About GSAXcess®/AAMS

What is GSAXcess®/AAMS?

The Federal Disposal System (GSAXcess®) is the General Services Administration (GSA) computer system for recording, tracking and controlling the nationwide inventory of excess and surplus property of the Federal government. The Agency Asset Management System (AAMS) is a module contained within GSAXcess®. AAMS provides automated data systems support for your Agency's nation-wide personal property needs. AAMS primary goals are to simplify and improve internal screening. We have achieved this by eliminating duplicate data entry, reducing paperwork, increasing Federal agency reutilization and eliminating the need for new DOC personal property system development.

DOC personnel can use GSAXcess®/AAMS to report property for internal screening, excess screening and to compete for internal/excess/surplus property. GSAXcess®/AAMS tracks the progress of the property as it moves from the internal screening process, redistribution and excess stage of disposal to the donation or surplus stage. At the Internal Screening level, DOC determines the length of time property will be screened and whether or not the property being internally screened proceeds to the Federal excess and surplus cycle. AAMS provides the necessary tools and automated transfer document to each respective DOC activity to make informed, intelligent determinations by reviewing requests for the property and allocating the property to qualified DOC entities, e.g., DOC Headquarters/field offices, DOC contractors or other programs.

GSA personnel control property as it moves through the normal Federal utilization and donation cycle. GSAXcess® allows each of the respective GSA regional offices to make a final determination by reviewing requests for the property and allocating the property to qualified Federal, State, or other organizations. After allocation, GSAXcess® creates the appropriate transfer order documents required to complete transfer of the property. GSAXcess® is designed as a real-time system with an on-line data base

Who can use GSAXcess®/AAMS?

GSAXcess®/AAMS is not provided to the general public.

GSAXcess® is available to three groups of users: Federal agencies, authorized non-Federal recipients, and State Agencies for Surplus Property (SASP). Non-Federal recipients are activities which receive excess property through a Federal sponsor but are themselves neither Federal agencies nor donees. Examples of sponsoring organizations include the Department of Interior, Bureau of Indian Affairs; the US Department of Agriculture, State Extension Service; the National Science Foundation; the Department of Labor, Employment/Training Administration; and the Department of Justice, US Marshals Service or eligible recipients of Federal Property e.g. 1890 Land Grant Schools, Historical Black Colleges and Universities. **AAMS is exclusive to DOC.** AAMS provides DOC users the capability to screen DOC personal property in real time. Under AAMS, DOC personnel and contractors can screen DOC property before it proceeds into the normal (Federal) disposal cycle.

How to Print and/or Download this Document

To Print a Section (recommended)

To print a section, simply click on the section name from the Table of Contents on the left side, and click the browser print button.

To Download the Entire Document

To download the entire document (124 pages, 19 MB in size), click here:

[AAMS Users Guide Download](#)

Be advised that this file can take 5 minutes or longer to download, depending on the speed of your computer.

Hardware and Software Requirements

What do I need?

To run GSAXcess® you will need a computer, modem, and communications software. You will need Internet service to communicate with GSAXcess®. If your subscription does not include a browser, then you should also purchase browser software. Consult your Internet subscription company for further information.

GSAXcess® Browser Trouble Shooting Guide?

Should a user have difficulty accessing [GSAXcess®](#), it may be a browser problem. Listed below are some troubleshooting questions and solutions:

Why doesn't the GSAXcess® login screen open when clicking on the GSAXcess® login hyperlink?

This may be a browser memory problem. If the browser's cache memory and history files are not cleared, it can prevent the GSAXcess® login screen from opening and can also generate problems and error messages.

Which browsers does GSAXcess® support?

This website supports Netscape Version 4.79 or higher and Microsoft Internet Explorer 5.5 or higher. Using other browsers or an older version of Netscape or Internet Explorer may prevent web pages from functioning or being displayed properly.

How does a user identify which browser and browser version is being used?

Step 1. On the "Help" menu, click on "Help About Communicator" or "Help About Internet Explorer."

Step 2. A separate window will display browser type and browser version.

For Microsoft Internet Explorer and Netscape Navigator browsers' detailed information, view the following:

[Netscape Navigator Browser's Frequently Asked Questions](#)

[Microsoft Internet Explorer Browser's Frequently Asked Questions](#)

If none of the above solutions work, call the Property Management Division of the GSA Federal Acquisition Service at 703-605-2907 between the hours of 8:00 a.m. and 4:30 p.m. Eastern Time, Mondays through Fridays.

Gaining Access

How do I gain access to GSAXcess®?

Logging into the GSAXcess® personal property disposal system requires a User ID and a Password to connect users to the system. Requests for User IDs must be made in writing by letter or email to the appropriate Department of Commerce's Property Management [National Utilization Officer \(NUO\)](#).

The application should provide the name, telephone number, User ID, Password and Activity Address Code for each user. The User ID will be six characters while the personal Password determined by the applicant can be up to eight characters long. (alphabetic, numeric, or a mix of alphabetic and numeric). The application should also specify by user the level of access required. There are several levels of access:

Search only Search and freeze Report Transfer

Users who report property to GSAXcess®/AAMS who represent more than one Activity Address Code do not need to have multiple User IDs. The GSAXcess®/AAMS system allows users with more than one Activity Address Code to change the code when necessary while reporting property. If you represent multiple Activity Address Codes, choose the most active code as your default when you apply for permission to use the system. This will become your default Activity Address Code which you may change as necessary.

What is the GSAXcess® website address?

The GSAXcess® Web Page is found at <http://GSAXcess.gov/>

Navigating in GSAXcess®

Software packages differ in the techniques deployed in navigation of a screen. Various screen movements and software techniques are discussed below.

How do I navigate from field to field?

Use the mouse to click on the first field on each screen to enter data. The Internet software automatically places the cursor in the first column of the field. Use the tab key or the mouse to move from field to field. Shift and Tab can also be used simultaneously to move from a lower field to a field higher on the screen.

To move from the bottom of the screen to the top of the screen and from function to function within GSAXcess®, hold down the shift key and press the tab key. Also, most of the screens are seamless, that is, pressing tab after the last field on the screen moves the cursor directly to the top of the same screen while using shift and tab from the top of the screen moves the cursor directly to the last field on the same screen.

How do I delete an entry?

To delete an entry:

- Highlight the entry by placing the cursor at the beginning or ending of the entry. Click the left button on the mouse and drag over the entry to be replaced and type over with the new entry.
- Highlight the entry and depress the Delete button.
- Highlight the entry and depress the Backspace button.
- Depress the Backspace button the appropriate number of times to delete the entry.

How do I print a GSAXcess® page?

To save a GSAXcess® page to a word document:

1. Press the "Print Screen" button on your keyboard. This will place the GSAXCESS® page in a temporary work space called "Clipboard"
2. Open a new document in Microsoft Word or similar word processing software.
3. Click on the Clipboard icon on the Word Toolbar, or use a similar paste command if you are using different word processing software, or use edit and paste for WordPad.
The GSAXCESS® page will appear.
4. Click the Print icon or use other print commands found in your word processing software.

To print a Screen Directly From GSAXcess®:

1. Click the print button on your browser to send the entire screen to the printer.
(Some screens in GSAXcess® have a print button.)

Log On Screens and Main Menu

How can I get to GSAXcess® quickly?

Set up a desktop shortcut to GSAXcess® by entering <http://GSAXcess.gov/> in your browser address bar, and click Go.

You will be directed to the GSAXcess® Homepage.

Right click your mouse and select Create Shortcut from the menu selection.

How do I connect with GSAXcess®? How do I logon?

Select the GSA Web Site Address at: <http://GSAXcess.gov/> or click on your desktop shortcut icon.

Click on the GSAXcess® Login Button for live production in the top right-hand corner of the GSAXcess® homepage or for GSAXcess® Practice, click on the GSAXcess® Practice Home hyperlink located on the bottom right-hand corner of the GSAXcess® homepage.

The screenshot shows the GSAXcess® homepage with the following elements:

- Header:** GSA GSAXcess® U.S. General Services Administration. Navigation tabs: User Guides, FAQ, Program Links, Contact Links, GSAXcess® HelpDesk.
- Main Content:**
 - Welcome to GSAXcess®:** Includes a "Click Login Button to Login" link and a photo of a US Coast Guard cutter.
 - Left Sidebar:**
 - Excess Personal Property Transfers to Federal Agencies
 - Property Donations Through State Agencies for Surplus Property
 - Area Property Officers
 - National Utilization Officer Contacts
 - Personal Property Management Offices
 - GSAXcess® Browser Troubleshooting Guide
 - GSAXcess® Training Presentations
 - CFL Training Presentations
 - What's New
 - Right Sidebar:**
 - GSAXcess® Login:** A red arrow points to the "Login" button.
 - GSAXcess® HelpDesk:** GSAXcess® HelpDesk 1-866-333-7472.
 - CFL HelpDesk:** CFL Helpdesk 1-866-472-9161. A red arrow points to the "CFL HelpDesk" link.
 - GSAXcess® Register:** Includes a "Register" link and text: "If you do not have an Access code but have a .gov or .mil email address, Register here. The system will assign you a generic access code that can be used to search our data base."
 - GSAXcess® Practice Home:** Includes a "Practice Home" link and text: "Click here to go to GSAXcess® Practice Home."
 - GSAXcess® Ask the Expert:** Includes an "Ask The Expert" link and text: "If you have procedural questions about Property Disposal, email them to Ask The Expert."
 - CFL Ask the Expert:** Includes an "Ask The Expert" link and text: "If you have procedural questions about the Computers for Learning program, email them to Ask The Expert."
- Footer:** Recipient of 2004 Miles Romney Achievement Award for Innovation in Personal Property Management.

You will be directed to the GSAXcess® Production or Practice Login Screen.

FIRSTGOV.gov
The U.S. Government's Official Web Portal

Enter your User ID and Password.

After entering the correct information, click the LOGIN button.

After I log-on, what happens next?

The System displays the Search Worldwide Property by Category search screen in both the Production and Practice environment. The Search Worldwide Property by Category is always the first page you see after log-on. A detailed explanation of what the Search Worldwide Property by Category page is and how it functions is located in the Search Functions section under “[Search Worldwide Property by Category](#)”. You can also view Disaster Relief Items by clicking the red “Disaster Relief Items” button.

NOTE: When you are in the Practice module, all screens have Practice in the upper left-hand corner next to the GSA logo to distinguish between Production (live data) and Practice (test data).

Live Production GSAXcess®

The GSAXcess® Production module contains live data of real time transactions.

GSAXcess® Practice Module

One of the many user-friendly features of the system is the ability of all users to "practice" with real information. GSAXcess® users can practice without the fear that an unnecessary transaction might occur. If you are interested in "test-driving" without the fear of crashing, click the GSAXcess® Practice Home hyperlink to Log into the GSAXcess® Practice Module. The practice system is identical to the GSAXcess® production system. If you encounter any difficulty, use the Help Screens. The Help Screens will lead you through the entire process. Remember! Practice makes perfect!

How do I access the Main Menu screen?

Click on the Menu box in the Red Banner at the top of the GSAXcess® screen.

The screenshot shows the GSAXcess® website interface. At the top left is the GSA logo and the text "GSAXcess® U.S. General Services Administration". Below this is a navigation bar with tabs for "User Guides", "FAQ", "Program Links", "Contact Links", and "GSAXcess® HelpDesk". Under "Program Links" are links for "Agency Asset Management System (AAMS)", "Energy Asset Disposal System (EADS)", and "Report Property". Under "Contact Links" are "Want List", "Direct Select", and "PTM". A search bar is located below the navigation bar, with a "Global Search" button, a search input field, a "Exact Phrase" dropdown, a "Go!" button, and a "Basic Search Options" dropdown. A red arrow points to the "Menu" button in the search bar area. Below the search bar is a red banner with the text "Worldwide Property Items by Category". Underneath the banner are buttons for "View Cart (1)", "Checkout", "Disaster Relief Items", and "Help". A status bar shows "Total number of items available: 42,829 / Total items available with Photos: 2,032". The main content area displays a list of categories with item counts in parentheses, such as "Agricultural Equipment and Supplies (70/7)", "Aircraft (6/6)", "Aircraft Parts and Tires (1,276/5)", "Automobiles (80/16)", "Boats (32/22)", "Clothing and Personal (1,816/4)", "Communication and Detection Equipment (1,049/78)", "Computer Equipment (7,065/209)", "Computer Software and Accessories (744/13)", "Construction Equipment (78/27)", "Electrical and Electronic Equipment and Components (7,705/38)", "Electrical and Electronic Measuring and Testing Equipment (1,138/29)", "Fire Trucks and Fire Fighting Equipment (119/17)", "Food Preparation and Serving Equipment (250/41)", "Furniture (1,292/165)", "Hardware (2,398/45)", "Household (304/8)", "Industrial Service and Trade Machinery (158/12)", "Industrial Special Machinery (343/68)", "Jewelry and Collectibles (0/0)", "Lab Equipment (960/65)", "Lighting (386/5)", "Marine Equipment (132/2)", "Materials Handling Equipment (113/50)", "Medical, Dental and Veterinary Equipment and Supplies (1,165/96)", "Miscellaneous (10,147/265)", "Motorcycles and Bicycles (36/8)", "Musical Instruments (30/1)", "Navigation Equipment (179/0)", "Office Equipment (284/35)", "Office Supplies and Forms (119/14)", "Photographic Equipment (471/32)", "Recording Equipment (253/21)", "Recreation (142/4)", "Refrigeration and Air Conditioning Equipment (349/10)", "Shuttle (57/25)", "Tools (442/14)", "Travel Trailer and/or Mobile Home (279/137)", "Trucks, Trailers and Tractors (744/408)", and "Vehicular Components and Tires (618/30)".

The system displays the Main Menu items based upon your permission. For example, the Main Menu screen displayed below is a user with all permissions available. Menu options that are grayed out indicate the user doesn't have permission to view those functions. If you think you should have certain permissions, contact your National Utilization Officer (NUO) for access. This guide provides detailed instructions for each menu option.

Report Property Menu

This menu option provides you with methods of reporting property in GSAXcess®. For more details, see [Reporting Property in GSAXcess®](#).

Search & Select Menu

This menu option contains property that has been reported to GSAXcess® as excess and is being processed through the normal utilization [excess] and donation [surplus] cycle. You may search and select this property, subject to GSA's final approval. This menu provides options to change and/or delete select requests and to create a “Want List” of items as they become available. For more details, see [Search Functions](#) and [Freezing Property in GSAXcess®](#).

AAMS Menu

This menu option contains property under the jurisdiction and control of those agencies who subscribe to the Agency Asset Management System or Energy Asset Disposal System. This property is undergoing internal Agency screening and has not yet been reported to GSA as excess. Contact your National Utilization Officer for more information about this optional service from GSA.

User Maintenance Menu

This menu option contains user profile, password, and communication maintenance.

How do the Help Screens work?

There are HELP screens for most screens in GSAXcess®. These HELP Screens can be viewed by clicking on the HELP button in the right-hand corner of each screen.

Whenever you have a question about the screen display, you will find it helpful to look at the Help screen first. If you cannot find the answer to your question, consult this guide for the answer. If all else fails, you can contact the GSAXcess® HelpDesk by Phone (Toll free) (1-866-333-7472) or By Email GSAXcess@help@gsa.gov.

How do I navigate from screen to screen?

GSAXcess® provides several methods for you to navigate from screen to screen. GSAXcess® has common option buttons that display on all screens for navigation and special function buttons that are only displayed for that specific function. Special function buttons will be described within that function. By clicking the desired button you can travel from screen to screen.

Common Option Buttons located in the Top Blue Bar at the Top of each GSAXcess® page:

- User Guides – Links to all available GSAXcess® user guides.
- FAQ - GSAXcess® Frequently Asked Questions.
- Program Links – Links to other programs of interest.
- Contact Links – Links to GSAXcess® contacts.
- GSAXcess® HelpDesk – Link to GSAXcess® contact and hours of operation information.

Common Hypertext Links highlighted in blue text located in the white bar at the Top of each GSAXcess® page:

- Agency Asset Management System (AAMS) – Link to AAMS module.
- Energy Asset Disposal System (AAMS) – Link to AAMS module.
- Report Property – Link to Property Report Data Creation input screen.
- Want List – Link to create a “Want List” for property items of interest.
- Direct Select – Link to select property when you already know the Item Control Number.

Option Buttons located in the Red Banner Bar at the Top of each GSAXcess® page:

Basic Search Options: The "Basic Search Options" drop down window is located on the red banner. This feature offers the following search options:

- All Items by Category (all available GSAXcess® property)
- All Unused Items by Category (all unused available GSAXcess® property)
- All Items by State (same as All Items by Category except the locality search is first)
- All Unused Items by State (same as All Unused Items by Category except the locality search is first)
- New Items by Category (reported after COB the previous night)
- New Unused Items by Category (reported after COB the previous night)
- New Items by State (reported after COB the previous night)
- New Unused Items by State (reported after COB the previous night)
- Closing Items by Category (not available after COB tonight)
- Closing Unused Items by Category (not available after COB tonight)
- Closing Items by State (not available after COB tonight)
- Closing Unused Items by State (not available after COB tonight)
- Overseas Items (Asia/Japan/Pacific, Caribbean, Europe, Panama/S America & Other)

Advanced Search: This button takes you to an **Advanced Search** Screen where you may further refine your property search.

Home: Clicking the **Home** button takes you to the appropriate GSAXcess® login page.

Logout: Clicking the **Logout** button closes your GSAXcess® session and takes you to the GSAXcess® homepage.

Common Buttons displayed on all screens:

Help: Displays the help screen associated with that screen or function.

Back: Returns you to the previous screen. This button is not on the Main Menu Screen.

Internal Screening Basics

What is Internal Screening?

Internal Screening is the process that controls the flow of excess property within a single Federal agency. The process begins when a unit within a Federal agency declares property as excess to the needs of the owning unit. The agency must try to first redistribute the property within the same agency. All units within the agency may compete for the property for a period of time set by the owning agency. No other Federal agency may compete for this property at this time.

During the Internal Screening period, the owning unit may transfer the property to a worthy unit within the agency. If no other unit wants the property, then the agency may allow screening for special interests within the agency in accordance with agency procedures. If the property is still available after the special interest screening, the agency will report the property to GSA to be screened by other Federal agencies via the Federal Excess Screening process.

What are the time frames for Internal Screening?

The time frames used for Internal Screening are established by the owning agency. The Department of Commerce uses a screening period of 15 days. When you report property to GSAXcess®/AAMS, the system will generate the Excess Release Date to signify the end of the Internal Screening Period (the date you reported the property plus 15 days). Property reported by a given DOC Activity Address Code can be screened and transferred to another DOC activity.

How do I format the Excess Release Date and Drop After Internal Screening?

AAMS will compute the Excess Release Date by adding 15 days to the date that you put the property into AAMS.

While the system may compute the Excess Release Date for you, the system also allows you to change the Internal Screening time frame when approved by your National Utilization Officer (NUO). You may reduce the time frame whenever you need to employ expedited Internal Screening. For normal property items you should check the “No” radio button for the Drop After Internal Screening Flag. This allows the property to automatically move to government-wide Excess Screening immediately after the Internal Screening period ends. If you do not want a property item to advance to Excess Screening, set the flag to "Yes".

What happens after Internal Screening?

If you set the Drop After Internal Screening Flag to "Yes", the system will drop the property from the GSAXcess®/AAMS data base and return control of the property record to the owning AAMS activity via the Drop File. See the section of this user guide concerning Batch Property Reporting for further information about the Drop file. Items coded with "No" in the Drop After Internal Screening Flag will proceed automatically to the Excess Screening process. See the GSAXcess® system user guide for further information concerning Excess and Surplus property transfers.

Reporting Property

On Line Property Reporting

Where do I start?

Before you attempt to report your property to GSAXcess®/AAMS, follow your agency's procedures for identifying eligible property. You should also have an authorized User ID that allows you to use GSAXcess®/AAMS to report property. (See the Gaining Access section of this user guide for further information). Once you determine that property is excess, examine the property and any documentation (manual or electronic) provided with the property. You will need this information so that you can provide adequate information to potential transferees

How do I get to the Property Reporting Function in GSAXcess®?

If you are responsible for reporting property and you have proper access to GSAXcess®/AAMS, follow the procedures described in the Gaining Access section of this user guide. The first screen you see is the GSAXcess®/AAMS Search Worldwide Property by Category screen.

Report Property Navigation?

The system provides several methods for you to travel from screen to screen. By clicking the desired button you can travel from screen to screen. Common buttons are described in Log In Screens and Main Menu - #7 – “How Do I Navigate From Screen to Screen?”

Report – Clicking this button takes you to a printable "Personal Property Report". This report displays the data you submitted for your property item. Printing a copy gives you a record of your work. Note that clicking the "Report" button simultaneously "Submits" your property record. Upon returning from the "Personal Property Report" screen to the "Property Report Data Creation" you will see a message to this effect: "Master Record Added - - Serial Number = 9999".

More Items & Retain Common Data Only – By clicking this button you are submitting the property record just completed and you are beginning a new record that contains the "Common" data of the record just completed. The cursor will bring you to a point mid-way through the screen, where the AAC & Julian Date portions of the Item Control Number are displayed. From here you will enter a new serial number and proceed down the screen, entering the data for your next item. You will not have to re-enter any of the (common) data that appears before the cursor.

More Items & Redisplay All Data – This feature also submits the completed property record. It begins a new record containing all of the data from the previous record. The cursor will bring you to the same point as above, mid-way through the screen, where the AAC & Julian Date portions of the Item Control Number are displayed. From here you will enter a new serial number. You may then type over any data that needs changing.

Submit - Click this button to submit a completed property record when none of the above options are needed.

Create property report

How to Create a Property Report?

Click on Report Property from the listings displayed in Blue Hypertext at the top of any screen in the GSAXcess® system to go directly to the Property Report Data Creation screen which allows you to begin reporting property items.

The first screen displayed to create your property report is the Property Report Data Creation screen. The first line displayed on the screen is the Item Control Number (ICN) which has separate blocks for the Activity Address Code and today's Julian Date which make up the first ten characters of the Item Control Number. The next block is a four position serial number of your choice to help you further identify the property item. The system pre-fills the Activity Address Code for most users and validates the Activity Address Code against the user Agency Bureau Code.

The next field is a hypertext field that allows you to upload pictures of your property. GSA highly encourages the submission of photographs.

The next field is your Agency Bureau Code and Agency Bureau Name which the system pre-fills for you in read only text.

The next four sections are the Reporting Agency Address, Point of Contact Information, Property Location, and Property Custodian. These fields can be stored fields for ease of retrieval ([see 2. How do I create new addresses in my personal address file?](#))

The remainder of the screen contains additional information about your terms for transfer. Several fields require a Yes, No, or checkbox selection. GSAXcess® pre-fills some of these fields for you, so be sure to review all fields and change them as appropriate.

Next, select the appropriate Property Type by clicking on the appropriate radio button as described below:

<p>Property Type: *</p> <p>If you need assistance, contact your NUQ or APO</p>	<ul style="list-style-type: none"> • Regular Utilization and Donation Screening <ul style="list-style-type: none"> <input checked="" type="radio"/> No special requirements <input type="radio"/> Surplus sale proceeds retention <input type="radio"/> Property was purchased with working capital or revolving funds • Exceptions <ul style="list-style-type: none"> <input type="radio"/> Exchange Sale (Replacement Authority) <input type="radio"/> Special legislative authority <input type="radio"/> Purchased with non-appropriated funds <input type="radio"/> Reported by a wholly owned or mixed-ownership Government corporation
Agency Location Code (Station Deposit Symbol)	<input type="text"/>
Appropriation or Fund To Be Reimbursed	<input type="text"/>
Agency Control Number	<input type="text"/>

Property Type is intended to assist you in identifying the property being reported as Exchange/Sale or Excess, in terms of the property’s reimbursability, and in terms of the user’s intent to retain sales proceeds.

You must select either the Regular Utilization and Donation Screening options or Exceptions radio button.

Selecting **Regular Utilization and Donation Screening** means the property is non-reimbursable and is to be screened under regular utilization and donation guidelines.

NON-REIMBURSABLE EXCESS means that the:

- Property does not have special reimbursable authority
 - Surplus Sale Proceeds Retention
(Check this box if you require proceeds after the item is sold, for Property that does not have special reimbursable authority.)
- Property was purchased with working capital or revolving funds
 - Surplus Sale Proceeds Retention
(Check this box if you require proceeds after the item is sold, for Property that was purchased with working capital or revolving funds.)

Although, the property is not reimbursable, the Agency may opt to retain sales proceeds if the item is sold to cover their costs of sale. If Surplus Sales Retention is checked and GSA is also checked, the user must enter an Appropriation Code or Fund To Be Reimbursed and Agency Location Code (Station Deposit Symbol).

The Appropriation Code or Fund To Be Reimbursed and Agency Location Code (Station Deposit Symbol) are not required when GSA **IS NOT** selected to sell the property or when the User selects not to retain sales proceeds.

Selecting **Exceptions** means the property is reimbursable excess and one of the following options must be selected.

<ul style="list-style-type: none"> <input checked="" type="radio"/> Exceptions <ul style="list-style-type: none"> <input checked="" type="radio"/> Exchange Sale (Replacement Authority) <input type="radio"/> Special legislative authority <input type="radio"/> Purchased with non-appropriated funds <input type="radio"/> Reported by a wholly owned or mixed-ownership Government corporation
--

REIMBURSABLE EXCESS means that the:

- Property is Exchange/Sale (Exchange/Sale property items are screened for two (2) days in GSAXcess® before going to Sales. Exchange/Sale means that your Agency is allowed to sell this item in exchange for a like item.
- Property is reimbursable when transferred/sold under special legislative authority
- Property was purchased with non-appropriated funds
- Property is reported by a wholly owned or mixed-ownership Government corporation

NOTE: For further detailed explanations of all listed Exceptions and Working Capital, click on the blue hyperlinked options in GSAXcess®.

When selecting any one of the Exceptions options, you are required to fill in the Appropriation Code or Fund To Be Reimbursed and Agency Location Code (Station Deposit Symbol). You are also encouraged to report the Fair Market Value in the event the property is selected for transfer by a Federal agency.

Agency Control Number is for your Agency’s internal use.

Special Instruction Fields are as follows:

Special Instructions:	<input type="checkbox"/> Contractor Inventory
	<input type="checkbox"/> OverSeas Inventory

Click on the “Contractor Inventory” checkbox under Special Instructions to indicate that the property belongs to a contractor that serves your agency.

Click on the “Overseas” checkbox under Special Instructions to indicate that the property is personal property assets that are not located in any of the 50 states comprising the United States (U.S.A), its five territories, or the District of Columbia. U.S. territories include: Puerto Rico, Virgin Islands, American Samoa, Guam, and the Commonwealth of Northern Marianas.

eFAS Sales Center Fields are as follows:

Federal Asset Sales Center:	<input checked="" type="radio"/> GSA
	<input type="radio"/> USDA - CEPO (reported property must be located within the Washington,D.C. metropolitan area)
	<input type="radio"/> APPROVED WAIVER

Click on GSA, so that when the property item completes GSAXcess screening and if no Federal Agency or State selects the property, it will be sold through the GSA Sales Center. The system automatically presets to be sold by GSA. The Agency Location Code is a mandatory field if you select GSA.

Click on USDA – CEPO if you want USDA to sell the property. **NOTE: the property must be located in the District of Columbia metropolitan area.**

If you select Approved Waiver, this designates that your Agency has an approved Waiver from the Office of Governmentwide Policy to be an Approved eFas Sales Center. By selecting Approved Waiver, control of the item will be returned to the Agency for disposal or sale. If you have any questions about obtaining a waiver, please email the Federal Asset Sales Central Planning Office at fasplanningoffice@gsa.gov.

How do I create new addresses in my personal address file?

When creating a Property Report, GSAXcess® requires that you define the four types of address data needed to complete your property report. You will need to type the address for your Reporting Agency and for your Property Location. You will also need the name, phone number and email Address for the Point of Contact and for the person who will receive the Purchase Order or Disposition Instructions to transfer the property. You will need to type all this data for your first property report, however, GSAXcess® can save this data for you so that you can select it for subsequent reports. You may add new addresses as needed.

The first input box required is the Reporting Agency Address. Click on the hyperlink “[Reporting Agency Address](#)” to the right of the Reporting Agency Address information boxes to permanently add this address and store for future use. This will display the “Select Reporting Agency Address” screen. In the example below, the user clicked on the blue hypertext “Reporting Agency Address” and the following “Select Reporting Agency Address” screen is displayed.

Select Reporting Agency Address

Submit

To locate your personal address file, type the Reporting Agency Zip Code and press the red Submit button. The first time you do this, there may be no addresses found. In that case, type the new address so that the system can assign the address to your property report and save the address for any property reports you create in the future. In the example below, you type Zip Code 22221. The system displays a message, “No Addresses Found – Enter a New One”. This indicates that this is the first time for this Zip Code.

The screen contains fields where you can type a new Reporting Agency Address titled, “Add New Reporting Agency Address”. Asterisks to the left of any field indicate the field is mandatory. In the example below you type the Reporting Agency Address. Note that the Agency Name, City, and State are all mandatory fields.

Notify Point of Contact when Available for Sale

The next time you search in the “Select Reporting Agency Address” screen by this zip code, the address will appear on the screen. In the example below, you type in “22221” for Reporting Agency Zip Code. The listed addresses are displayed. You click on the red Select button next to the appropriate address to pre-fill in Property Data Creation Report.

The address you select is automatically pre-filled in the Report Property Data Creation Screen.

If the Reporting Agency Address and the Property Location Address are the same, click on the checkbox located under the “Reporting Agency Address” hyperlink on the Property Data Creation Report screen to automatically pre-fill the Property Location Address with the Reporting Agency Address information.

Next, Click on the “[Point of Contact](#)” hyperlink to the right of the Point of Contact information boxes to permanently add the Point of Contact information and store for future use. This will display the “Select Point of Contact Information” screen. In the example below, you click on the blue hypertext “Point of Contact”.

The Point of Contact is the person who fields questions from prospective customers concerning the reported property. Your Points of Contact are maintained by the system like a personal phone directory. You may search the directory by phone number. In the example below, you enter a phone number for the first time and you click on the red Submit button. The system displays a message, “No Points of Contact Found – Enter a New One”. This indicates that this is the first time for this Phone Number.

The screen contains fields where you can type a new Point of Contact titled, “Add New Point of Contact Information”. Asterisks to the left of any field indicate the field is mandatory. In the example below you type the Point of Contact Information. Note that the Phone Number, First Name, and Last Name are all mandatory fields.

You click on the red Submit button to add your Point of Contact Information. The Point of Contact Information is pre-filled on the Report Data Creation Screen as shown in the example below.

If the Point of Contact and the Property Custodian are the same, clicking on the checkbox located under the “Point of Contact” hyperlink on the Property Data Creation Report screen will automatically pre-fill the Property Custodian with the Point of Contact information.

How do I retrieve previously entered addresses for my property report?

As you create new address data, the system saves this data for you in an address file. When you create another property report, you will be able to browse through previously entered address records and select them for your property report. The following examples illustrate how each of the two types of address data can be selected from previously created addresses.

From the Property Report Data Creation screen, after you have entered the appropriate Item Control Number, click on the hypertext **Reporting Agency Address**. The system displays the “Select Reporting Agency Address” screen.

In the Select Reporting Agency Address example #1 below, you enter the Zip Code “22202” for the Reporting Agency and click the red Submit button. The system displays all the Reporting Agency Addresses entered for that zip code. In this example, a total of ten Reporting Agency Addresses are shown on the first page. The Next Button indicates that there is another page of available Reporting Agency Addresses for that zip code. Of course, if you don't find the Reporting Agency address that you need, you can always create a new one as demonstrated in the previous section of this user guide.

To **Select** a Reporting Agency Address, click on the Select button above the appropriate Reporting Agency Address. The system assigns the chosen Reporting Agency address to the property report.

To **Change** a Reporting Agency Address, click on the Change button above the appropriate Reporting Agency Address. The system enters the Reporting Agency Address you selected in the Add New Reporting Agency Address input box. The system displays a message stating, “Make Changes and Press Submit”. Make your changes and click the Submit button. The system makes the changes in the appropriate Reporting Agency Address and displays a message stating, “Selected Address Record Changed Successfully”.

To **Delete** a Reporting Agency Address, click on the Delete button above the appropriate Reporting Agency Address. The system deletes the Reporting Agency Address you selected and displays a message stating, “Selected Address Record Deleted Successfully”.

How do I retrieve previously entered Contact Information for my property report?

As you create new contact data, the system saves this data for you in a contact address file. When you create another property report, you will be able to browse through previously entered contact address records and select them for your property report. The following examples illustrate how each of the two types of contact address data can be selected from previously created contact information.

From the Property Report Data Creation screen, after you have entered the appropriate Item Control Number, click on the hypertext **Point of Contact**. The system displays the “Select Point of Contact Information” screen.

In the Select Point of Contact Information example #1 below, you enter the telephone number “703-605-2885” for the Point of Contact Phone Number and click the red Submit button. The system displays all the previously entered Point of Contact Information entered for that telephone number. In this example, one Point of Contact Information is shown. Of course, if you don’t find the Point of Contact Information that you need, you can always create a new one as demonstrated in the previous section of this user guide.

To **Select** a Point of Contact Information, click on the Select button located to the right of the appropriate Point of Contact Information. The system assigns the chosen Point of Contact Information to the property report.

To **Change** a Point of Contact Information, click on the Change button located to the right of the appropriate Point of Contact Information. The system enters the Point of Contact Information you selected in the Add New Point of Contact Information input box. The system displays a message stating, “Make Changes and Press Submit”. Make your changes and click the Submit button. The system makes the changes in the appropriate Point of Contact Information and displays a message stating, “Selected Information Changed Successfully”.

To **Delete** a Point of Contact Information, click on the Delete button above the appropriate Point of Contact Information. The system deletes the Point of Contact Information you selected and displays a message stating, “Selected Point of Contact Information Deleted Successfully”.

From the Property Report Data Creation screen, after you have entered the appropriate Item Control Number, click on the hypertext **Property Custodian**. The system displays the “Select Property Custodian” screen.

In the Select Property Custodian Example #2 below, you enter the telephone number “703-605-2885” for the Custodian Phone Number and click the red Submit button. The system displays all the previously entered Custodian Information entered for that telephone number. In this example, one Custodian Information is shown. Of course, if you don't find the Custodian Information that you need, you can always create a new one as demonstrated in the previous section of this user guide.

To **Select** a Custodian Information, click on the Select button located to the right of the appropriate Custodian Information. The system assigns the chosen Custodian Information to the property report.

To **Change** a Custodian Information, click on the Change button located to the right of the appropriate Custodian Information. The system enters the Custodian Information you selected in the Add New Custodian Information input box. The system displays a message stating, “Make Changes and Press Submit”. Make your changes and click the Submit button. The system makes the changes in the appropriate Custodian Information and displays a message stating, “Selected Information Changed Successfully”.

To **Delete** a Point of Contact Information, click on the Delete button above the appropriate Custodian Information. The system deletes the Custodian Information you selected and displays a message stating, “Custodian Information Deleted Successfully”.

Property Data Screen Options

The system provides several Option buttons to help you with your data entry

Item Control Number

The system displays your Item Control Number for your first item. You may enter subsequent items by changing the last four characters of the Item Control Number, also known as the Serial Number. The Serial Number may contain letters or numbers. Each item you report must have a unique Item Control Number.

Uploading Pictures

GSA encourages the submission of photos to aid in the reutilization and donation of federal excess/surplus personal property. For more specific instructions see the Picture Upload section in later chapters. Click on the Uploading Photos hypertext to submit pictures and follow the naming conventions below:

All filenames must begin with the Item Control Number (consists of a six position Activity Address Code + four position Julian Date + four position Serial Number and/or an optional Serial Number Suffix) of the reported item; followed by a letter "A through M" with the exception of "I" for each picture submitted for that particular item; ending with the type of file ".jpg" (no dashes, slash marks, or spaces). For example, the first picture (main photo) for Item Control Number 36910142240001, the filename is "36910142240001A.jpg", the next picture filename for that item is "36910142240001B.jpg", and so on, excluding the letter "I". Up to 12 pictures can be submitted per item).

Follow the directions and click upload to post your picture directly online. The picture will be viewable to all users the following day after approval.

Digital or scanned photos of federal excess personal property that have been reported as excess can be also submitted by the reporting activity by email or courier to be displayed in GSAXcess®. Once you have reported the item as excess, photos should be sent to GSA as soon as possible. For further assistance, contact GSAXcess@gsa.gov

All pictures regardless of submission method, must comply with [Picture Taking](#), and [Photo Naming Conventions](#), prior to [Transmission](#). Incorrect formats or naming will delay the posting of photographs.

FSC/NSN

The National Stock Number (NSN) identifies an item as a unique item of supply. If you know the complete thirteen character National Stock Number, (four digit FSC plus nine digit National Item Identification Number (NIIN)) type it in the two fields provided. If you do not know the NSN then you must provide the Federal Supply Class (FSC). The FSC is the first four characters of the NSN and it identifies broad classes of commodities. The Defense Logistics Agency (DLA) publishes a Cataloging Handbook, SB 708-21 also known as "H2", Federal Supply Classification Groups and Classes (<http://www.dlis.dla.mil/PDFs/h2.pdf>) However, you can also obtain the FSC from GSAXCESS® by clicking on the Federal Supply Class hypertext.

In the following example, the user is not sure what the proper FSC should be for the item, a group of rail cars that are no longer required by his/her facility. The user clicks on the Federal Supply Class Underlined Blue Hypertext to see a list of FSCs.

The screenshot shows a form with several fields. A red arrow points to the text "Federal Supply Class" which is underlined and blue. Other fields include "National Stock Number", "National Item Identification Number (NIIN)", "Item Name/Weapons List", "Special Description Code and Text", "Quantity", "Unit of Issue", "Original Acquisition Cost (per Unit)", "Fair Market Value (per Unit)", "Condition" (with radio buttons for New/Unused, Usable, Repairable, Salvage, Scrap), "Hazardous" (with radio buttons for No, Hazardous Material, Hazardous Waste), and "Flight Safety Critical Aircraft Part" (with radio buttons for Blank, E, F).

The system displays the Federal Supply Class List. You can search FSCs by FSC Code or FSC description.

The screenshot shows the "Federal Supply Class List" page. At the top, there are buttons for "Submit", "Previous Page", "Next Page", "Back", and "Help". Below these are two search boxes: "FSC Code" (with a note "Enter All 4 or First 2 digits of FSC") and "FSC Description" (with a note "Enter 1-10 Search Characters"). A red arrow points to the "Submit" button. Below the search boxes is a table of FSCs and their descriptions.

FSC	FSC Description
5350	ABRASIVE MATERIALS
3461	ACCESSORIES FOR SECONDARY METALWORKING MACHINERY
7420	ACCOUNTING AND CALCULATING MACHINES
9630	ADDITIVE METAL MATERIALS
8040	ADHESIVES
7020	ADP CENTRAL PROCESSING UNIT (CPU, COMPUTER), ANALOG
7021	ADP CENTRAL PROCESSING UNIT (CPU, COMPUTER), DIGITAL
7022	ADP CENTRAL PROCESSING UNIT (CPU, COMPUTER), HYBRID
7050	ADP COMPONENTS
7025	ADP INPUT/OUTPUT AND STORAGE DEVICES
7030	ADP SOFTWARE
7045	ADP SUPPLIES
7035	ADP SUPPORT EQUIPMENT
7440	ADP SYSTEMS; INDUSTRIAL, SCIENTIFIC, AND OFFICE TYPES
7010	ADPE SYSTEM CONFIGURATION

You can search the FSC list by typing in one or more characters in the search box at the top of the screen or by entering an FSC. In the example below, the user typed in the word "RAIL" in the FSC description box and clicked the Submit button to find the FSC for rail cars. This will return any description that contains the characters "RAIL", in that order, anywhere within a word.

Federal Supply Class List

[Back](#) [Help](#)

[Submit](#) [Previous Page](#) [Next Page](#)

FSC Code Enter All 4 or First 2 digits of FSC
 FSC Description Enter 1-10 Search Characters

FSC	FSC Description
5350	ABRASIVE MATERIALS
3461	ACCESSORIES FOR SECONDARY METALWORKING MACHINERY
7420	ACCOUNTING AND CALCULATING MACHINES
9630	ADDITIVE METAL MATERIALS
8040	ADHESIVES

If you want to print this list for further reference, press the Print Screen button and then use the Paste option in your Word Processing or Notepad software to copy the screen to a document or you can use the print button on your browser to print this screen.

In the above example, FSC for 2220 was selected by clicking on the blue hypertext to the left of the FSC description, Rail Cars. The FSC and FSC description is automatically inserted into the Property Report Data Creation screen in the FSC input box and the Item Name input box. You are encouraged to leave the item name as described for future search and reporting purposes.

Weapons List

Clicking on the hypertext [Weapons List](#) will display a “Commonly Reported Weapons List” where you can select the weapon being reported. The “Commonly Reported Weapons List” screen is used to select the Item Name when reporting weapons. If the weapon being reported is an FSC 1005 or 1010; (i.e., weapons up to 75 mm), and the Condition is either New/Unused or Usable it is mandatory to select the Item Name from the “Commonly Reported Weapons List” screen.

In the following example, the user clicked on the blue hypertext Weapons List.

Agency Location Code (Station Deposit Symbol)	<input type="text"/>
Appropriation or Fund To Be Reimbursed	<input type="text"/>
Agency Control Number	<input type="text"/>
Federal Supply Class/National Stock Number *	<input type="text"/> National Item Identification Number (NIIN) <input type="text"/>
Item Name/Weapons List *	<input type="text"/>
Special Description Code and Text	<input type="text"/>
Quantity *	<input type="text"/>

The following screen displays.

Computer Equipment

Reporting computer equipment with the Federal Supply Class codes of 7010, 7020, 7021, 7022, 7025, 7030, 7035, 7040, 7045, or 7050 the system will display additional reporting fields for computer equipment as shown in the example below:

Federal Supply Class/National Stock Number *	7010	National Item Identification Number (NIIN)	
Hardware Type*			
Equipment Type*			
Processor*			
Processing Speed			
RAM			
Hard Disk Size			
Hard Disk Status*	<input type="radio"/> Sanitized <input type="radio"/> Not Sanitized <input type="radio"/> Removed <input type="radio"/> Degaussed		
Is Equipment for Computers for Learning (CFL)? *	<input checked="" type="radio"/> Yes <input type="radio"/> No		
Special Instructions:	<input type="checkbox"/> Contractor Inventory <input type="checkbox"/> OverSeas Inventory <input checked="" type="checkbox"/> To be sold by GSA		
Make *			
Model *			
Item Name *	COMPUTER		

If you enter FSC's 7010, 7021, 7025, or 7035, it is required that you select input information for Hardware Type, Equipment Type, and Make fields from a drop down menu. When you enter any of the above listed FSC's, the system will automatically direct you to the master computer equipment dropdown screen to make the appropriate self explanatory selections that will pre-fill in the Report Property Screen. The Model and Processor fields are required fields for FSC's 7010, 7021, and 7035.

Computer Equipment Screen

[GSA Menu](#) [Back](#) [Help](#)

No More Hardware Items Available

Select Applicable Information from Each Drop-down List

Hardware Type	CPUs	Equipment Type	--Select--	Make
---------------	------	----------------	------------	------

Note: You have space to include information about this item on the "Property Description" section when you are taken back to the previous screen.

List of Items Available	Hardware Type	Equipment Type	Make
Options			
Select	Desktop Systems		
Select	Laptops		
Select	Servers		
Select	Other Computers		
Select	CPUs	Apple	Apple
Select	CPUs	Apple	Other
Select	CPUs	Windows	Acer
Select	CPUs	Windows	Compaq

If you enter FSC's 7020, 7022, 7030, 7040, 7045, or 7050, the system pre-fills Hardware Type, Equipment Type, and Make fields with the word "Other". Processing Speed, RAM, and Hard Disk Size fields are optional.

Hard Disk Status is a required entry for 7010, 7021, and 7035. The choices are: Sanitized; Not Sanitized; Removed; or Degussed. You must choose one of these choices. Sanitization removes sensitive information from storage media in a manner that gives assurance that the information cannot be recovered by keyboard or laboratory attack. Not Sanitized means that the hard drive contents could be compromised. Removed means that the equipment has no hard drive. Deguassing renders any previously stored data on magnetic media unreadable by keyboard or laboratory attack.

Is Equipment For Computers For Learning (CFL)? If you check "Yes", this means that the equipment will be made visible to registered schools and non-profit educational organizations for seven (7) days before transferring to the GSAXcess® system for regular excess screening to Federal agencies. If you don't want your computer equipment to undergo Computers For Learning screening and want the computer equipment to go directly to GSAXcess® screening, click the "No" radio button.

Trailer Information

If the FSC is 2330 and the Agency code is 58 (FEMA), then a pop-up box will appear with mandatory fields requesting specific information listed below:

The screenshot shows a web application interface with a main form and a pop-up window. The main form includes the following fields:

- Federal Supply Class/National Stock Number: 2330
- National Item Identification Number (NIIN): [Empty]
- Special Instructions:
 - Contractor Inventory
 - OverSeas Inventory
 - To be sold by GSA
- Make: [Empty]
- Model: [Empty]
- Item Name: [Empty]
- Special Description Code and Text: [Empty]
- Quantity: [Empty]
- Unit of Issue: [Empty]
- Original Acquisition Cost (per Unit): [Empty]
- Fair Market Value (per Unit): [Empty]
- Condition:
 - New/Unused
 - Usable
 - Rep:
- Hazardous:
 - No
 - Hazardous Material
 - Hazi
- Flight Safety Critical Aircraft Part:
 - Blank
 - E
 - F
- Demilitarization: [Empty]
- Manufacturer: [Empty]
- Date Manufactured: [Empty] (MM/DD/CCYY)
- Acquisition Date: [Empty] (MM/DD/CCYY)

The pop-up window, titled "http://gsaxcess.gov - GSAXcess® - Mobile Homes Infor...", contains the following fields:

- Body Style: Travel Trailer (dropdown menu)
- Make: [Empty]
- Model: [Empty]
- Model Year: [Empty]
- Vehicle Identification #: [Empty]
- Length (feet): [Empty]
- Bar Code: [Empty]
- Trailer Type:
 - Slide Out: AND/OR
 - Awning: OR
 - Neither:
- Submit button

Body Style: A required field, select appropriate Body Style from the dropdown box. The choices are Travel Trailer, Mobile Home or Other. If Travel Trailer is selected an additional choice must be selected: Awning and/or Slide Out or Neither.

Make, Model, Model Year, and VIN.

Length (in feet): The length of the travel trailer or mobile home in feet to include the tongue.

Bar Code: FEMA assigned bar code.

For Mobile Homes, these additional fields are required: Number of Axles, Number of Bedrooms, Number of Bathrooms and Wind Zone.

Wind Zone : the Wind Zone code choices are 1, 2, 3. A wind zone code is the code that is given at manufacture that designates the miles per hour wind speed that your unit can withstand. Zone 1 is 90% of the United States. Zone 3 is all the states along the Eastern and Gulf Coast. See http://www.manufacturedhousing.org/lib/showtemp_detail.asp?id=203&cat=technical for a United States wind zone map and descriptions.

Vessel Information

Is this vessel 50 feet or over?

The screenshot shows a web form for reporting vessel information. The form includes fields for 'Federal Supply Class/National Stock Number' (with '1901' entered), 'National Item Identification Number (NIIN)', 'Make', 'Model', 'Item Name', 'Special Description Code and Text', 'Quantity', and 'Unit of Issue'. Under 'Special Instructions', there are three checkboxes: 'Contractor Inventory' (unchecked), 'OverSeas Inventory' (unchecked), and 'To be sold by GSA' (checked). A pop-up dialog box is overlaid on the form, titled 'http://gsaxcess.gov - GSAXcess® - Boat Information - Microsoft Internet ...'. The dialog contains the text 'You are reporting a vessel. Is this vessel 50 feet or over?' with radio buttons for 'Yes' and 'No' (where 'No' is selected), and a 'Submit' button. The dialog also shows a 'Done' button and an 'Internet' icon in the bottom left corner.

If you enter a FSC with a Federal Supply Group of 19, the system displays a pop-up that asks, "Is this vessel 50 feet or over?" Note that when you select Yes or No in the pop-up, you must click the Submit button on the pop-up for the data to be input. The answer to this question directs the transfer order to the proper recipient.

Special Description Code and Text (Optional)

These fields are used primarily by the Department of Defense, but they may be used by any agency. Special Description Code is an industry code that supplements the property description. Special Description Text is the clear text of industry code. Supply this field if the item has a special designation recognized by industry. Some examples include the Cage Code and Dunn's Number. These are optional fields. Along with the code Value, you can also supply the text associated with the code.

One example of a special description code is a required serial number box that appears whenever Weapons FSC codes 1005 or 1010 or Aircraft FSC codes 1510 or 1520 are entered as shown below. Enter the serial number in the first block and add additional information as necessary.

Federal Supply Class/National Stock Number *	1005	National Item Identification Number (NIIN)	<input type="text"/>
Item Name/Weapons List *	GUNS, THROUGH 30 MM		
Special Description Code and Text	SER: <input type="text"/>	<input type="text"/>	
Quantity *	<input type="text"/>		
Unit of Issue *	<input type="text"/>		

Federal Supply Class/National Stock Number *	1520	National Item Identification Number (NIIN)	<input type="text"/>
Item Name/Weapons List *	AIRCRAFT, ROTARY WING		
Special Description Code and Text	SER: <input type="text"/>	<input type="text"/>	
Quantity *	1		
Unit of Issue *	EA		

Quantity

Quantity is the number of units of issue of property available. Be sure that the Quantity and the Original Acquisition Cost are based upon one (1) Unit of Issue.

Unit of Issue

The Unit of Issue describes the way that the property quantity is measured. This is normally the way that the product is sold or counted in an inventory.

Click on the Unit of Issue hypertext link to view a list of current Unit of Issue Codes. Be sure that the Quantity and the Original Acquisition Cost are based upon one (1) Unit of Issue.

Unit of Issue List

Original Acquisition Cost

A required field, the original or estimated price for one (1) Unit of Issue. Be sure that the Quantity and the Original Acquisition Cost are based upon one (1) Unit of Issue. Do not use a dollar sign for this field but always use a decimal point and two digits to show the cents part of the price. **Prices over \$999.99 should be entered without any commas.**

Original Acquisition Cost (per Unit) *	
--	--

Fair Market Value

An optional field, but it is recommended if the property is Reimbursable or Exchange/Sale. Provide your estimate of the property's Value.

Fair Market Value (per Unit)	<input type="text"/>
------------------------------	----------------------

Condition Code

The condition code shows the current condition or usability of your property. Be sure to provide an accurate account of the condition of your property by selecting one of the listed condition code radio buttons. Customers will not accept transferred property that does not match the advertised condition. Condition Codes are: New or Unused; Usable; Repairable; Salvage; and Scrap.

Condition *	New/Unused <input type="radio"/>	Usable <input type="radio"/>	Repairable <input type="radio"/>	Salvage <input type="radio"/>	Scrap <input type="radio"/>
-------------	----------------------------------	------------------------------	----------------------------------	-------------------------------	-----------------------------

Hazardous

This field is preset to "No". If your property is Hazardous Material or Hazardous Waste you should indicate this designation by clicking on the appropriate radio button.

Hazardous <input type="checkbox"/>	No <input checked="" type="radio"/>	Hazardous Material <input type="radio"/>	Hazardous Waste <input type="radio"/>
---	--	---	--

Demilitarization Code

Click the hypertext Demilitarization link to view the demilitarization code selections or see Appendix C.

This code specifies the level of demilitarization required in order to render an item harmless for civilian use. The Property Data help screens provide definitions for each code. **It is important that you provide the correct Demilitarization Code when reporting property to GSAXcess®. This code is used by GSA and other oversight agencies to ensure that Federal property is demilitarized properly to protect the public and to safeguard national interests.** The Demilitarization Code is a mandatory field.

Demilitarization	<input type="text"/>
----------------------------------	----------------------

Manufacturer, Make, and Model (Optional/Required)

These fields describe the name of the company that made the property as well as the Make and Model names or numbers used by the manufacturer to identify the item. These fields are optional but they do provide an extra level of information desired by your prospective customers. Customers may search for property by make and model during Internal Screening. These fields are mandatory for Vehicles and Aircraft and Aircraft Parts.

Date Manufactured and Acquisition Date (Optional)

These fields provide the date your property was manufactured as well as the date your agency first acquired the property. If you provide this information, be sure to use a valid Gregorian date in the format MMDDYYYY.

Flight Safety Critical Aircraft Parts (FSCAP Code)

This code determines whether your property is a critical aircraft part. See the Property Data help screens for definitions. This field is preset to "Blank". Click on the radio button next to "E" if the item is a FSCAP hardened for nuclear warfare or "F" if it is a FSCAP.

Flight Safety Critical Aircraft Part [*]	Blank <input checked="" type="radio"/>	E <input type="radio"/>	F <input type="radio"/>
---	--	-------------------------	-------------------------

Drop after Internal Screening

The system displays this field as a question. Select the YES radio button if you want this property to drop from the AAMS system after internal screening. Select the NO radio button if you want the property to proceed to the normal GSAXcess® Excess or Surplus screening. Dropped items are returned to your agency for further processing. GSAXcess® will perform no additional processing for dropped records unless you send the property back to GSAXcess® a second time.

Excess Release Date

The Excess Release Date controls when the system removes your property from Internal Screening. For AAMS subscribers the system will fill this field for you or gives you the option to select from a range of dates. If you change this date, be sure to use the Gregorian Date format, MMDDYYYY.

Surplus Release Date (Optional)

The date used by GSAXCESS® to determine when Excess Screening ends. On this date, State agencies become eligible for available property during the Surplus Screening cycle.

Property Description

This field provides you with up to 5280 characters of text for description of your property. As you enter more than ten lines of text, the Property Description lines will scroll down as you type. It is mandatory to provide at least one line of Property description data. The more description you provide, the better the likelihood that a prospective customer will find your property, select it, and remove it from your premises quickly. Descriptive information might include: physical attributes including more information about the condition of the property; product capacities; type of material used; part numbers or other descriptive codes; product uses; and product quality.

What if I have more than one item for this property report?

You can use Report Property Option Buttons “More Items and Retain Common Data Only” or “More Items and Redisplay All Items” on the property data screen to describe additional items on your property report.

By clicking the “**More Items and Retain Common Data Only**” button, you are submitting the property record and are beginning a new record containing the "Common" data of the record just completed. The cursor takes you to a point mid-way through the screen, where the AAC & Julian Date portions of the Item Control Number are displayed. Enter a new serial number and proceed down the screen, entering the data for your next item. You will not have to re-enter any of the (common) data that appears before the cursor.

By clicking the “**More Items and Redisplay All Items**” button, you are submitting the property record and are beginning a new record containing all of the data from the previous record. The cursor takes you to a point, mid-way through the screen, where the AAC & Julian Date portions of the Item Control Number are displayed. Enter a new serial number. You may then type over any data that needs changing.

How can I get a copy of my completed property report?

Clicking on the "Report" button takes you to a printable "Personal Property Report". This report displays the data you submitted for your property item. Printing a copy gives you a record of your work. Note that clicking the "Report" button simultaneously "Submits" your property record. Upon returning from the "Personal Property Report" screen to the "Property Report Data Creation" you will see a message to this effect: "Master Record Added - - Serial Number = 9999".

You can also click the browser's print button to print the Property Report.
Modify Property Reports in GSAXcess®

What if I need to change some of the data on my property report?

The Report Property Menu allows you to change any of the data on your active property reports. If you do not know the Item Control Number for the property report that you are changing, use the Review Property Reports Option discussed in the next section of the User Guide.

What if I need to add more items to my property report?

You cannot add more items to a previously-created property report. If you need to add more items, first exit from the Modify Property screens. Then choose Create Property Report on the Report Property Menu. From there you can create new property reports as described in the sections above.

Review Property Reports

How can I review my active property reports?

The Report Property Menu provides an option that allows you to review your current, active property reports. You click on the [Review Report](#) hypertext from the Report Property Menu.

The screenshot shows the GSAXcess Main Menu with the following sections:

- Report Property Menu**
 - [Create Report](#)
 - [Modify Report](#)
 - [Review Report](#) (indicated by a red arrow)
 - [Delete Report \(AAMS/EADS Only\)](#)
 - [Upload Pictures](#)
- AAMS Menu**
 - [Search and Freeze](#)
 - [Review and Transfer Multiple Items](#)
 - [Transfer Single Item By Control No](#)
 - [Delete Freezes](#)
 - [Want List Items](#)
- Search & Select Menu**
 - [Search and Select](#)
 - [Inquire Requests](#)
 - [Change Requests](#)
 - [Delete Requests](#)
 - [Want List Items](#)
- User Maintenance Menu**
 - [APO/NUO](#)
 - [Help Desk](#)
 - [Send Group Email](#)
 - [Update Your Information](#)
 - [Change Your Password](#)
- CFL Functions Menu**
 - [View/Allocate Requested Items](#)
 - [Confirm Allocations](#)
 - [Transfer](#)
 - [Change Allocation/Transfer](#)
 - [School Search](#)
 - [Resend School Transfer Order](#)
 - [Post Transaction Module](#)

The system displays the Review Reports Search Screen.

The screenshot shows the Review Reports Search Screen with the following fields and options:

- Reporting Agency
- Activity Address Code (Mandatory For All Selections)
- Selection #1 Item Control Number Sequence
- Selection #2 Report Date and Item Control Number Sequence
- Selection #3 From Report Number or Item Control Number Sequence
- Oldest To Newest Newest To Oldest From Report Date (MMDDCCYY)
- Julian Date Serial No.
-

The Review Reports Search Screen allows you to search for your property reports in any one of three ways. When the Review Reports Search Screen initially displays, **Selection #1, Item Control Number Sequence** is set as a default selection.

If you choose **Selection #1, Item Control Number Sequence**, you will see all your property reports from oldest to newest in Item Control Number order. This is a good choice if you have a small number of property reports to review.

If you choose **Report Date and Item Control Number Sequence**, you can choose property from a specific date, and have the system sort the results of this search by age: either oldest to newest or newest to oldest. This choice is better if you have a large number of property reports and wish to review a portion of your reports at a time. **Note:** Only one of the two date sort fields may be chosen for each search. Be sure to type a valid date (MMDDCCYY) in the From Date field or leave it blank to see all records.

If you choose **From Report Number or Item Control Number** you will see all property reports starting from a particular property report number or item control number. This is a good choice if you want to limit your search to a particular report or item. This option works best if you report property for multiple property generators. The system provides the Activity Address Code of your Report Number or Item Control Number automatically. You can type the Julian Date (YDDD) to see all items from that Report Number onward, or you can type both the Julian Date and the Serial Number if you want to see from that line item onward.

How can I review my property reports by Item Control Number sequence?

The first example shows a search by Item Control Number Sequence.

You enter the Agency Code and Activity Address Code. You then select Item Control Number Sequence by clicking on the radio button to the left of the selection. You click the red Submit Button.

After clicking the red Submit button, the system displays the first page of the Property Report Status Screen which displays the Item Control Number, Noun Nomenclature, and the current Status for each item. Appendix F contains the Current Status definitions.

How can I review my property reports by Report Date and Item Control Sequence Number?

In the next example, you choose Report Date and Item Control Sequence Number from the month of January 15th, 2008 with sort results from oldest to newest.

The screenshot shows the 'Review Reports Search Screen' in the GSAXcess system. The page includes a navigation bar with links for User Guides, FAQ, Program Links, Contact Links, and GSAXcess® HelpDesk. Below the navigation bar, there are search options: Basic Search Options (selected), Advanced Search, Menu, Home, and Logout. The main search area is titled 'Review Reports Search Screen' and contains the following fields and options:

- Reporting Agency:
- Activity Address Code: (Mandatory For All Selections)
- Selection #1: Item Control Number Sequence
- Selection #2: Report Date and Item Control Number Sequence
 - Oldest To Newest Newest To Oldest
 - From Report Date: (MMDDCCYY)
- Selection #3: From Report Number or Item Control Number Sequence
 - Julian Date:
 - Serial No.:

At the bottom of the form is a red 'Submit' button. Two red arrows point to the 'Julian Date' and 'Serial No.' input fields.

Note: You can see all outstanding property reports in date sequence including those prior to the current month by leaving the From Report Date field blank.

By clicking the red Submit Button, the system displays the first page of selected property reports that meet the required criteria.

Status

Status Description

- CFL Property is in the Computers for Learning Screening for 7 days
- Internal Property is in AAMS Internal Screening
- Excess Property is in GSAXcess Screening
- Transferred Property has been transferred and will display for 7 days after the transfer date

How can I review my property reports by Report Number or Item Control Number Sequence?

In the next example, you choose Report Number or Item Control Number Sequence. Report Number or Item Control Number option works best if you report property for multiple property generators. You can type the Julian Date to see all items from that Report Number onward, or you can type both the Julian Date and the Serial Number if you want to see from that line item onward. Be sure that the Julian Date is in the proper format (YDDD).

The screenshot shows the 'Review Reports Search Screen' in the GSAXcess system. The page header includes the GSA logo and 'U.S. General Services Administration'. A navigation bar contains links for 'User Guides', 'FAQ', 'Program Links', 'Contact Links', and 'GSAXcess® HelpDesk'. Below this is a secondary navigation bar with links for 'Agency Asset Management System (AAMS)', 'Energy Asset Disposal System (EADS)', 'Report Property', 'Want List', 'Direct Select', and 'PTM'. The main content area is titled 'Review Reports Search Screen' and features a search form. The form includes a 'Reporting Agency' field with the value '13' and an 'Activity Address Code' field with the value '137336'. There are three selection options: 'Item Control Number Sequence' (unselected), 'Report Date and Item Control Number Sequence' (unselected), and 'From Report Number or Item Control Number Sequence' (selected). The 'From Report Number or Item Control Number Sequence' option has sub-fields for 'Oldest To Newest' (selected), 'Newest To Oldest' (unselected), and 'From Report Date' (empty). Below these are fields for 'Julian Date' (value '8028') and 'Serial No.' (value '0001'). A red 'Submit' button is located at the bottom right of the form area. There are also 'Back' and 'Help' buttons in the top right corner of the form area.

By clicking the red Submit Button, the system displays the Property Report Status Screen with the selected search criteria. The Julian Date criteria requests Property Reports from the 028th day of 2008 with Serial Number beginning with 0001.

Delete Property Reports

What if I need to delete my property report in Internal Screening?

To delete your Property Report, click on Delete Report (AAMS/EADS Only) under the Report Property Menu.

The screenshot shows the GSAXcess Main Menu. At the top, there is a navigation bar with links for User Guides, FAQ, Program Links, Contact Links, and GSAXcess® HelpDesk. Below this, there are links for Agency Asset Management System (AAMS), Energy Asset Disposal System (EADS), Report Property, Want List, Direct Select, and PTM. A search bar is present with a dropdown menu for Basic Search Options and buttons for Advanced Search, Home, and Logout. The main menu is organized into several sections:

- Report Property Menu:**
 - [Create Report](#)
 - [Modify Report](#)
 - [Review Report](#)
 - [Delete Report \(AAMS/EADS Only\)](#)
 - [Upload Pictures](#)
- Search & Select Menu:**
 - [Search and Select](#)
 - [Inquire Requests](#)
 - [Change Requests](#)
 - [Delete Requests](#)
 - [Want List Items](#)
- CFL Functions Menu:**
 - [View/Allocate Requested Items](#)
 - [Confirm Allocations](#)
 - [Transfer](#)
 - [Change Allocation/Transfer](#)
 - [School Search](#)
 - [Resend School Transfer Order](#)
 - [Post Transaction Module](#)
- AAMS Menu:**
 - [Search and Freeze](#)
 - [Review and Transfer Multiple Items](#)
 - [Transfer Single Item By Control No](#)
 - [Delete Freezes](#)
 - [Want List Items](#)
- User Maintenance Menu:**
 - [APO/NUO](#)
 - [Help Desk](#)
 - [Send Group Email](#)
 - [Update Your Information](#)
 - [Change Your Password](#)

The following Delete Property Report screen displays.

The screenshot shows the Delete Property Report screen. At the top, there is a navigation bar with links for User Guides, FAQ, Program Links, Contact Links, and GSAXcess® HelpDesk. Below this, there are links for Agency Asset Management System (AAMS), Energy Asset Disposal System (EADS), Report Property, Want List, Direct Select, and PTM. A search bar is present with a dropdown menu for Basic Search Options and buttons for Advanced Search, Menu, Home, and Logout. The main content area is titled "Delete Property Report" and features a "Delete" button. Below the button, there is a table with the following data:

Option	Item Control	Number	Noun Nomenclature	Status
<input type="checkbox"/>	1331098011	0001	ROTATING OFFICE CHAIR FABRIC	INTERNAL
<input type="checkbox"/>	1331098011	0002	COMPUTER DESKTOP SYSTEM DELL G-200 INTEL PENTIUM 4	INTERNAL
<input type="checkbox"/>	1331098011	0003	EXECUTIVE DESK	INTERNAL
<input type="checkbox"/>	1331098011	0004	CONSOLIDATOR	INTERNAL

At the bottom of the table, there is a "Delete" button. The page number "Page : 1" is displayed in the top right corner, along with "Back" and "Help" buttons.

To delete the property record, click on the Option checkbox and click the red Delete button. After you delete a property item, that item will no longer be available to customers trying to acquire property. You should take care before you delete an item. Once you delete an item, you re-report the item using the Create Property Report Option discussed earlier in this section.

The system will display a confirmation message that says, “Delete successful – X Records Deleted”.

The screenshot shows the 'Delete Property Report' page in the GSAXcess AAMS system. At the top, there is a navigation bar with links for 'User Guides', 'FAQ', 'Program Links', 'Contact Links', and 'GSAXcess® HelpDesk'. Below this, there are links for 'Agency Asset Management System (AAMS)', 'Energy Asset Disposal System (EADS)', 'Report Property', 'Want List', 'Direct Select', and 'PTM'. A search dropdown menu is set to 'Basic Search Options', with links for 'Advanced Search', 'Menu', 'Home', and 'Logout'. The main heading is 'Delete Property Report', with 'Back' and 'Help' buttons on the right. A confirmation message states 'Delete successful -- 1 Records deleted'. Below this is a table with columns for 'Option', 'Item Control', 'Number', 'Noun Nomenclature', and 'Status'. The table contains three rows of data, each with an unchecked checkbox in the 'Option' column. A 'Delete' button is located below the table. At the bottom, there are links for '[FAS Home]', '[GSAXcess® Browser Troubleshooting Guide]', '[GSA Home]', and '[Supported Browsers]', along with the USA.gov logo.

What if I need to delete my property report in GSAXcess®?

To delete your Property Report, contact your Area Property Officer.

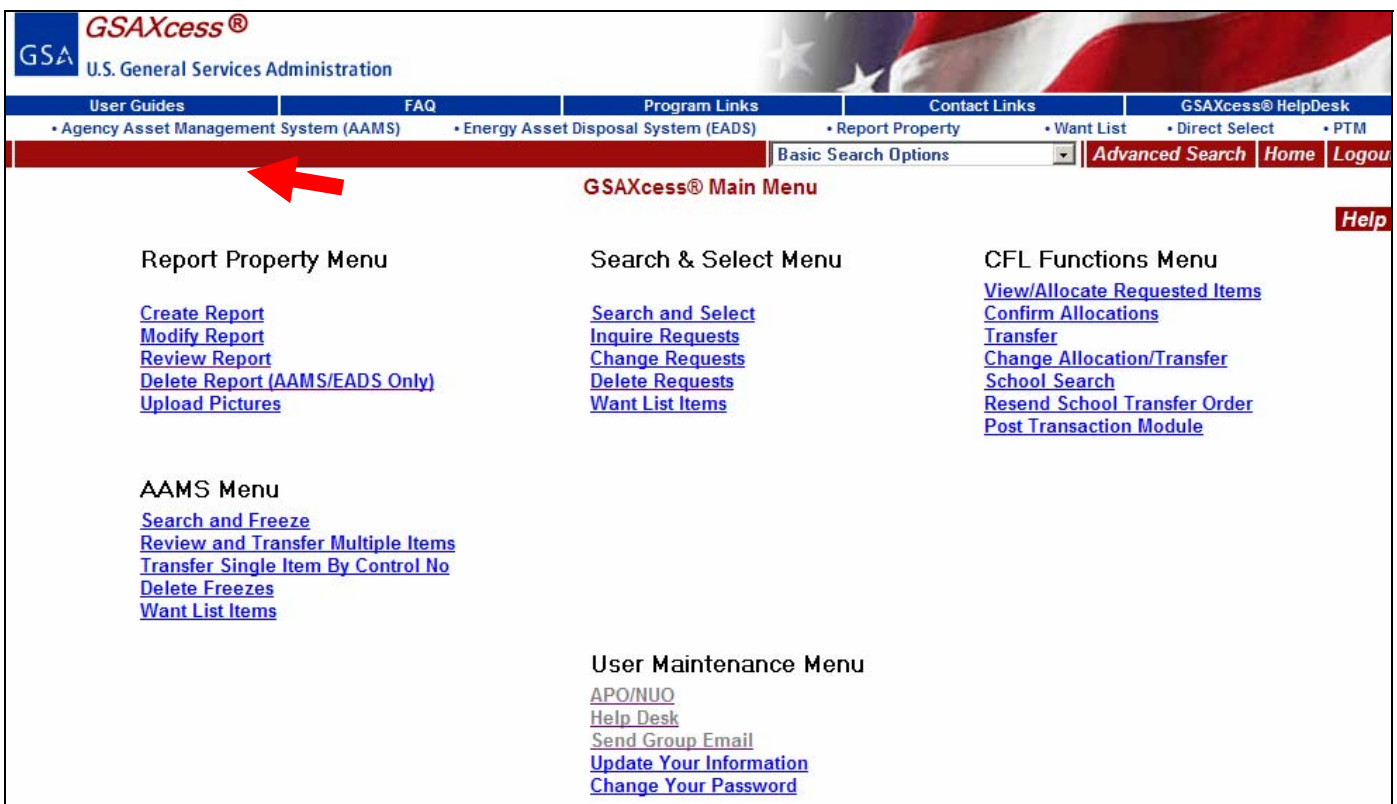

Uploading Pictures

How do I upload pictures?

There are two methods to upload pictures in GSAXcess®. One method is performed from the GSAXcess® Main Menu and the other is performed from the Report Property Module.

You can upload pictures from the Property Report Data Creation, the Property Data Update, or the GSAXcess® Main Menu by clicking **Upload Pictures**.

Click the **Upload Pictures** link on the Property Report Data Creation, the Property Data Update or from the GSAXcess® Main Menu.

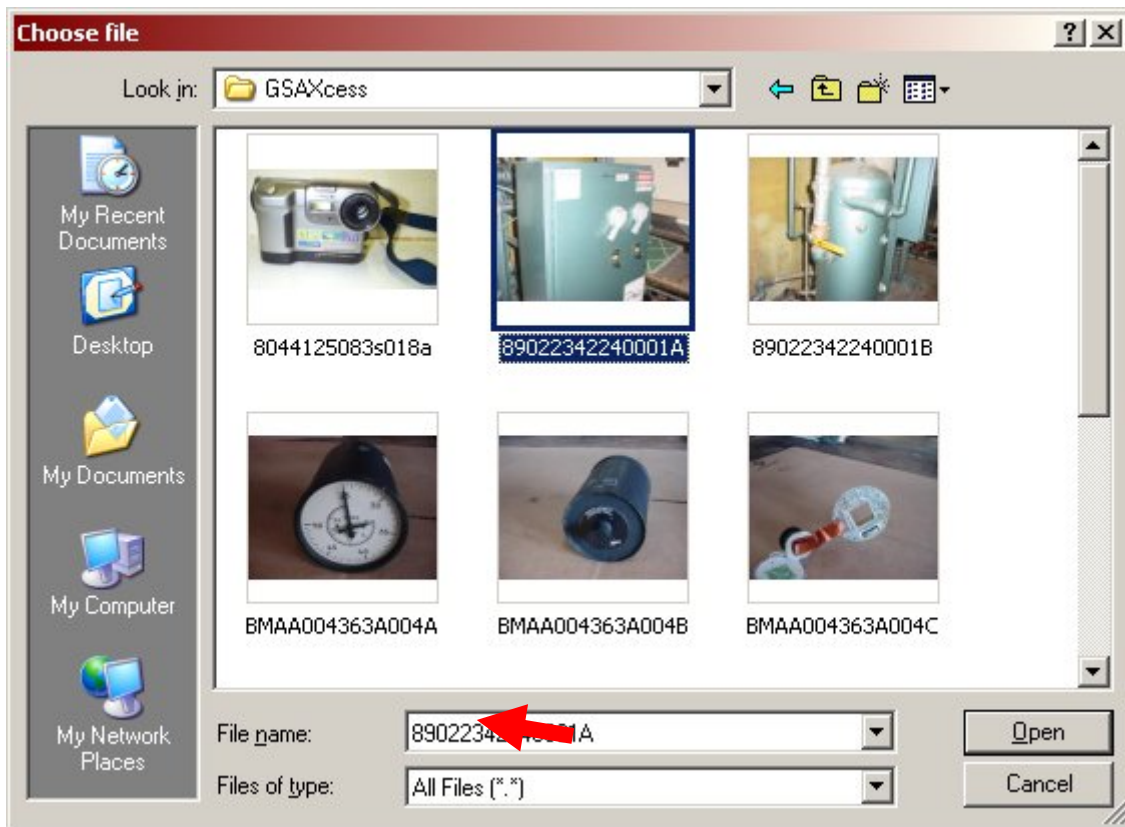

From Property Report Data Creation and Update

The GSAXcess® Photo File Upload application begins to open, and a security box displays. Click **Yes** to accept the certificate, then **Yes** to display the non-secure items. The **GSAXcess® Photo File Upload** application will appear.

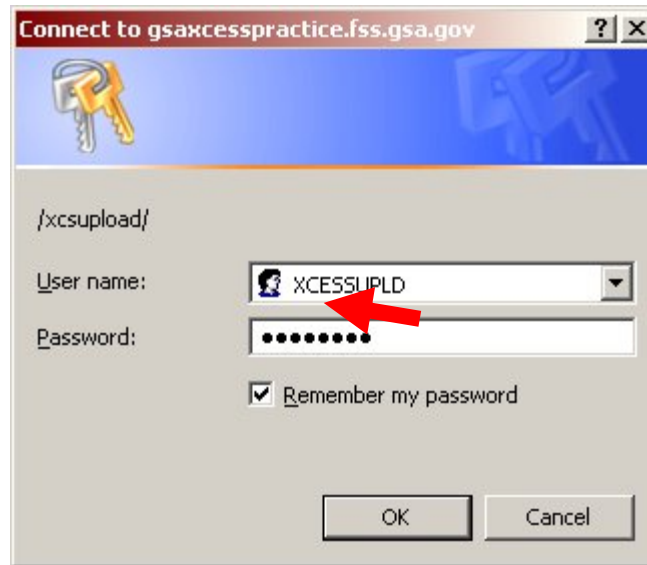

Note: All uploaded photos must be named using the Item Control Number for the item, which is found at the top of the GSAXcess® Photo File Upload application. This requires you to navigate to the images on your system and manually change the file names of the photos to reflect the Item Control Number. Steps 4-6 explain the steps required for doing this.

1. Select the Item Control Number with your mouse, then press CTRL+C to copy the Item Control Number to the clipboard (the clipboard is the place that copied text or images get temporarily stored).
2. Paste the Item Control Number into the existing item image filename to rename it by pressing CTRL+V.

- All filenames must begin with the Item Control Number of the reported item; followed by a letter "A" through "M" with the exception of "I" for each picture submitted for that particular item; ending with the type of file ".jpg". For example, the first picture (main photo) for Item Control Number 89022342240001, the filename is "89022342240001A.jpg", the next picture filename for that item is "89022342240001B.jpg", and so on, excluding the letter "I". Up to 12 pictures can be submitted per item.
- To upload a photo, click Browse and navigate to the photo's location in your file system. Each photo must be uploaded individually, so while browsing your file system, only select one photo.
- Select the photo you wish to upload, then Click Open. The file path and name will appear in the GSAXcess® Photo File Upload application next to the Browse button.

- On the GSAXcess® Photo File Upload application, Click Upload to upload the photo to GSAXcess®. The network authentication dialog box appears:

7. Enter your photo upload username and password. Click the **Remember my password** check box (this will save you some time during future uploads), then click **OK**.

Note: You will be required to authenticate every time you open the photo upload application. You may upload all of the item's photos in one session.
8. Repeat the process to upload all of the photos for the item you are working on. You will receive a confirmation message after each successful file upload (see Example below).

GSAXcess® - Photo File Upload

Description : No Description found
Item Control Number (ICN) - 89022342240001

This is a U.S. Federal government website and is subject to monitoring. No expectation of privacy can be assumed. This File Upload function is strictly for use by "AUTHORIZED USERS ONLY".

To utilize this option, contact the GSAXcess® Help Desk at (Toll free) 866-333-7472 to get the *User name and Password* or for further assistance.

Any unauthorized activity may result in disciplinary action including criminal prosecution.

Step 1: Click on the 'Browse' button, to select the file to upload.
Note: All filenames must begin with the Item Control Number (consists of a six position Activity Address Code + four position Julian Date + four position Serial Number and/or an optional Serial Number Suffix) of the reported item; followed by a letter "A through M" with the exception of "I" for each picture submitted for that particular item; ending with the type of file ".jpg" (no dashes, slash marks, or spaces). For example, the first picture (main photo) for Item Control Number 89022342240001, the filename is "89022342240001A.jpg", the next picture filename for that item is "89022342240001B.jpg", and so on, excluding the letter "I". Up to 12 pictures can be submitted per item.

Step 2: Click on the 'Upload' Button to upload the file OR Click on 'Close' to close window.

Warning: If a file with the same name is available at the destination, it will be overwritten.

File "89022342240001A.JPG" uploaded Success

User Maintenance

How do I update my user information?

To update your user profile information, you click on the [Update Your Information](#) blue hypertext from the User Maintenance Menu on the GSAXcess® Main Menu or from the [Update User Contact Information](#) link located on the GSAXcess® login page (as shown in the Examples below).

GSAXcess® Main Menu Screen

GSAXcess® Login Screen

Clicking on the [Update Your Information](#) or [Update User Contact Information](#) displays the following “Update User Contact Information” screen:

You update your user information on this screen. Your User ID (access code) and first and last name are read only. You can update your phone number and email address.

You may also indicate that you want to receive system messages letting you know if the system is down or other items of interest by selecting Yes or No radio buttons next to Receive Group Message.

You may change your clue question from this screen. Your clue question is a safeguard to unlock your password should you forget it.

You may also change the approving official's information from this screen. GSAXcess® will send a copy of the Transfer Order to the fax number (if Agency Approval Email address is not provided) or to the Email address when Allocation or Requisition without Allocation was done on any of your requests on Property.

How do I change my password?

To change your password from the GSAXcess® Main Menu, you click on the [Change Your Password](#) blue hypertext from the User Maintenance Menu or the [Change Password](#) link from the GSAXcess® Login Page (as shown in the Examples below).

The screenshot shows the GSAXcess® Main Menu with the following sections:

- Report Property Menu:**
 - [Create Report](#)
 - [Modify Report](#)
 - [Review Report](#)
 - [Delete Report \(AAMS/EADS Only\)](#)
 - [Upload Pictures](#)
- AAMS Menu:**
 - [Search and Freeze](#)
 - [Review and Transfer Multiple Items](#)
 - [Transfer Single Item By Control No](#)
 - [Delete Freezes](#)
 - [Want List Items](#)
- Search & Select Menu:**
 - [Search and Select](#)
 - [Inquire Requests](#)
 - [Change Requests](#)
 - [Delete Requests](#)
 - [Want List Items](#)
- User Maintenance Menu:**
 - [APO/NUO](#)
 - [Help Desk](#)
 - [Send Group Email](#)
 - [Update Your Information](#)
 - [Change Your Password](#)
- CFL Functions Menu:**
 - [View/Allocate Requested Items](#)
 - [Confirm Allocations](#)
 - [Transfer](#)
 - [Change Allocation/Transfer](#)
 - [School Search](#)
 - [Resend School Transfer Order](#)
 - [Post Transaction Module](#)

Navigation links at the top include: User Guides, FAQ, Program Links, Contact Links, and GSAXcess® HelpDesk. A search bar is also present with options for Basic Search Options, Advanced Search, Home, and Logout.

To change your password, enter your current GSAXcess® Login and Password. Click on the “Click Here” hypertext to the right of Change Password.

The screenshot shows the GSAXcess® Login page with the following elements:

- Welcome to GSAXcess®**
- Enter Access code and Password then click 'Login' button
- GSAXcess® Login**
- Access Code:
- Password: [Login](#)
- Change Password?** Enter Access Code, Password and [Click here](#).
- Forgot Password?** Enter Access Code and [Click here](#).
- Update User Contact Information?** Enter Access Code, Password and [Click here](#).
- GSAXcess® HelpDesk**: GSAXcess® HelpDesk 1-866-333-7472.
- GSAXcess® Register**: If you do not have an Access code but have a .gov or .mil email address, [Register](#) here. The system will assign you a **generic access code** that can be used to search our data base.
- GSAXcess® Practice Home**: [Click here to go to GSAXcess® Practice Home.](#)

A red arrow points to the "Click here" link next to the "Change Password?" section.

By clicking on the [Change Your Password](#) blue hypertext or [Change Password](#) link the following “Password Change” screen displays:

Password Change **Back** **Help**

Please enter current password, new password and confirm password and click **Submit**

Access Code : AAMS User Name : NANCY BREThERTON

Fields marked with an asterisk * are required.

Enter Current Password*

Enter New Password* (Must be 3 to 10 Characters)

Confirm New Password*

Please Choose a question in case you forget your password

Please select your personal clue question* Enter the answer to your clue question* Must be 3 to 20 characters

Exit **Cancel** **Submit**

Enter Current Password; Enter new Password; confirm new Password and then click the red **Submit** button. Your new Password can be 3 to 10 characters and will last indefinitely. If your password is less than 10 characters, you will need to depress the tab key so that the cursor navigates to the next field.

What if I forgot my password?

If you have forgotten your password, you can change it yourself by clicking on the [Forgot Password](#) link from the GSAXcess® Login Page (as shown in the Example below).

Enter your access code and click on [Click Here](#) next to Forgot Password?

Welcome to GSAXcess®
Enter Access code and Password then click 'Login' button

GSAXcess® Login

Access Code **Login**

Password

Change Password? Enter Access Code, Password and [Click here](#).

Forgot Password? Enter Access Code and [Click here](#).

Update User Contact Information? Enter Access Code, Password and [Click here](#).

GSAXcess® HelpDesk
GSAXcess® HelpDesk 1-866-333-7472.

GSAXcess® Register
If you do not have an Access code but have a .gov or .mil email address, [Register](#) here. The system will assign you a **generic access code** that can be used to search our data base.

GSAXcess® Practice Home
Click here to go to [GSAXcess® Practice Home](#).

The following GSAXcess® Login screen displays:

Forgot Password [Back](#) [Help](#)

Please enter answer for your clue question, new password and confirm password and click Submit

Access Code : AAMS User Name : NANCY BRETHERTON

Fields marked with an asterisk * are required.

Please enter answer for your clue question to establish new password

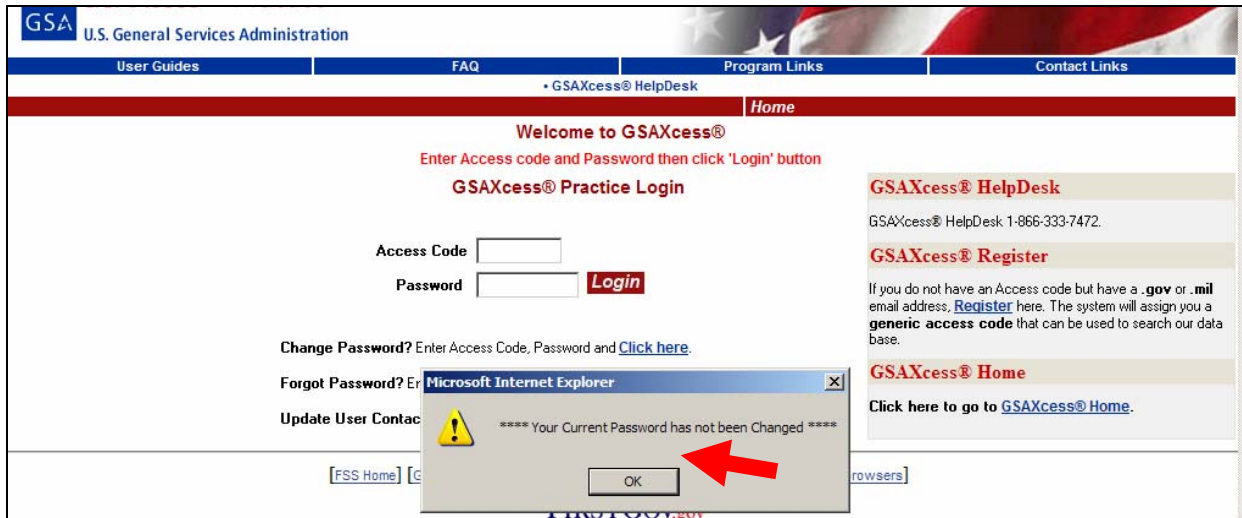

What is your mother's maiden name?*

Enter New Password* (Must be 3 to 10 Characters)

Confirm New Password*

GSAXcess® prompts you to answer your clue question. Enter your clue question answer, then enter new Password and confirm new Password. Click the red submit button to complete the password change. The system displays a confirmation message stating, “Your Password has been Changed Successfully ...Click Submit to Continue”. When you click submit you are logged into GSAXcess®.

If you remember your password while in this screen, click the red cancel button. The system displays a message stating, “Your Current Password has not been Changed”. Click OK. You are returned to the Login page where you can enter your Access Code and Current Password.

Electronic Batch Method

This method is for DOC activities that have a high volume of property to report or for DOC activities that already have a computer system to capture excess property data. This method requires that you use your own system to create electronic records that can be transmitted to GSAXcess®/AAMS. If you do not have a system to capture property record data and you have a high volume of property to report, then you should consider creating such a system so that you can use the Electronic Batch Method to report your property electronically to GSAXcess®/AAMS.

In the past, GSAXcess® required seven types of records for each item reported. However, the current version of GSAXcess®/AAMS requires two types of records: a description record that contains up to sixty six lines of description for each item; and a common data record that includes the address data and all other data pertaining to the item.

You may transmit your file when needed or as often as five times per week. GSAXcess®/AAMS will process your file and create three files for your review: an Audit Trail File, an Exception File, and a Drop File. The Audit Trail File can be used to compare your record count with the record count processed by GSAXcess®/AAMS. If any of your records fail an edit, you can review the Exception File to determine the problem, correct the data, and retransmit the record to GSAXcess®/AAMS. The Drop File contains records that have been dropped or deleted from the GSAXcess®/AAMS data base. These items have completed Internal Screening and are now being returned to you for further processing.

Batch Property Reporting

How do I report my property to GSAXcess®/AAMS via the Electronic Batch Method?

Use your local computer system to enter data that describes your property. Your local system will allow you to create new property reports or to modify or delete old property reports. GSAXcess®/AAMS will know if your record is for a new report or if it is a modification or deletion based upon the Report Type Flags that your local system sends in the record to GSAXcess®/AAMS. The Report Type Flags are a 3 character field that your local system sets to "YNN" for new reports, "NYN" for modifications, and "NNY" for deletions. After you have completed the data entry for all property to be reported, use your local system to create the appropriate property report records and transmit them to the GSAXcess®/AAMS system.

What method do I use to transmit my files to GSAXcess®/AAMS?

You will need a communications software product commonly known as File Transfer Protocol (FTP). This software allows you to name the source and destination for your file. You will also need an Internet connection in order to send the files via FTP. Follow the directions in the manual provided with your FTP software for further information.

How do I set up the process for my first transmission?

When you are ready to send your first file, contact the appropriate Organizational Property Management Officer who will provide you with a point of contact at the GSA. You will also receive the Destination IP Address for the GSA computer as well as the Destination User Code and Password. Once you have clearance, you may contact the GSA point of contact to make an appointment for your first test. The GSA point of contact will give you the destination drive and directory names as well as the destination file names for your activity.

Before you transmit your first file, you must make a copy of the file and store it in a safe place. Keep the copy of this file for fourteen days before removal. If re-transmission is necessary, you can copy the file from the safe place and re-send it to GSAXcess®/AAMS. Be sure to keep your copy of the file for an additional fourteen days whenever you re-send a file.

After you transmit your file, the system will edit the file for errors. Those records that fail the edits will be placed on the Exception File. The records on this file are an exact copy of the records you sent plus an eighty character error message at the end of the record. The error message explains the problem with the record. The second file created is the Audit Trail File. This file contains the date your file was processed and the record count.

After the Audit Trail and Exception Files are created, you will need to use FTP to get them from the GSA computer. Once the files are down-loaded to your computer, you should review them. Make sure that the record count on the Audit Trail File matches the count of the records that you sent for the test. Also, check to make sure the date of the file processed is correct. You should review the Exceptions and correct the data via your local computer system. Then re-send the corrected records along with any new property reports to the GSAXcess®/AAMS system. Continue this process until both you and your point of contact at the GSA agree that the interface is working correctly.

How does the process work after the initial test?

Once the test is complete, you may transmit property records up to five times per week. The GSAXcess®/AAMS system will process your files each week night. Be sure to save a copy of your file to a safe place and keep the copy for fourteen days. The morning after you send your file, you will contact the GSA computer and run FTP to pick up your Audit Trail and Exception Files. Review the Audit Trail and Exception files as you did during the first test run. Correct any exceptions and re-send them to GSAXcess®/AAMS. You may also receive a third file called the Drop File. After you down-load the three files, store them in a safe place for fourteen days prior to removal.

What is the Drop File and when should I look for it?

The Drop File contains property records that have completed the Internal Screening process. See the section, above, on Internal Screening Basics for further information. Since the Drop File is unrelated to the Property reporting process, you must check the GSA computer every morning to see if there is a Drop File there for your activity. **It is important that you check every week day since the GSAXcess®/AAMS system could create dropped records for you at any time. When the system creates a Drop File for you, it will remove the previous day's file and replace it with the current day's drop file.**

When you find a Drop File for your activity, down-load it to your PC and follow your local procedures to process these records.

Searching for property

Who can search for property?

Generally, only DOC (AAMS) employees and DOC contractors who are provided User ID codes by GSA or their National Utilization Officers can use GSAXcess®/AAMS to search for property undergoing internal screening within AAMS.

What is searched?

When you conduct a search using GSAXcess®/AAMS, you are screening the DOC's nationwide inventory of property undergoing internal screening. This complements the regular GSAXcess® search feature which allows you to search the excess property of all Federal agencies during the Excess Screening Cycle.

When can I search for property?

The GSAXcess®/AAMS database can be accessed 24 hours, 7 days a week, with the exception of 9:00 p.m. to 10:00 p.m. Eastern Standard Time daily, when the system is down due to cycle maintenance.

Why is property searched?

Most often GSAXcess®/AAMS will be searched to determine the availability of excess personal property and to fill requirements to initiate a request for its transfer. However, DOC activities can also search GSAXcess®/AAMS to determine the disposal status of property undergoing internal screening.

How do I search for property on GSAXcess®/AAMS?

When you first logon to GSAXcess® with your User ID and Password, the system displays the GSAXcess® Basic Search page. This page shows only property items currently screening in GSAXcess®. You will need to click on either the AAMS hyperlink in the menu bar or the Menu button to access the AAMS main menu.

The screenshot displays the GSAXcess® Basic Search page. At the top left is the GSA logo and the text "GSAXcess® U.S. General Services Administration". A navigation bar contains links for "User Guides", "FAQ", "Program Links", "Contact Links", and "GSAXcess® HelpDesk". Below this are links for "Agency Asset Management System (AAMS)", "Energy Asset Disposal System (EADS)", "Report Property", "Want List", "Direct Select", and "PTM". A search bar includes a "Global Search" input field, a dropdown for "Exact Phrase", a "Go!" button, and a "Basic Search Options" dropdown. To the right of the search bar are buttons for "Advanced Search", "Menu", "Home", and "Logout".

The main content area is titled "Worldwide Property Items by Category" and shows "All Items Available - All Categories". It includes a "View Cart (1)" button, a "Checkout" button, and a "Disaster Relief Items" button. A summary line states: "Total number of items available: 42,829 / Total items available with Photos: 2,032".

A list of property categories is displayed in two columns:

- [Agricultural Equipment and Supplies](#) (70/7)
- [Aircraft](#) (6/6)
- [Aircraft Parts and Tires](#) (1,276/5)
- [Automobiles](#) (80/16)

To Search for internal DOC property click on the Search and Freeze hypertext under the AAMS Menu. The system will display the AAMS Property Search screen shown below.

To do a property search, you must first choose criteria to conduct the search. The AAMS Property Search Screen lists a Global Search, 7 Primary Search Criteria, and 8 Secondary Search Criteria. GSAXcess®/AAMS restricts your choice to only one Global Search Criterion and/or one Primary Search criterion. However, you may choose as many Secondary Search Criteria as you wish along with a Global Search and/or one Primary Search criterion.

After search criteria are entered and submitted, GSAXcess®/AAMS will redisplay the Internal Property Search Screen with a message in the Status Bar at the bottom of the screen indicating how many matching records it found. You enter Computer in the Global Search input box and select a Condition Code of Usable. A Global Search searches the fields in the report property screen of make, manufacturer, noun name, and model. When using the Global Search feature, the system searches for characters in that exact order. You can choose from “Exact Phrase”, “Any of the Words” or “All of the Words”. Using the word “Computer” and “Exact Phrase” specifies you want only records with the entire word “Computer” in one of the fields described above. By selecting the secondary criteria of “usable” you are requesting that all property items with a condition code of usable or above be displayed.

You can return to the AAMS Property Search Results by clicking the red “Back” button. As shown below, the system changes the color and bolds the items that you have already viewed.

What screens will I see after I transmit my search criteria?

There are numerous screens which can be generated from a search. Which screens are actually generated depend on the type of search initiated.

There are two types of search that can be done from the AAMS Property Search Screen: (1) Single Line Freeze (This is the same as Search Only), and (2) Multiple Freeze.

Single Line Freeze

A Single Line Freeze search is initiated from the AAMS Property Search Screen by entering your search criteria and clicking the red Submit button (see Searching for Property).

Multiple Freeze

A Multiple Freeze search is initiated from the AAMS Property Search Screen by entering your specific search criteria and clicking on the red Multiple Freeze button. GSAXcess®/AAMS displays the AAMS User Data Screen. The AAMS User Data Screen is displayed to enable the user to make any changes to their contact and shipping information.

By clicking the red Freeze button, GSAXcess® displays the AAMS Multiple Line Freeze List screen listing all the search results from the search for Item Keyword Name “Computer” as shown below.

Should I search by the Federal Supply Class?

The Federal Supply Class (FSC) is the first four positions of the National Stock Number (NSN). To do a search by Federal Supply Group/Class, the user must enter the four digit FSC. Clicking on the Class hypertext link will take you to a GSAXcess® alphabetical directory where you can enter the type of property you are searching for to determine its Federal Supply class. Selecting from this directory will automatically fill the box on the Search screen.

You can search by a specific Federal Supply Class (FSC) by entering the four digit FSC in the appropriate input box. In the following example, an FSC of 7025 is entered and the red Search button is clicked.

Click the red Search button and the following AAMS Property Search Results display with more than 50 items:

Global Search - How accurate must the noun name be?

GSAXcess®/AAMS checks the Global Search item noun name character by character and looks for a match in the Noun Name, Make, Model, and Manufacturer field of the GSAXcess®/AAMS database. The Global Search also allows you to select searches by “Exact Match”, “Any Word” and “All of the Words”. The Global Search feature in AAMS only searches within the DOC database. This same Global Search function is also available in GSAXcess® but it does not search in the DOC Internal property items.

For example, to search for all records with the words “Kodak Camera” by “Exact Match” means that the exact phrase and spacing must be found in one of the search fields. In the example below, you entered “Kodak Camera” and the “Exact Phrase” and clicked the red Search button.

To search for all records with the words “Kodak Camera” by “Any Word” means that the any of the words have to be found in any order in one of the search fields. In the example below, you entered “Kodak Camera” and “Any Word” and clicked the red Search button.

The search returns 9 records that contain any of the words “Kodak or Camera” in any of the search fields. For example, each Noun Name has either Camera or Kodak in that field.

Noun Name	Picture	Reimb	State	Condition	Available Quantity	Unit of Issue	Freeze Quantity
CAMERA			MD	Repairable	1	EACH	
DIGITAL CAMERA W/CASE			MD	Usable	1	EACH	
PORTABLE VIDEO CAMERA			MD	Usable	1	EACH	
SLIDE PROJECTOR			MD	Usable	1	EACH	
SUPER GRAPHIC 4X5 CAMERA			MD	Repairable	1	EACH	
120/220MM FILM CAMERA			MD	Usable	1	EACH	
35MM FILM CAMERA			MD	Usable	1	EACH	
35MM FILM CAMERA			MD	Usable	1	EACH	
35MM FILM CAMERA			MD	Usable	2	EACH	

To search for all records with the words “Kodak Camera” by “All Words” means that a combination of all of the words have to be found in the search fields. In the example below, you entered “Kodak Camera” and “All Words” and clicked the red Search button.

The screenshot shows the 'AAMS Property Search' interface. At the top, there is a navigation bar with links for 'User Guides', 'FAQ', 'Program Links', 'Contact Links', and 'GSAXcess® HelpDesk'. Below this, there are links for 'Agency Asset Management System (AAMS)', 'Energy Asset Disposal System (EADS)', 'Report Property', 'Want List', 'Direct Select', and 'PTM'. A dropdown menu is set to 'Basic Search Options', with buttons for 'Advanced Search', 'Menu', 'Home', and 'Logout'. The main heading is 'AAMS Property Search' with 'Back' and 'Help' buttons. Below the heading, there are buttons for 'Search', 'Single Freeze', and 'Multiple Freeze', with a prompt to 'Enter Item Name Keyword and/or Primary and/or Secondary search Criteria'. The 'Global Search:' section contains the 'Item Name Keyword' field with 'KODAK CAMERA' entered and a dropdown set to 'Any Word'. The 'Choose One Primary Search Criterion:' section includes fields for 'Federal Supply Group/ Class', 'National Item Identification Number (NIIN)', 'Item Control Number', 'Internal Item Only' (set to 'No'), 'Date Reported (MM/DD/CCYY)[= OR >]', 'Activity Address Code', 'State', and 'Region' (set to '-Select Region-'). The 'Choose one or Several Secondary Criteria:' section includes 'Date Reported (= OR >)' and 'Activity Address Code'.

The search returns no records that contain a combination of all of the words “Kodak Camera” in the search fields. If a user had entered Kodak in the manufacturer field **and** Camera in the noun name description, then a match would have been found.

Item Control No-- When should I use this search criterion?

An Item Control Number (ICN) is a 14-position field consisting of a 6-position activity address code, a 4-position Julian date, and a 4-position serial number. This number is assigned by the reporting activity and identifies the reporting document. This search is useful if you already know the ICN and want to go to it directly for selection or review. When you enter an ICN and the item is found in the system, it means that the property item is still in AAMS internal screening. The user entered ICN 133KFU-8016-B001 and clicked the red “Search” button.

The following AAMS Item Data Sheet displays confirming that it is still in Internal Screening with an Excess Release Date of January 31, 2008.

Internal Screen Only – what is this and how do I know if an item is an Internal Screen Only?

“Internal Screen Only” DOC property items may only be screened by DOC personnel and DOC contractors. These items will not proceed to the normal Federal excess and surplus property cycle. Upon conclusion of the internal screening cycle, this property will be disposed of under separate DOC authority.

Date Reported (= OR >)- How can this search help me?

Excess property is reported by DOC activities to GSAXcess®/AAMS for internal screening on a daily basis. Thus, if you are searching everyday for a particular type of property item, you will want to restrict your search to only those items that were reported into GSAXcess®/AAMS the previous day. In doing so, you probably would not want to review the property you reviewed in previous sessions.

To do the search by DATE REPORTED (=OR>), the date must be entered in MMDDYYYY format. Date Reported will search for dates that are equal to or greater than the date entered. The screen has a calendar to the right of the Date Reported field that you can click on and select the date. In addition, unlike previous searches, the search criteria must be identified as either Primary or Secondary as illustrated below:

The screenshot displays the 'AAMS Property Search' page. At the top, there is a navigation bar with links for 'User Guides', 'FAQ', 'Program Links', 'Contact Links', and 'GSAXcess® HelpDesk'. Below this is a search bar with 'Basic Search Options' and buttons for 'Advanced Search', 'Menu', 'Home', and 'Logout'. The main search area is titled 'AAMS Property Search' and includes a 'Back' and 'Help' link. The search criteria are organized into three sections: 'Global Search', 'Choose One Primary Search Criterion', and 'Choose one or Several Secondary Criteria'. A calendar pop-up is open over the 'Date Reported' field, showing the date 01/29/2007 selected. The 'Date Reported' field is labeled '(MM/DD/CCYY)'. At the bottom of the page, there are links for '[FAS Home]', '[GSAXcess® Browser Troubleshooting Guide]', '[GSA Home]', and '[Supported Browsers]', along with the USA.gov logo.

In the example above, “01032008” (January 29, 2007) was entered as the DATE REPORTED (=OR>). DATE REPORTED (=OR>) is a system-edited field. As such, it will only accept a date equal to or greater than the current date.

Activity Address Code – Why use this code, and can I enter any AAC?

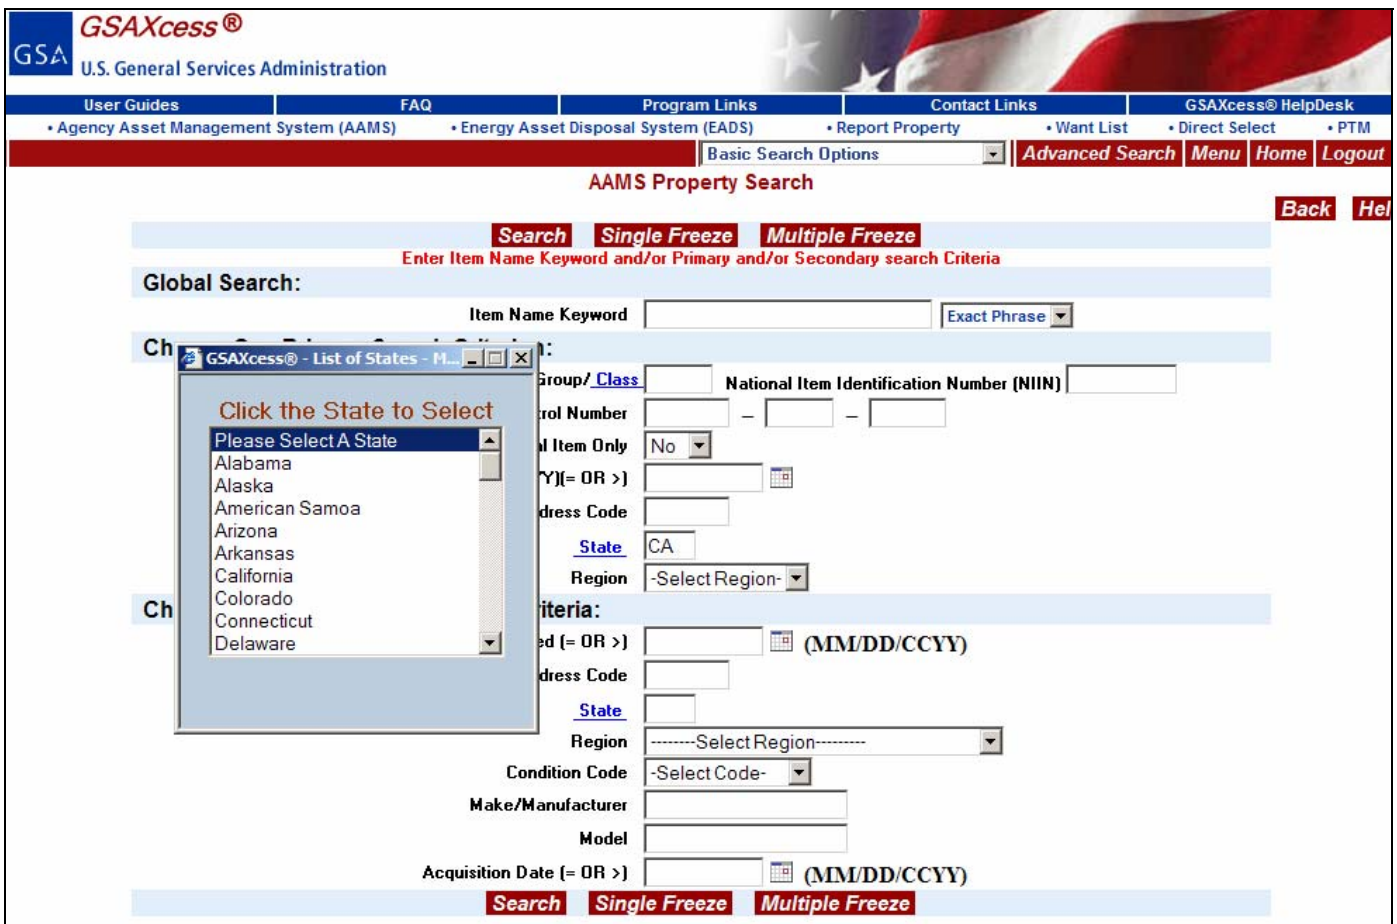

An Activity Address Code (AAC) is a six-character code that identifies a particular government activity. Activity Address Code can be used as a search criterion by DOC activities that know specific DOC activities have desirable property. Like the Date Reported field, Activity Address Code must be identified by the user as either a Primary or Secondary Search Criteria.

The first two characters of the AAC are the Agency Code of the government agency. In the case of "13" is the Agency Code.

State - What advantages are there in using this search criterion?

State can be used as a search criterion by DOC activities desiring to minimize transportation costs in obtaining property. This can be done by searching only those states that are contiguous to that of the user.

Like the Date Reported field, State must be identified by the user as either a Primary or Secondary Search criterion. Also like Date Reported, State is a system-edited field. As such, GSAXcess®/AAMS will not allow the user to enter a 2-digit State Code that does not conform to the United States Postal Service standard abbreviations. By clicking on the State hypertext to the left of the State field, a list of valid state codes appears. By selecting the State code, the system pre-fills the State field.

Region – Why use this search criterion?

The Region field can be used as a search criterion by DOC activities desiring to minimize transportation costs in transferring property. This can be done by searching only those regions that are contiguous to that of the user. The region can also be used as a search criterion if a certain region is known to generate the type of property desired by the user.

Like the Date Reported field, Region must be identified by the user as either a Primary or Secondary Search criterion. You must select the appropriate Region from a system drop-down list.

The screenshot displays the 'AAMS Property Search' interface. At the top, there is a navigation bar with links for 'User Guides', 'FAQ', 'Program Links', 'Contact Links', and 'GSAXcess® HelpDesk'. Below this, a secondary navigation bar includes 'Agency Asset Management System (AAMS)', 'Energy Asset Disposal System (EADS)', 'Report Property', 'Want List', 'Direct Select', and 'PTM'. The main search area is titled 'AAMS Property Search' and features buttons for 'Search', 'Single Freeze', and 'Multiple Freeze'. A prompt asks the user to 'Enter Item Name Keyword and/or Primary and/or Secondary search Criteria'. The 'Global Search' section includes an 'Item Name Keyword' field and an 'Exact Phrase' dropdown. The 'Choose One Primary Search Criterion' section contains several fields: 'Federal Supply Group/ Class', 'National Item Identification Number (NIIN)', 'Item Control Number', 'Internal Item Only' (set to 'No'), 'Date Reported (MM/DD/CCYY)(= OR >)', 'Activity Address Code', 'State', and 'Region' (a dropdown menu currently showing '-Select Region-'). The 'Choose one or Several Secondary Criteria' section includes 'Date Reported (= OR >)', 'Activity Address Code', 'State', 'Region' (a dropdown menu showing '5 - Region 5'), 'Condition Code', 'Make/Manufacturer', 'Model', and 'Acquisition Date (= OR >)' (with a calendar icon and '(MM/DD/CCYY)' label). At the bottom, there are 'Search', 'Single Freeze', and 'Multiple Freeze' buttons.

Condition Code – What is it and how can I use it?

Condition codes are assessments by the reporting agency of the property’s usefulness. The condition code must be selected from a system drop-down list that provides a description of the condition code.

Unlike the Primary search criteria, Condition Code is a Secondary Search Criterion only. As such, it cannot be used by itself to do a search. Condition Code must be used together with a Primary Search Criterion or Global Search.

In the illustration below, “7025” was entered as the value for a primary search by FSC and “4-Usable” was selected as the value for a secondary search by Condition Code.

The screenshot displays the 'AAMS Property Search' interface. At the top, there is a navigation bar with links for 'User Guides', 'FAQ', 'Program Links', 'Contact Links', and 'GSAXcess® HelpDesk'. Below this, a secondary navigation bar includes 'Agency Asset Management System (AAMS)', 'Energy Asset Disposal System (EADS)', 'Report Property', 'Want List', 'Direct Select', and 'PTM'. The main search area is titled 'AAMS Property Search' and features a search bar with 'Basic Search Options' selected. Below the search bar, there are buttons for 'Search', 'Single Freeze', and 'Multiple Freeze'. The search criteria are divided into 'Global Search' and 'Choose One Primary Search Criterion:'. Under 'Global Search', there is a text input for 'Item Name Keyword' and a dropdown for 'Exact Phrase'. Under 'Choose One Primary Search Criterion:', there are fields for 'Federal Supply Group/ Class' (containing '7025'), 'National Item Identification Number (NIIN)', 'Item Control Number', 'Internal Item Only' (set to 'No'), 'Date Reported (MM/DD/CCYY)[- OR >]', 'Activity Address Code', 'State', and 'Region' (set to '-Select Region-'). Below this, there is a section for 'Choose one or Several Secondary Criteria:' with fields for 'Date Reported (= OR >)', 'Activity Address Code', 'State', 'Region' (set to '-----Select Region-----'), 'Condition Code' (set to '4 - Usable'), 'Make/Manufacturer', 'Model', and 'Acquisition Date (= OR >)'.

Matching records are displayed below in the AAMS Property Search Results in summary form with the condition described in text as “New/Unused”, “Usable”, “Repairable”, “Salvage”, and “Scrap”.

Make/Manufacturer - What is it and what restrictions are there?

Make/Manufacturer is the brand name of the property as described by the activity reporting the property.

Like Condition Code, Make is a secondary search criterion only. It cannot be used by itself to do a search. Make must be used together with a Primary Search Criterion. It is not a system-edited field. As such, GSAXcess®/AAMS will allow the user to enter any Make desired. However, no records will be selected unless the Make entered by the user matches a Make entered by the reporting activity at the time the record was created.

Model – Is this an edited field?

Like Condition Code, Model is a secondary search criterion only. It cannot be used by itself to do a search. Model must be used together with a Primary Search Criterion.

Model is not a system-edited field. As such, GSAXcess®/AAMS will allow the user to enter any Model desired. However, no records will be selected unless the Model entered by the user matches a Model entered by the reporting activity at the time the record was created.

Acquisition Date (= OR >) - What is this and how must it be entered?

Acquisition Date is the date the property was purchased when it was new.

A search by Acquisition Date will search for dates which are equal to or greater than the date entered.

Acquisition Date must be entered in MMDDYY format and is system-edited to ensure the date entered is a valid Gregorian date. The system provides a calendar icon to the right of the Acquisition Date field. By clicking on the icon, a calendar will appear that you can select the appropriate date as shown below.

GSAXcess®/AAMS Want List

What is the “GSAXcess®/AAMS Want List” function?

In GSAXcess®/AAMS system there is a function entitled “Want List”. The Want list is a function that allows you to submit your 'Wants', by Item Name, FSC and NIIN, FSC and Item Name, and other criteria. The system will search each day's receipts to determine matches. Any day there is a match (in either GSAXcess® or AAMS database), the system will generate an email to you notifying you of the item's availability. Your 'Want' will stay active for up to 180 days. The GSAXcess®/AAMS Want List will return results for GSAXcess®/AAMS DOC property items only.

How do I get to the AAMS Want List” function?

From the GSAXcess® Main Menu, click on the blue Want List Items hypertext located under the AAMS Menu function.

The screenshot displays the GSAXcess® Main Menu interface. At the top left is the GSA logo and the text "U.S. General Services Administration". A navigation bar includes "User Guides", "FAQ", "Program Links", "Contact Links", and "GSAXcess® HelpDesk". Below this are links for "Agency Asset Management System (AAMS)", "Energy Asset Disposal System (EADS)", "Report Property", "Want List", "Direct Select", and "PTM". A search bar is set to "Basic Search Options" with buttons for "Advanced Search", "Home", and "Logout".

The main content area is titled "GSAXcess® Main Menu" and contains several menu sections:

How do I use the AAMS Want List” function?

The AAMS Want List function allows you to receive searches daily by entering your specified criteria.

The system sends the email notifications to the email address in your User Data screen which is displayed in the upper right-hand corner of the Want Item List screen.

The system allows you to request how you would like the results of your search notifications by selecting either a Word Document or an Excel Spreadsheet. Click on the radio button to the right of the selections. In this example, a Word Document was selected.

Name: JOHN COMMERCE	Email: NANCY.BROTHERTON@GSA.GOV
Email Attachment Document Type: Word Document <input checked="" type="radio"/> Excel Sheet <input type="radio"/> Change	

You can enter the Federal Supply Classification by clicking on the blue FSC hypertext and selecting the appropriate FSC to receive notifications for that specific FSC. If you search by FSC you must also enter the Item Name.

You can enter Item Name and search like the Global Search with “Exact Phrase”, “Any Words”, or “All Words” as described in Section Searching for Property.

You can select a condition code by selecting the condition code from the drop down menu Minimum Condition Code.

You can limit your results by entering the State abbreviation for up to 6 states.

The system automatically enters the 180 expiration date. If you want to receive your notices for less than 180 days, enter the date by clicking on the calendar icon to the right of the Expiration Date field.

You have entered a FSC of 7020, Item Name of Computer, Minimum Condition Code of Repairable, States of Ohio, Kentucky, and Indiana and clicked on the red “Submit” button. The system displays the following confirmation screen:

3. If your name or email address at the top of the screen needs correcting, go to "Update User Contact Information?" on the GSAXcess® Homepage. If you are unauthorized to make changes to this information contact your National Utilization Officer.

Freezing property

What does “freeze” mean?

In GSAXcess®/AAMS, “freeze” means an indication of interest. It does not mean that the quantity frozen is promised to the person placing the freeze. As such, an unlimited number of freezes may be transacted against an item that has an Available Quantity in GSAXcess®/AAMS is equal to or greater than 1.

Why freeze an item?

Freezing an item in GSAXcess®/AAMS is the initial step required to obtain excess personal property to fill a valid requirement. GSAXcess®/AAMS will generate an automated transfer order, SF-122, Transfer Order Excess Personal Property for the item.

What is the overall freeze process?

- A DOC requester freezes the item in GSAXcess®/AAMS.
- GSAXcess®/AAMS generates a transfer order and either E-mails or faxes it with a cover sheet, to the Approving Official for the person placing the freeze.
- The Approving Official reviews the freeze request and signs the transfer order.
- The Approving Official sends the signed transfer order to the holding agency's Point of Contact listed on both the cover sheet and the transfer order.
- The holding agency approves the signed transfer order and notifies the requester and the property custodian.
- The holding agency's Point of Contact updates the transfer transaction in GSAXcess®/AAMS.

How long will GSAXcess®/AAMS retain my freeze?

A freeze will remain until the property is transferred and the record in GSAXcess®/AAMS is closed by the holding agency's Point of Contact.

How many ways can I freeze property in GSAXcess®/AAMS?

There are two ways to freeze property: Single-Line Freeze and Multiple-Line Freeze. Each of these types of freezes is discussed in the next two sections of this guide.

Single-Line Freeze

What is a Single-Line Freeze?

A Single-Line Freeze is a transaction in which only a single line item can be frozen. Single-Line Freezes can be transacted from the AAMS Item Data Sheet screen.

How do I do a Single-Line Freeze?

A Single-Line Freeze is initiated from the AAMS Item Data Sheet. To get to the AAMS Item Data sheet, you conduct a search for the type of property item you want to freeze. In the following example, you want to freeze a computer, so you enter the noun name of "Lab" in the Global Search Item Name Keyword field and click the red Search or Single Freeze button.

Search Single Freeze Multiple Freeze

The system displays the AAMS Property Search Results screen with a system message stating that 8 records that matched your search criteria.

The screenshot shows the GSAXcess interface with the search term 'LAB' entered. The results table is as follows:

Noun Name	Picture	Reimb	State	Condition	Available Quantity	Unit of Issue	Freeze Quantity
COOLER, LABORATORY			MD	Scrap	1	EACH	
COOLER, LABORATORY			MD	Scrap	1	EACH	
FURNACE, LABORATORY			MD	Scrap	1	EACH	
LAB CHAMBER			MD	Scrap	1	EACH	
LAB EQUIPMENT			MD	Scrap	1	EACH	
LABORATORY EQUIPMENT			MD	Scrap	1	EACH	
LABORATORY EQUIPMENT			MD	Scrap	1	EACH	
LABORATORY EQUIPMENT			MD	Scrap	1	EACH	

This screen displays a list of the items responding to the search, with summary information about each item. In the previous illustration, the AAMS Property Search Results screen lists summary information for each of the property items that match your search criteria. It also shows that there are 8 laboratory property items that are available for freezing. No competing freezes have been placed for these property items because there are no quantities in the Freeze Quantity column. The AAMS Property Search Results screen shows you the State the property is located in, if there are pictures available of the item, and if the property is reimbursable. In this case all of the items are designated as scrap.

If the search results list has more than 50 items, only the first 50 will be shown on the first page. To see more items, you would click on the blue “Next Page” hypertext. The Page number is displayed on the upper right corner of the screen.

The screenshot shows the search results for a different query. The results table is as follows:

Noun Name	Picture	Reimb	State	Condition	Available Quantity	Unit of Issue	Freeze Quantity
ACCULIGHT VIEWER/EDITOR SYSTEM		X	AZ	Repairable	1	EACH	
AEROSOL INHALATION MONITOR			LA	Repairable	1	EACH	
BOOKS & VIDEOS			LA	Usable	240	EACH	
CARDIAC STRESS TYEST SYSTEM		X	AZ	Repairable	2	EACH	
CATH LAB DATA SYSTEM			TN	Usable	1	EACH	

By clicking on the blue “Next Page” hypertext, the next page is displayed. When you are at the last page of records, the system displays a message stating, “No More Records” and a blue “Previous Page” hypertext as shown below:

--	--	--

The AAMS Item Data Sheet screen provides a detailed profile of the item that includes point of contact, property location, current interest from other freezes, and descriptive information about the property itself. It provides the user with information necessary to make a freeze determination. The condition code of this item is scrap, but in the property description it says needs repair. The user may choose to freeze the item from this screen by clicking on the red “Freeze” button in the upper right hand or click the red “Back” button to return to the AAMS Search Results screen.

You click the red “Freeze” button. The system displays the AAMS User Data Screen where you enter your freeze quantity and update any user identification information as shown below.

The screenshot shows the 'AAMS User Data Screen' interface. At the top, there is a navigation bar with 'GSA U.S. General Services Administration' and 'GSAXcess®' logo. Below this are several menu items: 'User Guides', 'FAQ', 'Program Links', 'Contact Links', and 'GSAXcess® HelpDesk'. A secondary menu includes 'Agency Asset Management System (AAMS)', 'Energy Asset Disposal System (EADS)', 'Report Property', 'Want List', 'Direct Select', and 'PTM'. A search bar is present with 'Global Search', 'Exact Phrase' dropdown, 'Go!' button, and 'Advanced Search', 'Menu', 'Home', 'Logout' buttons.

The main content area is titled 'AAMS User Data Screen' and features a red 'Freeze' button in the top right corner. Below this, the item details are displayed:

- Noun Name: COOLER, LABORATORY
- Item Control Number: 133103 - 8017 - 0013
- Quantity Available: 1
- Activity Address Code: 137336
- Freeze Quantity: 1
- Freeze Activity First Name: JOHN
- Middle Initial: []
- Last Name: COMMERCE
- Telephone Number: 703 605 2885
- Extension: []

Below the item details is the 'Approving Official's Data' section, which includes:

- First Name: JOHN
- Middle Initial: []
- Last Name: COMMERCE
- Room Number: 300
- Email Address: NANCY.BROTHERTON@GSA.GOV
- Fax Number: 703 605 2885
- ATTENTION LINE: []
- Ship To Address: DEPT OF COMMERCE, OPERATIONAL SUPPORT FACILITY, 1200 WESTHEIMER DRIVE ROOM A126, NORMAN OK 73069

At the bottom of the form, there is another red 'Freeze' button.

You have decided to freeze "1" out of the "1" available coolers. If this freeze transaction is successful, the system updates the Freeze Quantity fields of the AAMS Search Results and the AAMS Item Data Sheet screens to "1", but the quantity available for freezing will still be "1". In other words, the system tallies the total quantities already frozen by all users, while the original available quantity reported by the owner of the property remains the same. Users are invited to freeze as much of the property as they need as long as they do not try to freeze a quantity greater than the quantity available.

If a freeze is successful, the system will display the notice, “Freeze Successful” in the message line at the bottom of the screen.

No more records

Noun Name	Picture	Reimb	State	Condition	Available Quantity	Unit of Issue	Freeze Quantity
COOLER, LABORATORY			MD	Scrap	1	EACH	1
COOLER, LABORATORY			MD	Scrap	1	EACH	
FURNACE, LABORATORY			MD	Scrap	1	EACH	
LAB CHAMBER			MD	Scrap	1	EACH	
LAB EQUIPMENT			MD	Scrap	1	EACH	
LABORATORY EQUIPMENT			MD	Scrap	1	EACH	
LABORATORY EQUIPMENT			MD	Scrap	1	EACH	
LABORATORY EQUIPMENT			MD	Scrap	1	EACH	

It should be noted that even when you have successfully completed a freeze, an incorrect E-mail address or a wrong Fax Number (if fax was the choice) would prevent the transmission of the freeze cover sheet and the transfer order to the approving official.

When a freeze is completed, the system will attempt to transfer the freeze cover sheet and the transfer order form to the approving official. After the system makes three unsuccessful attempts, it will send the transfer order to a default E-mail address or Fax machine. The person located at the default station should review the order and send it to the Approving Official.

How do I initiate another Single-Line Freeze?

To initiate another freeze in the same session, you must return to the AAMS Property Search Results screen to choose another item from the previous search result, or to the AAMS Property Search Screen to start a new search. As explained earlier, you may return to any of these screens by clicking the red “Back” button.

How do I correct an unsuccessful transmission?

There are many reasons that may prevent you from smoothly sailing through a freeze process. Most of these reasons result from typing wrong information, while some of them result from not entering information in a required field. Fortunately GSAXcess®/AAMS is user-friendly and intuitive. Every possible field is edited and each screen displays error messages when a wrong step is taken, or when an important omission is made. These error messages are self-explanatory and will be displayed in the upper center of the screen.

If you create a freeze by mistake, you can delete the freeze from the Delete Freeze Transactions screen. See the section of this guide below concerning the Delete Freeze function.

Multiple-Line Freeze

What is a Multiple Line Freeze?

A Multiple Freeze is a single freeze transaction of more than one line item. Like a Single-Line Freeze it is a single transaction. However, unlike a Single-Line Freeze, more than one line item can be frozen at a time.

A line item can be thought of as a system data record corresponding to an Item Control Number reported for internal screening. It is different from a single unit of an item. Although a line item refers to only one item commodity (e.g., “Truck”), there may be any number of that commodity (e.g., 3 Trucks) reported for that line item.

How do I do a Multiple Line Freeze (Federal agency or non-Federal recipient)?

A Multiple Freeze is initiated from the AAMS Item Data Sheet. To get to the AAMS Item Data sheet, you conduct a search for the type of property item you want to freeze. In the following example, you want to freeze medical supplies, so you enter the noun name of "GPS" in the Global Search Item Name Keyword field and click the red Multiple Freeze button.

The screenshot displays the "AAMS Property Search" interface. At the top, there is a navigation bar with links for "User Guides", "FAQ", "Program Links", "Contact Links", and "GSAXcess® HelpDesk". Below this, a red banner contains "Basic Search Options" and buttons for "Advanced Search", "Menu", "Home", and "Logout". The main search area has a "Global Search:" section with an "Item Name Keyword" field containing "GPS" and an "Exact Phrase" dropdown. Below this is a "Choose One Primary Search Criterion:" section with fields for "Federal Supply Group/Class", "National Item Identification Number (NIIN)", "Item Control Number", "Internal Item Only" (set to "No"), "Date Reported (MM/DD/CCYY)(= OR >)", "Activity Address Code", "State", and "Region" (set to "-Select Region-"). A "Choose one or Several Secondary Criteria:" section follows with fields for "Date Reported (= OR >)", "Activity Address Code", "State", and "Region" (set to "-----Select Region-----"). Buttons for "Search", "Single Freeze", and "Multiple Freeze" are located at the top of the search area.

The user may freeze multiple line items per freeze transaction regardless of the property location. This is possible in the AAMS Screening Module because each line item frozen generates its own transfer document.

After you click the red "Multiple Freeze" button, the system displays the AAMS User Data Screen where you enter your freeze quantity and update any user identification information as shown below.

Once you have reviewed your AAMS User Data Screen, click on the red “Freeze” button. The system displays the AAMS Multiple Line Freeze List listing all property items found for your search criteria with a Quantity to Freeze input box beside each line item.

Error Message/Item description	Picture	State	Reimbursable	Quantity Available	Quantity Frozen	Quantity To Freeze
GPS POSITION SYSTEM(10F2CASES)		MD		2		<input type="text"/>
GPS POSITION SYSTEM(10F2CASES)		MD		2		<input type="text"/>
GPS POSITION SYSTEM(20F2CASES)ACCESSORIES		MD		4		<input type="text"/>

In the above illustration, the Global Search Field Noun Name is “GPS” and the no Primary or Secondary Search Fields were selected. If you had asked for more than one secondary search field then the system would have displayed each of the secondary field values requested. The message line lets you know that this is all the records found for your search criteria by displaying, “No more records available”.

You can see the AAMS Item Data Sheet for each of the property items by clicking on the blue Item Description hypertext. To identify the items to be frozen you type the amount to be frozen for each item in the “Quantity To Freeze” field.

Freeze Successful		MD		2	1	<input type="text"/>
GPS POSITION SYSTEM(10F2CASES)		MD		2		<input type="text"/>
Freeze Successful		MD		4	2	<input type="text"/>

Freeze

You may now freeze additional items on the same or subsequent pages by repeating the procedure detailed in this paragraph.

NOTE: If you receive the message, “Select “Freeze” to freeze items with quantity > zero” is a procedural message advising you that you may perform additional freezes of the same or other items on the same page. The message does not indicate an error.

How do I correct an unsuccessful Freeze?

An unsuccessful freeze occurs when the quantity entered as the freeze quantity (Qty to Freeze) on the AAMS Multiple Line Freeze List is greater than the quantity available (Quantity Available). The conditions for an unsuccessful freeze are shown in the illustration below where the freeze quantity of “2” for the second line item (Computer CPU, Dell Dimension 4100) is greater than the quantity available of “1.”

STATE : CO 4							Back Help
Freeze							Page: 1
Your Freeze Quantity exceeds the Quantity Available for issue

After reviewing the data sheet and description of the item being considered for freeze action, you can return to the AAMS Multiple Line Freeze List screen by clicking on the red “Back” button located in the upper right-hand corner.

Freeze Documentation

What kind of documentation is generated by Single and Multiple Line Freezes?

As illustrated in the sections above, you may freeze items one line at a time with an AAMS Single Freeze or you may simultaneously freeze several line items on a single computer screen page when doing an AAMS Multiple Freeze. Each freeze of either type will generate a separate transfer order. For example, if you freeze 5 line items on a particular screen, the system will generate 5 different transfer orders just as though the items were frozen individually as a Single Line Freeze. The transfer order includes a cover sheet that lists instructions concerning the approval procedure.

It should be noted that E-mail is the default method of transmitting the freeze cover sheet and transfer order if both the E-mail Address and Fax Tel No fields are completed on the Internal User screen. If the user wishes to send a Fax only, the Fax Tel No field should be completed and the E-mail Address should be left blank.

After you create a freeze, the system will attempt to send the transfer order via E-mail or Fax to the Approving Official's E-mail address or Fax machine. The system attempts the transmission up to three times. If the transmission is unsuccessful after three tries, the system will send the transfer order to a default E-mail address or Fax machine. The transfer order will be defaulted to the responsible DOC Organizational Property Management Officer (OPMO) who will review the order and send it to the approving official.

The illustration below shows an E-mail message of a computer generated transfer order and corresponding cover sheet.

E-mail Cover Sheet

```
TO:  BROTHERTON, NANCY
     Room No:      300
     FAX No:       703-605-2885
     EMAIL Address: NANCY.BROTHERTON@GSA.GOV

FROM: VETERANS ADMINISTRATION
      DEPT OF VETERANS AFFAIRS
      VA CENTRAL OFFICE
      810 VERMONT AVENUE N W
      WASHINGTON DC 20420

Dear Approving Official:

Attached is a computer generated Transfer Order for property which
is being internally screened within the Veterans Administration. The
order was initiated as a freeze transaction by AFFAIRS,
VETERAN within your organization.

To complete the request for transfer, sign and date the transfer
order, then send it to the Property Custodian official listed below.

CUSTODIAN      :  REBECCA WERTENBERGER
                  573-778-4237
FAX:           :  573-778-4389
```

The property being requested is located at the following address:

Property Location: 1500 N. WESTWOOD BLVD |
POPLAR BLUFF, MO 63901-

If you have questions regarding the property, direct them to the Point of Contact listed below:

Point of Contact: REBECCA WERTENBERGER
FAX: 573-778-4389
EMAIL Address: REBECCA.WERTENBERGER@VA.GOV

To make arrangements for transfer of the property, contact the Property Custodian official above.

If you wish to make changes to the Transfer Order, line out the data you wish to change and annotate the change directly on the hardcopy of the order.

If this request is an emergency, please annotate this and the nature of the emergency on the hardcopy of the Transfer Order in the Shipping Instructions block (e.g., Emergency - Flood).

No action will be taken on this order unless Custodian receives a signed copy. If the Transfer Order is not approved within 30 days of the freeze transaction you must delete the freeze in AAMS.

TRANSFER ORDER

---	--

The illustration below shows an electronic mail message resulting from a transmission failure. If you receive one of these messages then you are the designated default address for transmission failures. The electronic message will include a copy of the failed transmission similar to the examples listed above.

If the person placing the freeze requests that transfer orders be sent via electronic mail and their mail box is out of order, then the system will send the transfer order to the default electronic mail address. Otherwise, the system sends the transfer order to the default Fax address.

If you receive one of these messages, please contact the person requesting the freeze immediately and make arrangements to forward the transfer order. The requester will need to get the transfer order approved before the order can be sent to the property owner for transfer.

Delete Freeze Transactions

How do I delete “freeze” transactions?

If you created a freeze and later decide that you do not need the item, you can use GSAXcess®/AAMS to delete the freeze. To delete an existing freeze, go to the GSAXcess®/ Main Menu under the AAMS Menu and click on the blue “Delete Freezes” hypertext.

The AAMS Delete Freeze Transactions screen is shown in the example below. This screen shows the items that you froze during previous AAMS Search and Freeze sessions. An example of this screen is displayed below:

AAMS Delete Freeze Transactions						Back	Hel
						Delete	
No more Freeze items available						Page: 1	
Select	Item Control Number	FSC	Noun Name	Qty Frozen	Freeze Date		
<input type="checkbox"/>	133109-8136-E001	6605	GPS POSITION SYSTEM(20F2CASES)ACCE	2	05/27/2008		
<input type="checkbox"/>	133109-8136-E003	6605	GPS POSITION SYSTEM(10F2CASES)	1	05/27/2008		
						Delete	

To delete a freeze against any Item Control Number displayed, click on the “Select” column checkbox field to the left of the freeze to be deleted and click the red “Delete” button. You can select any or all items found on the screen. In the example below, you clicked on Item Control Number 133109-8136-E001 checkbox for deletion and clicked the red “Delete” button. The following pop-up message is display asking you, “Are you sure you want Delete selected 1 Freezes?”

AAMS Delete Freeze Transactions [Back](#) [Hel](#)

[Delete](#)

How do I know if my delete freeze was successful?

You click “OK” and the system deletes the item and responds with a message stating, “No More Records to Delete” or “XX Freeze Item(s) Deleted as shown below.

AAMS Delete Freeze Transactions					
					Back Help
Delete					
1 Freeze items deleted					
Page: 1					
Select	Item Control Number	FSC	Noun Name	Qty Frozen	Freeze Date
<input type="checkbox"/>	133109-8136-E003	6605	GPS POSITION SYSTEM(10F2CASES)	1	05/27/2008
Delete					

How do I review freezes on additional pages of freeze items?

You can review up to fifty pending freeze transactions at a time. To advance to the Next page or to display the previous page of frozen items, click on the blue “Next Page” or “Previous Page” hypertext, respectively, in the upper middle of the page above the message line on the AAMS Delete Freeze Transactions.

What happens to your deleted freezes once you exit the system?

Item Control Numbers selected for deletion are dropped automatically once you exit the system. When you return to the Delete Freeze Transactions Screen, the dropped items are no longer displayed on the screen.

Can I re-freeze a deleted freeze?

If you need to re-freeze an item, repeat the usual search and freeze method beginning at the AAMS Menu. Click on [Searching for Property](#).

Transfer Property

What is the Transfer Property function?

The Transfer Property function allows you to transfer your excess property to another DOC activity during the DOC Internal Screening cycle. The process includes the following steps:

- Review your transfer orders;
- Review the freezes against your property in GSAXcess®/AAMS;
- Evaluate competing freezes for your property; and
- Award the property.

You can review all your property at once, evaluating competing freezes as you go, or you can review freezes for your property one line item at a time. The sections below discuss both these options.

How do I review my transfer orders?

DOC activities who freeze property will receive transfer orders via electronic mail or fax. The system sends the transfer order to the approving official at the unit that created the freeze. The approving official forwards the transfer order via electronic mail if acceptable or signs the transfer order and sends it to the point of contact for the property. If you are the point of contact then you will receive the approved transfer order via electronic mail, fax or mail from the approving official. Before you transfer the property, make sure you have an approved transfer order from the activity that froze the property. Check to see that the information is accurate and note the quantity frozen.

When you sign in to the GSAXcess®/AAMS system, if there are any freezes against your property, the system displays a pop-up message as shown below:

The screenshot shows the GSAXcess®/AAMS system interface. At the top, there is a navigation bar with links for User Guides, FAQ, Program Links, Contact Links, and GSAXcess® HelpDesk. Below this is a search bar with a 'Global Search' field and a 'Go!' button. The main content area is titled 'Worldwide Property Items by Category' and lists various categories of items available for transfer, such as Agricultural Equipment and Supplies, Aircraft, Automobiles, Boats, Clothing and Personal, Communication and Detection Equip, Computer Equipment, Computer Software and Accessories, Construction Equipment, Electrical and Electronic Equipment and Components, Electrical and Electronic Measuring and Testing Equipment, Fire Trucks and Fire Fighting Equipment, Food Preparation and Servinq Equipment, Furniture, Hardware, Household, Industrial Service and Trade Machinery, Industrial Special Machinery, and Jewelry and Collectibles. A pop-up message is displayed over the list, stating: 'A Customer has requested your item(s) in internal screening. Please use the 'Review and Transfer Multiple Items' function of the AAMS module to view requests for your property. You should only complete the transfer after you have received a copy of the electronic transfer order signed by the approving official. Thank you!' The pop-up message also includes a URL: 'https://gsaxcesspractice.fss.gsa.gov/fedswweb/fedswlog...'

How do I review and transfer multiple frozen items?

To review and transfer multiple frozen items, go to the GSAXcess®/AAMS Main Menu under the AAMS Menu and click on the blue Review and Transfer Multiple Items hypertext. The GSAXcess®/AAMS Main Menu is shown in the example below:

GSAXcess® Main Menu

- [Transfer Single Item By Control No](#)
- [Delete Freezes](#)
- [Want List Items](#)

Search & Select Menu

- [Search and Select](#)
- [Inquire Requests](#)
- [Change Requests](#)
- [Delete Requests](#)
- [Want List Items](#)

CFL Functions Menu

- [View/Allocate Requested Items](#)
- [Confirm Allocations](#)
- [Transfer](#)
- [Change Allocation/Transfer](#)
- [School Search](#)
- [Resend School Transfer Order](#)
- [Post Transaction Module](#)

User Maintenance Menu

- [APO/NUO](#)
- [Help Desk](#)
- [Send Group Email](#)
- [Update Your Information](#)
- [Change Your Password](#)

After you click on the blue Review and Transfer Multiple Items hypertext, the system displays the AAMS Review and Transfer Multiple Frozen Items screen. This screen displays only your items that have been frozen during the DOC Internal Screening cycle. Note that you may have other property available that is not yet frozen by any prospective customers. The system will not list this property unless a customer creates a freeze.

The screen includes the Item Control Number, Item Name, and the Quantity Available for transfer. The Total Frozen is the total of all freezes to date. You may type the Quantity to Transfer if you wish to transfer the property at this time. The example below shows the first page of frozen items for review.

AAMS Review and Transfer Multiple Frozen Items

Page: 1

Item Control Number	Quantity Available	Total Frozen	Qty To Transfer	Item Name/Message
133171-8157-B002	1	1	<input type="text"/>	COMPUTER DESKTOP SYSTEM DELL GX240 UNKNO
133171-8157-B004	1	1	<input type="text"/>	COMPUTER DESKTOP SYSTEM DELL GX280 UNKNO
133171-8157-F004	1	1	<input type="text"/>	OPTICAL READER,DATA,DESKTOP C7670A
133171-8157-G001	2	2	<input type="text"/>	COMPUTER DESKTOP SYSTEM DELL GX270 UNKNO
133171-8157-J002	3	3	<input type="text"/>	COMPUTER DESKTOP SYSTEM DELL GX270 UNKNO

You can review up to 50 Item Control Numbers at a time. If there are multiple pages of frozen items, you can click on the blue Next Page or Previous Page hypertext to navigate between pages.

Before you transfer property from this screen, make sure you have an approved transfer order from the DOC activity that froze the property. Check that the information is accurate and note the quantity frozen.

Next, compare the Total Frozen to the Quantity Available. If the Quantity Available is greater than or equal to the Quantity Frozen, it is safe to transfer all the property. Type the quantity you wish to transfer in the Quantity to Transfer (Qty To Transfer) field and click on the red “Transfer” button either on the top and bottom middle of the screen.

If the freeze quantity on the transfer order plus the total of previous freezes placed is greater than the Quantity Available, you must go to the next screen by clicking the Item Control Number to evaluate competing freezes. There can be no quantity typed into the Qty to Transfer field to view competing requests. This screen is discussed in the following section.

If there are competing requests, you can click on the blue Item Control Number hypertext to review competing requests on the AAMS Evaluate Competing Requests screen. You can transfer from the AAMS Evaluate Competing Requests screen or click on the blue Name hypertext to see who the Agency is that is requesting.

AAMS Evaluate Competing Freezes

Item Control Number: 133171 - 8157 - F004
 Noun Name: OPTICAL READER,DATA,DESKT
 Quantity Available: 1

No more Freeze records

Name	Freeze		Quantity to Transfer	Transfer Status	
	Date	Quantity		Date	Quantity
COMMERCE JOHN	05/30/2008	1	<input type="text"/>		

By clicking on the blue name hypertext the following AAMS User Transfer Data displays:

AAMS User Transfer Data		
Item Control Number	133171 - 8157 - F004	Available Quantity: 1
Freeze Activity Address Code	137336	Freeze Quantity : 1
Name	COMMERCE JOHN	Transfer Quantity :

Help

What happens when you can't satisfy all freezes?

If you have an item that does not have enough Quantity Available to satisfy all freezes then you will need to evaluate each freeze to determine who will receive the property. First, make sure you have a signed transfer order from each competitor. Competitors with signed transfer orders usually have preference over other competitors. Next, review the competing freezes. In the next example, the point of contact notices that there are more freezes for the property items than there are available. The quantity available is 2 and the total frozen is 4 for the first line.

AAMS Review and Transfer Multiple Frozen Items				
Transfer				Back Help
No more Freeze Records				Page: 1
Item Control Number	Quantity Available	Total Frozen	Qty To Transfer	Item Name/Message
133171-8157-G001	2	4	<input type="text"/>	COMPUTER DESKTOP SYSTEM DELL GX270 UNKNO
133171-8157-J002	3	3	<input type="text"/>	COMPUTER DESKTOP SYSTEM DELL GX270 UNKNO
Transfer				

In this example, the point of contact had all of the required signed transfer orders so all of the freezes could be considered. Note that the screen displays the freezes in the order that they were created. In this case, you could award the property in several ways. You could award the property based on the creation time for the freeze or based on the arrival time of the signed transfer orders. You could also call the competitors to ask about the justification for the property. The point of contact reviews the competing requests by clicking on the blue Item Control Number (ICN) hypertext of the first ICN. The system displays the following:

AAMS Evaluate Competing Freezes					
Item Control Number: 133171 - 8157 - G001				Back Help	
Noun Name: COMPUTER DESKTOP SYSTEM D				Page: 1	
				Quantity Available: 2	
Transfer Delete					
No more Freeze records					
Name	Freeze		Quantity to Transfer	Transfer Status	
	Date	Quantity		Date	Quantity
COMMERCE JOHN	05/30/2008	2	<input type="text"/>		
BROTHERTON NANCY	05/30/2008	2	<input type="text"/>		

Enter the amount you want to award and click the red “Transfer” button. After you click the red “Transfer” button, the system redisplay the AAMS Evaluate Competing Freezes screen with the message "Transferred" in the Name column of each transferred item. Note that the Quantity Available is adjusted to zero if you transferred all amounts and the Transfer Status shows the Transfer Date and the Quantity Transferred.

AAMS Evaluate Competing Freezes					
Item Control Number: 133171 - 8157 - G001				Back Help	
Noun Name: COMPUTER DESKTOP SYSTEM D				Page: 1	
				Quantity Available:	
Transfer Delete					
Press the required button for further action					
Name	Freeze		Quantity to Transfer	Transfer Status	
	Date	Quantity		Date	Quantity
TRANSFERRED	05/30/2008		<input type="text" value="1"/>	05/30/2008	1
TRANSFERRED	05/30/2008		<input type="text" value="1"/>	05/30/2008	1

What if I need to change the quantity I transferred?

If you make a mistake or your customer wants to change the quantity to be transferred, you may use the Evaluate Competing Internal Freezes screen to adjust the Transfer Quantity. In the example below you awarded a quantity of 1 property items to line #2. You really only wanted to award line #1 a quantity of 2.

You must deny the transfer by entering a zero in the quantity to transfer and then click on the red “Transfer” button. The screen will indicate that the transfer quantity has changed and the Quantity Available will be adjusted.

BROTHERTON NANCY	05/30/2008			05/30/2008	

After you click the red “Transfer” button, the system redispays the screen with the corrected Transfer Quantity. The Quantity Available was also adjusted to zero.

How can I transfer a single item control number?

If you receive a signed transfer order for one of your items and you want to transfer that item requested on the transfer order, use the following option. First, click on the blue Transfer Single Internal Item by Control Number hypertext, from the GSAXcess® Main Menu under the AAMS Menu as shown.

The screenshot shows the GSAXcess® Main Menu with the following sections:

- Report Property Menu:**
 - [Create Report](#)
 - [Modify Report](#)
 - [Review Report](#)
 - [Delete Report \(AAMS/EADS Only\)](#)
 - [Upload Pictures](#)
- Search & Select Menu:**
 - [Search and Select](#)
 - [Inquire Requests](#)
 - [Change Requests](#)
 - [Delete Requests](#)
 - [Want List Items](#)
- CFL Functions Menu:**
 - [View/Allocate Requested Items](#)
 - [Confirm Allocations](#)
 - [Transfer](#)
 - [Change Allocation/Transfer](#)
 - [School Search](#)
 - [Resend School Transfer Order](#)
 - [Post Transaction Module](#)
- AAMS Menu:**
 - [Search and Freeze](#)
 - [Review and Transfer Multiple Items](#)
 - [Transfer Single Item By Control No](#)
 - [Delete Freezes](#)
 - [Want List Items](#)
- User Maintenance Menu:**
 - [APO/NUO](#)
 - [Help Desk](#)
 - [Send Group Email](#)
 - [Update Your Information](#)
 - [Change Your Password](#)

The system will display the AAMS Evaluate Competing Freezes screen. Type the Item Control Number found on the transfer order in the fields provided at the top of the screen and click the red “Submit” button.

The screenshot shows the AAMS Evaluate Competing Freezes screen with the following details:

- Item Control Number: 133171 - 8157 - F002
- Noun Name: COMPUTER DESKTOP SYSTEM D
- Quantity Available: 6
- Buttons: [Submit](#), [Transfer](#), [Delete](#)
- Message: No more Freeze records
- Table of Freeze records:

Name	Freeze		Quantity to Transfer	Transfer Status	
	Date	Quantity		Date	Quantity
COMMERCE JOHN	05/30/2008	3	<input type="text"/>		

In the above example, the system redisplay the screen with the competing freezes for this item. You may then award the property to the person who placed the freeze using the same method described in the section above.

Can I review the Ship To Address data before I transfer property?

When you evaluate competing freezes, you can also review the Ship To Address data for each freeze. You review the Ship To Address Data from the AAMS Evaluate Competing Freezes screen by clicking on the blue Name hypertext.

Appendix A: Disposal Condition Code

Code	Definition	Explanation
1	New/Unused	Unused property that is usable without repairs and identical or interchangeable with new items from normal supply sources.
4	Usable	Used property that is usable without repairs and most of its useful life remains.
7	Repairable	Required repairs are minor and should not exceed 15 percent of original acquisition cost.
X	Salvage	Property has some value in excess of its basic material content, but repair or rehabilitation to use for the originally intended purpose is clearly impractical.
S	Scrap	Material that has no value except for its basic material content.

Appendix B: Demilitarization Code Table

Code	Explanation
A	Demilitarization not required
B	Demilitarization not required, Trade Security Controls required
C	Remove and/or demilitarize installed key point(s), or lethal parts, components, and accessories
D	Demilitarize by mutilation to preclude restoration or repair or, if authorized, by burial or deep water dumping
E	Demilitarize based on instructions furnished by DOD Demilitarization Program Office
F	Demilitarize based on instructions furnished by Item/Technical Manager
G	Demilitarize and declassify or remove any sensitive markings
P	Same as Code G, above, but for Security classified items
Q	Demilitarization not required, Strategic List item controlled by the Dept. of Commerce, subject to Export Administration regulations

Appendix C: State Code Table

STATE CODE	STATE NAME	STATE CODE	STATE NAME
AJ	O-Asia/Japan/Pacific	MS	Mississippi
AK	Alaska	MT	Montana
AL	Alabama	NC	North Carolina
AR	Arkansas	ND	North Dakota

Appendix D: Flight Safety Critical Aircraft Parts Table (FSCAP)

Code	Definition
Blank	Not a FSCAP item
E	FSCAP item, designed to "nuclear hard"
F	Normal FSCAP item

Appendix E: Federal Supply Classes

FSC	Description
1005	Guns, through 30 mm
1010	Guns, over 30 mm up to 75 mm
1015	Guns, 75 mm through 125 mm
1020	Guns, over 125 mm through 150 mm
1025	Guns, over 150 mm through 200 mm
1030	Guns, over 200 mm through 300 mm
1035	Guns, over 300 mm
1040	Chemical weapons and equipment
1045	Launchers, torpedo and depth charge
1055	Launchers, rocket and pyrotechnic
1070	Nets and booms, ordinance
1075	Degaussing and mine sweeping equipment
1080	Camouflage and deception equipment
1090	Assemblies interchangeable between weapons in two or more cl
1095	Miscellaneous weapons
1105	Nuclear bombs
1110	Nuclear projectiles
1115	Nuclear warheads and warhead sections
1120	Nuclear depth charges
1125	Nuclear demolition charges
1127	Nuclear rockets
1130	Conversion kits, nuclear ordnance
1135	Fusing and firing devices, nuclear ordnance
1140	Nuclear components
1145	Explosive and pyrotechnic components, nuclear ordnance
1190	Specialized test and handling equipment, nuclear ordnance
1195	Miscellaneous nuclear ordnance
1210	Fire control directors
1220	Fire control computing sights and devices
1230	Fire control systems, complete
1240	Optical sighting and ranging equipment
1250	Fire control stabilizing mechanisms
1260	Fire control designating and indicating equipment

FSC	Description
1265	Fire control transmitting and receiving equipment, except ai
1270	Aircraft gunnery fire control components
1280	Aircraft bombing fire control components
1285	Fire control radar equipment, except airborne
1287	Fire control sonar equipment
1290	Miscellaneous fire control equipment
1305	Ammunition, through 30 mm
1310	Ammunition, over 30 mm up to 75 mm
1315	Ammunition, 75 mm through 125 mm
1320	Ammunition, over 125 mm
1325	Bombs
1330	Grenades
1336	Guided missile warheads and explosive components
1337	Guided missile and space vehicle explosive propulsion units, solid f
1338	Guided missile and space vehicle, inert propulsion units, solid fuel
1340	Rockets, rocket ammunition and rocket components
1345	Land mines
1350	Underwater mine inert components
1351	Underwater mine explosive components
1355	Torpedo inert components
1356	Torpedo explosive components
1360	Depth charge inert components
1361	Depth charge explosive components
1365	Military chemical agents
1370	Pyrotechnics
1375	Demolition materials
1376	Bulk explosives
1377	Cartridge and propellant actuated devices and components
1380	Military biological agents
1385	Surface use explosive ordnance disposal tools and equipment
1386	Underwater use explosive ordnance disposal and swimmer weapons system
1390	Fuses and primers
1395	Miscellaneous ammunition
1398	Specialized ammunition handling and servicing equipment
1410	Guided missiles
1420	Guided missile components

FSC	Description
1425	Guided missile systems, complete
1427	Guided missile subsystems
1430	Guided missile remote control systems
1440	Launchers, guided missile
1450	Guided missile handling and servicing equipment
1510	Aircraft, fixed wing
1520	Aircraft, rotary wing
1540	Gliders
1550	Drones
1560	Airframe structural components
1610	Aircraft propellers and components
1615	Helicopter rotor blades, drive mechanisms and components
1620	Aircraft landing gear components
1630	Aircraft wheel and brake systems
1640	Aircraft control cable products
1650	Aircraft hydraulic, vacuum, and de-icing system components
1660	Aircraft air conditioning, heating, and pressurizing equipment
1670	Parachutes; aerial pick up, delivery, recovery system; and c
1680	Miscellaneous aircraft accessories and components
1710	Aircraft landing equipment.
1720	Aircraft launching equipment
1730	Aircraft ground servicing equipment
1740	Airfield specialized trucks and trailers
1810	Space vehicles
1820	Space vehicle components
1830	Space vehicle remote control systems
1840	Space vehicle launchers
1850	Space vehicle handling and servicing equipment
1860	Space survival equipment
1905	Combat ships and landing vessels
1910	Transport vessels, passenger and troop
1915	Cargo and tanker vessels
1920	Fishing vessels
1925	Special service vessels
1930	Barges and lighters, cargo
1935	Barges and lighters, special purpose

FSC	Description
1940	Small craft
1945	Pontoons and floating docks
1950	Floating dry docks
1955	Dredges
1990	Miscellaneous vessels
2010	Ship and boat propulsion components
2020	Rigging and rigging gear
2030	Deck machinery
2040	Marine hardware and hull items
2050	Buoys
2060	Commercial fishing equipment
2090	Miscellaneous ship and marine equipment
2210	Locomotives
2220	Rail cars
2230	Right-of-way construction and maintenance equipment, railroad
2240	Locomotive and rail car accessories and components
2250	Track material, railroad
2305	Ground effect vehicles
2310	Passenger motor vehicles
2311	Crashed test vehicles
2312	Salvage/scrap vehicles
2320	Trucks and track tractors, wheeled
2330	Trailers
2340	Motorcycles, motor scooters, and bicycles
2350	Combat, assault, and tactical vehicles, tracked
2410	Tractor, full tracked, low speed
2420	Tractors, wheeled
2430	Tractors, full tracked, high speed
2510	Vehicular cab, body, and frame structural components
2520	Vehicular power transmission components
2530	Vehicular brake, steering, axle, wheel, and track components
2540	Vehicular furniture and accessories
2541	Weapons system specific vehicular accessories
2590	Miscellaneous vehicular components
2610	Tires and tubes pneumatic, except aircraft
2620	Tires and tubes, pneumatic, aircraft

FSC	Description
2630	Tires, solid and cushion
2640	Tire rebuilding and tire and tube repair materials
2805	Gasoline reciprocating engines, except aircraft; and components
2810	Gasoline reciprocating engines, aircraft prime mover; and components
2815	Diesel engines and components
2820	Steam engines, reciprocating; and components
2825	Steam turbines and components
2830	Water turbines and water wheels; and components
2835	Gas turbines and jet engines, non-aircraft; and components
2840	Gas turbines and jet engines, aircraft, prime moving; and components
2845	Rocket engines and components
2850	Gasoline rotary engines and components
2895	Miscellaneous engines and components
2910	Engine fuel system components, nonaircraft
2915	Engine fuel system components, aircraft and missile prime movers
2920	Engine electrical system components, nonaircraft
2925	Engine electrical system components, aircraft prime moving
2930	Engine cooling system components, nonaircraft
2935	Engine system cooling components, aircraft prime moving
2940	Engine air and oil filters, strainers, and cleaners, nonaircraft
2945	Engine air and oil filters, cleaners, aircraft prime moving
2950	Turbo supercharger and components
2990	Miscellaneous engine accessories, nonaircraft
2995	Miscellaneous engine accessories, aircraft
3010	Torque converters and speed changers
3020	Gears, pulleys, sprockets, and transmission chain
3030	Belting, drive belts, fan belts, and accessories
3040	Miscellaneous power transmission equipment
3110	Bearings, antifriction, unmounted
3120	Bearings, plain, unmounted
3130	Bearings, mounted
3210	Sawmill and planing mill machinery
3220	Woodworking machines
3230	Tools and attachments for woodworking machinery
3405	Saws and filing machines
3408	Machining centers and way-type machines

FSC	Description
3410	Electrical and ultrasonic erosion machines
3411	Boring machines
3412	Broaching machines
3413	Drilling and tapping machines
3414	Gear cutting and finishing machines.
3415	Grinding machines
3416	Lathes
3417	Milling machines
3418	Planers and shapers
3419	Miscellaneous machine tools
3422	Rolling mills and drawing machines
3424	Metal heat treating and non-thermal treating equipment
3426	Metal finishing equipment
3431	Electric arc welding equipment
3432	Electric resistance welding equipment
3433	Gas welding, heat cutting, and metalizing equipment
3436	Welding positioners and manipulators
3438	Miscellaneous welding equipment
3439	Miscellaneous welding, soldering, and brazing supplies and accessories
3441	Bending and forming machines
3442	Hydraulic and pneumatic presses, power driven
3443	Mechanical presses, power driven
3444	Manual presses
3445	Punching and shearing machines
3446	Forging machinery and hammers
3447	Wire and metal ribbon forming machines
3448	Riveting machines
3449	Miscellaneous secondary metal forming and cutting machines
3450	Machine tools, portable
3455	Cutting tools for machine tools
3456	Cutting and forming tools for secondary metalworking machinery
3460	Machine tool accessories
3461	Accessories for secondary metalworking machinery
3465	Production jigs, fixtures, and templates
3470	Machine shop sets, kits, and outfits
3510	Laundry and dry cleaning equipment

FSC	Description
3520	Shoe repairing equipment
3530	Industrial sewing machines and mobile textile repair shops
3540	Wrapping and packaging machinery
3550	Vending and coin operated machines
3590	Miscellaneous service and trade equipment
3605	Food products machinery and equipment
3610	Printing, duplicating, and bookbinding equipment
3611	Industrial marking machines
3615	Pulp and paper industries machinery
3620	Rubber and plastics working machinery
3625	Textile industries machinery
3630	Clay and concrete products industries machinery
3635	Crystal and glass industries machinery
3640	Tobacco manufacturing machinery
3645	Leather tanning and leather working industries machinery
3650	Chemical and pharmaceutical products manufacturing machinery
3655	Gas generating and dispensing systems, fixed or mobile
3660	Industrial size reduction machinery
3670	Specialized semiconductor, microcircuit, and printed circuit board m
3680	Foundry machinery, related equipment and supplies
3685	Specialized metal container manufacturing machinery and related equipment
3690	Special ammunition and ordnance machinery and related equipment
3693	Industrial assembly machines
3694	Clean work stations, controlled environment, and related equipment
3695	Miscellaneous special industry machinery
3710	Soil preparation equipment
3720	Harvesting equipment
3730	Dairy, poultry, and livestock equipment
3740	Pest, disease, and frost control equipment
3750	Gardening implements and tools
3760	Animal drawn vehicles and farm trailers
3770	Saddlery, harness, whips, and related animal furnishings
3805	Earth moving and excavating equipment
3810	Cranes and crane-shovels
3815	Crane and crane-shovel attachments
3820	Mining, rock drilling, earth boring, and related equipment

FSC	Description
3825	Road clearing, cleaning, and marking equipment
3830	Truck and tractor attachments
3835	Petroleum production and distribution equipment
3895	Miscellaneous construction equipment
3910	Conveyors
3915	Materials feeders
3920	Material handling equipment, nonself-propelled
3930	Warehouse trucks and tractors, self-propelled
3940	Blocks, tackle, rigging, and slings
3950	Winches, hoists, cranes, and derricks
3960	Freight elevators
3990	Miscellaneous materials handling equipment
4010	Chain and wire rope
4020	Fiber rope, cordage, and twine
4030	Fittings for rope, cable, and chain
4110	Refrigeration equipment
4120	Air conditioning equipment
4130	Refrigeration and air conditioning components
4140	Fans, air circulators, and blower equipment
4150	Vortex tubes and other related cooling tubes
4210	Fire fighting equipment
4220	Marine, lifesaving and diving equipment
4230	Decontaminating and impregnating equipment
4235	Hazardous material spill containment and clean-up equipment and mate
4240	Safety and rescue equipment
4250	Recycling and reclamation equipment
4310	Compressors and vacuum pumps
4320	Power and hand pumps
4330	Centrifugals, separators, and pressure and vacuum filters
4410	Industrial boilers
4420	Heat exchangers and steam condensers
4430	Industrial furnaces, kilns, lehrs, and ovens
4440	Driers, dehydrators, and anhydrators
4460	Air purification equipment
4470	Nuclear reactors
4510	Plumbing fixtures and accessories

FSC	Description
4520	Space and water heating equipment
4530	Fuel burning equipment units
4540	Waste disposal equipment
4610	Water purification equipment
4620	Water distillation equipment, marine and industrial
4630	Sewage treatment equipment
4710	Pipe, tube and rigid tubing
4720	Hose and flexible tubing
4730	Hose, pipe, tube, lubrication, and railing fittings
4810	Valves, powered
4820	Valves, nonpowered
4910	Motor vehicle maintenance and repair shop specialized equipment
4920	Aircraft maintenance and repair shop specialized equipment
4921	Torpedo maintenance, repair, and checkout specialized equipment
4923	Depth charges and underwater mines maintenance, repair, and checkout
4925	Ammunition maintenance, repair, and checkout specialized equipment
4927	Rocket maintenance, repair and checkout specialized equipment
4930	Lubrication and fuel dispensing equipment
4931	Fire control maintenance and repair shop specialized equipment
4933	Weapons maintenance and repair shop specialized equipment
4935	Guided missile maintenance, repair, and checkout specialized equipment
4940	Miscellaneous maintenance and repair shop specialized equipment
4960	Space vehicle maintenance, repair, and checkout specialized equipment
4970	Multiple guided weapons specialized maintenance and repair
5110	Hand tools, edged, nonpowered
5120	Hand tools, nonedged, nonpowered
5130	Hand tools, power driven
5133	Drill bits, counter bores, and countersinks: hand and machine
5136	Taps, dies, and collets; hand and machine
5140	Tool and hardware boxes
5180	Sets, kits, and outfits of hand tools
5210	Measuring tools, craftsmen's
5220	Inspection gages and precision layout tools
5280	Sets, kits, and outfits of measuring tools
5305	Screws

FSC	Description
5306	Bolts
5307	Studs
5310	Nuts and washers
5315	Nails, machine keys, and pins
5320	Rivets
5325	Fastening devices
5330	Packing and gasket materials
5331	O-ring
5335	Metal screening
5340	Hardware
5341	Brackets
5342	Hardware, weapon system
5345	Disks and stones, abrasive
5350	Abrasive materials
5355	Knobs and pointers
5360	Coil, flat, leaf, and wire springs
5365	Bushings, rings, shims, and spacers
5410	Prefabricated and portable buildings
5411	Rigid wall shelters
5419	Collective modular support system
5420	Bridges, fixed and floating
5430	Storage tanks
5440	Scaffolding equipment and concrete forms
5445	Prefabricated tower structures
5450	Miscellaneous prefabricated structures
5510	Lumber and related basic wood materials
5520	Millwork
5530	Plywood and veneer
5610	Mineral construction materials, bulk
5620	Tile, brick and block
5630	Pipe and conduit, nonmetallic
5640	Wallboard, building paper, and thermal insulation materials
5650	Roofing and siding materials
5660	Fencing, fences, gates and components
5670	Building components, prefabricated
5675	Nonwood construction lumber and related materials

FSC	Description
5680	Miscellaneous construction materials
5805	Telephone and telegraph equipment
5810	Communications security equipment and components
5811	Other cryptologic equipment and components
5815	Teletype and facsimile equipment
5820	Radio and television communication equipment, except airborne
5821	Radio and television communication equipment, airborne
5825	Radio navigation equipment, except airborne
5826	Radio navigation equipment, airborne
5830	Intercommunication and public address systems, except airborne
5831	Intercommunication and public address systems, airborne
5835	Sound recording and reproducing equipment
5836	Video recording and reproducing equipment
5840	Radar equipment, except airborne
5841	Radar equipment, airborne
5845	Underwater sound equipment
5850	Visible and invisible light communication equipment
5855	Night vision equipment, emitted and reflected radiation
5860	Stimulated coherent radiation devices, components, and accessories
5865	Electronic countermeasures, counter-countermeasures and quick reaction
5895	Miscellaneous communication equipment
5905	Resistors
5910	Capacitors
5915	Filters and networks
5920	Fuses, arrestors, absorbers, and protectors
5925	Circuit breakers
5930	Switches
5935	Connectors, electrical
5940	Lugs, terminals, and terminal strips
5945	Relays and solenoids
5950	Coils and transformers
5955	Oscillators and piezoelectric crystals
5960	Electron tubes and associated hardware
5961	Semiconductor devices and associated hardware
5962	Microcircuits, electronic
5963	Electronic modules

FSC	Description
5965	Handsets, handsets, microphones and speakers
5970	Electrical insulators and insulating materials
5975	Electrical hardware and supplies
5977	Electrical contact brushes and electrodes
5980	Optoelectronic devices and associated hardware
5985	Antennas, waveguides, and related equipment
5990	Synchros and resolvers
5995	Cable, cord, and wire assemblies: communication equipment
5996	Amplifiers
5998	Electrical and electronic assemblies, boards, cards, and associated
5999	Miscellaneous electrical and electronic components
6004	Rotary joints - fiber optics
6005	Couplers, splitters, and mixers
6006	Attenuator variable, light signals
6007	Filters - fiber optics 150 mm
6008	Optical multiplexers/demultiplexers
6010	Fiber optic conductors
6015	Fiber optic cables
6020	Fiber optic cable assemblies and harnesses
6021	Fiber optic switches
6025	Fiber optic transmitter
6026	Fiber optic receivers
6029	Optical repeaters
6030	Fiber optic devices
6031	Integrated optical circuits
6032	Fiber optic light sources and photo detectors
6033	Fiber optic photo detectors
6034	Fiber optic modulators/demodulators
6035	Fiber optic light transfer and image transfer devices
6040	Fiber optic sensors
6050	Fiber optic passive devices
6060	Fiber optic interconnectors
6070	Fiber optic accessories and supplies
6080	Fiber optic kits and sets
6099	Miscellaneous fiber optic components
6105	Motors, electrical

FSC	Description
6110	Electrical control equipment
6115	Generators and generator sets, electrical
6116	Fuel cell power units, components, and accessories
6117	Solar electric power systems
6120	Transformers: distribution and power station
6125	Converters, electrical, rotating
6130	Converters, electrical, nonrotating
6135	Batteries, nonrechargeable
6140	Batteries, rechargeable
6145	Wire and cable, electrical
6150	Miscellaneous electric power and distribution equipment
6160	Miscellaneous battery retaining fixtures, liners/ancillary items
6210	Indoor and outdoor electric lighting fixtures
6220	Electric vehicular lights and fixtures
6230	Electric portable and hand lighting equipment
6240	Electric lamps
6250	Ballasts, lamp holders, and starters
6260	Nonelectrical lighting fixtures
6310	Traffic and transit signal systems
6320	Shipboard alarm and signal systems
6330	Railroad signal and warning devices
6340	Aircraft alarm and signal systems
6350	Miscellaneous alarm, signal, and security detection systems
6505	Drugs and biologicals
6508	Medicated cosmetics and toiletries
6509	Drugs and biologicals, veterinary use
6510	Surgical dressing materials
6515	Medical and surgical instruments, equipment, and supplies
6520	Dental instruments, equipment, and supplies
6525	X-ray equipment and supplies: medical, dental, veterinary
6530	Hospital furniture, equipment, utensils, and supplies
6532	Hospital and surgical clothing and related special purpose items
6540	Ophthalmic instruments, equipment, and supplies
6545	Replenishable field medical sets, kits, and outfits
6550	In vitro diagnostic substances, reagents, test kits and sets
6605	Navigational instruments

FSC	Description
6610	Flight instruments
6615	Automatic pilot mechanisms and airborne gyro components
6620	Engine instruments
6625	Electrical and electronic properties measuring and testing instruments
6630	Chemical analysis instruments
6635	Physical properties testing equipment
6636	Environmental chambers and related equipment
6640	Laboratory equipment and supplies
6645	Time measuring instruments
6650	Optical instruments, test equipment, components and accessories
6655	Geophysical instruments
6660	Meteorological instruments and apparatus
6665	Hazard-detecting instruments and apparatus
6670	Scales and balances
6675	Drafting, surveying, and mapping instruments
6680	Liquid and gas flow, liquid level and mechanical motion measuring in
6685	Pressure, temperature, and humidity measuring and controlling instruments
6695	Combination and miscellaneous instruments
6710	Cameras, motion picture
6720	Cameras, still picture
6730	Photographic projection equipment
6740	Photographic developing and finishing equipment
6750	Photographic supplies
6760	Photographic equipment and accessories
6770	Film, processed
6780	Photographic sets, kits, and outfits
6810	Chemicals
6820	Dyes
6830	Gases: compressed and liquefied
6840	Pest control agents and disinfectants
6850	Miscellaneous chemical specialties
6910	Training aids
6920	Armament training devices
6930	Operation training devices
6940	Communication training devices
7010	Adpe system configuration

FSC	Description
7020	Adp central processing unit (cpu, computer), analog
7021	Adp central processing unit (cpu, computer), digital
7022	Adp central processing unit (cpu, computer), hybrid
7025	Adp input/output and storage devices
7030	Adp software
7035	Adp support equipment
7040	Punched card equipment
7042	Mini and micro computer control devices
7045	Adp supplies
7050	Adp components
7105	Household furniture
7110	Office furniture
7125	Cabinets, lockers, bins, and shelving
7195	Miscellaneous furniture and fixtures
7210	Household furnishings
7220	Floor coverings
7230	Draperies, awnings, and shades
7240	Household and commercial utility containers
7290	Miscellaneous household and commercial furnishings and appliances
7310	Food cooking, baking, and serving equipment
7320	Kitchen equipment and appliances
7330	Kitchen hand tools and utensils
7340	Cutlery and flatware
7350	Tableware
7360	Sets, kits, outfits and modules, food preparation and serving
7410	Punched card systems machines
7420	Accounting and calculating machines
7430	Typewriters and office type composing machines
7435	Office information system equipment
7440	Adp systems; industrial, scientific, and office types
7450	Office type sound recording and reproducing machines
7460	Visible record equipment
7490	Miscellaneous office machines
7510	Office supplies
7520	Office devices and accessories
7530	Stationery and record forms

FSC	Description
7540	Standard forms
7610	Books and pamphlets
7630	Newspapers and periodicals
7640	Maps, atlases, charts, and globes
7641	Aeronautical maps, charts and geodetic products
7642	Hydrographic maps, charts and geodetic products
7643	Topographic maps, charts and geodetic products
7644	Digital maps, charts and geodetic products
7650	Drawings and specifications
7660	Sheet and book music
7670	Microfilm, processed
7690	Miscellaneous printed matter
7710	Musical instruments
7720	Musical instrument parts and accessories
7730	Phonographs, radios, and television sets: home type
7735	Parts and accessories of phonographs, radios, and television set
7740	Phonograph records
7810	Athletic and sporting equipment
7820	Games, toys, and wheeled goods
7830	Recreational and gymnastic equipment
7910	Floor polishers and vacuum cleaning equipment
7920	Brooms, brushes, mops, and sponges
7930	Cleaning and polishing compounds and preparations
8010	Paints, dopes, varnishes, and related products
8020	Paint and artists' brushes
8030	Preservative and sealing compounds
8040	Adhesives
8105	Bags and sacks
8110	Drums and cans
8115	Boxes, cartons, and crates
