Part 2 – Step-By-Step Agency Notice Macro Instructions

If you require further assistance regarding the Agency Notice Macro Form, please contact the USAID IRM-HELP DESK at (202) 712-1234.

*If you have any questions pertaining to creating and distributing an Agency Notice, please call Krista Hawkins, M/AS/IRD, at (202) 712-5032, or the Notice Shop at (202) 355-7450.

Part 1 – Downloading and Opening the Macro

A. Downloading the Agency Notice Macro Form

*To download the Agency Notice macro, go to the USAID intranet home page and scroll down to the **Guides and Instructions** tab and then click on **Forms**. **(Only people with access to USAID's intranet may access this Web site.)**

Click on "**Forms List (Alphabetical)**." Click on "**Agency Notice (Windows 2000).**" This will produce one of the two following results:

1. A note will appear on your Browser asking whether you'd like to save the document to a disk or open it. Save the file to your C:\ drive for future use.

2. Please *do not work on the macro through your IE browser;* certain macro functions are not available when working through the IE browser. Download the file to your C drive or U drive and then open Word to use the macro form.

Please note: Your browser will automatically save the file into a previously designated drive.

M/AS/IRD will issue a USAID/General Notice when changes are made to the macro. You will then have to download the new version to your system.

*An asterisk indicates that the adjacent information is new or substantively revised.

B. Opening the Agency Notice Macro

Once you have saved the Agency Notice Macro Form to your Hard Drive or the USAID Server, use the following steps to open the form:

Step 1: Open Microsoft Word.

Step 2: Click on **View**, click on **Toolbars**, and make sure there is a check mark in front of **Standard**. If not, click on **Standard**.

Note: This step allows you to view a **"Smiley Face"** icon in your toolbar. This icon is necessary for completing the macro.

Step 3: Click on **File** and click on **Open.** Open the file, **notice.doc**, and click on **Enable Macros** or **Yes**.

You will find the .txt file in the same folder or directory as your .doc file. **Send ONLY the TEXT (.txt) file to the appropriate Authorized Sender. Do not send the Word macro file.
