the investments of the common trust fund. Therefore, participant Trust A must take into account 20 percent of its proportionate share of the common trust fund's ordinary taxable income as income from an unrelated trade or business.
(d) The provisions of part I, subchapter J, chapter 1 of the Code, or, as the case may be, the provisions of subchapters D, F, or H of chapter 1 of the Code, are applicable in determining the
extent to which each participant's proportionate share of any income or loss of the common trust fund is taxable to the participant, or to a person other than the participant.
[T.D. 6500, 25 FR 11737, Nov. 26, 1960, as amended by T.D. 7935, 49 FR 1694, J an. 13, 1984; T.D. 8662, 61 FR 19546, May 2, 1996]

## § 1.584-3 Computation of common trust fund income.

The taxable income of the common trust fund shall be computed in the same manner and on the same basis as in the case of an individual, except that:
(a) No deduction shall be allowed under section 170 (relating to charitable, etc., contributions and gifts);
(b) The gains and losses from sales or exchanges of capital assets of the common trust fund are required to be segregated. A common trust fund is not allowed the benefit of the capital loss carryover provided by section 1212; and
(c) The ordinary taxable income (the excess of the gross income over deductions) or the ordinary net loss (the excess of the deductions over the gross income) shall be computed after excluding all items of gain and loss from sales or exchanges of capital assets.
[T.D. 6500, 25 FR 11737, Nov. 26, 1960, as amended by T.D. 7935, 49 FR 1694, J an. 13, 1984]

## § 1.584-4 Admission and withdrawal of participants in the common trust fund.

(a) Gain or loss. The common trust fund realizes no gain or loss by the admission or withdrawal of a participant, and the basis of the assets and the period for which they are deemed to have been held by the common trust fund for the purposes of section 1202 are unaffected by such an admission or withdrawal. For taxable years of participants ending after April 7, 1976, and for transfers occurring after that date, the transfer of property by a participant to a common trust fund is treated as a sale or exchange of the property transferred. If a participant withdraws the whole or any part of its participating interest from the common trust fund, such withdrawal shall be treated as a sale or exchange by the participant of the participating interest or portion
thereof which is so withdrawn. A participant is not deemed to have withdrawn any part of its participating interest in the common trust fund so as to have completed a closed transaction by reason of the segregation and administration of an investment of the fund, pursuant to the provisions of 12 CFR 9.18(b)(7) (or, for periods before September 28, 1962, 12 CFR206.17(c)(7)), for the benefit of all the then participants in the common trust fund. Such segregated investment shall be considered as held by, or on behalf of, the common trust fund for the benefit ratably of all participants in the common trust fund at the time of segregation, and any income or loss arising from its administration and liquidation shall constitute income or loss to the common trust fund apportionable among the participants for whose benefit the investment was segregated. When a participating interest is transferred by a bank, or by two or more banks that are members of the same affiliated group (within the meaning of section 1504), as a result of the combination of two or more common trust funds or the division of a single common trust fund, the transfer to the surviving or divided fund is not considered to be an admission or a withdrawal if the combining, dividing, and resulting common trust funds have diversified portfolios. For purposes of this paragraph (a), a common trust fund has a diversified portfolio if it satisfies the 25 and 50 -percent tests of section 368(a)(2)(F)(ii), applying the relevant provisions of section 368(a)(2)(F). However, Government securities are included in total assets for purposes of the denominator of the 25 and 50 -percent tests (unless the Government securities are acquired to meet the 25 and 50 -percent tests), but are not treated as securities of an issuer for purposes of the numerator of the 25 and 50 -percent tests. In addition, for a transfer of a participating interest in a division of a common trust fund not to be considered an admission or withdrawal, each participant's pro ratainterest in each of the resulting common trust funds must be substantially the same as was the participant's pro rata interest in the dividing fund. However, in the case of the division of a common trust fund maintained by
