

In the Rules and Regulations section of this **Federal Register**, we are approving these local rules in a direct final action without prior proposal because we believe these SIP revisions are not controversial. If we receive adverse comments, however, we will publish a timely withdrawal of the direct final rule and address the comments in subsequent action based on this proposed rule. Please note that if we receive adverse comment on an amendment, paragraph, or section of this rule and if that provision may be severed from the remainder of the rule, we may adopt as final those provisions of the rule that are not the subject of an adverse comment.

We do not plan to open a second comment period, so anyone interested in commenting should do so at this time. If we do not receive adverse comments, no further activity is planned. For further information, please see the direct final action.

Wisconsin: Final Authorization of State Hazardous Waste Management Program Revision

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: Wisconsin has applied to EPA for final authorization of the changes to its hazardous waste program under the Resource Conservation and Recovery Act (RCRA). EPA has reviewed Wisconsin's application and has preliminarily determined that these changes satisfy all requirements needed to qualify for final authorization, and is proposing to authorize the State's changes. We are proposing to authorize the renumbering and revision of Wisconsin's previously authorized regulations.

DATES: Comments on this proposed rule must be received on or before December 24, 2008.

SUPPLEMENTARY INFORMATION:

A. Why Are Revisions to State Programs Necessary?

States which have received final authorization from EPA under RCRA Section 3006(b), 42 U.S.C. 6926(b), must maintain a hazardous waste program that is equivalent to, consistent with, and no less stringent than the Federal program. As the Federal program changes, States must change their programs and ask EPA to authorize the changes. Changes to State programs may be necessary when Federal or State statutory or regulatory authority is modified or when certain other changes occur. Most commonly, States must change their programs because of changes to EPA's regulations in 40 Code of Federal Regulations (CFR) parts 124, 260 through 266, 268, 270, 273 and 279.

B. What Decisions Have We Made in This Rule?

We conclude that Wisconsin's application to revise its authorized program meets all of the statutory and regulatory requirements established by RCRA. Therefore, we propose to grant Wisconsin final authorization to operate its hazardous waste program with the changes described in the authorization application. Wisconsin has responsibility for permitting Treatment, Storage, and Disposal Facilities (TSDFs) within its borders (except in Indian Country) and for carrying out the aspects of the RCRA program described in its revised program application, subject to the limitations of the Hazardous and Solid Waste Amendments of 1984 (HSWA). New Federal requirements and prohibitions imposed by Federal regulations that EPA promulgates under the authority of HSWA take effect in authorized States before they are authorized for the requirements. Thus, EPA will implement those requirements and prohibitions in Wisconsin, including issuing permits, until the State is granted authorization to do so.

C. What Is the Effect of Today's Authorization Decision?

The effect of this decision is that a facility in Wisconsin subject to RCRA will now have to comply with the authorized State requirements instead of the equivalent Federal requirements in order to comply with RCRA. Wisconsin has enforcement responsibilities under its State hazardous waste program for violations of such program, but EPA retains its authority under RCRA sections 3007, 3008, 3013, and 7003, which include, among others, authority to:

1. Do inspections, and require monitoring, tests, analyses or reports
2. Enforce RCRA requirements and suspend or revoke permits
3. Take enforcement actions regardless of whether the State has taken its own actions

This action does not impose additional requirements on the regulated community because the regulations for which Wisconsin is

being authorized by today's action are already effective, and are not changed by today's action.

D. What Happens if EPA Receives Comments That Oppose This Action?

If EPA receives comments that oppose this authorization, we will address all public comments in a later **Federal Register**. You may not have another opportunity to comment. If you want to comment on this authorization, you must do so at this time.

E. What Has Wisconsin Previously Been Authorized for?

Wisconsin initially received final authorization on January 30, 1986, effective January 31, 1986 (51 FR 3783) to implement the RCRA hazardous waste management program. We granted authorization for changes to their program on May 23, 1989, effective June 6, 1989 (54 FR 15029), on November 22, 1989, effective January 22, 1990 (54 FR 48243), on April 24, 1992, effective

April 24, 1992 (57 FR 15029), on June 2, 1993, effective August 2, 1993 (58 FR 31344), on August 4, 1994, effective October 4, 1994 (59 FR 39971), on August 5, 1999, effective October 4, 1999 (64 FR 42630), and on June 26, 2002, effective June 26, 2002 (67 FR 43002).

F. What Changes Are We Authorizing With Today's Action?

On April 29, 2008, Wisconsin submitted a final complete program revision application, seeking authorization of their changes in accordance with 40 CFR 271.21. We now make a final decision, subject to receipt of written comments that oppose this action, that Wisconsin's hazardous waste program revision satisfies all of the requirements necessary to qualify for final authorization. These rules were effective on August 1, 2006. Therefore, we propose to grant Wisconsin final authorization for the following program changes:

G. Where Are the Revised State Rules Different From the Federal Rules?

These practices are prohibited in Wisconsin: Underground Injection (40 CFR Part 144), and Land Treatment (40 CFR 270.20). Wisconsin also does not provide for Permit by Rule (40 CFR 270.60). Wisconsin does not allow automatic authorization under the permit modification regulations found in 40 CFR 270.42 (b)(6). The 10 year Remedial Action Plan, or RAP (40 CFR 270.79 *et seq.*) is replaced by a 5 year Remediation Variance (NR670.079).

These Wisconsin regulations are more stringent: 662.220(5)(c,d), 662.220(6)(c,d,f), and 670.030 (annual report required instead of a biennial report).

Wisconsin maintains different financial regulations that allow for additional equivalent financial mechanisms (664.0143), do not allow the net worth test for closure under Part 665, and maintain some more stringent insurance requirements under 664.0143(5)(h), 664.0147(1)(a)(3), and 665.0147(1)(a)(3).

The following Wisconsin regulations have no Federal counterpart: 666.081, 666.900 through 666.910, and 673.11. There are no Wisconsin provisions for 40 CFR 268.5, 268.44 (other than 268.44(h)), and 270.3 as these are Federal non-delegable provisions.

H. Who Handles Permits After the Authorization Takes Effect?

Wisconsin will issue permits for all the provisions for which it is authorized and will administer the permits it issues. EPA will continue to administer any RCRA hazardous waste permits or portions of permits which we issued prior to the effective date of this authorization until they expire or are terminated. We will not issue any more new permits or new portions of permits for the provisions listed in the table above after the effective date of this authorization. EPA will continue to implement and issue permits for HSWA

requirements for which Wisconsin is not yet authorized.

I. How Does Today's Action Affect Indian Country (18 U.S.C. 1151) in Wisconsin?

Wisconsin is not authorized to carry out its hazardous waste program in "Indian Country," as defined in 18 U.S.C. 1151. Indian Country includes:

1. All lands within the exterior boundaries of Indian reservations within the State of Wisconsin;
2. Any land held in trust by the U.S. for an Indian tribe; and
3. Any other land, whether on or off an Indian reservation that qualifies as Indian Country.

Therefore, this action has no effect on Indian Country. EPA will continue to implement and administer the RCRA program in Indian Country.

J. What Is Codification and Is EPA Codifying Wisconsin's Hazardous Waste Program as Authorized in This Rule?

Codification is the process of placing the State's statutes and regulations that comprise the State's authorized hazardous waste program into the Code of Regulations. We do this by referencing the authorized State rules in 40 CFR part 272. Wisconsin's rules, up to and including those revised June 7, 1991, as corrected August 19, 1991, have previously been codified through the incorporation-by-reference effective February 4, 1992 (57 FR 4162). We reserve the amendment of 40 CFR part 272, subpart KK for the codification of Wisconsin's program changes until a later date.

K. Statutory and Executive Order Reviews

This proposed rule only authorizes hazardous waste requirements pursuant to RCRA 3006 and imposes no requirements other than those imposed by State law (see Supplementary Information, Section A. Why Are Revisions to State Programs Necessary?).

Therefore this rule complies with applicable executive orders and statutory provisions as follows:

1. Executive Order 18266: Regulatory Planning Review

The Office of Management and Budget has exempted this rule from its review under Executive Order 12866 (58 FR 51735, October 4, 1993).

2. Paperwork Reduction Act

This rule does not impose an information collection burden under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*).

3. Regulatory Flexibility Act

After considering the economic impacts of today's rule on small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*), I certify that this rule will not have a significant economic impact on a substantial number of small entities.

4. Unfunded Mandates Reform Act

Because this rule approves pre-existing requirements under State law and does not impose any additional enforceable duty beyond that required by State law, it does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104-4).

5. Executive Order 13132: Federalism

Executive Order 13132 (64 FR 43255, August 10, 1999) does not apply to this rule because it will not have federalism implications (*i.e.*, substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government).

6. Executive Order 13175: Consultation and Coordination With Indian Tribal Governments

Executive Order 13175 (65 FR 67249, November 9, 2000) does not apply to

this rule because it will not have tribal implications (*i.e.*, substantial direct effects on one or more Indian tribes, or on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes.)

7. Executive Order 13045: Protection of Children From Environmental Health and Safety Risks

This rule is not subject to Executive Order 13045 (62 FR 19885, April 23, 1997), because it is not economically significant as defined in Executive Order 12866 and because the EPA does not have reason to believe the environmental health or safety risks addressed by this action present a disproportionate risk to children.

8. Executive Order 13211: Actions That Significantly Affect Energy Supply, Distribution, or Use

This rule is not subject to Executive Order 13211 (66 FR 28355, May 22, 2001), because it is not a significant regulatory action as defined in Executive Order 12866.

9. National Technology Transfer Advancement Act

EPA approves State programs as long as they meet criteria required by RCRA, so it would be inconsistent with applicable law for EPA, in its review of a State program, to require the use of any particular voluntary consensus standard in place of another standard that meets requirements of RCRA. Thus, the requirements of section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) do not apply to this rule.

10. Executive Order 12988

As required by section 3 of Executive Order 12988 (61 FR 4729, February 7, 1996), in issuing this rule, EPA has taken the necessary steps to eliminate drafting errors and ambiguity, minimize potential litigation, and provide a clear legal standard for affected conduct.

11. Executive Order 12630: Evaluation of Risk and Avoidance of Unanticipated Takings

EPA has complied with Executive Order 12630 (53 FR 8859, March 18, 1988) by examining the takings implications of the rule in accordance with the Attorney General's Supplemental Guidelines for the Evaluation of Risk and Avoidance of Unanticipated Takings issued under the executive order.

12. Executive Order 12898: Federal Actions To Address Environmental Justice in Minority Populations and Low Income Populations

Because this rule proposes authorization of pre-existing State rules and imposes no additional requirements beyond those imposed by State law and there are no anticipated significant adverse human health or environmental effects, the rule is not subject to Executive Order 12898 (59 FR 7629, February 16, 1994).

DEPARTMENT OF HOMELAND SECURITY

Federal Emergency Management Agency

44 CFR Part 67

[Docket No. FEMA-B-1021]

Proposed Flood Elevation Determinations

AGENCY: Federal Emergency Management Agency, DHS.

ACTION: Proposed rule.

SUMMARY: Comments are requested on the proposed Base (1 percent annual-chance) Flood Elevations (BFEs) and proposed BFE modifications for the communities listed in the table below. The purpose of this notice is to seek general information and comment regarding the proposed regulatory flood elevations for the reach described by the downstream and upstream locations in the table below. The BFEs and modified BFEs are a part of the floodplain management measures that the community is required either to adopt or show evidence of having in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP). In addition,

these elevations, once finalized, will be used by insurance agents, and others to calculate appropriate flood insurance premium rates for new buildings and the contents in those buildings.

DATES: Comments are to be submitted on or before February 23, 2009.

ADDRESSES: The corresponding preliminary Flood Insurance Rate Map (FIRM) for the proposed BFEs for each community are available for inspection at the community's map repository. The respective addresses are listed in the table below.

You may submit comments, identified by Docket No. FEMA-B-1021, to William R. Blanton, Jr., Chief, Engineering Management Branch, Mitigation Directorate, Federal Emergency Management Agency, 500 C Street, SW., Washington, DC 20472, (202) 646-3151, or (e-mail) bill.blanton@dhs.gov.

FOR FURTHER INFORMATION CONTACT:

William R. Blanton, Jr., Chief, Engineering Management Branch, Mitigation Directorate, Federal Emergency Management Agency, 500 C Street SW., Washington, DC 20472, (202) 646-3151 or (e-mail) bill.blanton@dhs.gov.

SUPPLEMENTARY INFORMATION: The Federal Emergency Management Agency (FEMA) proposes to make determinations of BFEs and modified BFEs for each community listed below, in accordance with section 110 of the Flood Disaster Protection Act of 1973, 42 U.S.C. 4104, and 44 CFR 67.4(a).

These proposed BFEs and modified BFEs, together with the floodplain management criteria required by 44 CFR 60.3, are the minimum that are required. They should not be construed to mean that the community must change any existing ordinances that are more stringent in their floodplain management requirements. The community may at any time enact stricter requirements of its own, or pursuant to policies established by other Federal, State, or regional entities. These proposed elevations are used to meet the floodplain management requirements of the NFIP and are also used to calculate the appropriate flood insurance premium rates for new buildings built after these elevations are made final, and for the contents in these buildings.

Comments on any aspect of the Flood Insurance Study and FIRM, other than the proposed BFEs, will be considered. A letter acknowledging receipt of any comments will not be sent.
